Subject: Charles Junious

Hey Chris - I think I let an email about this case slip by me undone. Could you please let John Strom know that he will need to file a separate petition in this matter, one petition for a writ of certiorari addressing the order in petitioner's second PCR action, which grants an Austin review, and a separate petition, pursuant to Johnson, if that is what he wants to stick with, from the order denying petitioner's first PCR application. Also, he has not included the order in the second PCR matter in the appendix. Please ask him to review and advise me how he wants to handle it. As always, thank you for your help!
~Janet
