Re: Injury to right wrist on July 16, 2006

Dear Sir:

On July 16, 2006, around 11:15 p. m., I developed some moderate pain in my right wrist while I was using the hole puncher. Also, I started to drop things and I had difficult removing staples.

On Monday morning, July 17, 2006, I sent Toni Pait, my supervisor an e-mail about the pain in my right wrist. I communicated with her via e-mail and verbally from then on. Also, Barrington Wint, manager of the medical records department was aware of the problems with my right wrist. Around June 21, 2006, I had visited Dr. Jeffrey Hook's office where I had seen Jean Massey, Adult Nurse Practitioner about some continued pain in both knees and left wrist where I had fallen on May 20, 2006, on the steps of Red Hill Baptist Church Fellowship hall.

During the time that the pain started in my right wrist, Mrs. Massey was in the process of referring me to an orthopedic for the pain in my left wrist and knees. I was waiting on the girls from the office to call me and tell me when the appointment was.

I had notified Mrs. Pait that I was going to ask the orthopedic doctor to check my right wrist also when I went to visit him. I didn't see any sense in going to the Nurse Practitioner at Health Work for pain in the right wrist when the Nurse Practitioner in Dr. Hook's office was already sending me to an orthopedic for the pain in my left wrist and knees.

I am still under the care of Dr. Frank Noojin and I am still taking some physical therapy. My medical care has been being paid for by my private insurance. The Worker's compensation carrier has not paid any thing.

On October 6, 2006, I was terminated from my employment at Palmetto Health Richland by Barrington Wint and Annetie Sullivan. They had found out about my book, "The Fall

of a Nurse" and that it was posted on Amazon.com. They were very angry with me because I had written a book. They accused me of having written a book with very derogatory, slanderous references to Palmetto Health, several employees and physicians. They had only picked out the part where I told about how Palmetto Health was treating me while I was under The Worker's Compensation Laws of South Carolina. He used the book as an excuse to fire me with this worker's compensation injury. This book mainly was a testimony to my faith in God and the trials and tribulations that I have gone through for about 12 years in the State of South Carolina.

Since they have fired me with a worker's compensation injury, I have no insurance to pay for my treatments. Annette Sullivan, Barrington Wint, and another employee from personnel had ganged up on me in her office. Annette Sullivan had tried to fire me before with a worker's compensation injury. I am filing this claim because I need some help with my medical bills. Thank you.

Sincerely,

Gertrude Shiver

The Honorable J. Michelle Childs
South Carolina Workers' Compensation Commission

RE: WCC File No: 0321756

Dear Commissioner Childs:

On June 16, 2006, when I had my oral deposition with Attorney Michael Chase, he told me he wanted to know all about my accidents and my past history concerning my workers' compensation cases, etc. After giving him as much information as I could in that short of time, he said that he was confused.

So, I later took him a copy of my book where I had written in chronological order all about my past history, accidents, and worker's compensation claims, etc. I notified him that the book was to be used as part of my deposition.

Today, I had the second part of my dispute resolution where I was terminated from Palmetto Health Richland because of my book. I never took my book to the hospital nor did I tell anyone that I had written a book. Although I signed a confidentiality statement, I don't think this is confidential. I found out from Willis Gregory SVP of Human Resources, that Attorney Michael Chase had given the book to the hospital attorney who in turn gave the book to him which led to my termination. This book was part of my deposition and I don't think that Attorney Chase should have given the book to the hospital attorney to cause my termination from employment. Thank you.

Sincerely,

Mrs. Donna Brown
Palmetto Health Human Resource
P. O. Box 2266
Columbia, S. C. 29202-2266

RE: Dispute Resolution and Confidentiality form of November 30, 2006

Dear Mrs. Brown:

I sent you an e-mail yesterday, December 2, 2006, as a follow-up concerning our telephone conversation of Thursday evening, November 30, 2006, when I notified you that the confidentiality form that you gave me to sign had to be broken because I needed to let the worker's compensation commissioner know what had happened to my book that I had given to Attorney Michael Chase, Palmetto Health Richland worker's compensation attorney, as part of my deposition.

In addition, you gave me that confidentiality form to sign when you were well aware that I had a counselor because he called you on Wednesday, November 29, 2006, and spoke with you. Since you gave me the confidentiality form to sign, I am requesting that you tear it up and remove it from my file. I cannot honor something that you used against me to obstruct justice and to prevent me from communicating with my counselor. In addition, you were never really helping me because you are an employee of Palmetto Health Richland.

Furthermore, I was misguided into thinking that it was entirely Barrington Wint and Annette Sullivan behind me being fired when you knew all along that it was Attorney Michael Chase, the hospital's attorney, and Mr. Willis Gregory who were behind this. Therefore, I have been accusing Annette and Barrington of something that they have only been partially guilty of.

In addition, you told me that the people on the panel didn't know anything about what I was being fired for. Unfortunately, I saw that this was not so. From the questions that

(832)

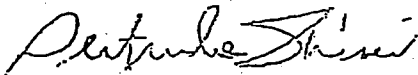

107

Page 2

the lady from psyche were asking and the white man on the end of the panel that worked in the employment office were asking and talking about, I knew that he had already read the book. This was especially so when he kept asking about one of my worker's compensation injuries and my car accident. I have to use a description of these people since I don't know their names.

In light of these findings, especially, when there were so many against one, I cannot honor that confidentiality form because I need some kind of justice for myself. Therefore, I am asking once again for you to destroy that confidentiality form that you gave to me to sign. I cannot honor it especially when I don't remember reading it or what I signed. In addition, you didn't tell me the truth when you told me about the type of people that was going to be on the panel. I didn't have any mess in my employment folder and I want this confidentiality form removed and that mess concerning the dispute resolution removed. Thank you.

Sincerely,

Gertrude Shiver

RE: WCC File: 0321756

Dear Attorney Chase:

I had to write you this letter because my book that I gave you was part of my deposition. It contained a clarification of the information that you said you were confused about. I did not give the book to you so that you could run to Palmetto Health Richland and get me fired from my job. If I had known that this was what you were going to do with it, I would have never given it to you. By giving the book to my employer, you have only helped created more problems.

In addition, you caused me to loose a total of \$4,159.5928, which was money that I had earned as my accrued vacation time as part of my benefit package. Thank you.

Sincerely,

Gertrude Shiver

GERTRUDE SHIVER

DOB: 05/19/54

DOS: 06/21/06

Ms. Shiver says she fell at church about three weeks ago and hurt and fell on her knees and outstretched hands. Since then she has had quite a bit of pain in both of her knees. She says that she really cannot get down on her knees to pray because it is so uncomfortable. She also has had quite a bit of continuing pain in her left wrist. She says she has been taking Mobic and Ultram for breakthrough pain and she says that it just does not seem to be getting any better at all. So she is wondering what she needs to do.

OBJECTIVE:

VITAL SIGNS: Her weight is 189 pounds. Temperature is 97.4. Pulse is 76. Respirations are 16. Blood pressure is 110/70.

HEENT: Unremarkable.

NECK: Supple.

LUNGS: Clear.

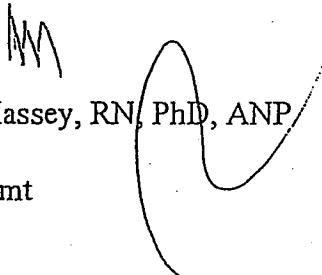

HEART: S1, S2. No rubs, gallops, or murmurs.

EXTREMITIES: There is no tenderness to palpation on the knees. There is full range of motion bilaterally. There is a little bit of tenderness along the thenar surface of the left hand.

X-rays appear to show no acute findings.

ASSESSMENT: As above.

PLAN: We will go ahead and get her set up to see an orthopedist as soon as possible.

CHIEF COMPLAINT:
PAIN

BILATERAL KNEE PAIN AND LEFT WRIST

HISTORY OF

PRESENT ILLNESS:

Ms. Shiver is a pleasant 52-year-old female who is here for the above-mentioned complaints. She is seen over at the kind request of Dr. William Robinson. She states that on 05/20/06, she unfortunately fell, landing on both knees and her left wrist. She states she was able to walk right afterwards and felt she just bruised her knees but has been having persistent pain. She did get x-rays done by Dr. Robinson and no fractures were identified. However, her symptoms have not abated. She is kindly referred here for initial evaluation and treatment. She has no popping or giving way really but just anterior knee pain bilaterally and left wrist pain without numbness.

REVIEW OF SYSTEMS:

The patient's medical history form is reviewed with the patient, signed, and is included in the chart.

PHYSICAL EXAMINATION:

Examination reveals the patient is generally alert, oriented and appropriate. Gait is normal. Examination of bilateral knees shows there is no skin abnormality to inspection. Sensory examination is normal to light touch. There is no effusion present in either knee. Lachman, posterior drawer test, medial and lateral collateral ligament stress tests are negative for the bilateral knees. Posterior lateral drawer is negative bilaterally. There is no tenderness in the patellar tendon or quadriceps tendon bilaterally. Patellar apprehension test is positive, greater on the right than the left. Pivot shift test is negative. Knee range of motion is 0 to 140° in the bilateral knees. Hip range of motion is within normal limits with symmetrical internal and external rotation, hip flexion and extension. Medial and lateral joint lines are non-tender. McMurray's maneuver is negative. Neurological examination shows symmetric 2+ deep tendon reflexes at the bilateral knees and ankles. Quadriceps strength is 5/5 bilaterally. There is a palpable dorsalis pedis pulse. Flexion and extension of the toes is normal. There is no sensory deficit to light touch on the plantar dorsal foot.

Examination of the left wrist reveals negative Finkelstein tests bilaterally. She has 10 degrees dorsiflexion and plantarflexion bilaterally. Watson test is negative. She is tender over the FCR tendon and the flexor digitorum tendon.

RADIOGRAPHS:

X-rays include three views of the left wrist from June, which are normal, at an outside facility. X-rays also include three views of bilateral knees, which are normal.

PRESENT CONDITION:

Gertrude returns for both wrists. Her wrists are still hurting her. Her left knee is better, but she still has some right knee pain.

REVIEW OF SYSTEMS:

The patient's medical history form is reviewed with the patient, signed, and is included in the chart.

PHYSICAL EXAMINATION:

She has no effusion in either knee. She has 0 to 130 degrees knee range of motion bilaterally. The joint lines are nontender. Her patella is apprehensive with some evidence of maltracking noted today.

Examination of both wrists reveals 10 degrees of dorsiflexion and plantarflexion. Negative Lachman signs bilaterally. There is no palpable tenderness but just diffuse tenderness. Finkelstein's test is negative bilaterally.

RADIOGRAPHS:

X-rays include four views of bilateral wrists including clenched fist view, which show no abnormalities taken on the PACS system here.

IMPRESSION:

1. BILATERAL WRIST PAIN AND TENDONITIS
2. PATELLOFEMORAL SYNDROME, RIGHT KNEE

PLAN:

We are going to continue therapy and I will see her back in six weeks and anticipate release at that time. I will try her in a PTO brace for the right knee today.

PRESENT CONDITION:

Ms. Shiver returns for her right knee and both hands. The right knee has continued having problems. The left knee is doing fine. She had been to physical therapy for the wrists and hands and the right knee.

PHYSICAL EXAMINATION:

On examination today, she has full range of motion of the knee without effusion. The joint lines are nontender. Examination of hands reveals a deep tenderness present dorsally over the radial aspect of the wrist. She is able to flex and extend her fingers. She has no Tinel's sign bilaterally, although she has some subjective numbness to both the long and the ring fingers of bilateral hands.

IMPRESSION:

1. WRIST TENDINITIS WITH POSSIBLE MILD CARPAL TUNNEL SYNDROME
2. PATELLOFEMORAL SYNDROME, RIGHT KNEE

PLAN:

Home exercise program. She can do her regular job but we will prefer not to do a lot of repetitive work with her hands at this point.
