RE; Goldie Grier Reeves v. Rogers C. Reeves
Appellate Case No. 2013- 002082

Dear Ms Abbott Kitchings,

I generally corespond with Ms. Monica Cassidy and I in fact ~~exam~~ filed information concerning my extention for good cause request.. This summer I know Ms. Cassidy hurt her foot while on on vaction and "out of pocket" for me to communicate with her I understand it was a situation that could not be helped ,Put I have come to rely on her procedural assistance and that wasimpo posible. given the dellemma in the northwest vacation.I was conc erned about her recovery..

I shared part of my explanation with her and she probably passed it along to you.

That information wasmostly about the symptoms of Lupus as opposed to how i was physically and Neurologically affected.

In this note I want to be specifiabout how I was personnally aff affected.

In1994 I was contacted by a greenville Law firm to fly to New York city to be evaluated for for a discas called Lupus., which might have affected me because of Breast implants I had recieved for medical reasons after my children were born., I seems their group was involved with a world wide class action lawsuit regarding silicone filled implants was causing lupus in many ladies and the were helping some take part in the claim.

I felt very healthy in general but after completing several questionnaires I had many similar poblems.I could be a client.

There were criteria s that had to be met.

I was part of about twenty women from South Carolina.

we were given extensive medical ovaluations and hve continued to be monitored since that time.

i weighed 206 pound, I am 5'2" but that was because Mold, a living organism produces waste products called toxin and gas. That's why men with huge round bellies, who drink beer get so sick. The body acts as a fermenting system. Prostate treatment is a measure of how much mold is in their Prostate glands. An Italian oncologist and surgeon believes in his best selling book of 2012 "cancer is a fungus, He shows big white hunks of masses that are indeed fungal looking. He wants to treat them with Baking soda an alkaline ingredient and the disolve and shrink. I think he has important findings. I drank a lot of alkaline water and ate alkaline fresh vegetables and am a five year cancer survivor. He was a certified Rheumatologist..

He said Lupus can take years to be uncovered as it has a multitude of symptoms

While I was doing my pro se research I suffered from many of them I have arthritic pain in my hands and back and legs and feet. So that I could hardly walk, sit at length or wlk. I was in such pain and I couldn't concentrate, I was depressed and confused trying to study the citations, Lupus problems have been well-recognized but not well defined. Neuropsychiatric symptoms of some type could be attributed to Lupus. an ancient disease. When folks have kidney disease with lupus they can die. Ahga found the Lupus anti gen in my blood as did the New York Doctor. His appointments are \$400.00 a visit and Insurance companies do not like autoimmune diseases. I take very little medicine, just calcium and vitamins and baby aspirin a delicate anti inflammatory. If all these problems were seen by the same doctor I could have a \$50,000 pay out from Dow Corning, but they weren't. If I die the benefit is Rogers receives. He doesn't like me but I don't care. I want him to help our children that has been my entire purpose in life. To give my kids roots and wings. He was not a perfect husband but he has tried to be a good dad. Except he fell through the cracks with Mr. Jones, the errant builder. Jones was and is known to be a conman overcharged Rogers eleven thousand Dollars.. I did the necessary curing letter but Rogers had no follow up. Jones didn't work for me. and won't help do anything. He had a \$38,000 Judgement and just wanted Rogers money. He had no clue what to do at my home. Neither one of them.

Sincerely Goldie Reves,

Goldie Reves

keeping the faith

Enclosures

and letter in mail to Mr. Chastech. *gl*

Please see that the appeals court reads these is papers. I appreciate your help.

PS. Additional citing about lupus and disability
Provided. McCutcheon v. Pacific Mutual Life Ins

Owens v. Sovereign Camp "what it is total disability."
needs to affect occupation.

I am an architectural designer and cannot draft in quarter inch scale any longer or express my ideas in writing., but I have no disability insurance.
