Case # 20174000266 (# 2017CP4000266

I hereby request to the Court of appeals, to grant
me the plaintiff in this case my rights to have my
case heard before a tryer of the facts and a jury of
my peers.

The honorable Judge Tomothy Edmunds in magist-
rates court, did error, as to allowing the defendant
in this case to present evidence, while denying me
the opportunity under the law to present my eviden-
ce.

Judge Toal, in the Court of Common Pleas, appeared to
be suffering from an arm injury, and as I perceived
the the honorable Judge Toal, may have been under
some possible medication which led me to believe
her decision to throw my case out without it being
heard, was prejudice to me, in overcoming the
writ - to - eject process,

- I want the proper time granted to gather NEW ADDITIONAL EVIDENCE from the Columbia Police department, pertaining to this case. I make a request to the court of appeals, to grant me up to 30-45 days to get all my evidence in place, and to consult with legal counsel.

- I make motion to the court of appeals not to grant any speedy writ to eject me from 3905 W. Beltline Blvd. - Columbia, SC 29204.

- The defendant in this case # 20174000266, is aware of their intentional breach of our lease agreement, and that ejecting me without a fair hearing would be to their avail.

- Deny any and all motions to award a writ - to - eject, until the entire case is heard. I offered my rent, it was not accepted by management,

with the sole intent to takeover
the rental space, because I opted
to pay my utilities to S.C.E.G, and
not directly to them.
