**SC Court of Appeals**

Re : William Watson v. Jones and Son  
Appellant Case No. 2011-203368

Honorable;  
Jenny Abbott Kitchings  
Clerk of Court

Dear Jenny Abbott Kitchings :

The letter came to me on August 18, 2012. As you could understand i am a person with no money as you can tell from the time of dates in between me being able to send the documents in to the court system. I have worked very hard to be able to try to do all of this on my own. From the first hearing of April ,2009 when the hearing was incomplete and most all of the proof of my case was not heard and the Commissioner ruled on just me being run over and all the lost evidence was not entered at this hearing and the Law Firm DID NOT enter my appeal as i told them to the very same day after the hearing took place. I have not had a true and/or a complete hearing on all the true events of the accident that took my life as far as being able to provide for my family. I my self having to try to act as an attorney and also not having the money to back me to get to have a complete hearing . I have been working on these wrong doings from may 2009 up until the present. I have been blocked to bring these document to show that all the incomplete and lost document all the way from the Highway Patrol, Doctors and the Law Firm would not put these document forth because they could not explain why these documents were and are incomplete. I have tried to obtain a law firm to take this case or to help me present all the correct papers to get me an honest trial with a jury , But Edwin Martin has been able to block these documents from being seen because in my opinion the outcome would be different. With all that had gone wrong at the start of my accident all the problems of checks not coming in on time that caused my credit to go bad given me a bad name and bad credit reports i have been working very hard to correct this and find the money to be able to be represented fairly with a lawyer and these hearing not be one sided . I have not been protected and not had a fair chance to present the truth about the accident as far as having the testimoney of the persons that was at my side from the very first days of being in the hospital and of what really happened at the accident site since a great deal of documents just happen to be incomplete or were gone by the time of the first hearing.

As for the letter that i received on August18, 2012 i've done all i could to get the \$80.00 to send to the court reporter to finish the payment for the transcript, i ask her if

she would send to your office a copy just to you so your office could have the papers to set a court date but i never heard back from her and i was told that i could not have a phone number to be able to ask her and i also sent her a letter with my number to see if she would call me but never a word or call. I will take the money out of my SSD check on the 3rd of September and let a bill go by maybe i will be able to catch the bill up the next month if it is not to late. I hope this office and court sees and understand that i deserve this hearing and will let me get this last \$80.00 dollars to complete the transcript, if not please let me know very soon. As i have always said since lost documents were not made to be proven " I will work till i die to prove the truth!

Sincerely ;  
  
William Watson
