---

Ms. Kitchings

Attached is an email from Mr. Carpenter and some photo attachments regarding his service of notice of appeal. Please make sure these are reviewed as per our South Carolina Appellate Court Rules.

I am copying Mr. Carpenter with this email and letting him know since he has made personal contact with me that I must recuse myself from further proceedings on this matter but that you will make sure he, as you would all appellant litigants, receive appropriate consideration in this process. He should make no other contact with me. Future communications should be directed to you as Clerk of Court.

Please also let all parties to this case know of the communication.

Thank you.

James E. Lockemy  
Chief Judge  
South Carolina Court of Appeals

**Subject:** Andrew Carpenters Notice of Appeal, case #2017-000835

I hate to bother you Your Honor. I am Andrew Carpenter, nephew of the late Governor Carroll Campbell and family friend of the late Senator Strom Thurman. I have filed a Notice of Appeal against some easily deciphered corruption in York SC.. The Clerk wrote me back and said I did not send a Notice of Service to them nor reasoning of Appeal, I was sending all of that in the Appeal, no reason to do so in the Notice of Appeal. Well Sir,, I am showing you pictures in an attachment that I did send Service to all parties with stamped envelopes from the post office as I thought this would continue with this lawyer Daniel Dagastino whoms brother just got disbarred last year. This is apparently my last day to show proof, so I am sending it directly to you as well as the paper the clerk mailed me that I just received today. Daniel Dagastino is a very evil man and all will come out in the appeal or whatever way I have to prove it, and I will, he and Judge Kimball both. But here are the photos of "proof of service" and this to my legal knowledge allows me 10 days more to file the actual appeal. Please look at attached items. I will also email this to the other parties..

Thank You Your Honor,

Andrew Carpenter
