SC Court of Appeals

RE: Justin Griffin #315057, Appellant, vs -
SCDC, Respondent; - Case No.: 2016-001563

Dear Mrs. Kitchings,

I am in Receipt of the Correspondence dated April 21, 2017 mandating supplementation of My record on Appeal for deficiencies of numerating the pages and mysteriously forgetting to add the Counsel of the Respondent by name and Title.

This institution has been Locked down for over (9) nine days due to incidents unrelated to the Appellant's behavior or Conduct; therefore this Appellant has been unable to Reach the Law Library, the photo-copy machines Nor the Appendix's and/or Rules of Court... As I write this Institution is still under Lockdown and despite several inquiries and showings of Deadlines mandated by this Court, have been denied access to these necessities...

Lastly, this Appellant is unable to provide more copies of said Record on Appeal as he has filed ALL of the Copies

Available to him already!

The Respondent will Not provide such Criteria to it's Captives. Especially such things as "incriminating documentations"; This Appellant had to resort to espionage-like-tactics to obtain some of the paperwork inside the Record; further-more, the Respondent does not allow the Inmate population to have photo-copies made unless said papers to be copied are stamped by the Court... With these things in Mind the Appellant prays this Court Allow said deficiencies to stand as is and "relax" the Rules of Court in Mercy of the Appellant's Circumstances and self-Representation?

Please allow the Appellant's Record to pass and be filed as is. and if Not, please Allow the Appellant an enlargement of time to try and gather the papers provided in the Record (though I don't know how I will get them).

sincerely,
s/Justin Griffin
