GREAT AMERICAN ALLIANCE INSURANCE COMPANY,	)	
Defendants	)	

Appellate Panel Review held in Columbia, South Carolina, on September 19,, 2016, per notices timely and properly served upon all parties of interest.

Appellate Panel Decision and Order filed:

November 15th, 2016

APPEARANCES:

Claimant represented by Mitchell K. Byrd, Jr., Esquire of Greenville, South Carolina.

Defendants represented by E. Ros Huff, Jr., Esquire of Greenville, South Carolina.

STATEMENT OF THE CASE

This claim came before the Honorable Gene McCaskill on January 26, 2016 by way of Claimant's Form 50 hearing request. At the original hearing, Claimant alleged injury to his right upper extremity, right shoulder, right hand and neck as a result of an accident arising out of and in the course of his employment with Defendants on 02/25/2015. He contended that he is entitled to past due TTD benefits from 4/20/2015 to the present, and continuing forward until such time as benefits can be properly terminated. He contended that he is in need of further medical treatment for his injuries and that he is not at maximum medical improvement. Defendants contended that Claimant suffered no injury by accident while working for the employer. Defendants contended Claimant lacked credibility. They objected to certain evidence in the APA's and continued to deny the claim. On June 1, 2016, the Hearing Commissioner issued a Decision and Order, which is hereby incorporated as if reproduced verbatim herein. The Hearing Commissioner's Decision and Order contained the following Finding of Facts:

1. The Claimant alleges injuries to his right upper extremity, right shoulder, right hand and neck arising out of and in the course and scope of his employment on or about 3/17/2015 when he pulled "something" in his arm. He so testified.
2. The Defendants deny the claim.
3. The Defendants have not provided any medical care or treatment.
4. The Claimant was terminated by the Employer. This is based on the testimony of the witnesses and the evidence in the record as a whole.
5. I found the Claimant to be very credible. It was clear that the Claimant has a limited communication skill set. He testified that while he can read and write, he

has trouble spelling and reads slowly. His speech was stilted and he spoke in a staccato pattern. He was clearly nervous and had some difficulty verbalizing his responses to questions. That being said, I found him to be candid and truthful. I did not find any intent on behalf of Claimant to be deceptive. This finding of fact is based on the testimony of the Claimant and the observations of the Undersigned.

6. The Claimant has treated on his own with Dr. Dwight Jacobus. This finding of fact is based on the medical records and the testimony of the Claimant.
7. Dr. Jacobus completed a questionnaire which is part of the record. In that questionnaire, Dr. Jacobus agrees with the statement that the Claimant sustained a work-related injury on 03/17/15. He also agrees that the Claimant's injuries to his right arm, right shoulder, and neck are causally related to his work accident of 03/17/15. This finding of fact is based on the medical records, specifically APA #1.
8. Dr. Jacobus also opines that the Claimant has been unable to work since his work-related accident on 03/17/15 and is not at MMI. Both of these statements are written answers provided by Dr. Jacobus. He also indicates that he was given the opportunity to add or redact anything he wished from the questionnaire. This finding of fact is based on the medical records, specifically APA #1.
9. There are some inconsistencies in the record as to the timeline. I do not find those inconsistencies are significant enough to void the claim. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.

10. Kimberly LeCroy, the Claimant's supervisor, testified that she did not have an immediate conversation with the Claimant about his alleged 03/17/15 accident. She testified that Claimant told her he wasn't sure if it happened at work or at home. This finding of fact is based on the testimony of Ms. LeCroy.

11. Ms. LeCroy did not bring any documents to the hearing. The Claimant's employment file was not entered into evidence. This finding of fact is based on the testimony of Ms. LeCroy and the record as a whole.

12. The Claimant suffered a work-related accident, resulting in injury, on or about 03/17/15. We must be mindful that workers do not live in our world of workers' compensation parlance nor do they grasp that specific descriptions and chronology have the importance that attaches in workers' compensation. That being said, just because a worker does not have the vocabulary or specificity of recall we seek does not void their case if they can present a prima facie case which can be proved compensable by a preponderance of the evidence. That is the case here. This finding of fact is based on the testimony of the witnesses, including the Claimant, the medical records, and the evidence in the record as a whole.

13. When the evidence is viewed as a whole, I find that the Claimant suffered an injury by accident to his neck and right upper extremity, to include his right shoulder, right arm, and right hand, on or about 3/17/15 while working for Defendants. There is no medical evidence in the record to contradict this. This finding of fact is based on the testimony of the Claimant and the medical record.

14. The Claimant is not at MMI. This finding of fact is based on the testimony of the Claimant and the medical records.

15. Claimant is entitled to payment for past causally related medical bills incurred as well as additional, continued medical care and treatment for his injuries. This finding of fact is based on the testimony of the Claimant and the medical records.

16. Dr. Jacobus is to be the Claimant's authorized treating physician. The Claimant is entitled to medical care and treatment – including imaging – as directed by Dr. Jacobus.

17. As to TTD, the Claimant was given a light duty note. There is no evidence or testimony that light duty was offered. The Claimant was terminated. He was also written out of work by Dr. Jacobus. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.

18. The Claimant is entitled to TTD from 04/20/15 to the present and continuing. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.

19. The Claimant's testimony is substantially consistent with the medical evidence in this case. The Claimant has no recall as to some dates and has some difficulty verbalizing the specifics of the mechanism of injury. This finding of fact is based on the testimony of the Claimant, the medical records, and the observations of the Undersigned.

20. All other issues are held in abeyance.

The Hearing Commissioner's Decision and Order further contained the following Conclusions of Law:

1. Under § 42-1-130, Claimant was a covered employee at the time in question; and under § 42-1-140, Defendant/Employer was a covered employer under the Act.

2. Under § 42-1-160, Claimant sustained an injury by accident, arising out of and in the course of his employment, to his neck, right shoulder, right arm, and right hand on or about March 17, 2015.

3. Under § 42-15-60, Martin v. Rapid Plumbing, 369 SC 278 (Ct App 2006), and Hall v. United Rentals, Inc., 371 SC 369 (Ct App 2006), Claimant is entitled to causally related medical treatment for his injuries at the direction of Dr. Dwight Jacobus.

4. Under § 42-9-10, Claimant is entitled to temporary total disability payments at his compensation rate, beginning April 20, 2015 through the present and continuing until such time as those benefits can be properly and lawfully terminated or suspended.

Defendants timely filed a Form 30, Request for Full Commission Review, and a Review Hearing with oral argument took place before the Uundersigned Appellate Panel Commissioners on September 19, 2016, in Columbia, South Carolina. The Appellate Panel hereby affirms the Decision and Order of the Single Commissioner, in its entirety, with amendments, and makes the following Findings of Fact and Conclusions of Law:

FINDINGS OF FACT

Based upon the documentary evidence submitted by the respective parties, pursuant to the Administrative Procedures Act, and the Commission's file relative to this claim, WE, THE APPELLATE PANEL, FIND THE FOLLOWING AS FACT:

1. The Claimant alleges injuries to his right upper extremity, right shoulder, right hand and neck arising out of and in the course and scope of his employment on or about 3/17/2015 when he pulled "something" in his arm. He so testified.
2. The Defendants deny the claim.
3. The Defendants have not provided any medical care or treatment.
4. The Claimant was terminated by the Employer. This is based on the testimony of the witnesses and the evidence in the record as a whole.
5. The Commission finds the Claimant to be very credible. It was clear that the Claimant has a limited communication skill set. He testified that while he can read and write, he has trouble spelling and reads slowly. His speech was stilted and he spoke in a staccato pattern. He was clearly nervous and had some difficulty verbalizing his responses to questions. That being said, Claimant was candid and truthful. There was no intent on behalf of Claimant to be deceptive. This finding of fact is based on the testimony of the Claimant and the observations of the Hearing Commissioner.
6. The Claimant has treated on his own with Dr. Dwight Jacobus. This finding of fact is based on the medical records and the testimony of the Claimant.
7. Dr. Jacobus completed a questionnaire which is part of the record. In that questionnaire, Dr. Jacobus agrees with the statement that the Claimant sustained a work-related injury on 03/17/15. He also agrees that the Claimant's injuries to his right arm, right shoulder, and neck are causally related to his work accident of 03/17/15. This finding of fact is based on the medical records, specifically APA #1.

8. Dr. Jacobus also opines that the Claimant has been unable to work since his work-related accident on 03/17/15 and is not at MMI. Both of these statements are written answers provided by Dr. Jacobus. He also indicates that he was given the opportunity to add or redact anything he wished from the questionnaire. This finding of fact is based on the medical records, specifically APA #1.

9. There are some inconsistencies in the record as to the timeline. Those inconsistencies are not significant enough to void the claim. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.

10. Kimberly LeCroy, the Claimant's supervisor, testified that she did not have an immediate conversation with the Claimant about his alleged 03/17/15 accident. She testified that Claimant told her he wasn't sure if it happened at work or at home. This finding of fact is based on the testimony of Ms. LeCroy.

11. Ms. LeCroy did not bring any documents to the hearing. The Claimant's employment file was not entered into evidence. This finding of fact is based on the testimony of Ms. LeCroy and the record as a whole.

12. The Claimant suffered a work-related accident, resulting in injury, on or about 03/17/15. We must be mindful that workers do not live in our world of workers' compensation parlance nor do they grasp that specific descriptions and chronology have the importance that attaches in workers' compensation. That being said, just because a worker does not have the vocabulary or specificity of recall we seek does not void their case if they can present a prima facie case which can be proved compensable by a preponderance of the evidence. That is

the case here. This finding of fact is based on the testimony of the witnesses, including the Claimant, the medical records, and the evidence in the record as a whole.

13. When the evidence is viewed as a whole, it is found that the Claimant suffered an injury by accident to his neck and right upper extremity, to include his right shoulder, right arm, and right hand, on or about 3/17/15 while working for Defendants. There is no medical evidence in the record to contradict this. This finding of fact is based on the testimony of the Claimant and the medical record.
14. The Claimant is not at MMI. This finding of fact is based on the testimony of the Claimant and the medical records.
15. Claimant is entitled to payment for past causally related medical bills incurred as well as additional, continued medical care and treatment for his injuries. This finding of fact is based on the testimony of the Claimant and the medical records.
16. Dr. Jacobus is to be the Claimant's authorized treating physician. The Claimant is entitled to medical care and treatment – including imaging – as directed by Dr. Jacobus.
17. As to TTD, the Claimant was given a light duty note. There is no evidence or testimony that light duty was offered. The Claimant was terminated. He was also written out of work by Dr. Jacobus. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.
18. The Claimant is entitled to TTD from 04/20/15 to the present and continuing. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.

19. The Claimant's testimony is substantially consistent with the medical evidence in this case. The Claimant has no recall as to some dates and has some difficulty verbalizing the specifics of the mechanism of injury. This finding of fact is based on the testimony of the Claimant, the medical records, and the observations of the Hearing Commissioner.

20. All other issues are held in abeyance.

CONCLUSIONS OF LAW

IN VIEW of the above Findings of Fact by the Appellate Panel, accordingly, as provided in § 42-17-40, SC Code Ann. (1976), as amended, it is the determination of this Commission that:

5. Under § 42-1-130, Claimant was a covered employee at the time in question; and under § 42-1-140, Defendant/Employer was a covered employer under the Act.

6. Under § 42-1-160, Claimant sustained an injury by accident, arising out of and in the course of his employment, to his neck, right shoulder, right arm, and right hand on or about March 17, 2015.

7. Under § 42-15-60, Martin v. Rapid Plumbing, 369 SC 278 (Ct App 2006), and Hall v. United Rentals, Inc., 371 SC 369 (Ct App 2006), Claimant is entitled to causally related medical treatment for his injuries at the direction of Dr. Dwight Jacobus.

8. Under § 42-9-10, Claimant is entitled to temporary total disability payments at his compensation rate, beginning April 20, 2015 through the present and continuing until such time as those benefits can be properly and lawfully terminated or suspended.

ORDER/AWARD

Based upon the above Findings of Fact and Conclusions of Law, as well as the evidence in the record as a whole:

IT IS HEREBY ORDERED that Defendants shall pay Claimant temporary total disability benefits from April 20, 2015, through the present and continuing.

IT IS ALSO ORDERED that Defendants shall provide Claimant causally related medical treatment for his work related injuries at the direction of Dr. Dwight Jacobus.

No hearing costs are assessed in this instance.

IT IS SO ORDERED.

ALICE MANUFACTURING CO.	)	**DECISION AND ORDER**
and	)	
GREAT AMERICAN ALLIANCE INSURANCE COMPANY,	)	
Defendants	)	

DATE OF HEARING:	Hearing held in Greenville, SC on January 26, 2016
APPEARANCES:	Claimant appeared and represented by Monty D. Desai., Esquire of Greenville, South Carolina. Defendants represented by E. Ros Huff, Jr., Esquire of Greenville, South Carolina.
PURPOSE OF THE HEARING:	To determine all issues as set forth on the Forms 50 and 51.
COMMISSIONER:	Commissioner Gene McCaskill
FILED:	June 1, 2016

STIPULATIONS

The parties stipulated at the hearing to the following:

1. Notice of the hearing was timely and properly served upon all parties of interest.
2. The South Carolina Workers' Compensation Commission has jurisdiction over this claim.
3. Venue is proper in Greenville County.
4. Claimant's average weekly wage is $421.00 with a corresponding compensation rate of $280.68.

Without objection, the Commission's file was made a part of the record in this matter with the exception of any self-serving declaration or unstipulated medical reports.

APA SUBMISSIONS

Pursuant to the South Carolina Administrative Procedures Act and Regulations of the South Carolina Workers' Compensation Commission, the following records and documents were submitted into evidence.

1. Questionnaire from Dr. Jacobus, dated 01/11/2015, pages 1-2
2. Oaktree Medical Center, dated 09/04/2015 – 12/29/2015, pages 3-28.
3. Carolina Neurology Associates, dated 09/01/2015, pages 29-31.
4. Palmetto Proactive Healthcare, dated 06/03/2015 – 07/06/2015, pages 32-38.
5. Upstate Bone and Joint, dated 05/13/2015, page 39-53.
6. Easley Family Practice, dated 04/20/2015 – 05/26/2015, pages 54-77.
7. Palmetto Health Baptist Easley, dated 12/31/2003 – 5/10/2015, pages 78-234.

STATEMENT OF THE CASE

This hearing came before the Undersigned on January 26, 2016 by way of Claimant's Form 50 hearing request. At the hearing, Claimant alleged injury to his right upper extremity, right shoulder, right hand and neck as a result of an accident arising out of and in the course of his employment with Defendants on 02/25/2015. He contended that he is entitled to past due TTD benefits from 4/20/2015 to the present, and continuing forward until such time as benefits can be properly terminated. He contended that he is in need of further medical treatment for his injuries and that he is not at maximum medical improvement. Defendants contended that Claimant suffered no injury by accident while working for the employer. Defendants contended Claimant lacked credibility. They objected to certain evidence in the APA's and continued to deny the claim.

EVIDENCE OF THE CASE

CLAIMANT'S TESTIMONY

Claimant testified that he is 43 years old and lives with his wife. He has four daughters. He is right hand dominant. His last grade completed in school was the seventh grade. He testified that he cannot read and write well, but can slowly read a newspaper. (Transcript p. 10-11) His wife handles the family finances. He was in "pretty good" health before his work injury. (Transcript p. 12)

Claimant described his work history. He worked in several mills and plants before spending about 20 years working in the logging business, cutting trees and driving a tractor. (Transcript p. 13-14) After his employer passed away, he hauled scrap metal until he got a job for the Employer at Ellison Mill, doffing cloth. (Transcript p. 16) He used a jack to move very large rolls of cloth and then unload them. (Transcript p. 18-19) He then

moved to "warp rack hanging." He was moving 4500 to 5000 pound rolls of cloth. It was a better, higher paying job. He used a motorized jack to load and unload cloth and cloth waste. (Transcript p. 19-21)

Claimant testified that he told Dr. Jacobus that he was pulling 5000 to 6000 pounds of cloth with a partner. It was a "rough job." (Transcript p. 23-24) On the date of the injury, Claimant and Scott Raymond were pulling off the warp and something popped in his arm, and his whole arm started burning. (Transcript p. 24) He noticed his arm was swelling up. He went to see the mill nurse, who could not write him for light duty. He waited until the following Monday and saw his family doctor, who gave him a light duty note. His employer did not have light duty. However, he continued working. (Transcript p. 25-27) After a period of time, he discussed the injury with his employer, specifically with Kim LeCroy. Kim's response to his request for medical treatment was that he would be fired if he left the plant. (Transcript p. 24-30, 30) He was not asked to fill out an accident report. (Transcript p. 33)

Claimant testified that he stopped working at the mill after his doctor gave him restrictions and has not returned back to work because there is no light duty available for him at the plant. (Transcript p. 34) Prior to the injury, he was "pretty active" at work, and there is no way he could do his same job with his current symptoms. (Transcript p. 34-35) After his family doctor, he was seen at Palmetto Bone & Joint. He testified that he told the doctors he had one or two months of pain. (Transcript p. 38) He believed that he was being honest with his doctors about how long he had been hurting, including Dr. Jacobus, who spent a great deal of time with him. (Transcript p. 38-39) He testified he wants to go back to the doctor and return to work when his arm quits hurting. (Transcript p. 40)

On cross-examination, Claimant testified that he only had one work-related injury that resulted in his current problems. He did not recall any other workers' compensation claims. (Transcript p. 41) When presented with purported impeachment evidence of a prior workers' compensation claim, Claimant confirmed the evidence was related to a different "Jeffrey Miller," and not him. (Transcript p. 45) When presented with evidence of his prior criminal record, Claimant admitted some of the convictions and did not recall some of the others. Regarding his medical treatment, Claimant testified that he was truthful with his doctors to the best of his knowledge and what he could recall. (Transcript p. 50)

Claimant testified that he did not recall why the Baptist Easley Hospital report of 5/10/2015 indicated his work injury occurred one month prior. He testified he "can't remember dates." (Transcript p. 52, 56-57) Claimant denied intentionally giving Dr. Jacobus any false information. (Transcript p. 54)

On re-direct, Claimant testified that he thought he had been truthful about his prior criminal record when he was questioned at his deposition. (Transcript p. 60-61) He also testified that he was treated at Easley Baptist Hospital in 2012 not only for right arm numbness, but also for other symptoms that may have been due to a reaction to medication given to him by a doctor. (Transcript p. 62) Claimant also testified that he believed the order in which he saw his treating doctors was consistent with the Easley Baptist Hospital medical record from May 2015. (Transcript p. 70)

TESTIMONY OF KIM LECROY

Kim LeCroy testified that she has worked for Alice Manufacturing for forty-one years. She is a supervisor. She knows the Claimant. (Transcript p. 72-73) She testified

that the Claimant left a voicemail message on 3/20/2015 that his elbow was hurting from where he pulled a warp down. She brought Claimant in the following Monday to discuss it. Claimant said he needed medical attention. He said the injury happened a few weeks ago, and that he thought it would get better on its own. She testified that Claimant said it could have happened at home. (Transcript p. 74-75) She denied that Claimant told her about the injury when they had spoken about his arm pain a week prior to the Monday meeting, so she did not do an accident report. (Transcript p. 76)

On cross-examination, Ms. LeCroy testified that she did not bring any documents to the hearing, including Claimant's employment file. She testified that documentation regarding her conversations with the Claimant were in his file. (Transcript p. 80-82) She testified that Claimant is still employed by the Employer. However, she admitted that Claimant was terminated after 3/17/2015 for being out of work and not notifying anyone. When asked why Claimant had been re-hired after that, Ms. LeCroy did not respond. (Transcript p. 83-84)

MEDICAL EVIDENCE

Claimant was seen on 4/20/15 at Easley Family Practice/Internal Medicine for reports of right elbow pain and anxiety. He reported a one month history of right lateral elbow pain with lifting heavy weights. Though the report indicates no known injury, it does indicate he does a lot of heavy lifting at work. He had x-rays and was ordered to follow up. He returned on 5/4/15 for right wrist and shoulder pain. The right elbow was still painful. Range of motion was restricted. He had intermittent tingling and numbness in his right thumb and fingers. More x-rays were ordered of the right shoulder and right wrist. On 5/26/15, Claimant was seen for a follow up related to anxiety. It was noted that

he had seen Dr. Boyer for his right elbow pain. During this time period, Claimant was written out of work and given work restrictions by his physicians. (APA #6)

Claimant was seen at Palmetto Proactive Health Care on 6/3/15 and 7/6/15. On 6/3/15, the note indicates that he noticed burning in the right arm one month ago. He informed his supervisor but nothing was done. Claimant reported seeing a primary care doctor that did some testing that made his pain worse. He reported problems moving his right arm and making a fist, numbness, and popping and swelling in the right shoulder and elbow. He was referred to a neurologist for his injury on 6/3/15. On 7/6/15, he returned to Palmetto Proactive Health Care, and had not yet been seen by a specialist. His pain ranged from mild to major throughout the day. Finger numbness was indicated. He was still unable to work. He was excused from work from 7/6/15 until he could be evaluated by a neurologist. (APA #4)

Claimant was seen at Upstate Bone & Joint by Dr. David Boyer on 5/13/15. The note details 1-2 months of right lateral elbow pain as well as right shoulder and wrist pain. He was examined and a right ultrasound guided common extensor tendon tenotomy procedure was performed. He was assessed with right lateral elbow pain and asked to follow up. He was written out of work until follow up with Dr. Boyer in 3 weeks. (APA #5)

Claimant first saw Dr. Dwight Jacobus at Oaktree Orthopaedics on 8/4/15. He reported a history of doing a job that required pulling 5-6000lbs of materials with his arms. He had significant pain in his right elbow around the middle of March, 2015, that occurred when pulling material. He tried to keep working but had increasing discomfort. He had been seen by Palmetto Proactive Health Care as well as by Dr. David Boyer at

Upstate Bone & Joint. Claimant had already had ultrasound and injections. X-rays were normal. Claimnant had been given light duty restrictions and also written out of work by his doctors. Dr. Jacobus diagnosed post-traumatic epicondylitis of the right elbow, C5 radiculopathy of the right upper extremity, and developing De Quervain's tendon bone insertional irritation. An EMG nerve conduction study was recommended. (APA #2) Claimant was seen by Carolina Neurology Associates on 9/1/15. His EMG/NCS study findings were "abnormal." (APA #3)

Claimant saw Dr. Jacobus again on 9/4/15 for follow up. Claimant had a lot of neck, right shoulder, and right elbow pain. The EMG/NCS was reviewed. An MRI was recommended. (APA #2) Claimant returned for follow up on 11/3/15. He was again assessed with cervical radiculitis. Medications were helping. Claimant saw Dr. Jacobus again on 12/29/15 for right hand, right arm, and right shoulder pain. There was right hand swelling and numbness. (APA #2)

On 1/11/16, Dr. Jacobus signed a medical questionnaire that indicated that Claimant sustained injury to his right arm, right shoulder, and neck, while at work on 3/17/15. Claimant was not at MMI, needed an MRI, and was scheduled for a follow up EMG on 1/26/15. Dr. Jacobus opined that Claimant had been unable to work since his injury of 3/17/15. All of Dr. Jacobus's opinions were held to a reasonable degree of medical certainty and he had been given the opportunity to add or redact anything he wished from the questionnaire. (APA #1)

Claimant was seen at Easley Baptist Hospital on 12/31/03 after being hit by a tree at work. On 10/24/04, he was seen at Easley Baptist Hospital for chest pains and arm numbness. On 5/27/10, he was seen at Easley Baptist Hospital for chest pains and

dizziness. Claimant was seen on 2/27/12 at Easley Baptist Hospital for right arm numbness, right facial numbness onset with dizziness, and headache onset at 4:00am. He had right sided chest pain. He had a CT scan of his head for the right sided parasthesias to the face and arm. He was instructed to have an MRI if the symptoms persisted. (APA #7)

On 5/10/15, Claimant was seen at Easley Baptist Hospital for extremity pain. The note indicates pain in the right shoulder and elbow from a work injury one month ago. The note further indicates right shoulder discomfort from his work, and that Claimant was scheduled to see Upstate Bone & Joint. He experienced popping and increased pain with rotating the shoulder as well as tingling in his fingers. No new injury was reported. He was treated and released, to follow up with Upstate Bone & Joint. (APA #7)

FINDINGS OF FACT

IT IS FOUND AS FACT:

1. The Claimant alleges injuries to his right upper extremity, right shoulder, right hand and neck arising out of and in the course and scope of his employment on or about 3/17/2015 when he pulled "something" in his arm. He so testified.
2. The Defendants deny the claim.
3. The Defendants have not provided any medical care or treatment.
4. The Claimant was terminated by the Employer. This is based on the testimony of the witnesses and the evidence in the record as a whole.
5. I found the Claimant to be very credible. It was clear that the Claimant has a limited communication skill set. He testified that while he can read and write, he has trouble spelling and reads slowly. His speech was stilted and he spoke in a staccato pattern. He was clearly nervous and had some difficulty verbalizing his

responses to questions. That being said, I found him to be candid and truthful. I did not find any intent on behalf of Claimant to be deceptive. This finding of fact is based on the testimony of the Claimant and the observations of the Undersigned.

6. The Claimant has treated on his own with Dr. Dwight Jacobus. This finding of fact is based on the medical records and the testimony of the Claimant.
7. Dr. Jacobus completed a questionnaire which is part of the record. In that questionnaire, Dr. Jacobus agrees with the statement that the Claimant sustained a work-related injury on 03/17/15. He also agrees that the Claimant's injuries to his right arm, right shoulder, and neck are causally related to his work accident of 03/17/15. This finding of fact is based on the medical records, specifically APA #1.
8. Dr. Jacobus also opines that the Claimant has been unable to work since his work-related accident on 03/17/15 and is not at MMI. Both of these statements are written answers provided by Dr. Jacobus. He also indicates that he was given the opportunity to add or redact anything he wished from the questionnaire. This finding of fact is based on the medical records, specifically APA #1.
9. There are some inconsistencies in the record as to the timeline. I do not find those inconsistencies are significant enough to void the claim. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.
10. Kimberly LeCroy, the Claimant's supervisor, testified that she did not have an immediate conversation with the Claimant about his alleged 03/17/15 accident.

She testified that Claimant told her he wasn't sure if it happened at work or at home. This finding of fact is based on the testimony of Ms. LeCroy.

11. Ms. LeCroy did not bring any documents to the hearing. The Claimant's employment file was not entered into evidence. This finding of fact is based on the testimony of Ms. LeCroy and the record as a whole.

12. The Claimant suffered a work-related accident, resulting in injury, on or about 03/17/15. We must be mindful that workers do not live in our world of workers' compensation parlance nor do they grasp that specific descriptions and chronology have the importance that attaches in workers' compensation. That being said, just because a worker does not have the vocabulary or specificity of recall we seek does not void their case if they can present a prima facie case which can be proved compensable by a preponderance of the evidence. That is the case here. This finding of fact is based on the testimony of the witnesses, including the Claimant, the medical records, and the evidence in the record as a whole.

13. When the evidence is viewed as a whole, I find that the Claimant suffered an injury by accident to his neck and right upper extremity, to include his right shoulder, right arm, and right hand, on or about 3/17/15 while working for Defendants. There is no medical evidence in the record to contradict this. This finding of fact is based on the testimony of the Claimant and the medical record.

14. The Claimant is not at MMI. This finding of fact is based on the testimony of the Claimant and the medical records.

15. Claimant is entitled to payment for past causally related medical bills incurred as well as additional, continued medical care and treatment for his injuries. This finding of fact is based on the testimony of the Claimant and the medical records.
16. Dr. Jacobus is to be the Claimant's authorized treating physician. The Claimant is entitled to medical care and treatment – including imaging – as directed by Dr. Jacobus.
17. As to TTD, the Claimant was given a light duty note. There is no evidence or testimony that light duty was offered. The Claimant was terminated. He was also written out of work by Dr. Jacobus. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.
18. The Claimant is entitled to TTD from 04/20/15 to the present and continuing. This finding of fact is based on the medical records, the testimony of the witnesses, and the evidence in the record as a whole.
19. The Claimant's testimony is substantially consistent with the medical evidence in this case. The Claimant has no recall as to some dates and has some difficulty verbalizing the specifics of the mechanism of injury. This finding of fact is based on the testimony of the Claimant, the medical records, and the observations of the Undersigned.
20. All other issues are held in abeyance.

CONCLUSIONS OF LAW

Accordingly, as provided in § 42-17-40, SC Code Ann. (1976), as amended, it is the determination of this Commission that:

1. Under § 42-1-130, Claimant was a covered employee at the time in question;

and under § 42-1-140, Defendant/Employer was a covered employer under the Act.

2. Under § 42-1-160, Claimant sustained an injury by accident, arising out of and in the course of his employment, to his neck, right shoulder, right arm, and right hand on or about March 17, 2015.

3. Under § 42-15-60, Martin v. Rapid Plumbing, 369 SC 278 (Ct App 2006), and Hall v. United Rentals, Inc., 371 SC 369 (Ct App 2006), Claimant is entitled to causally related medical treatment for his injuries at the direction of Dr. Dwight Jacobus.

4. Under § 42-9-10, Claimant is entitled to temporary total disability payments at his compensation rate, beginning April 20, 2015 through the present and continuing until such time as those benefits can be properly and lawfully terminated or suspended.

I. ORDER/AWARD

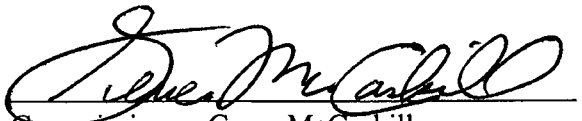

IT IS HEREBY ORDERED that Defendants shall pay Claimant temporary total disability benefits from April 20, 2015, through the present and continuing.

IT IS ALSO ORDERED that Defendants shall provide Claimant causally related medical treatment for his work related injuries at the direction of Dr. Dwight Jacobus.

No hearing costs are assessed in this instance.

IT IS SO ORDERED.

Questions about the use of this form should be directed to the Judicial Department at 803.737.5675 or appeals@wcc.sc.gov. If the claimant appeals and is not represented by counsel, the Judicial Department will properly serve this form pursuant to Reg. 67-607 C. Pursuant to Reg. 67-205 and Reg. 701, the appeal must be postmarked no later than 14 days from the date of service of the Decision and Order of the Hearing Commissioner along with the filing fee. Attach a Form 32, if you are unable to pay the filing fee. Refer to Reg. 67-211 and Reg. 67-701 through 711.

Jeffrey Miller v. Alice Manufacturing Company
WC No. 1505905

Form 30 Attachment

The Employer/Carrier appeal the June 1, 2016 Order of the Honorable Gene McCaskill, Commissioner upon the following grounds:

1. Did the Single/Hearing Commissioner (hereinafter Commissioner) err in Finding of Fact No. 5 that the claimant is very credible, the error being the claimant gave false and misleading testimony which conflicts with other evidence?
2. Did the Commissioner err in Finding of Fact No. 8 that the Claimant has been unable to work since his work related accident on March 17, 2015 and is not at MMI, the error being that the substantial evidence does not support this finding?
3. Did the Commissioner err in Finding of Fact No. 9 that the Claimant's inconsistent evidence is not significant enough to void the claim, the error being the conflicting evidence is significant regarding the weight given to Claimant's testimony at the hearing and statements given to medical providers?
4. Did the Commissioner err in Finding of Fact No. 12 as written, that a worker does not grasp that specific descriptions and chronology have the importance that attaches in workers compensation, the error being there is no evidence presented to support this finding of fact?
5. Did the Commissioner err in Finding of Fact No. 13, the error being that the substantial evidence does not support this finding of fact?
6. Did the Commissioner err in Finding of Fact No. 14, the error being that the substantial evidence does not support this finding of fact?
7. Did the Commissioner err in Finding of Fact No. 16 that Dr. Dwight Jacobus is the Claimant's authorized treating physician, the error being that pursuant to statutory case law, the Defendants' have the legal authority to designate the authorized medical provider and the substantial evidence does not support the finding?
8. Did the Commissioner err in Finding of Fact No. 17 in awarding temporary total disability because a note recommends light duty and said light duty was not offered and claimant was terminated, the error being the substantial evidence does not support the finding?
9. Did the Commissioner err in Finding of Fact No. 18 that the claimant is entitled to temporary total disability from April 20, 2015 and continuing, the error being the substantial evidence does not support the finding?
10. Did the Commissioner err in Conclusions of Law No. 2 that the claimant sustained an injury by accident to various body parts, the error being the substantial evidence does not support said conclusion?

11. Did the Commissioner err in Conclusions of Law No. 3 that the claimant is entitled/awarded medical treatment, the error being the substantial evidence does not support this conclusion?
12. Did the Commissioner err in Conclusions of Law No. 4 that the claimant is entitled to temporary total disability payments, the error being the substantial evidence does not support said conclusion?
13. Did the Commissioner err in awarding temporary total disability and medical benefits, the error being the evidence presented and statutory case law does not support said award?

Date of Injury or Illness: 3/17/2015

A claim for workers' compensation benefits is made based on the following grounds:

☒Injury ☐ Illness ☐ Repetitive Trauma ☐Occupational Disease ☐Physical Brain Injury ☐Concurrent Jurisdiction

1. The claimant sustained an injury to RUE, R shoulder, R hand (Part(s) of Body Injured) on 3/17/2015 in Pickens county, state of South Carolina.
2. Body part(s) affected are: RUE, R shoulder, R hand
3. Briefly describe how the accident occurred. Pulling warp off the machine and felt immediate pain in arm
4. Both the claimant and the employer were subject to the South Carolina Workers' Compensation Act at the time of injury.
5. The relationship of employer and employee existed at the time of injury.
6. At the time of the injury the claimant was performing services arising out of and in the course of employment.
7. Notice of the accidental injury was given to the Employer on March 17, 2015 (Month/Day/Year) in the following manner: verbal notice to Kim Lecroy

☒7. Due to injury, the claimant is in need of (check one):

☐(a) medical examination and treatment for: ____

☒(b) additional medical examination and treatment for: RUE, R shoulder, R hand

☐8. Due to injury, the claimant requests temporary total disability benefits because of lost compensable time from work and wages for the period of: TBD

☐9. Due to the injury, the Claimant has permanent disability of the following nature and extent (check one):

☐(1) General Disability: ☐Total ☐ Partial ☐(2) Specific Disability: ☐Total ☐ Partial ☐(3) Wage Loss

☒ 9a. ☒A determination of permanent disability is premature at this time.

☒10. Due to the injury, the Claimant has a serious bodily disfigurement consisting of: TBD

10a. At the time of the injury, the Claimant was paid weekly wages of $TBD, and demands accounting of days worked and wages earned as provided by law.

10b. Give names and addresses of all employers for whom the Claimant has worked since the date of the accident: Alice Manufacturing Company

11. Further grounds or unusual aspects of claim: Claimant reserves the right to amend the Form 50.

11a. List names and addresses of all physicians or other medical specialists who have seen or treated the Claimant as a result of the accident: , Easley Family Practice and Internal Medicine;106 John Street, Easley, SC 29640, Easley Baptist Hospital; P.O. Box 1687, Easley, SC 29641, Upstate Bone& Joint; 112 John St # 201, Easley, SC 29640

11b. To the best of your knowledge, did you have any prior permanent disability? No
If yes, describe: ____

12. Appropriate benefits as provided in the Act for the above grounds and other relief as the Workers' Compensation Commission may direct as just and proper.

14. Estimated time needed for hearing: ____

THE COURT: Today's date is February 10, 2016. This is Workers' Compensation Commission File No. 1505905. This is the case of Jeffrey Miller vs. Alice Manufacturing Company. The carrier is Great American Alliance Insurance Company. The claimant is represented today by Monty Desai and the employer/carrier are represented today by E. Ross Huff, Jr.

The date of accident is March 17, 2015. The claimant has an average weekly wage -- we didn't talk about that in pre-hearing. I'm reading from Mr. Huff's pre-hearing. Average weekly wage is $421 with a compensation rate of $280.68. Mr. Desai, would you stipulate that's correct?

MR. DESAI: That is correct, Your Honor.

THE COURT: All right. Are there objections to jurisdiction, venue, APA submissions, or any other items?

MR. DESAI: None from the claimant.

MR. HUFF: None.

THE COURT: All right. Without objection the Commission file becomes a part of the record with the exception of self-serving declarations and unstipulated medical reports.

We're here today, Mr. Desai, pursuant to a Form 50 you filed on behalf of your client. If you would, please place your client's position on the record.

MR. DESAI: Commissioner, our position is that on or about March 17th of 2015, Jeffrey Allen Miller, my client, suffered a compensable work injury. Affected at that time, right shoulder, right upper extremity, right elbow, right hand and neck, which is spine -- which is cervical spine.

Again, we've talked about the average weekly wage. We're good there. He is owed back TTD starting 4/20/15 when he was released from work because they could not accommodate light duty. Causation evidence in this case is Dr. Jacobus who has filled out a questionnaire and conducted an independent medical evaluation.

And that's about it.

THE COURT: Mr. Huff.

MR. HUFF: Thank you. I do need to make a correction and I apologize. When Monty just brought it up, it just brought it back to my mind. His APA Page 1 and 2 is a medical questionnaire. I do need to place an objection to that document in

that it consists of leading questions and we object to leading questions. Thus, it's to be ruled inadmissible as leading. I'd ask that as you review that, for you to make a determination whether or not that comes in. So I do object to that.

Our position is that --

THE COURT: Hold on. Do you want to speak to his objection?

MR. DESAI: Sure. Commissioner, these are standard questionnaires. We've been doing it for years. More importantly, this is an expert. Mr. Huff has had this for plenty of time. He could have gone again and deposed Dr. Jacobus if he chose to do so, did not do that. More importantly, if you look at the last question it says, "Have you been given the opportunity to add or redact anything you wish from this questionnaire?"

This isn't just a, you know, here are the questions, fill it out. We've actually said to him, "Hey, if you feel you need to change anything, Doctor, please do. Take anything, redact," and to that he says yes. So I appreciate the objection, but I don't even know that it falls within the realm of objections.

THE COURT: Anything else to your

objections, Mr. Huff?

MR. HUFF: Other than it was submitted to us as leading questions. My job is not to go over there and pay to take testimony on questions that I think are inadmissible. So I just stand by our objection.

THE COURT: All right. Your objection is noted for the record. Overruled. It's in. All right. What else, Mr. Huff?

MR. HUFF: Basically it's our position that this man did not have an injury by accident while working for our employer. You'll find as you go through the cross-examination and as you review the medical records that the date of accident could run anywhere from April or May because the reports give different dates of when this happened and how it could have happened. For an example, when you look at the 5/10/2015 Baptist Easley Hospital record where it talks about these injuries, it said it's a work injury of one month ago. One month ago from May 10th would be April 10th and this accident is being alleged to happen March 17th. So that date is wrong by that report.

If you look at the 6/5 -- 6/3/2015 report of Palmetto Proactive Health Care, it says,

"He states he has to pull large objects weighing around 5,000 to 6,000 pounds at work. He states it happened one month ago." One month ago. That one month ago would take you back to May because that was June 3rd. So now we're looking at -- we're looking at May. We're looking at April. But he says it now happened in March. Also, it says again in that report "one month ago." That would still put us into May.

What also our position is going to be, if you look at the report of Dr. Jacobus, which is their IME referred by the attorney on his behalf, it says, "He has to do a lot of pushing and pulling of significant weight equipment. The job requires him to pull between 5,000 and 6,000 pounds." And a rope is implied. So we'll ask you to look at that in conjunction with the testimony that he's going to give too.

We're also going to offer some evidence today to impeach him that we think that would go to his credibility and truthfulness and we ask that you weigh that when a determination is made.

Let's see if there's anything else I can say. That's about it, Commissioner. We'll let you hear the testimony.

THE COURT: Anything else, Mr. Desai?

MR. DESAI: No, sir, Your Honor. I think that we will let just the testimony will speak for itself.

THE COURT: All right. Mr. Miller, we are ready to hear from you now, sir. Two requests for you. First, speak up. The young lady at the end is making the record of this proceeding. It's imperative she hear you. Obviously both of the attorneys and I have to hear you. There is no microphone, so please do speak up.

Second request is if you're asked a yes or no question, please give me a verbal yes or a verbal no answer. It makes it clearer for us here today and it will make it clearer in the record going forward. Okay.

(JEFFREY ALLEN MILLER, being first duly sworn to tell the truth, testified as follows:)

THE COURT: Please state your full name for the record.

THE WITNESS: Jeffrey Allen Miller..

THE COURT: All right. Thank you, Mr. Miller.

THE COURT REPORTER: Would you please spell Allen for me?

THE WITNESS: A-L-L-E-N.

THE COURT REPORTER: Thank you.

THE COURT: All right. Mr. Desai, your witness.

DIRECT EXAMINATION

BY MR. DESAI:

Q. Mr. Miller, you are 43 years old?

A. Yes, sir.

Q. And your girlfriend's name is Darla?

A. Yes, sir.

Q. Is that who you live with?

A. Yes, sir.

Q. You have four children?

A. I've got four girls. Yes, sir.

Q. All right. Right-hand dominant?

A. Yes.

Q. And in the past you've been convicted of two DUIs and a couple of other criminal offenses?

A. Yes.

Q. Last grade completed was seventh grade; is that right?

A. Yes.

Q. And are you -- how would you rate yourself in reading and writing?

A. Not very good.

Q. What would you consider not very good? Can you read a newspaper??

A. Uh-huh. Barely.

Q. Okay. You can understand for the most part. Okay.

THE COURT: Back up. I don't type as fast as Mr. Desai talks.

MR. DESAI: I'm sorry, Your Honor.

THE COURT: That's quite all right. What was the last grade of school you completed?

THE WITNESS: Seventh.

THE COURT: Seventh grade. All right. Thank you, sir. Mr. Desai.

MR. DESAI: Thank you, sir, Your Honor.

BY MR. DESAI:

Q. And as far as your reading and writing ability, how would you rate that?

A. It's not very good. I have trouble spelling sometimes.

Q. Okay. Can you read a newspaper?

A. Yes, slow.

Q. Okay. And do you understand it after you read it?

A. Yeah.

Q. Okay. Who handles your family finances?
A. My wife, Darla.
Q. Did you have any significant health problems prior to March 17th of 2015?
A. No, I had some anxiety a little bit.
Q. And you've been seeing doctors for that; is that right?
A. Yes.
Q. And they have been giving you different medications for that; is that right?
A. Yes.
Q. Have all those medications been effective?
A. No.
Q. Have they all worked?
A. No.
Q. Okay. How would you say -- what would you say was your general state of health prior to this accident?
A. Pretty good.
Q. Let's go to your work history. After seventh grade, where did you start working?
A. I went to Mayfair Mills.
MR. HUFF: What was that again, please?
MR. DESAI: Mayfair Mills.

MR. HUFF: Thank you very much.

BY MR. DESAI:

Q. And what did you do at Mayfair Mills and what -- how old were you when you went to Mayfair Mills?

A. I believe it was -- right around 17. I worked in the spin room and they -- I don't remember what they call it now, pushing doffing boxes up and down out of a tray.

Q. And how long did you work there?

A. Not very long. I can't really remember.

Q. One year, two years?

A. It wasn't even -- it wasn't that --

Q. Less than a year?

A. Right around a year or less.

Q. Where did you go after that? Where did you work after that?

A. I think it was ECP Plastic Plant.

Q. Okay. What did you do there?

A. Machine operator.

Q. Do you remember approximately what year that was?

A. No. It was a little over -- I bounced from job to job every --

Q. Now, were you 17 at that time, too, or

were you 18?

A. I was 18, 19.

Q. Do you recall how long you worked there?

A. Not long. About the same. Same time.

Q. Less than a year?

A. Yeah.

Q. Where did you go from there?

A. I think I went to -- I may have went back to Mayfair then in the cart room.

Q. And how long did you work there?

A. It was a couple of months.

Q. Where did you go from Mayfair? Let me forward you back to 1991. Did you start the logging business in 1991 or were you getting into the logging business?

A. Yes.

Q. And tell us -- and then you worked until about 2011?

A. Yes.

Q. In the logging business?

A. Yes.

Q. Tell us what you did. Were you -- what did you do?

A. I cut the trees, drove the tractor, bring the log -- the trees out of the woods. Let's see.

Loaded the truck, worked on -- I done about all..

Q. Okay. And you did that until 2011; is that right?

A. Yes.

Q. So that's now 20 years?

A. Yes.

Q. Okay. Why did you quit in 2011?

A. The man that I was working for, he passed away.

Q. And who was that?

A. Laverne Stone.

Q. Mr. Stone passed away?

A. Yes.

Q. What did you do for income in 2011?

A. I started hauling scrap metal for myself.

Q. And how long did you do that?

A. About three -- I think three or four years.

Q. Okay. And what did you do after that? Is that when you started working for the defendant?

A. Moved to the mill.

Q. Which mill?

A. Ellison.

Q. Ellison Mill?

A. Uh-huh.

Q. And what did you do at Ellison Mill?
A. I started out doffing cloth.
Q. Okay. I'm going to slow down here for a second. Okay? Now, you said you -- you went there in 2014. What month of 2014?
A. It was March because my little boy was born then.
Q. Tell the Commissioner exactly what you did at Ellison Mill when you started working there.
A. I was doffing rows of cloth and taking them and pushing them to the cloth room, unloading them off the buggy, and you take -- take the beam back up there. You just had to do so many machines.
Q. All right. So I'm not -- I want to break that down a little bit. You said doffing cloth? Is that what you said?
A. Yes.
Q. Rolls?
A. Yeah, big rolls.
Q. All right. So describe to the Commissioner exactly what that is and what it takes to do that.
A. It's -- you got a little set of hand trucks you come up there with and you push it like to the edge of it and sometimes you have to grab the

beam and help jerk it out onto the buggy. It will have two big rolls on one machine or some of them have just one long one and, you know, like they're pretty heavy. It's a top feed in between them and you just jack it up on the buggy and then you take off and push them there just as fast as you can go.

Q. So you're not lifting these or how did you -- well, do you know how much these rolls weigh?

A. Two people can't pick them up.

Q. Do you know approximately how much?

A. (No response.)

Q. Would it help you if I were to show you your deposition where you may have said 4,500 pounds?

MR. HUFF: I'm going to object to the question. It's leading and suggesting an answer.

THE COURT: Sustained.

THE WITNESS: The rows are tall. They -- they don't -- the warps, they weigh about that.

BY MR. DESAI:

Q. Okay. So the rolls of cloth, you don't know how much they weigh. Is that what your answer is?

A. Yeah.

Q. And would you say -- you said two people

can't pick it up?

A. Right.

Q. All right. And you say you're pushing this once you -- you're already using machinery of some sort to lift them and put them on the buggy, right?

A. It said -- it's like a -- it's a wore out jack and it goes up under the edge of them. And if the rolls get too big to get up onto the jack, you have to go around to the side of it and pull one side and get it up on there and then go around the other side and drag it up on there. And then bounce -- I try to bounce the buggy to get it up on the -- jack it up on the --

Q. And you push it?

A. Yep.

Q. And where do you take it?

A. All the way to the other end to the weave room -- to the cloth room.

Q. And what do you do there?

A. Take the crane that comes down and fix it to the hooks on it, pick them up off the buggy and push them down on the table.

Q. So when you're pushing them down, what exactly are you doing? I mean, what --

A. You pushing it on a hoist and you push it till you get to a table that you can put it on and unload it..

Q. Okay. What does the unloading process entail? What does that do? What do you have to do there?

A. You just -- when you get over to the table that you want to put it on, you just take the master button to go down and it -- you just set it down on the table and you unhook it.

Q. Then you go back --

A. Then go back and get another one.

Q. Okay. How long did you do that particular job? You said --

A. I think about seven, eight months, maybe nine. Seven, eight months. Something around there.

Q. And then what did you start doing?

A. I went to the racking -- or warp rack hanging.

Q. What's it called?

A. A rack hand warp hanging.

Q. And what is that?

A. It's on the warp crew. And instead of the rolls of cloth that size, you going bigger now.

Q. Okay. Now, do you know how much they

weigh?

A. They got the weight on the ends of them. Some of them 4,500 to 5,000 pounds.

Q. Okay. And let me kind of step back just a minute. So you were moved to this other job description. Was that a promotion? Did you get a raise or anything with that?

A. Yes.

Q. Okay. So they thought you were doing a good job? Is that why they moved you over?

MR. HUFF: I'm going to object. It's a leading question.

MR. DESAI: I apologize for that.

BY MR. DESAI:

Q. So you got a raise?

A. Yes.

Q. And you started doing this other job?

A. Yes, sir.

Q. Tell me what you -- so once -- what was that -- describe that just like you did the other one. What do you have to do once you get to your station?

A. Well, it's -- it's sort of an easier job. More money. And you got a big long -- one big long warp that you put on a jack to take out there. But

when you go up to the machines, like when you're topped off, you got some waste on it. And instead of cutting it off, we have to pull it off. So we pull it off and you have to pull the beam when it's sitting on the little runner things there. You got to pull it. It takes two people to pull it. And you get all the waste off of it. And when you get all the waste off of it, you take a little crane, pick it up, put it on the jack, and then you go in another -- go get another.

Q. When you unload it, how do you unload it? You got to push it?

A. It's -- it's a motorized jack.

Q. What do you -- how does that work?

A. When you put it on the jack?

Q. Yeah.

A. You just mash a button and go find a place to put it. Take the full one up there, put it on the machine.

Q. You take that with a jack as well??

A. Yes, and then you pull it off. You pull off -- sometimes you pull off maybe 200, 300 yards. Sometimes you pull off 500 yards.

Q. And do you know how much that weighed?

A. We weighed them. Some of it was 50, 60

pounds. Sometimes it's more than that. It just depends on if they got hit when they was sitting out on the floor.

Q. Now, how long -- how many hours a day did you do that?

A. Eight hours a day.

Q. Do you remember seeing Dr. Dwight Jacobus at Oaktree Medical Center?

A. Yes.

Q. Did you ever tell Dr. Jacobus that you were pulling 5,000 or 6,000 pounds of material?

MR. HUFF: I object to the form of the leading question.

THE WITNESS: I don't recall.

MR. HUFF: You can ask him what he said, but he's suggesting the answer. That's a leading question.

MR. DESAI: I can ask him what -- if he told him that -- if he ever told him that. Okay?

THE COURT: Doesn't it say that in the medical records?

MR. DESAI: Yes, sir.

THE COURT: All right. Then I'm going to allow that.

BY MR. DESAI:

Q. Did you ever tell Dr. Jacobus that you pulled 5,000 to 6,000 pounds of weight by yourself?

A. No, there's two people that pulls with it.

Q. Okay. So did you tell Dr. Jacobus that you were pushing in your first job some weight, some rolls?

MR. HUFF: I'm going to object, again, to the question as it being leading. You can ask what did you tell the doctor, but he's suggesting the answer.

MR. DESAI: Everything that I'm asking is in there.

MR. HUFF: It may be in there, but it still is a leading question. I have to object.

BY MR. DESAI:

Q. Tell us what you have -- may have told Dr. Jacobus when he went -- when you went to see him, please.

A. That was -- I was having to pull off the --

Q. The waste?

A. Yes.

Q. Do you think you -- I'm sorry. Finish.

A. You have to grab it and pull it and

sometimes -- I mean, it's -- you got the whole weight of the beam sitting on the arms on the jack and the whole weight of what you pulling on and it's hard to pull. And it, you know -- it's just -- once you get it going, you try to go with it and you mess up and it gets lapped up around it. Then it's going to pull you out to it. So, you know, it's just -- it's just -- it's, like, it's a rough job.

Q. Did you describe what you just described to the Commissioner exactly what you just said to Dr. Jacobus as well as to what your job description was?

A. Yes.

Q. Okay. Let's go to the day of the injury. Do you recall what happened that day?

A. Yes. Me and Scott Raymond, the man that worked -- he was the lead on the job, and we was pulling off the warp and something popped in my arm and then my whole arm started burning. Well, I said, well, maybe it might get all right. So we finished that one and started another one, and I went and I told him -- I said -- and he seen it and he said, "Man, your arm's swelling up."

MR. HUFF: I'm objecting as to what somebody said that's not here.

THE COURT: You can't tell me what someone else told you because that person's not here for Mr. Huff to ask questions.

THE WITNESS: Okay. Well, I noticed my arm was swelling up. It swelled and it was a little sort of turning blue-like. And we went and told Kim and she -- the first time she sent me to the mill nurse. Then I told her, I said, "Look, the mill nurse said that she couldn't write a" --

BY MR. DESAI:

Q. Don't -- don't tell us what the mill nurse said.

A. I'm sorry.

THE COURT: You can't tell me what she said. This is an unusual situation when everybody comes in here and testifies, but just try and keep in your mind that you can't tell me what somebody else told you.

BY MR. DESAI:

Q. Remember what I said, what is your understanding?

A. Okay. My understanding was she couldn't write a paper saying light duty. Said that --

THE COURT: You can't --

BY MR. DESAI:

Q. Why was that your understanding? What led you to believe that?

A. My understanding was that somebody on up in the office said that the --

THE COURT: You can't tell what anybody said.

BY MR. DESAI:

Q. Let's get past that.

A. I don't know how to explain it in words.

Q. That's okay. Could the mill nurse write you at light duty?

A. No.

Q. Did the mill nurse write you at light duty?

A. No.

Q. Did you continue -- what did you do after that?

A. I went back and told Kim -- I guess I need to say my understanding again. She said, "You go out that door, you fired."

THE COURT: No, no, no.

BY MR. DESAI:

Q. You can tell me what you told Kim. Okay?

A. Oh, okay. I told her that my arm was

hurting and I needed to go see the doctor.

Q. What was Kim's response to that?

A. "You go out that door, you fired."

Q. All right. Did you go out that door?

A. Nope.

Q. What did you do?

A. I waited until, I believe, that Monday. I went to the doctor -- my family doctor. He wrote a light duty paper and I took it to Stan Brooks and he said they didn't have light duty.

Q. Okay. Now, did you continue working for a period of time after you were injured before you went to see the doctor?

A. Yes.

Q. How long?

A. I don't recall exactly how long.

Q. More than a month, less than a month?

A. It was around about.

Q. And is that when you went to Kim to say that you were injured?

MR. HUFF: I'm going to object to the question.

THE COURT: What's your objection?

MR. HUFF: It's calling for hearsay and the person is not here to cross-examine.

THE COURT: I think his question was: "Is that when you went?"

MR. HUFF: I have no problem when he went. It's what he said. So I think if he could rephrase the question.

MR. DESAI: He has already testified what he told Kim. Now what I'm saying is, is that when you went back to tell Kim what you had testified earlier, is what I'm asking.

THE COURT: I mean, to testify as to when he went is not hearsay.

MR. HUFF: All right. I agree.

BY MR. DESAI:

Q. And this is a little confusing and that's why I'm trying to break it down. Okay? You went to the nurse?

A. Uh-huh.

Q. She sent you back to work or you went back to work; is that right?

A. Yes.

Q. You continued working for a period of time; is that right?

A. Yes.

Q. And then you went to Kim?

A. Yes.

Q. And then you informed her what you said, is that you were hurting?

A. Yes.

Q. And that's when you were told that you walk out that door, you're fired; is that right?

A. Yes.

Q. And then it was that following Monday that you went to see the doctor?

A. Yes.

Q. Is that right?

MR. HUFF: I have to object to leading questions. You can ask him when he went back to the doctor, but --

MR. DESAI: He already testified it was Monday. I'm just verifying it.

MR. HUFF: It's still a leading question.

MR. DESAI: Okay. Fair enough.

THE COURT: All right. I'm going to ask everyone to step out but the lawyers, please.

(Off the record.)

THE COURT: Let's go back on the record.

BY MR. DESAI:

Q. All right. What we were talking about --

and if I can just take a minute to summarize what he had said so that he -- to just bring him back to where we were.

Injury. You went to see the mill nurse. You went back to work and at some point you reported to Kim, at which point she told you either -- if you go out the door, you're gone. And now we are back to Monday after that conversation.

THE COURT: Is that whole list Mr. Desai just listed, is that all your recollection of what you testified to?

THE WITNESS: Yes.

THE COURT: All right. Go ahead.

BY MR. DESAI:

Q. And just to make it clear, there was a period in between you first going to the nurse and then going to Kim; is that right?

A. Yes.

Q. And you mentioned earlier that was less than a month, right??

A. Yes.

Q. Okay. After your conversation with Kim, you went to see your family physician; is that right?

A. Yes.

Q. And do you recall the date?

A. No. It was...
Q. If you don't remember, you don't remember.
A. I don't remember.
Q. Okay. Fair enough.
MR. DESAI: Commissioner, that's the 4/20 record that I mentioned earlier. I looked up the day. It actually happens to be a Monday. It's part of the medical records. That was Page 54 of our APAs, Commissioner.
THE COURT: Okay.
BY MR. DESAI:
Q. Now, what did you tell your -- who did you see that day when you went to see the doctor or do you remember?
A. I seen so many doctors, I can't remember.
Q. But do you remember that first time that when you went to see your family physician? Was it a lady? Was it a man? Do you know who that was?
A. It was -- it was the -- the practitioner, I think. I seen her.
Q. And is that who you are referring to when you say you went to see a doctor or is that somebody else?
A. Yes.
Q. Okay. Did you tell them you were hurting?

A. Yes.

Q. What specifically did you tell them or do you remember?

A. I just said I got it hurt at work and I was just hurting, and she said that she could give me a light duty paper for, I think, seven days and she could write me out of work for that day.

Q. Okay. Did she, in fact, give you a light duty note?

A. Yes, yes.

Q. And did you take that back to your employer?

A. Yes.

Q. And who did you take that note back to??

A. I took that one to Stan Brooks.

Q. And who is Stan Brooks?

A. He is the HR man at the mill.

Q. And I didn't do a very good job asking you who Kim was. Who is Kim, by the way?

A. She's one of the supervisors from first. She's in the weave room.

Q. Okay. And is that who you report to directly?

A. Yes.

Q. And what is Kim's last name?

A. LeCroy.

Q. Okay. Took the note back to the HR department, right?

A. Yes.

Q. And what did they say? What was -- what was your understanding of -- did they allow you back to work light duty?

A. No.

Q. What was your understanding of why they did not allow you to work light duty?

A. They said they didn't have light duty and for -- I had to be on --

Q. Your understanding. You could probably talk about HR.

A. My understanding of -- let's see. How was I -- did it go -- we went -- when I handed him the paper, he said, "I'm sorry. We don't have light duty. You just take off for seven days." Well, I had to go back to the doctor again and she kept me out a little bit longer. And let's see. I've yet -- yet to go back to work.

Q. Have you -- were you asked to fill out any kind of accident report?

A. No.

Q. Did they even mention any sort of workers'

comp benefits to you whatsoever?

A. No.

Q. Okay. Why haven't you returned back to work with your employer?

A. My arm is still hurt and the doctor still got me out.

Q. And the last time you communicated with the employer, what is your understanding of availability for light duty?

A. They don't have it.

Q. And what leads you to believe that or what led you to believe that?

A. I don't really exact -- I don't understand that question.

Q. Okay. Is that your understanding because of the conversation between you and the HR person?

A. Right.

Q. Okay. Prior to getting injured, what type of physical activities did you do at your work as far as lifting, walking, standing, stooping, pushing, pulling? Tell me about that. What was the --

A. Pretty active. You stayed busy, you know, pulling the warp. Sometimes the slasher room had warps down and we had to go down there and pull them down.

Q. Okay. In your opinion, just speaking for yourself, would you had been able to do that job if you were hurting the way you are hurting right now?

A. No.

Q. And would you have been able to do it for a year?

A. No..

Q. How long did you continue going to your doctors for the pain?

A. I'm still going to them.

Q. Okay. And at some point, did you end up going to see an orthopedic doctors?

A. Yes.

Q. And who do you recall seeing?

A. I seen someone over here at Palmetto Proactive.

MR. DESAI: Commissioner, may I lead on this one? I mean, it's part of the medical records. I'm just going to see if he went to a particular practice.

MR. HUFF: I have no problem with that.

THE COURT: Go ahead.

BY MR. DESAI:

Q. Did you go to Palmetto Bone & Joint? Do

you recall going to them?

A. Yes.

Q. Okay. Who sent you to them??

A. Let's see. It was the family doctor.

Q. Okay. And do you recall the date on that?

A. No.

Q. Could it -- was it sometime after the family practitioner visit?

A. Yes.

Q. Of April 20th that we talked about?

A. Yes.

Q. Okay. Was it about more than a month or less than a month? If you don't -- if you don't remember, that's perfectly okay.

MR. DESAI: Commissioner, if I can just show him a document that's already been submitted, Page 39 of my APA?

THE COURT: Let me turn to that. Let Mr. Huff turn there first, please.

MR. DESAI: Yes, sir.

MR. HUFF: Thirty-nine. Okay. I'm there.

BY MR. DESAI:

Q. Let me just refresh his recollection here. Do you see what that says, that date right there,

5/13?

A. Uh-huh.

Q. Is that -- do you agree that that's probably the right date?

A. Yes.

MR. DESAI: Commissioner, that's the page.

BY MR. DESAI:

Q. Now, do you recall what did you tell the doctors that particular visit?

A. That I -- it was hurt at work and they had no light duty. I went through it so much talking to him and all, I don't remember exactly what.

Q. Okay. But you did -- do you recall telling him how long you'd been hurting or when that accident could have happened? If you don't, you don't.

A. I may have said --

THE COURT: If you don't remember, you don't remember.

THE WITNESS: Yeah, I don't.

MR. DESAI: Okay. Commissioner, I would just point your attention Page 39 in the paragraph where it says, "History of Present Illness: 42-year-old white male here for one or two months of

right lateral elbow pain." And I say that one or two months is significant because the day is 5/13 and it encompasses that time where the injury could have happened and I think that's the most accurate reporting page and the symptoms.

BY MR. DESAI:

Q. Did you -- did you know anything about workers' comp or anything like that at that time?

A. No.

Q. When did you hire me; do you remember?

A. It was -- I don't even remember that date.

Q. Was it after May 13th?

A. After --

Q. Was it two months after the injury or three months after the injury?

A. Yes.

Q. Okay. Do you believe you were being honest with the doctors when you told them that you had been hurting for one or two months?

A. Yes.

Q. Were you honest to Dr. Jacobus?

A. Yes.

Q. Let's talk about Dr. Jacobus very briefly and then I'm done, Commissioner. What -- when did you go see Dr. Jacobus, if you remember?

A. I don't remember.

Q. That's okay. Do you believe you were honest with Dr. Jacobus?

A. Yes.

Q. How much time did Dr. Jacobus spend with you?

A. Quite a bit.

Q. When you say "quite a bit," more than an hour?

A. Around an hour. Maybe a little more.

Q. Okay. Do you believe that he was very thorough? Do you think he asked you all the questions you felt -- do you feel -- were you happy with that visit?

A. Yeah.

Q. Okay. Did you tell Dr. Jacobus everything that you felt like he needed to know?

A. Yes.

MR. DESAI: Okay. All right. Commissioner, at this point I will just go ahead and say that all of this is in evidence, so there's really not a whole lot. I would only direct you to the IME that was performed by Dr. Jacobus. He does mention -- he talks about the history, his appointment, talked about the forms that were filled

out and more important --

THE COURT: I will read all of the APAs.

MR. DESAI: Yes, sir.

BY MR. DESAI:

Q. Are you still hurting?

A. Yes.

Q. If the Commissioner were to rule for you -- the Commissioner were to rule in your favor, what do you want?

A. I want my arm to quit hurting.

Q. Do you want to go back to your doctor?

A. Yes.

Q. Is that all -- is that what you want?

A. Yeah. I want my arm like it was, you know, or close to being like it was.

Q. Do you want to go back to work after it's done hurting?

A. Yes.

MR. DESAI: Okay. I have nothing else, Commissioner.

THE COURT: All right. Mr. Huff.

MR. HUFF: Thank you.

CROSS-EXAMINATION

BY MR. HUFF:

Q. Let me go back a little backwards here to see something. You have filed a claim that what's happened to you and the problems that you're having right now and you're saying it's a result of getting hurt on the job on March 17th of 2015?

A. Yes.

Q. And I took your deposition and I thought you may have had two accidents and you told me you only had one accident; is that correct??

A. I don't understand what you --

Q. I'll rephrase the question. Did you have more than one injury by accident while working for Alice or only this one?

A. That's just that one.

Q. Have you ever had any other workers' comp claims before?

A. No.

Q. With anybody?

A. No.

Q. Never had any before? And you're sworn to tell the truth and nothing but the truth, so help you God?

A. Not that I recall of any of them, no.

Q. You don't remember any of them? Let me ask you something and it's a very simple question

because your answer is truthful; right? Is your answer truthful today?

A. Yes.

Q. You're not giving false testimony today?

A. No.

Q. You're not lying under oath today?

MR. DESAI: I think we've belabored that point.

THE COURT: Let's move on.

MR. HUFF: I'll move on.

BY MR. HUFF:

Q. Let me show you a document and ask you if this document looks familiar to you?

MR. DESAI: Before we go into any of that, Commissioner, if I may object to any exhibits that --

MR. HUFF: It's impeachment. I'm not going to --

MR. DESAI: I understand that. I have the right to inspect any documents that may be presented today or subject --

MR. HUFF: (Mr. Huff gives documents to counsel.)

MR. DESAI: There you go. That's a great notice.

MR. HUFF: I'm not using --

MR. DESAI: I don't know what the question is going to be. I had the right to know what it is that he is relying on to ask to impeach my client. I had the right to inspect that document.

MR. HUFF: I'm giving it to you to inspect it. I'm not giving it to the Commissioner. I'm just asking --

MR. DESAI: That's not going to be part of the exhibit, is what you're telling me?

MR. HUFF: I'm not planning on -- I'm going to ask what his testimony is. If he commits perjury, I'm going to -- definitely going to put it in.

MR. DESAI: But who would you rely on to admit this document, sir?

MR. HUFF: I don't have to answer your question.

MR. DESAI: Sir, I would object to the admittance -- first of all, the referring to this document. I don't even know what this document is. It's the first time I've seen it. Mr. Huff has had ample opportunity to list his exhibits that he intends on introducing today in court, especially if he wants that to be part of the record. Now, I don't

know what these documents are. I don't know what the foundation of your documents -- these documents is going to be. I don't know who is going to introduce this. A lawyer certainly can't be a witness. So I don't know what -- how that comes in.

MR. HUFF: You can object when I try to put it in. But right now, you can't do an objection because you don't know how I'm going to put it in. And I'm not obligated to tell you my strategy on how I plan to present my case.

MR. DESAI: I don't need to know that, Commissioner, but he's referring to a document that could or could not come in, number one, and he's never even shared that with anyone.

THE COURT: He can ask him a question about it.

MR. DESAI: Okay.

THE COURT: Your objection as to whether or not it comes in, that's another issue and we'll deal with that should he want to offer.

MR. DESAI: Sounds good. And I would just ask at that time, if he were to offer, I would ask the Commissioner to ignore that document.

THE COURT: Well, we'll deal with that when that time comes.

MR. DESAI: Thank you, sir.

THE COURT: All right. Go ahead, Mr. Huff.

BY MR. HUFF:

Q. I gave a copy to your attorney. I'm going to give you a copy of this document, sir, and I'm going to have you look at it and then I'll have you turn to Page No. 5. Is that your signature, Jeffrey Miller?

A. This one right here?

Q. Yes.

A. It's not my signature.

Q. That's not your signature?

A. No, sir.

Q. This right here says, "Employer."

A. That's -- I ain't even heard of that place.

Q. Okay. Thank you.

MR. DESAI: I guess I need to look at the medical records to make sure we got the right Jeffrey Miller.

BY MR. HUFF:

Q. Your attorney brought this up in your direct examination about your criminal record, and you said you had two DUIs and a couple of others.

What couple of others have you had?

A. I think CDV, criminal domestic violence. Drunk and disorderly, I think might be one of them. No felonies, nothing like that bad.

Q. Ever broke into automobiles or anything like that?

A. No.

Q. Do you remember getting arrested in April of 1990 for auto breaking?

A. Yes, I did get arrested for it. Yeah.

Q. But you just told me earlier you didn't. Now you did. Okay. Have you done anything involving a fraud?

A. No.

Q. Have you ever written fraudulent checks in 2000 and in 2010?

A. I can't even write a check. My ex-wife was the one that wrote the checks out.

Q. But you were arrested for it, though, weren't you?

THE COURT: Did you sign the check?

THE WITNESS: Yeah. Well, I'd sign them and she'd sign them. She put my name on them. She took care of all the bills and all that.

BY MR. HUFF:

Q. What about April of 2005, arrested for receiving stolen goods? You didn't tell me about that one either, did you? April 11, 2005, stolen goods?

A. I don't recall that one now.

Q. What about just in 2011, February 17th of 2011, giving false information? Do you remember getting arrested for that one?

A. Yes.

Q. You didn't tell me about that, though, when I took your deposition, did you?

A. Well, I didn't know exactly how many I did have and you said just a few.

Q. All right. Okay.

A. When you don't understand the question, you know, I need to get my police record. I forgot it.

Q. So you gave that answer because you didn't understand the question? Is that your testimony today?

A. (No response.)

Q. You said you didn't understand the question. So your testimony is that you didn't understand the question. That's why you answered the

way you answered; is that correct?

A. Yeah, I guess. You said just name off a few of other ones you had.

Q. But you just said today, the answer you gave, was because you didn't understand the question. Is that what you're saying today, that you didn't understand the question when I asked you that question in your deposition? Is that what you're saying or not saying that?

A. I don't recall exactly how you said -- asked me the questions or which angle you went with.

Q. All right. But today did you not just testify earlier you answered the way you answered because you didn't understand the question in the deposition?

A. Well, I didn't understand the question. I just answered -- you said a few, just name off a couple of things you had or if you had a criminal record, and I did.

Q. So I asked you to name off of a couple of things or did I ask you if you had a criminal record? I never used the words "couple of things," did I? I can go to the index and see if I used the -- I know I didn't use that word.

A. I don't know.

Q. I asked you in your deposition, "Have all your answers been truthful? Did you understand the questions and give a truthful answer?" And you gave me a one word response and you said, "Yes". So you said every question that I asked you in the deposition you understood and gave truthful answers, correct?

A. If I don't recall some of them or I may have forgot about some of them.

MR. DESAI: Have we shown him the deposition?

MR. HUFF: I'll be glad to.

MR. DESAI: Please do. That would help him.

BY MR. HUFF:

Q. I'll have you look at Page 45, Line 24 through 25 and the top of Page 46. Read my question and read the answer.

MR. DESAI: It would be easier if you just pointed to it.

BY MR. HUFF:

Q. I'll read it for you. Line 24, Question, "So if you answered the question, you're indicating you understood the question and gave a truthful answer, correct?" I'm going to have you look at Line

2 on the next page and tell me what answer you gave me. Did you say yes or did you say no?

A. I said yes.

Q. So you understood the question? And all these other things I brought up today that you're now admitting, you never told me about, did you?

A. I didn't think I had to tell you everything -- every technical thing, I mean, word for word.

Q. Okay. When you talked to the doctors and told them what problems you were having or symptoms, were you truthful to them or were you lying to them?

A. I've been truthful with them, yes.

Q. All right. When you gave them a time frame on when this happened to you, were you truthful with them or were you lying to them?

A. I was truthful to the best of my knowledge and what I could recall.

Q. All right. And you testified that you never had any prior arm problems, is that correct, on the right arm?

A. I might have had like a -- maybe a pulled muscle or a bruise on it or something like that, but not nothing --

Q. Did you ever seek medical treatment for

any prior problems with your arm -- with your right arm?

A. I'm not sure. I may have. When you're logging, you may -- you get bruising.

Q. Do you know when you may have had prior problems or medical treatments?

A. I'm not sure.

Q. Do you remember denying you ever had any prior problems with your right arm or shoulder in your deposition?

A. I may have. I mean, it's --

MR. HUFF: Okay. Commissioner, I would just draw the attention as you review my medical evidence, which I think is from -- let me go over there and look at it.

MR. DESAI: Page 181.

MR. HUFF: Pardon?

MR. DESAI: Page 181.

MR. HUFF: On Page 181, I bring to the Commissioner's attention. I'd also bring to the Commissioner's attention as you read the note -- the 2/27/12 report. And, also, there's a comment of a health report of 10/24/04, and I bring that to the Commissioner's attention.

THE COURT: 10/24/04?

MR. HUFF: Yes, sir, Commissioner.

BY MR. HUFF:

Q. Sir, if I gave you the date of May 10, 2015 and I said go back one month, would that not take you to April 10th of 2015, one month earlier?

A. Yes.

Q. Because I'm looking at the report of the 5/10/15 report at Baptist Easley Hospital which we put in and it says that this alleged work injury that we're denying occurred one month ago, not two months ago, which would take you all the way back to March. This says one month ago, April. Why did you tell them it's one month ago?

A. I don't recall. I mean, I've -- I can't remember dates.

Q. Okay. Then I'm looking at Palmetto Proactive Health Care of 6/3 of 2015 and it says, "He has to pull around objects weighing 5,000 to 6,000 pounds at work and he states one month ago he noticed burning in his arm." That takes you back to May. That's two months after this alleged accident that you said happened, right?

A. When -- when I was out of work, all the time stood still. Well, I'm sorry about the dates. And I -- I did --

MR. DESAI: Commissioner, I'm going to object just a little bit about that. I think that some of his questions are misleading in asking that, "Why did you tell him that?" rather than "Did you tell them that?"

MR. HUFF: I can ask my questions the way I want to ask them.

MR. DESAI: Well, I think those are misleading, but okay.

THE COURT: You'll have an opportunity to question him again.

MR. DESAI: Thank you, sir.

BY MR. HUFF:

Q. I'm going to look at this report from Oaktree Orthopedics that your attorney has put in. I think it's Dr. Jacobus. Does that sound correct to you?

A. Yes.

Q. How many times have you seen Dr. Jacobus?

A: A bunch.

Q. All right. When you first saw him this date of August 4th of 2015, how long did he spend with you?

A. I don't recall. It was -- we just -- it's been a while.

Q. Was anybody in the room with him other than you?

A. My girlfriend.

Q. Did you give him any false information?

A. None that I -- that I intentionally did of any kind. I mean, I told him everything because he's trying to help me.

Q. Did you lie to him?

A. No.

Q. So whatever you told him was truthful?

A. Yes.

Q. What item do you push or pull that has significant weight? Is it these 5,000 to 6,000 pounds -- what do you call them?

A. Beams.

Q. Beams.

A. The beams, you know, it's just like I said, you pull them off. It takes two people to pull the weight off of the beams. And you having to pull the beam itself, get it spinning, and you have to pull the waste up off of them.

Q. Are you moving the beam or just pulling some waste off of them?

A. No, it's -- the beam is sitting on a -- on the side of the crane on the machine which has got

two arms like this. The beam is sitting -- you pull the beam out on them little hangers on it and it's sitting in -- up in there. You just take off and start pulling. It don't have bearings on it. It don't have a gear to turn it or nothing. It's just you've got to pull it by muscle.

Q. Why would you apply a rope?

A. I don't know why you got -- I don't understand that. What now?

Q. Are you using a rope to turn it?

A. No, you wrap it up and twist the waste. You twist it up like a rope and then start pulling it so you can -- you can't -- you got to get it in your hands and then, you know -- most of the time it will wrap it around your hand and get it.

Q. And who is that helping you do that?

A. Scott Raymond.

Q. He could verify this happened? You told him it happened? He saw it happen?

A. Yes, he was right beside me.

Q. Where is he today? Did you subpoena him to be here today?

A. No.

Q. Okay. So you have a witness that could verify this happened and you didn't subpoena him to

be here today; is that true?

A. (No response.)

Q. Is that true?

A. Yes.

Q. Okay. Isn't it true that you were having right arm pain and numbness back in -- I'm showing on February 27th of 2012 that you went to the Baptist Easley Hospital and told them that, isn't that correct, right arm numbness?

THE COURT: What was the date of that, Mr. Huff?

MR. HUFF: That is 2/27/2012 at 16:45, which, I think, would be 4:45.

BY MR. HUFF:

Q. Do you remember it? It says it right there, "Right arm numbness." Did you go there for that treatment?

A. I did, yes.

Q. I'm showing that -- and it's my APA, I think, Page 209. It's the emergency room department on 5/10 of 2015 and you had an accident one month before that. That would be April 10th of '15, which would be after the date that you're saying of 3/27; is that correct?

A. I don't --

MR. DESAI: If you don't know, you don't know.

BY MR. HUFF:

Q. Yet the report that I have on Page 209 and 210 of my APAs from the hospital dated May of 2015, May 10th, gives the following history, "Right elbow and shoulder pain from a work injury one month ago." Would you dispute that that's what it would say?

A. And that's from 2012?

Q. No, this is 2015. One month earlier than May would be April, which is after the date you said.

MR. DESAI: The records say what they say. I don't know how he can verify -- I mean, they say what they say. They've been admitted.

MR. HUFF: I'm asking does he dispute it. He's disputed other stuff.

THE WITNESS: Then it says what it says. That's all I'm saying.

BY MR. HUFF:

Q. Thank you. Do you remember going to Palmetto Proactive Health Care for treatment?

A. Yes.

Q. I'm showing one on June 3rd of 2015 and it says, "He states about one month ago, he noticed a burning pain in his arm." Would you dispute that?

A. I guess all my months got messed up right there when you are having to worry about family to take care of at home.

MR. HUFF: I'm going to be near the end, Commissioner. Just one second.

THE COURT: All right.

MR. HUFF: I have no further questions. Thank you.

THE COURT: All right. Mr. Desai.

MR. DESAI: Very briefly, Commissioner.

REDIRECT EXAMINATION

BY MR. DESAI:

Q. You were asked -- earlier you were -- Mr. Huff went through the criminal records. Do you remember that?

A. Yes.

Q. At the time that you answered those questions, did you believe you were telling the truth?

A. Yes.

Q. And let me point you to your deposition, Page 41.

MR. DESAI: By the way, have we marked and given the Commissioner a copy?

MR. HUFF: I'm not putting it in. It's a discovery deposition.

MR. DESAI: Okay. That's great. Well, then, I can give -- I'll refer to it just like you did.

BY MR. DESAI:

Q. Do you recall telling -- do you recall what was asked of you that particular day?

A. No, not really.

Q. Let me -- can you read that for the record please, sir?

MR. HUFF: And what are you reading from?

MR. DESAI: Starting right here, Page 41, Line 3.

MR. HUFF: Thank you very much.

MR. DESAI: Commissioner, if you'll allow me to, I'd like to read it in the record just to --

MR. HUFF: I have no --

MR. DESAI: -- if that's okay with everybody.

MR. HUFF: I have no objection.

BY MR. DESAI:

Q. The question is: "I think earlier you

testified -- you did testify that you had been arrested?" Answer by Mr. Miller is, "Yes."

"How many times have you been arrested?"

"Answer: About seven or eight."

"Tell me what you've been arrested for."

"DUI."

"All right. More than one time?"

"Right."

"Yes?"

He says, "Yes."

"You told me at least two times."

"Yes."

"All right. What else?"

"Driving under suspension."

"All right."

"I think CDV," is what Miller says.

"Question: Criminal domestic violence?"

"Answer: Yes."

"Question: How many times for that? Once, twice?"

"Answer: Two, I think."

"Question: Two times. Anything else?"

"I got two DUIs, two criminal domestic violence, driving under suspension."

He says, "I think that's it."

Now, can you -- you said seven or eight times, did you not?

A. Yes.

Q. If you count all that up, how many numbers is that? What does that add up to? Two DUIs, two CDVs, and a driving under suspension?

A. Eleven.

Q. Wait a minute. Two DUIs, right?

A. Two.

Q. Two CDVs?

A. That's four.

Q. And a driving under suspension. What does that come up to, five?

A. Five.

Q. And you said seven to eight, right?

A. Uh-huh.

Q. So you did tell Mr. Huff that you were arrested on seven to eight -- on seven to eight different occasions, did you not?

A. Yes.

Q. And you were being honest about that?

A. Yes.

Q. You just didn't remember the exact crime that you were charged with?

MR. HUFF: I object. The question is

a leading question. You can't --

MR. DESAI: I retract that question.

MR. HUFF: Thank you.

BY MR. DESAI:

Q. Mr. Huff talked to you about a 2012 note where you were complaining not only of -- he mentioned just the right arm. Were there other things you were complaining of that day that you can recall?

A. Yeah, the -- let's see.

Q. If you don't recall, you don't recall.

MR. HUFF: Commissioner, I'll object.

MR. DESAI: Okay. Fair enough.

BY MR. DESAI:

Q. This is the chief complaint and let me read that and you tell me if you didn't complain of that. Okay? Page 181, defendants' APA. His chief complaint about a third down on the page, sir. "Complains of right arm numbness, right facial numbness, onset with dizziness and headache." Do you recall why you were in the hospital that day?

A. The medication was -- the doctor that give me was wrong, I think. Yeah, yeah.

Q. You had a reaction to the medication?

A. Yes. It was two medicines that wasn't

supposed to be put -- you can't take two of them at the same time and I was on it.

Q. All right. Page 204 of defendants' APA. Do you recall getting this particular document? Do you recall --

A. Yes.

Q. -- being discharged from there?

A. Yes.

Q. Do you recall this document?

A. Yes.

Q. And do you recall what that document said? Did somebody read this to you and explain it to you at the time you were discharged?

A. Yes.

Q. Did you understand that if your pain were not to get better, you were to get a follow-up MRI 24 to 48 hours if symptoms persist?

A. Yes.

Q. Did you ever get an MRI in 24 to 48 hours?

A. No.

Q. Why is that?

A. They took me off the medication.

Q. And you never had any symptoms again?

A. No.

Q. Going back to the 6/3 note that Mr. Huff

referred to earlier, I think you have the right to read the entire note. The note says, "He states about one month ago, he noticed burning in his arm."

MR. DESAI: If I may, Commissioner, I'd like to read the entire note. And it's only three or four lines.

MR. HUFF: What's the page number?

MR. DESAI: Claimant's APA, Page 32, sir.

MR. HUFF: Appreciate it.

MR. DESAI: And it's in the problem section, line two. For the sake of completeness, it says, "He informed his supervisor --" so it goes -- "He states about one month ago, he noticed burning in his arm. Right arm. He informed his supervisor, but nothing was done. Patient continued to work for another month and pain and burning got worse. Patient went to PCP who sent him to another facility where the doctor stuck a needle in and out of my arm and -- made -- made pain worse. Diagnosis was tendonitis. Patient states he now cannot move his arm. He cannot make a fist. His shoulders and elbows are popping. He has swelling down the arm and hand and he states that his fingers go numb."

MR. HUFF: Page number again?

MR. DESAI: 32, sir.

MR. HUFF: Appreciate it.

BY MR. DESAI:

Q. So that note was written in June; is that right?

A. Yes.

Q. So according to that note -- if you were to read the entire note, the first time you complained of was about three months ago or approximately thereof; isn't that right?

MR. HUFF: I'll object. It is a leading question.

MR. DESAI: I mean, it speaks for itself. The first line is what it is and then (the doctor goes on to say exactly what you want it to say which matches the timeline. I have nothing else. Thank you.

THE COURT: Mr. Huff.

RECROSS-EXAMINATION

BY MR. HUFF:

Q. All right. Let's look at this one here, Page 32. It's dated June. One month ago you noticed it which would take you to May. If you continued to work another month --

MR. DESAI: Are you asking -- I need

you to say something on the record, if that's okay.

MR. HUFF: I'm going to ask a question. I'm just reading it so I can form my question.

MR. DESAI: While he forms a question, Commissioner, I'll just -- I don't know what your general practice is about a very quick two-minute summation as far as pointing to the evidence.

THE COURT: No summation.

MR. DESAI: Okay. That's why I wanted to make sure if I needed to ask that question of if I need to go ahead and read it until the hearing is over.

BY MR. HUFF:

Q. All right. Looking at this report, it says, "One month ago, he noticed burning in his arm." Next sentence, "He informed his supervisor." So when you noticed that pain in your -- that burning in your arm, you notified your supervisor?

A. Yes, I told him.

Q. If this happened in June and you haven't worked since March, how could you have ever informed her?

A. All I know is I told her and --

Q. It says also -- this is -- this is June. It happened a month before which is May. And it says you continued to work for another month. How could you continue to work for another month when you're already not working?

A. I think the dates are all messed up there somewhere.

MR. HUFF: I have nothing further.

MR. DESAI: Commissioner, this is very important and I do need to set this up in that this makes absolutely no sense. It's consistent in itself when it says one month on his arm.

MR. HUFF: Are you still referring to Page 38?

MR. DESAI: That is correct. Thirty-two, sir.

MR. HUFF: Thirty-two.

FURTHER REDIRECT EXAMINATION

BY MR. DESAI:

Q. Reading the entire note that I have in the record, it states -- now, tell me if this was right or wrong. "He informed his supervisor, but nothing was done." Is that true?

A. Yes.

Q. And that was on 3/17?

MR. HUFF: I object to the leading question.

THE WITNESS: Yes.

MR. HUFF: He can ask what date it was, but not suggest the answer. That's leading.

BY MR. DESAI:

Q. Do you recall what date that was?

MR. HUFF: You've already suggested the answer.

THE WITNESS: Yes, it --

THE COURT: Would you have known the date if you had not heard Mr. Desai just say it?

THE WITNESS: I'd have to think on it.

MR. DESAI: Commissioner, he's already testified that he was injured on that date, the date of the accident.

BY MR. DESAI:

Q. That's why it says, "Continued to work for another month and pain/burning got worse." Is that right?

A. Yes.

Q. You testified earlier that the pain got worse and then you ended up going to see your primary care physician; is that right?

A. Yes.

Q. Is that consistent with that? If the injury would have occurred on March 17th and the pain -- you continued to work, right?

A. Yes.

Q. And the pain got worse and then you went to see your primary care physician, is that right, your family doctor?

A. Yes.

Q. And that's who you went to see on 4/20, as you testified earlier, did you not?

A. Yes.

Q. You went to see another facility after that; is that right?

A. Yes.

Q. And then you went to see Palmetto Proactive Health Care; is that right?

A. Yes.

Q. So that is the order of how that all happened; is that right?

MR. HUFF: I'm going to object to suggesting the answer again.

MR. DESAI: I'm just asking if that order that's stated in there is how it happened.

THE COURT: He didn't suggest the

order. He can ask that question. He didn't suggest the order. He said, "Is that the order?"

BY MR. DESAI:

Q. Is that the order that it happened in? Did you see the doctors in that order as it's stated in that note?

A. I believe -- I believe so.

Q. Did you tell this physician or provider that it happened a month ago or do you recall?

A. I don't recall. I may have.

MR. DESAI: I have nothing else.

THE COURT: Mr. Huff?

MR. HUFF: I have nothing further.

THE COURT: All right. Thank you, sir. All right. Let's go off the record, please.

(Off the record.)

THE COURT: Let's go back on the record. I believe we had finished with Mr. Miller. Any other witnesses, Mr. Desai?

MR. DESAI: I'm not going to call anyone.

THE COURT: All right. That's your case?

MR. DESAI: Yes, sir, it is.

THE COURT: All right. Very well.

All right. Mr. Huff. Witnesses?

MR. HUFF: Yes, Kim LeCroy. Capital L, little E, capital C-R-O-Y.

THE COURT: All right. Ma'am, I've got two requests for you. The first is speak up. The young lady down there sitting by you is making the record. She needs to hear you, both of the attorneys need to hear you, and I need to hear you.

THE WITNESS: Okay.

THE COURT: And while this is a small room, sometimes folks trail off. They get so involved in a communication with whoever's asking questions, they forget about the rest of us.

THE WITNESS: Yes.

THE COURT: So please remember to speak up. And my other request is, if you're asked a yes or no question, please give us a verbal yes or a verbal no answer. That will be clearer for us here today and it certainly will be clearer in the record for anybody reading that record in the future. Okay?

THE WITNESS: Okay.

(KIMBERLY LECROY, being first duly sworn to tell the truth, testified as follows:)

THE COURT: Please state your full name for the record.

THE WITNESS: Kimberly LeCroy.

THE COURT: All right. Very good. Thank you, ma'am. Mr. Huff, your witness.

DIRECT EXAMINATION

BY MR. HUFF:

Q. Ms. LeCroy, can you tell me where you're employed?

A. Alice Manufacturing.

Q. Can you tell me how long you've been an employee of Alice Manufacturing?

A. Forty-one years.

Q. And what is your current job title?

A. Shift manager.

Q. And does that make you a supervisor?

A. Yes, sir.

Q. All right. And were you a supervisor at Alice Manufacturing on March 17th of 2015?

A. Yes.

Q. Do you know a Jeffrey A. Miller who is sitting across the table from you??

A. Yes.

Q. Where is he employed?

A. Where is he employed?

Q. Yes.

A. Alice Manufacturing-Ellison.

Q. At Alice Manufacturing-Ellison, are you his immediate supervisor?

A. Yes.

Q. All right. So he's one of the people that works under -- directly under you, correct?

A. Yes.

Q. We are here today on a -- on the accident that he says occurred on March 17th of 2015. Were you an employee on that day?

A. Yes.

Q. Do you have knowledge -- was he an employee on that day?

A. Yes.

Q. All right. Did there come a point in time that you were aware that Mr. Miller was alleging that he sustained an injury while working at Alice Manufacturing?

A. Yes.

Q. Did you have interaction and communication with him regarding the alleged accident on March 17, 2015? Did you have any conversation with him regarding this alleged accident?

A. Not immediately.

Q. Tell me what knowledge you had, if any, of what conversations you've had regarding this alleged

accident of March 17, 2015.

A. On March the 20th, Allen was absent from work and he left a message on the department manager's voice mail that his elbow was hurting from where he had pulled a warp down. My department manager asked me about it, and I told him I didn't know anything about it.

Allen was out the following day and did not call in. On Monday when I brought him to talk to him about it, he said that he had to go to the doctor about his elbow. And I asked him what happened to his elbow, and he said that he had told me about it a week prior when I had asked him to doff cloth. He did tell me that his elbow hurt, but he didn't explain to me why his elbow hurt.

So I asked him if he did it at work, and he said he wasn't really sure whether he had did it at work or he had did it at home. I asked him if he needed medical attention and he said he did. I asked him why he didn't report the incident or he -- he said that it had -- it had happened about three weeks ago when I asked him when did it happen. He said a few weeks ago. And I asked him why he didn't tell me about it, and he said that he thought it was going to get better on its own.

So I asked him if he needed medical attention, that we could get him looked at, and we called Stan to see about it. And I told him that I would have to write him a warning for not reporting the accident and he declined medical attention.

Q. Did he ever make any mention to you that it was not work-related, that it may have happened at home?

A. He said that it could have happened at home. That same day that we were talking about that, he said that it could have happened at home or it could have happened when he was pulling the warp down.

Q. And it could have happened three weeks ago?

A. He said that it happened a few weeks ago.

Q. Did he say it happened -- this is on a Monday you met with him?

A. Yes, sir.

Q. Because he didn't mention that it happened the previous Friday?

MR. DESAI: Commissioner, I've let a few leading questions go by just because -- for the efficiency aspect of it, but now it's getting a little out of control.

THE COURT: Just be careful in the phraseology, please.

MR. HUFF: Yes, sir.

BY MR. HUFF:

Q. Did he give you any other date or day like a Monday, a Tuesday, a Wednesday, a Thursday? Any other day? If you talked to him on Monday, did he make mention to you of any other day that it could have happened?

A. No.

Q. Did he mention any month or weeks other than what you testified to earlier, three weeks?

A. No.

Q. Okay. What is your policy out at Alice if a person gets hurt on the job when they're to report it to their supervisor?

A. When they report an accident, I record it on an accident form that -- the date and time that it happened and how it happened.

Q. Do they have to report on the date the accident occurs or are they supposed to wait a week or ten days? When are they supposed to report?

A. They're supposed to report a accident when it happens.

Q. You talked to him on Monday, you said?

A. I did..

Q. Did he come to you on a Friday and report any accident to you?

A. No..

Q. If he had reported an accident to you on Friday, what, if anything, would you have done?

A. I would have wrote it on the accident report and questioned further about what happened.

Q. Did you do that on Friday?

A. No, he wasn't at work on Friday.

Q. Does he work Saturday or Sunday?

A. No, sir.

Q. You mentioned earlier in your testimony -- you used three weeks ago. What was that referring to? Monday, he came in and reported three weeks ago?

A. A few weeks ago.

Q. Few. Not --

A. A few is what he told me. So I didn't have a specific date.

Q. And I think you testified earlier, and I may be finished, that he said that it may have even happened at home?

A. Yes, sir.

MR. HUFF: I have nothing further.

THE COURT: All right. Mr. Desai.

CROSS-EXAMINATION

BY MR. DESAI:

Q. Ms. LeCroy, you knew there was a hearing today, did you not?

A. Yes, sir.

Q. And did you prepare in any way for this hearing?

A. No, other than looking over his attendance records and anything that I had written.

Q. How many times, if any, have you met with Mr. Huff in regards to this case?

A. Just today I've seen him. And at the other -- what was it -- the other hearing, the hearing that we had before this one. It was a preliminary hearing maybe.

Q. We haven't had a hearing. We haven't had a hearing before this one.

A. Well, maybe it wasn't called a hearing. Deposition maybe.

Q. Was it my client's deposition possibly?

A. Yes, it was.

THE COURT: Let me ask this question: Have you met with Mr. Huff at any time that Mr. Desai was not present? This is Mr. Desai.

THE WITNESS: No. No, sir.

THE COURT: Okay.

BY MR. DESAI:

Q. So it's your testimony today that you have not talked to Mr. Huff about the facts of the case, that you have not discussed with Mr. Huff what happened, that you have not discussed Mr. Miller's employment with Mr. Huff on any occasion whatsoever?

A. Before we came in here, he just asked me a few other questions about the -- when I did talk to him, you know. Just what I just told you, my testimony.

Q. So just a few minutes prior to the hearing?

A. Well, not just a few minutes. Well, 30 minutes.

Q. Okay. Good. Did you talk to anybody else at the plant or with the insurance company about the hearing?

A. No, sir.

Q. About the case?

A. No, sir.

Q. About the injury?

A. No, sir.

Q. Were you asked to bring any documents to the hearing today?

A. No.

Q. Did you know why this hearing was being conducted?

A. I just knew that it was on Allen Miller on a workman's comp.

Q. Did you bring any documents today with you that you could present to this Court?

A. No, sir.

Q. You didn't bring his employment file?

A. No, sir.

Q. Did you document your conversation -- you said you've been there 41 years?

A. Yes, sir.

Q. That's a long time. I appreciate that. Thank you. Not many people stick around that long.

Were you loyal to the company, you would say?

A. Yes.

Q. And in a position of seniority?

A. Yes.

Q. Whose decision was it for you to attend my client's deposition, to come to my office? Who suggested that you should go to this deposition?

MR. HUFF: I'm going to object.

BY MR. DESAI:

Q. Was it your decision?

A. No, sir.

Q. Were you informed that you should go to this deposition?

A. Yes, sir.

Q. Who informed you or who told you?

A. My supervisor.

Q. Who would that be?

A. David Byers.

Q. David Byers. And what is Mr. Byers' title?

A. He's a department manager.

Q. For whom?

A. Alice Manufacturing.

Q. He's your boss?

A. Yes.

Q. And who does he report to?

A. He reports to the plant manager.

Q. Fair enough. You didn't bring any paperwork?

A. No, sir.

Q. You did not document the conversation that you had with my client?

A. It's in his file.

Q. But you didn't -- you didn't think that was important to bring today?

A. No, sir.

Q. You knew this was a hearing deciding how he was terminated and whether he was injured or not. You didn't think that was important?

A. Yes.

Q. You already knew before you walked into the hearing what Mr. Miller was going to testify to, did you not, because he said in his deposition; right? You knew?

A. Right.

Q. You knew what his story was?

A. Yes.

Q. So you didn't you think that those documents were important to bring to the Court today?

A. I turned documents in to workman's comp or Stan. Somebody's got them.

Q. Somebody's got them. You've been there for 41 years?

A. I have.

Q. How many workers' comp injuries have you reported in your 41-year tenure?

A. I've not been a supervisor 41 years. But, no, this is my first workman's comp.

Q. So you turned in all the documents?
A. I turned in the documents.
Q. Okay. Do you know who was working with him at the time that this accident happened? There's two people that worked together, right?
A. There's two people that worked together.
Q. Do you know who was working with him that particular day?
A. His -- the person -- well, I don't know because he didn't -- he didn't say he had an injury.
Q. You have a schedule, don't you?
A. I know his schedule.
Q. Do you make it?
A. No, I don't make it. He's -- he's got a job that he performs daily.
Q. What is your understanding, if any, of when -- do you think Mr. Miller is -- is Mr. Miller still employed by your company?
A. Yes.
Q. He is?
A. Yes, sir.
Q. Was he ever terminated at some point and rehired?
A. I'm not sure about that.
Q. After March 17th?

A. After March 17th? Yes, sir.

Q. He was terminated and he was rehired? Why is that?

A. He failed to communicate being out of work. He was out of work and never notified anyone.

Q. Why did you rehire him?

A. (No response.)

MR. DESAI: I don't have any further questions. Thank you. No further questions.

THE COURT: Anything else, Mr. Huff?

MR. HUFF: Nothing further.

THE COURT: Thank you, ma'am. Other witnesses, Mr. Huff?

MR. HUFF: None.

THE COURT: All right. That concludes this hearing.

(The hearing was concluded.)

CERTIFICATE OF REPORTER

I, Kimberly T. Power, Court Reporter and Notary Public for the State of South Carolina at Large, do hereby certify:

That the foregoing proceeding was taken before me on the date and at the time and location stated on Page 1 of this transcript; that the deponent was duly sworn to testify to the truth, the whole truth, and nothing but the truth; that the testimony and all objections made at the time were recorded stenographically by me and were thereafter transcribed; that the foregoing transcript as typed is a true, accurate, and complete record of the testimony and of all objections made at the time of the examination to the best of my ability.

I further certify that I am neither related to nor counsel for any party to the cause pending or interested in the events thereof.

Witness my hand, I have hereunto affixed by official seal this 12th day of May, 2016, at Lexington County, South Carolina.

Easley, SC 29642

RE: Jeffrey Allen Miller
DOA: 3/17/2015
DOB: [redacted]

M. Miller has been treating with me for an injuries to his right arm, right shoulder, and neck that he sustained at work on March 17, 2015 while he was pushing and pulling material on a machine. It is my opinion to a reasonable degree of medical certainty that his injuries to his right arm, right shoulder and neck are causally related to his work accident of March 17, 2015.

☑ Yes ☐ No

Has Mr. Miller reached MMI or is he in need of additional medical treatment? If he needs additional treatment please explain what treatment is needed.

Has not reached MMI
Needs MRI - Has been scheduled
for follow-up EMG 1-26-16

In your medical opinion has Mr. Miller been unable to work since his injury of March 17, 2015? If yes, please explain.

☑ Yes ☐ No

Repetitive activity increases pain -
Complains of muscle weakness and numbness

Do you hold all of these opinions to a reasonable degree of medical certainty?

☑ Yes ☐ No

Have you been given the opportunity to add or redact anything you wish from this questionnaire?

☑ Yes ☐ No

Dr. Dwight Jacobus Date 1-11-16

FOLLOW UP SHEET

Patient Name: Jeffrey Miller MRN: [redacted]

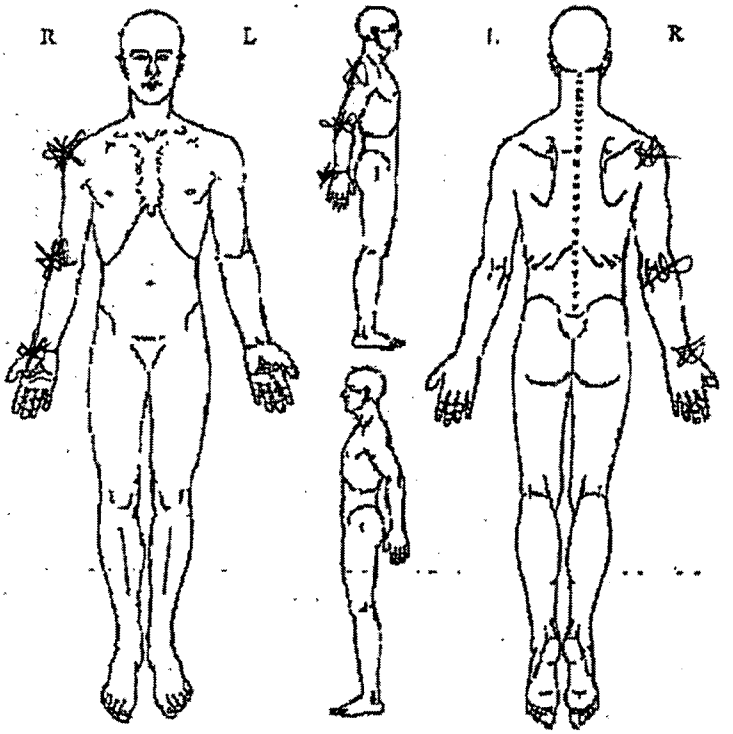

Today's Provider: JACOBUS Date: 9-4-15

Do Not Count Medication in the Lobby - Thank You

1. Medication	Strength	#You Take Daily	#Fill Date	#Amount Remaining
	10mg	3		

2. Any side effects? No
3. Meds helping? % of relief? 50-60%
4. Last imaging?
5. Prior Injections?
(I.e. MRI/CT/XRAY/NCV/EMG)
6. Chief Complaint? (L) Shoulder + elbow
7. Prior Surgery?
8. PT/Chiropractor?
9. Any new meds initiated since last visit (by another provider)? No
10. Activities you have been able to perform over the last month:
11. Pain Scale before med(s) 9 /10; after med(s) 3 /10.
12. Duration(circle): constant intermittent at night 13. Onset/Timing(circle): sudden gradual chronic intermittent
14. Context(circle): bending lifting fall twisting MVA
15. Alleviating factors(circle): heat ice medication sitting standing stretching laying down injection physical therapy
16. Aggravating factors(circle): extension flexion carrying lifting sitting standing walking laying down
17. Meds brought in for verification? No 18. Last took the medications? last night

Please mark your pain location(s) on the diagram below:

Please circle any qualities that best describe your pain:

Dull Sharp Stabbing Shooting Aching Throbbing Burning Tingling Numbness

271643

Circle the symptoms that you are currently experiencing

Constitutional	Eyes	ENT	Nose

PATIENT'S NAME: JEFFREY MILLER
DATE OF BIRTH: [redacted]
MRN:
DATE OF SERVICE: 08/04/2015

HISTORY OF PRESENT ILLNESS:

The patient is seen and evaluated today secondary to significant right elbow discomfort which has been ongoing since around the month of March.

The patient is seen at the kind request of Carolina Law Group because of ongoing pain and discomfort secondary to a work injury that occurred while he was working for Ellison Company in Easley, South Carolina. The patient gives a history that he had a work-related injury when he had to do a lot of pushing and pulling of significant weight equipment. He states that his job required him to pull approximately between 5,000 and 6,000 pounds of material utilizing his arms. The way it is described, it was somewhat rope applied that he had to pull these materials. The patient states that during the month of March, which he thinks was about the middle part of March, he had significant pain in his right elbow that occurred suddenly when he was pulling material. The patient tells me that he tried to continue working, but had increasing pain and discomfort. The patient tells me that during the month of April he finally saw a physician. He tells me in the beginning of the injury time he was not sent for evaluation by the work area, but then in the month of April, they finally sent him for evaluation of his right elbow. He did try to keep working, but was unable to do repetitious pushing and pulling, especially as it applied to the amount of weight that was required at the office area of work. He tells me that he tried to be doing light duty, but they told him they did not have light duty and they took him out of work and he has not worked since April. Pain and discomfort as it refers to his right elbow has been ongoing. It has been getting worse with pain described not only in the elbow along the lateral border, but also into the hypothenar border of the hand with a feeling of numbness and tingling and pain as he tries to move about his thumb and grasp. No previous injuries were noted. I do have some office records that were generated by Palmetto Proactive Health Care, specifically by Jerome Aya-Ay, M.D. and also notes from Upstate Bone & Joint as generated by David Boyer, M.D. I went through these notes with the patient and he thinks they are reliable. They describe right lateral elbow pain as noted when he comes into the office. I do note that he underwent a procedure there under ultrasound-guided tenotomy. The patient also has undergone joint aspiration and again the injection procedure under ultrasound-guided common extensor tendon tenotomy. The patient states that did help him, but it did not last long term, but it did make him feel much better and allow him to have better range of motion with less discomfort. This was done back in May of 2015. Again, I did go through these notes with the patient and they are found to be reliable. Multiple x-ray reports also are able to be reviewed that were completed in April of 2015. X-rays of the right elbow show no fractures or acute boney abnormalities. X-rays of the right shoulder that were done on May 4, 2015 show no fractures or other osseous pathology of the shoulder. X-rays of the wrist that were taken on May 4, 2015 show no fractures or boney abnormalities. Again, these were reviewed and discussed with the patient.

Continued. . .

HISTORY OF PRESENT ILLNESS (Continued):

The patient, over the course of time, because he is unable and do and keep up with his family and friends and work, has created an anxiety and depression state. I do have a note that was generated by Apryl Watson, FNP which is a return-to-work note that was generated on April 24, 2015. Limits for no lifting weight greater than 10 pounds were given. In that regard, evaluation was carried out today because of his ongoing pain and discomfort generated by the work-related injury as it relates to his right upper extremity, especially the right elbow.

The patient has denied previous injuries.

The patient's complete history and physical as well as medication survey has been reviewed by me and included in the chart.

CURRENT MEDICATIONS:

Hydrocodone 10/325
Ibuprofen 600-mg
Prednisone 20-mg
Tramadol 50-mg
Venlafaxine ER 37.5-mg

ALLERGIES:

NKDA

PAST SURGICAL HISTORY:

Right foot and ankle surgery

FAMILY HISTORY:

No other comorbid history.

SOCIAL HISTORY:

He is married. He has five children. He is an every day smoker. There are no other risk factors.

CHRONIC HEALTH PROBLEMS:

The patient describes again anxiety and depression because he is unable to keep up with friends and family. He does have a history of fatigue and hypertension.

REVIEW OF SYSTEMS BY HISTORY: (Except as noted in HPI)

General:	Other than the above-noted history of fatigue, denies fever, chills, weight loss-gain, weakness
Skin:	Denies rash, pruritus, lesions, bruising
Head/EENT:	The patient denies abnormal discharge of the eyes, ears, nose, or throat or any other abnormalities of the EENT system. Denies headache, dizziness, change in vision or hearing, nosebleed, sore throat, hoarseness, lesions in mouth,

Continued . . .

REVIEW OF SYSTEMS BY HISTORY (Continued):

Cardiovascular: Other than the above-noted history of hypertension, denies palpitations, chest pain, syncope, dyspnea on exertion, orthopnea, peripheral edema, PND

Respiratory: Denies SOB, dyspnea, cough, hemoptysis, wheezing, sputum

Gastrointestinal: Denies constipation, diarrhea, change in bowel habits, nausea-vomiting, abdominal pain, dysphagia, heartburn,

Genitourinary: Denies dysuria, hematuria, urinary incontinence, frequency, urgency, hesitancy, polyuria, nocturia,

Neuromuscular: WNL.

Neuropsych: Other than the above-noted history of anxiety and depression, denies syncope, seizures, weakness, memory-mood problems, drug and alcohol problems, sleep disturbance

Endocr./Hem.: Denies temperature intolerance, changes in hair or skin texture, bleeding tendency, easy bruising, lymph node enlargement

PHYSICAL EXAMINATION:

Ht: 5' 8" **Wt:** 200 lbs. **BP:** 139/97 **P:** 82 **R:** -- **Temp:** Afebrile

General: This is a 42-year-old male patient. The examination was done in the presence of his wife.

HEENT: The patient denies abnormal discharge of the eyes, ears, nose, or throat or any other abnormalities of the EENT system. This patient is normocephalic with normal hair distribution. Face is symmetrical. Eyes are clear. He has a slight strabismus of the right eye. EOMs intact. Ears, nose and throat are intact. The patient answers questions appropriately.

Neck: Supple. Good range of motion of the cervical spine. No carotid bruits are noted.

Chest: Clear. Inspiratory and expiratory excursion is intact.

Cardiac: Heart rate and rhythm is regular.

Abdomen: Soft. BS are present.

Upper extremities: In the seated position, there is a negative Spurling's test. Range of motion of the cervical spine is intact. Abduction of the shoulders is maintained at 180-degrees with pain described on the right arm, especially along the triceps border into the right elbow border. Extensors of the hands, triceps, and biceps reflexes are +2 and equal bilaterally. He describes pain along the C5 dermatome border on the right both subjectively and this is objectively noted via pinwheel method. He has significant pain to even slight palpation of the lateral epicondylar border. He has pain along the ulnar border of the elbow. He has extension to approximately 170-degrees with increasing pain. He has flexion to about 15-degrees above 90-degrees. Pronation and supination give discomfort. He has significant muscular weakness with pain, both with resistive extension, resistive flexion, and resistive pronation and supination. Grip strength on the right is at 68 foot pounds and on the left is 92 foot pounds. He is right-hand dominant. Again, he shows C5 radicular changes on the right as compared to the left. Negative Tinel's and Phalen's signs are noted. He has pain along the ulnar change of the fourth and fifth digits. He also shows a questionable positive Finkelstein's test on the right as he extends his thumb.

Continued . . .

PHYSICAL EXAMINATION (Continued):

Otherwise, range of motion, pulses and reflexes are intact.

Lower extremities: Normal back exam is noted. The patient is first examined standing back to the examiner. The posterior thorax is symmetrical. The patient is able to come up on the tiptoes and heels. Right and left side bending is at 20-degrees. Back bending is at 10-degrees. Patient can forward flex to 90-degrees. Negative Trendelenburg's sign.

In the seated position, Patellar, Achilles' and Plantar reflexes are +2 and equal bilaterally. Extensor hallucis strength is intact. Negative seated Lasègue's. No paresthesias or lymphadenopathy is noted. Pulses are intact.

In the supine position, orthopedic straight leg raising, Bragard's and faber Patrick's tests are carried out with some moderate discomfort. Negative Ober's test.

In the prone position, negative femoral nerve stretch test. No gluteal atrophy is noted.

Otherwise, range of motion, pulses and reflexes are intact.

ASSESSMENT/PLAN:

1. **POST-TRAUMATIC LATERAL EPICONDYLITIS OF THE RIGHT ELBOW.**
2. **C5 RADICULOPATHY OF THE RIGHT UPPER EXTREMITY.**
3. **DEVELOPING DE QUERVAIN'S TENDON BONE INSERTIONAL IRRITATION.**

Also, he has a lot of pain along the extensor carpi radialis brevis and the lateral epicondylar border that goes into the base of the third metacarpal and into the fourth metacarpal.

Today in the office, I did give him medication in the form of Norco 10/325 q8h. I do think that an EMG nerve conduction would be indicated to be evaluate the C5 radicular change that is present and as it is associated with the neurologic change along the ulnar border into the fourth and fifth digits. He does show significant pain again to palpation of the lateral epicondylitis and this may be something that would be very beneficial for injection. I do think that an EMG should be carried out prior to the injection of the lateral epicondylitis so that a more specific treatment plan is carried through. I am going to reevaluate him in one month. Also, I gave him some transdermal gel that he can rub on to his elbow and I gave him instructions for its use. Instructions are given.

OAKTREE ORTHOPAEDICS

115 Brushy Creek Road
Easley, SC 29642
Phone: 864-855-1633 Fax: 864-855-1323

PATIENT'S NAME: JEFFREY MILLER
DATE OF BIRTH: [redacted]
MRN:
DATE OF SERVICE: 09/04/2015

HISTORY OF PRESENT ILLNESS:

The patient is seen and evaluated today's date in follow-up for ongoing pain and discomfort of the right shoulder and right elbow. This seemingly has been getting worse since the last time I saw him. I did discuss his activity levels.

All patient history as recorded in the initial history and physical remains the same today's date.

EXAMINATION:

He still shows changes of pain along he right lateral epicondylar border. He has a lot of shoulder discomfort. He still shows a C5 and C6 radiculopathy on the right.

He still has a positive Tinel's and a negative Phalen's on evaluation. He is having a lot of neck pain, but shows a negative Spurling's sign. No carotid bruits are noted. Extensors of the hands, triceps, and biceps reflexes are +2 and equal bilaterally. He has a positive Tinel's on the right. He still shows C5 radicular changes via pinwheel method. This is a C5 radicular abnormality.

We did do a recent EMG on him read by Dr. Fox. This was done on September 1, 2015. This showed abnormal study with evidence of moderate to severe distal median neuropathy into the right wrist along the myelin component.

ASSESSMENT/PLAN:

In regard to these findings and his clinical continuation of pain and discomfort and loss of abduction, at this point in time I think an MRI should be done so we can correlate and put the EMG together with the findings from anatomical findings on the MRI so a treatment plan can be conducted with more hopeful success. Medications are given. We are going to try to get an MRI. I believe this will have to be okayed through the Carolina Law Group. We will see him back in one month. Instructions are given.

Discussion

Discussion Notes

Drug Testing: Targeted testing is being performed and will include enzyme immunoassay urine drug testing for the following drug classes: amphetamines, barbiturates, benzodiazepines, buprenorphine, cocaine, ethyl glucuronide, heroin, MDMA, methadone, opiates, oxycodone, pcp, propoxyphene, and THC. Confirmation LC-MS/MS testing will be performed to identify the specific metabolites of the drug classes found to be positive on the immunoassay test as well as for classes that are prescribed to the patient. LC-MS/MS testing will also be performed to assess medications that are not detectable or poorly detected via enzyme immunoassay. This includes: opiates/opioids, benzodiazepines, amphetamine/methamphetamine, muscle relaxants, zolpidem, and cocaine. Confirming the pertinent positive findings, pertinent negative findings and testing EIA undetectable/poorly detected drugs is medically necessary to accurately assess the absence or presence of specific medications/drugs and/or their metabolites. The objectives are to identify the proper use of prescribed medications while identifying the potential for abuse, misuse, diversion, undisclosed substances, unsanctioned prescription medication, illicit substances, or substances that contribute to adverse events or drug-drug interactions.
Orders:
-1. Enzyme immunoassay urine drug testing to assess the following drug classes: amphetamines, barbiturates, benzodiazepines, buprenorphine, cocaine, ethyl glucuronide, heroin, MDMA, methadone, opiates, oxycodone, pcp, propoxyphene, and THC
-2. Specimen validity testing (creatinine, specific gravity and pH)
-3. LC-MS/MS testing of the drug classes found to be positive on the immunoassay test as well as classes that are prescribed to the patient
-4. LC-MS/MS testing for drugs that are frequently present in this population and not detectable or poorly detected via enzyme immunoassay including: opiates/opioids (codeine, morphine, hydrocodone, hydromorphone, oxycodone, oxymorphone, tramadol, methadone, fentanyl, buprenorphine, tapentadol, pentazocine, meperidine), benzodiazepines (lorazepam, diazepam, clonazepam, alprazolam, temazepam, midazolam, triazolam), amphetamine, muscle relaxants (carisoprodol, meprobamate, cyclobenzaprine), zolpidem, illicits (methamphetamine, cocaine)
Drug Testing: Targeted testing is being performed and will include enzyme immunoassay urine drug testing for the following drug classes: amphetamines, barbiturates, benzodiazepines, buprenorphine, cocaine, ethyl glucuronide, heroin, MDMA, methadone, opiates, oxycodone, pcp, propoxyphene, and THC. Confirmation LC-MS/MS testing will be performed to identify the specific metabolites of the drug classes found to be positive on the immunoassay test as well as for classes that are prescribed to the patient. LC-MS/MS testing will also be performed to assess

medications that are not detectable or poorly detected via enzyme immunoassay. This includes: opiates/opioids, benzodiazepines, amphetamine/methamphetamine, muscle relaxants, zolpidem, and cocaine. Confirming the pertinent positive findings, pertinent negative findings and testing EIA undetectable/poorly detected drugs is medically necessary to accurately assess the absence or presence of specific medications/drugs and/or their metabolites. The objectives are to identify the proper use of prescribed medications while identifying the potential for abuse, misuse, diversion, undisclosed substances, unsanctioned prescription medication, illicit substances, or substances that contribute to adverse events or drug-drug interactions.

Test Date: 9/1/2015

Patient:	Jeffery Miller	**DOB:**	[redacted]	**Physician:**	Thomas J. Fox, Jr., MD
Sex:	Male	**Height:**		**Ref Phys:**	Van Bridges, MD
ID#:	[redacted]	**Weight:**		**Technician:**	Greta A. Meehan

Patient Complaints:
Patient is a 42 year-old male who presents with right hand numbness in the 3rd, 4th and 5th digits with right elbow and shoulder pain.

EMG & NCV Findings:
Evaluation of the Right median motor nerve showed prolonged distal onset latency (5.3 ms). The Right median sensory nerve showed prolonged distal peak latency (2nd Digit, 4.3 ms), reduced amplitude (2nd Digit, 7.2 μV), prolonged distal peak latency (Palm, 3.2 ms), and reduced amplitude (Palm, 21.4 μV). All remaining nerves (as indicated in the following tables) were within normal limits.

All F Wave latencies were within normal limits.

All examined muscles (as indicated in the following table) showed no evidence of electrical instability.

Impression:
This is an abnormal study demonstrating electrical evidence of moderate severe distal median neuropathy at the right wrist where there is involvement of myelin component of both motor and sensory fibers as well as marked axonal sensory loss. Needle electromyographic examination of distal and proximal muscles of the right upper extremity does not reveal any evidence of superimposed radiculopathy. There is no evidence of multifocal or diffuse peripheral neuropathy.

Thank you for your kind referral,

Thomas J. Fox, Jr., MD

Office Visit Note

EletionEMR

Patient Name: Jeffery A. Miller

D.O.B.: [redacted] 42 yrs, 7 mo at the time of visit
Seen by Jerome Aya-ay, MD

Date of Encounter: 06/03/2015

Exam Reason (CC): New Patient - PSM

Problem:

PSM pt states he has to pull large objects (weighing around 5000-6000 lbs) at work.
He states about 1 month ago he noticed burning in his r arm. He informed his supervisor but nothing was done. Pt continued to work for another month and pain/burning got worse. Pt went to PCP who sent him to another facility where the doctor "stuck a needle in and out of my arm" and made pain worse. Dx was tendonitis. Pt states he now cannot move his arm, he cannot make a fist, his shoulders and elbows are popping, he has swelling down arm and hand, and he states that his fingers go numb. MS

Vitals:

BP: 138/87 HR: 88 Wt: 228 lbs.

PE:

GENERAL: NAD, Wearing right arm sling

EYES: WNL

HENT: WNL

RESP: Clear to auscultation.

CVS: RRR w/o murmurs.

MSS: No C/C/E. Full ROM of right elbow with discomfort with flexion and extension. TTP at medial epicondyle and ulnar groove. TTP of lateral forearm. Decreased right grip strength.

Assessment:

Lesion Of Ulnar Nerve
Medial Epicondylitis Elbow Region
Enthesopathy Of Elbow Unspecified

Plan:

Keep appointment with ortho.
Recommend Neurology evaluation given ulnar neuropathy and decreased grip strength.
Follow up in one month.

Orders:

- *New* PredniSONE 20 mg Tab 2 tablets orally daily for 7 days #14 RFx0
- *New* Norco 10/325 mg Tab 1 tablet orally every 12 hours as needed for severe pain. Especially at night. #30 RFx0
- *New* Ibuprofen 600 mg Tab 1 tablet orally every 6 hours as needed for pain #30 RFx0

Physical Examination

Vital Signs

5/13/2015 10:34 AM EDT	Temperature Oral	98.4 DegF
	Peripheral Pulse Rate	82 bpm
	Pulse Site	Radial artery
	Respiratory Rate	14 br/min
	Systolic Blood Pressure	120 mmHg
	Diastolic Blood Pressure	80 mmHg
	Mean Arterial Pressure	93 mmHg
	BP Site	Left arm

Measurements from flowsheet : Measurements

5/13/2015 10:34 AM EDT	Height	68 in
	Weight	214.6 lb
	BSA	2.16 m2
	Body Mass Index	32.63 kg/m2

Doc - Office-Clinic Notes

Pleasant white male in no apparent distress. Well dressed well groomed well-nourished. Appropriate affect. Accompanied by his wife. Negative cervical axial load test. Normal sensation light touch. 2+ radial pulse. No right axillary lymphadenopathy. Negative Hawkins test. Forward flexion of the right shoulder is limited to approximately 110 because of right elbow pain. The right shoulder is not frozen. He is very tender over the radial head of the right elbow. He is also tender over the ulnar nerve. He has mild tenderness of the flexor bundle of the right forearm and very tender over the common extensor origin of the right elbow. He has decreased grip strength secondary to pain at the lateral elbow. He has a positive tennis elbow test.

Procedure

Joint aspiration/ injection procedure (Ultrasound-guided common extensor tendon tenotomy.)

Date: 5/13/2015.
Confirmed: patient, procedure, side, site, safety procedures followed.
Performed by: self.
Informed consent: signed by patient.
Indication: symptomatic relief.
Location: the right elbow, Common extensor tendon bundle..
Preparation and technique: skin prep (alcohol, povidone iodine (Betadine)), local anesthesia Ethyl chloride cold spray., sterile needle used (size #22 gauge, length 1.5 inch).
Joint injected: with 1% plain lidocaine. 3 ml.
Procedure tolerated: well.
The patient was seated in a chair next to the exam table. The elbow was placed on the table in 90° of flexion. Ultrasound was used to identify the area of hypo-echogenicity. After the skin was cleansed the needle was introduced and under ultrasound guidance was passed several times through the area of tendinosis. The needle was removed, the skin was cleansed, and a clean dry bandage applied..

Review / Management

Radiology results

X-ray

Prior radiographs of the right shoulder right elbow and right wrist reveal no definitive acute bony change. The right shoulder would indicate downsloping acromion with possible bony impingement.

Impression and Plan

Diagnosis

Elbow pain (ICD9 729.5).
Right tennis elbow (ICD9 726.32).

Orders

Orders
Pharmacy:
tramadol 50 mg oral tablet (Prescribe): 1 tab(s) (50 mg), PO, q8 hrs, Instructions: Do not drive after taking medicine., PRN: for pain, # 30 tab(s), 0 Refill(s), Type: Maintenance
nitroglycerin 0.2 mg/hr transdermal film, extended release (Prescribe): 1 patch(es), TOP, Daily, # 30 patch(es), 0 Refill(s), Type: Maintenance.

Orders
Pharmacy:
nitroglycerin 0.2 mg/hr transdermal film, extended release (Prescribe): 1 patch(es), TOP, Daily, Instructions: Apply one half patch to right lateral elbow at bed time. maintain a nitrate-free interval of 10 to 12 hours, # 30 patch(es), 0 Refill(s), Type: Maintenance
nitroglycerin 0.2 mg/hr transdermal film, extended release (Modify): 1 patch(es), TOP, Daily, # 30 patch(es), 0 Refill(s), Type: Hard Stop.

Orders
Pharmacy:
lidocaine 1% injectable solution (Order): 3 mL, subcutaneous, once
Requests (Return to Office):
Return to Clinic (Request) (Order): Return in 3 weeks
Charges:
20550 injection of single tendon sheath (Charge) (Order): Quantity: 1, Modifier(s): 25
J2001 lidocaine injection, 10 mg (Charge) (Order): Quantity: 3
76942 us guidance needle placement rs+i (Charge) (Order): Quantity: 1, Modifier(s): 26.

Right lateral elbow pain. Most consistent with lateral epicondylitis. Ultrasound in the office today corroborates hypoechogenicity and calcific tendinitis. He elected for ultrasound-guided tenotomy. He tolerated the procedure well. He felt slightly better afterwards. He was given a stretch of rubber band and shown how to do extension strengthening. I'll give him a prescription for tramadol and have him start nitroglycerin patches. I've asked that he avoid nonsteroidals. He'll be given a work note until follow-up in 3 weeks.

Signed and Authored by David Boyer MD on 05/13/2015 12:17 PM EDT

	Weight	214.6 lb
	BSA	2.16 m2
	Body Mass Index	32.63 kg/m2

Pleasant white male in no apparent distress. Well dressed well groomed well-nourished. Appropriate affect. Accompanied by his wife. Negative cervical axial load test. Normal sensation light touch. 2+ radial pulse. No right axillary lymphadenopathy. Negative Hawkins test. Forward flexion of the right shoulder is limited to approximately 110 because of right elbow pain. The right shoulder is not frozen. He is very tender over the radial head of the right elbow. He is also tender over the ulnar nerve. He has mild tenderness of the flexor bundle of the right forearm and very tender over the common extensor origin of the right elbow. He has decreased grip strength secondary to pain at the lateral elbow. He has a positive tennis elbow test.

Procedure

Joint aspiration/ injection procedure (Ultrasound-guided common extensor tendon tenotomy.)
Date: 5/13/2015.
Confirmed: patient, procedure, side, site, safety procedures followed.
Performed by: self.
Informed consent: signed by patient.

Orthopedic Note MILLER, JEFFREY ALLEN - 1102987

Indication: symptomatic relief.
Location: the right elbow, Common extensor tendon bundle..
Preparation and technique: skin prep (alcohol, povidone iodine (Betadine)), local anesthesia Ethyl chloride cold spray., sterile needle used (size #22 gauge, length 1.5 inch).
Joint injected: with 1% plain lidocaine. 3 ml.
Procedure tolerated: well.
The patient was seated in a chair next to the exam table. The elbow was placed on the table in 90° of flexion. Ultrasound was used to identify the area of hypo-echogenicity. After the skin was cleansed the needle was introduced and under ultrasound guidance was passed several times through the area of tendinosis. The needle was removed, the skin was cleansed, and a clean dry bandage applied..

Review / Management
Radiology results
X-ray
Prior radiographs of the right shoulder right elbow and right wrist reveal no definitive acute bony change. The right shoulder would indicate downsloping acromion with possible bony impingement.

Impression and Plan
Diagnosis
Elbow pain (ICD9 729.5).
Right tennis elbow (ICD9 726.32).
Orders
Orders
Pharmacy:
tramadol 50 mg oral tablet (Prescribe): 1 tab(s) (50 mg), PO, q8 hrs, Instructions: Do not drive after taking medicine., PRN: for pain, # 30 tab(s), 0 Refill(s), Type: Maintenance
nitroglycerin 0.2 mg/hr transdermal film, extended release (Prescribe): 1 patch(es), TOP, Daily, # 30 patch(es), 0 Refill(s), Type: Maintenance.
Orders
Pharmacy:
nitroglycerin 0.2 mg/hr transdermal film, extended release (Prescribe): 1 patch(es), TOP, Daily, Instructions: Apply one half patch to right lateral elbow at bed time. maintain a nitrate-free interval of 10 to 12 hours, # 30 patch(es), 0 Refill(s), Type: Maintenance
nitroglycerin 0.2 mg/hr transdermal film, extended release (Modify): 1 patch(es), TOP, Daily, # 30 patch(es), 0 Refill(s), Type: Hard Stop.
Orders
Pharmacy:
lidocaine 1% injectable solution (Order): 3 mL, subcutaneous, once
Requests (Return to Office):
Return to Clinic (Request) (Order): Return in 3 weeks
Charges:
20550 injection of single tendon sheath (Charge) (Order): Quantity: 1, Modifier(s): 25
J2001 lidocaine injection, 10 mg (Charge) (Order): Quantity: 3
76942 us guidance needle placement (Charge) (Order): Quantity: 1, Modifier(s): 26.
Right lateral elbow pain. Most consistent with lateral epicondylitis. Ultrasound in the office today corroborates hypoechogenicity and calcific tendinitis. He elected for ultrasound-guided tenotomy. He tolerated the procedure well. He felt slightly better afterwards. He was given a stretch of rubber band and shown how to do extension strengthening. I'll give him a prescription for tramadol and have him start nitroglycerin patches. I've asked that he avoid nonsteroidals. He'll be given a work note until follow-up in 3 weeks.

Chief Complaint
4/20/2015 10:22 AM EDT Lots of stress at home and work, right elbow pain

History of Present Illness
42 year old male presents to office with complaints of uncontrolled anxiety. He scored 20 on GAD-7 today. Was seen in February 2015 by Dr.Nations and was started on prozac. Is tolerating prozac well without side effects. Has a lot of home stressors and is currently in the process of moving out of his mother-in-law's home, which is a source of a lot of the stress. Denies suicidal/homicidal ideations.
Has had a 1 month history of right lateral elbow pain that occurs when lifting heavy weights only. Improves with rest. He has taken ibuprofen without relief. At times, the elbow swells. He has full range of motion. Denies numbness or tingling. No known injury.He does a lot of heavy lifting at work.

Review of Systems
Constitutional: No fever, No chills.
Respiratory: No shortness of breath.
Cardiovascular: No palpitations.
Gastrointestinal: No nausea, No vomiting.
Musculoskeletal: right elbow pain, No decreased range of motion.
Neurologic: No numbness, No tingling.
Psychiatric: Anxiety, Irritability, Not suicidal.

Health Status
Allergies:
Allergic Reactions (Selected)
No known allergies
Medications: (Selected)

Primary Care Provider (PCP): 0048279 -NATIONS, JEFFREY D

Chief Complaint
5/4/2015 10:00 AM EDT Anxiety and right arm pain

History of Present Illness
42-year-old male presents to office for right arm pain. He was last seen in office on 04/20/2015 and had a negative x-ray of the right elbow. His elbow continues to be painful, but his pain has now radiated up into the right shoulder and down into the right wrist. He also has intermittent numbness and tingling of the thumb and fingers 3, 4 and 5 on the right hand. Meloxicam had been prescribed, but he has yet to take. Instead, he is been taking intermittent doses of ibuprofen and applying ice to his elbow with short-term relief for about 15-20 minutes after application of ice. He is also wearing a brace on the right elbow. His range of motion of the right shoulder is restricted due to pain. Also has restricted range of motion of the wrist due to pain. At his job, he does a lot has heavy lifting and repetitive motions. He has had some mild swelling of the right elbow and wrist, but no erythema or increased warmth.
Is still having difficulty with anxiety. On 04/20/2015, Prozac was increased to 20 mg per day. His main complaint is that he is easily irritated.

Review of Systems
Constitutional: No fever, No chills.
Respiratory: No shortness of breath.
Cardiovascular: No chest pain.
Musculoskeletal: Joint pain, Decreased range of motion, No trauma.
Neurologic: Alert and oriented X4, Numbness, Tingling.

Chief Complaint
5/26/2015 2:38 PM EDT 6 WK. FOLLOW-UP ON ANXIETY

History of Present Illness
The patient is here today for follow-up regarding anxiety. He is also being treated for right elbow pain by Dr. Boyer. He has now been on the Prozac since February, with a dosage increase about four weeks ago. Instead of feeling more calm, he is feeling more agitated. He is having more difficulty controlling his temper. He currently smokes about 2 cigarettes per day. He denies any recent illnesses.

Review of Systems
Constitutional: Negative except as documented in history of present illness.
Ear/Nose/Mouth/Throat: Negative except as documented in history of present illness.
Respiratory: Negative except as documented in history of present illness.
Cardiovascular: Negative except as documented in history of present illness.
Musculoskeletal: Negative except as documented in history of present illness.
Psychiatric: Negative except as documented in history of present illness.

Exam:	Exam Date/Time:	Accession Number:	Ordering Physician:
CT Abdomen/Pelvis W/ Contrast	12/31/2003 10:46:35	CT-03-056135	Banks MD, Richard

Reason for Exam:

789.00-ABDMNAL PAIN UNSPCF SITE

Findings:

CT OF THE ABDOMEN WITH CONTRAST, CT OF THE PELVIS WITH CONTRAST

CLINICAL HISTORY: INJURY TO LEFT FLANK, RULE OUT HEMATOMA OR RENAL INJURY

The patient was given no oral contrast. 5mm axial images of the abdomen and pelvis were reconstructed from a volume data set obtained with a multidetector CT Scanner during the infusion of 100ccs of Optiray 320.

CT ABDOMEN:

The liver and spleen are normal in size. There is a solitary 1cm hypodensity in the inferior tip of the spleen. A small cyst is suspected. It is possible that could represent a hematoma but I feel that is much less likely. The pancreas, adrenal glands and kidneys are normal. There is no evidence for renal injury. There is no fluid in the abdomen. The GI tract is normal. There is no free air. No fractures of the spine are identified.

CT PELVIS:

There is an approximately 3.6 x 8.0cm hematoma located in the deep subcutaneous fat. It is adjacent to the left paruspinous muscle bundle. It contains a fluid-fluid level. This is consistent with an organizing hematoma. There are air bubbles to suggest abscess. I do not see any intrapelvic masses. There is no evidence of a pelvic fracture. The exam is otherwise normal.

Patient Name:MILLER, JEFFREY A
Medical Record Number:000098764

Exam:	Exam Date/Time:	Accession Number:	Ordering Physician:
CT Abdomen/Pelvis W/ Contrast	12/31/2003 10:46:35	CT-03-056135	Banks MD, Richard

IMPRESSION:

1. 1CM HYPODENSITY INFERIOR TIP OF THE SPLEEN. A CYST IS SUSPECTED. THE ABDOMEN IS OTHERWISE NORMAL.
2. 3.6 X 8.0CM HEMATOMA LOCATED IN THE DEEP SOFT TISSUES OVERLYING THE LEFT LOWER BACK. IT IS ADJACENT TO THE PARASPINOUS MUSCLES AND THE SUPERIOR PORTION OF THE LEFT ILIAC CREST. NO FRACTURES ARE NOTED. THE PELVIS IS
3. OTHERWISE UNREMARKABLE.

IMPORTANT: (Please read carefully before signing. Do not leave if you have unanswered questions)

1. I realize the care I received in the Emergency Department was intended to rule out emergencies and not to be a substitute or replacement of my routine and complete care. I will arrange for follow-up care.
2. I realize that all illnesses change with time, so I will return to the Emergency Department if I think something has gone wrong or if unexpected symptoms occur.
3. The Emergency Department DOES NOT REFILL PRESCRIPTIONS. This must be done through my regular physician or health care provider.
4. I must go to the Radiology Department to get copies of any X-rays before my follow up appointments.
5. Palmetto Health Baptist Easley Emergency Department obtains a second reading on X-rays. You may be called after the Radiologist reads your X-rays.
6. I may receive separate bills from the Radiologist or Pathologist who reviews my tests.
7. I will receive a separate bill from United Emergency Services for physician, physician's assistant or nurse practitioner services I received during my visit.
8. I hereby authorize Palmetto Health Baptist Easley to release today's Emergency Department medical record to my follow-up physician.
9. Call your follow-up physician for any test results (cultures, blood work, x-rays, etc.) not received or completed during your stay in the Emergency Department.
10. The Health Information department is open Monday-Friday; 8:00 a.m. to 4:30 p.m. to obtain any needed copies of my medical record.

PERSONAL PHYSICIAN: NO LOCAL
HISTORY OF PRESENT ILLNESS: 31 -year-old white male presents with complaints of pain in the left flank. States he was hit by a tree approximately 10 days ago. Initially hit left shoulder and upper back and also his lower back. He was pushed to the ground face first. States most of his injuries have resolved but he still continues to have increased pain with movement in the lower back, especially with walking. There is tenderness to palpation.
REVIEW OF SYSTEMS: Normal bowel movements, normal urination, normal appetite.
MEDICATION: Aleve over the counter
ALLERGIES: No known drug allergies.
PAST MEDICAL HISTORY: Negative
SOCIAL HISTORY: Does not smoke or drink.
PHYSICAL EXAM: Well developed mildly obese white male in no acute distress. Temperature 98.4, pulse 84, respirations 16, blood pressure 132/87.
HEENT: Normal.
NECK: Supple. Full range of motion.
LUNGS: Clear.
HEART: Regular rate and rhythm.
ABDOMEN: Benign. Left flank area with no obvious ecchymosis but there is a fullness in the lumbar paraspinous area compared to the right.
CT: Abdomen and pelvis CT with IV contrast due to injury; 3.6 x 8cm hematoma adjacent to the left paraspinous muscle with no fractures. Small splenic cyst also noted incidentally.

IMPRESSION: HEMATOMA TO LEFT FLANK STATUS-POST INJURY

PLAN: PATIENT IS GIVEN PRESCRIPTION FOR LORTAB 7.5 1 PO Q4H PRN PAIN #20. CONTINUE ALEVE AS NEEDED. USE ICE ALTERNATING WITH MOIST HEAT. FOLLOW-UP IN MY OFFICE NEXT WEEK.

For patients greater than or equal to 2 years old.
Dose available in Pyxis upon Pharmacy profiling on Day 1 of admission or within 24 hours.
x 1 *dose only. Be sure not given previously*
Remove from McCravey Pyxis

Radiology

ACCESSION	EXAM DATE/TIME	PROCEDURE	ORDERING PROVIDER	STATUS
CT-03-0056135	12/31/2003 10:46 EST	CT Abdomen Pelvis W/ IV+Oral Contrast	Banks MD,Richard	Auth (Verified)

Reason For Exam
(CT Abdomen Pelvis W/ IV+Oral Contrast) 789.00-ABDMNAL PAIN UNSPCF SITE

Findings:

CT OF THE ABDOMEN WITH CONTRAST, CT OF THE PELVIS WITH CONTRAST

CLINICAL HISTORY: INJURY TO LEFT FLANK, RULE OUT HEMATOMA OR RENAL INJURY

The patient was given no oral contrast. 5mm axial images of the abdomen and pelvis were reconstructed from a volume data set obtained with a multidetector CT Scanner during the infusion of 100cc of Optiray 320.

CT ABDOMEN:

The liver and spleen are normal in size. There is a solitary 1cm hypodensity in the inferior tip of the spleen. A small cyst is suspected. It is possible that could represent a hematoma but I feel that is much less likely. The pancreas, adrenal glands and kidneys are normal. There is no evidence for renal injury. There is no fluid in the abdomen. The GI tract is normal. There is no free air. No fractures of the spine are identified.

CT PELVIS:

There is an approximately 3.6 x 8.0cm hematoma located in the deep subcutaneous fat. It is adjacent to the left paraspinous muscle bundle. It contains a fluid-fluid level. This is consistent with an organizing hematoma.

Radiology

ACCESSION	EXAM DATE/TIME	PROCEDURE	ORDERING PROVIDER	STATUS
CT-03-0056135	12/31/2003 10:46 EST	CT Abdomen Pelvis W/ IV+Oral Contrast	Banks MD,Richard	Auth (Verified)

Findings:
There are air bubbles to suggest abscess. I do not see any intrapelvic masses. There is no evidence of a pelvic fracture. The exam is otherwise normal.

IMPRESSION:

1. 1CM HYPODENSITY INFERIOR TIP OF THE SPLEEN. A CYST IS SUSPECTED. THE ABDOMEN IS OTHERWISE NORMAL.
2. 3.6 X 8.0CM HEMATOMA LOCATED IN THE DEEP SOFT TISSUES OVERLYING THE LEFT LOWER BACK. IT IS ADJACENT TO THE PARASPINOUS MUSCLES AND THE SUPERIOR PORTION OF THE LEFT ILIAC CREST. NO FRACTURES ARE NOTED. THE PELVIS IS OTHERWISE UNREMARKABLE.

*** Final ***

IMPORTANT! (Please read carefully before signing. Do not leave if you have unanswered questions)

1. I realize the care I received in the Emergency Department was intended to rule out emergencies and not to be a substitute or replacement of my routine and complete care. I will arrange for follow-up care.
2. *I realize that all illnesses change with time, so I will return to the Emergency Department if I think something has gone wrong or if unexpected symptoms occur.*
3. The Emergency Department DOES NOT REFILL PRESCRIPTIONS. This must be done through my regular physician or health care provider.
4. I must go to the Radiology Department to get copies of any X-rays before my follow up appointments.
5. Palmetto Health Baptist Easley Emergency Department obtains a second reading on X-rays. You may be called after the Radiologist reads your X-rays.
6. I may receive separate bills from the Radiologist or Pathologist who reviews my tests.
7. I will receive a separate bill from United Emergency Services for physician, physician's assistant or nurse practitioner services I received during my visit.
8. I hereby authorize Palmetto Health Baptist Easley to release today's Emergency Department medical record to my follow-up physician.
9. Call your follow-up physician for any test results (cultures, blood work, x-rays, etc.) not received or completed during your stay in the Emergency Department.
10. The Health Information department is open Monday-Friday; 8:00 a.m. to 4:30 p.m. to obtain any needed copies of my medical record.

*If patient is a minor then a parent, guardian or patient representative must sign.

HOSPITAL RELEASE

TO WHOM IT MAY CONCERN: DATE_____ TIME_____

I understand that I currently am a patient under treatment in Palmetto Health and that I am leaving the hospital against the advice of attending physicians. Therefore, I do hereby release the hospital and attending physicians of all responsibility.

Signed_____ **Witness 1.**_____

Address_____ **2.**_____

GUARANTY AND ASSIGNMENT OF INSURANCE BENEFITS

I hereby guaranty payment to Palmetto Health Alliance d/b/a Palmetto Health Richland, d/b/a Palmetto Health Baptist, d/b/a Palmetto Health Easley and my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists), for all charges and services incurred for the account(s) of the patient from date of admission until discharge. I do hereby assign to Palmetto Health Alliance and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists), any and all medical insurance, health benefits, hospital benefits, sick benefits, injury benefits and settlement proceeds due or payable because of liability of a third party, payable by any party, organization or insurance company, or other sources of payment, unless I pay the account(s) in full upon discharge, (the "Assignment").

If I fail to pay all charges when due I agree to pay all costs of collection, including attorneys fees, collection costs and court costs.

I hereby authorize and request Palmetto Health Alliance and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists) to release and furnish medical information, necessary to support claims submitted, to any entities for payment, pursuant to the above Assignment.

In the event the undersigned is entitled to health care or medical benefits of any type whatsoever, arising out of any policy of insurance insuring the patient or any party liable to the patient, said benefits are hereby assigned to Palmetto Health Alliance and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists), for application to the patient account(s) for services rendered.

I do hereby appoint and assign to Palmetto Health Alliance and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists) as my true and lawful attorneys in fact, to act on my behalf, with the full power and authority to collect any and all charges incurred for the benefit of the patient pursuant to the assignment of benefits set forth above.

I authorize a copy of this assignment to be used in place of the original.

PERSONAL VALUABLES RELEASE

I understand that Palmetto Health maintains an area for storage and safekeeping of my money, valuables and personal property, and that I may deposit such items with Palmetto Health for safekeeping. I further, understand that the hospital will not be responsible or liable for the loss or damage to any money, valuables and personal property, which I do not deposit with the Hospital. I have voluntarily chosen not to deposit my money, valuables and personal property with the Hospital and assume full responsibility for any and all loss of or damage to my money, valuables and personal property and I further agree that Palmetto Health shall be held harmless for any and all such loss or damage.

I certify that I have read the foregoing Release and that I fully understand its provisions.

ACKNOWLEDGEMENT OF RECEIPT OF MEDICARE/TRICARE MEDICAL INFORMATION

I, the undersigned,acknowledge that if I am a Medicare/TRICARE beneficiary, I have been provided with a notice from Medicare/TRICARE regarding my rights as a Medicare/TRICARE patient and the rights form has not been altered.

Impression and Plan

Diagnosis
Alcohol intoxication 303.00 (ICD9 303.00, Discharge, Emergency medicine, Medical)

Diagnosis
Chest pain 786.5 (ICD9 786.50, Discharge, Emergency medicine, Medical)

Hypokalemia

Discharge plan

Condition: Improved, Stable.
Dispositioned: Time 05/28/10 00:07:00, To home.
Patient was given the following educational materials: ALCOHOL INTOXICATION, HYPOKALEMIA.
Follow up with: ; William Scott Within 2 to 4 days Alternate motrin/tylenol every 3 hours
Call/follow up with primary physician
Continue your current medications
Drink 8 - 10 glasses of water daily
Drink plenty of fluids
Expect to be stiff & sore

ED Documentation

Fever over 24hrs, see primary MD again
Limit alcohol intake. Return to Emergency Department.
Counseled: Patient, Family, Regarding diagnosis, Regarding diagnostic results, Regarding treatment plan, Regarding prescription, Patient indicated understanding of instructions.

Radiology

ACCESSION	EXAM DATE/TIME	PROCEDURE	ORDERING PROVIDER	STATUS
CR-10-0082822	5/27/2010 20:39 EDT	CR Chest 1 View Portable	Campbell MD,Kenneth Stephen	Auth (Verified)

Reason For Exam
(CR Chest 1 View Portable) Altered Mental Status

Findings:
AP CHEST, 5/27/10:

INDICATION: Altered mental status.

Radiology

ACCESSION	EXAM DATE/TIME	PROCEDURE	ORDERING PROVIDER	STATUS
CR-10-0082822	5/27/2010 20:39 EDT	CR Chest 1 View Portable	Campbell MD,Kenneth Stephen	Auth (Verified)

Findings:
Single AP view of the chest was obtained in a somewhat lordotic position. Heart size is upper normal, likely exaggerated by AP lordotic technique. There is no free air beneath the hemidiaphragm and no evidence for pneumothorax. Osseous structures appear generally intact. The lungs show no consolidation, edema or effusion.

CONCLUSION:

NO DEFINITE ACTIVE PROCESS.

CT-10-0030524	5/27/2010 20:40 EDT	CT Head W/O IV Contrast	Campbell MD,Kenneth Stephen	Auth (Verified)

Reason For Exam
(CT Head W/O IV Contrast) ams

Findings:
CT HEAD WITHOUT CONTRAST, 5/27/10:

INDICATION: 37-YEAR-OLD WITH ALTERED MENTAL STATUS, DIZZINESS AND MEMORY LOSS.

TECHNIQUE:
Standard noncontrast head CT obtaining 5 mm axial images from the skull base to the skull vertex.

FINDINGS:
There is no extra-axial collection or evidence of intracranial hemorrhage. No mass effect, midline shift, or hydrocephalus. Normal gray/white matter differentiation of brain parenchyma is maintained. The ventricles have normal size and configuration. The basilar cisterns are patent. Visualized brain stem and posterior fossa structures are normal.

Visualized portions of the orbits, paranasal sinuses, and mastoid air cells are normal. Bone windows demonstrate no calvarial abnormality.

CONSENT FOR EXAMINATIONS, TREATMENTS AND OPERATIONS

Consent for Examinations, Treatments, and Operations: I hereby consent to and authorize Palmetto Health and the physician or surgeon in charge of my case to perform such examinations, treatments, operations, diagnostic procedures, administration of blood and blood products and necessary anesthetics which may in his/her opinion be necessary.

I consent to the disposal by hospital authorities of any tissue or members which may be removed during the course of my treatment. I further understand if my tissue is used rather than destroyed, it will not be linked to my name or any other identifier that could be traced to me.

To protect myself and others, I also give permission to have blood drawn and tested for infectious diseases including, but not limited to, HIV (AIDS virus) and Hepatitis.

Palmetto Health is a medical teaching institution; therefore, residents and other health providers in training may be involved in my care under the supervision of an attending physician, proctor or preceptor. I further understand that video cameras may be used in patient rooms for observation purposes and pictures may be taken for treatment and diagnosis.

PERSONAL VALUABLES RELEASE

I understand that Palmetto Health maintains an area for storage and safekeeping of my money and valuables, and that I may deposit such items with Palmetto Health for safekeeping. I further understand that the hospital will not be responsible or liable for the loss or damage to any money and valuables, which I do not deposit with the Hospital. I have voluntarily chosen not to deposit my money and valuables with the Hospital and assume full responsibility for any and all loss of or damage to my money and valuables and I further agree that Palmetto Health shall be held harmless for any and all such loss or damage.

I certify that I have read the foregoing Release and that I fully understand its provisions.

Acknowledgment of Notice of Privacy Practices

My signature acknowledges my receipt of the Notice of Privacy Practices from Palmetto Health.

Acknowledgement of Patient's Bill of Rights

My signature acknowledges the availability of the Patient's Bill of Rights (which includes provisions of the Lewis Blackman Patient Safety Act).

Directory Inclusion/Exclusion

I have chosen to opt out of the Palmetto Health directory: _____

I have been offered information or assistance regarding Advanced Directives: Patient's Initials

I certify that I have read the Personal Valuables Release and fully understand its provisions: Patient's Initials

I have received a copy of the Lewis Blackman Patient Safety Act Letter Patient's Initials

Advanced Directives

Do you have an Advanced Directive?
(Living Will or Healthcare Power of Attorney)

Are you an Organ Donor.

GUARANTY AND ASSIGNMENT OF INSURANCE BENEFITS

I hereby guaranty payment to Palmetto Health Alliance d/b/a Palmetto Health Richland, d/b/a Palmetto Health Baptist, d/b/a Palmetto Health Easley and my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists), for all charges and services incurred for the account(s) of the patient from date of admission until discharge. I do hereby assign to Palmetto Health Alliance and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists), any and all medical insurance, health benefits, hospital benefits, sick benefits, injury benefits and settlement proceeds due or payable because of liability of a third party, payable by any party, organization or insurance company, or other sources of payment, unless I pay the account(s) in full upon discharge, (the "Assignment").

If I fail to pay all charges when due I agree to pay all costs of collection, including attorneys fees, collection costs and court costs.

I hereby authorize and request Palmetto Health Alliance and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists) to release and furnish medical information, necessary to support claims submitted, to any entities for payment, pursuant to the above Assignment.

In the event the undersigned is entitled to health care or medical benefits of any type whatsoever, arising out of any policy of insurance insuring the patient or any party liable to the patient, said benefits are hereby assigned to Palmetto Health Alliance and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists), for application to the patient account(s) for services rendered.

I do hereby appoint and assign to Palmetto Health Alliance and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists) as my true and lawful attorneys in fact, to act on my behalf, with the full power and authority to collect any and all charges incurred for the benefit of the patient pursuant to the assignment of benefits set forth above.

ACKNOWLEDGEMENT OF RECEIPT OF MEDICARE/TRICARE MEDICAL INFORMATION

I, the undersigned acknowledge that if I am a Medicare/TRICARE beneficiary, I have been provided with a notice from Medicare/TRICARE regarding my rights as a Medicare/TRICARE patient and the rights form has not been altered.

I authorize a copy of this assignment to be used in place of the original.

Paresthesia

Patient: **MILLER, JEFFREY ALLEN** MRN: H000098764 FIN: H1205802438
Age: 39 years Sex: Male DOB: [redacted]
Associated Diagnoses: **Paresthesia** [illegible]
Author: **Worsham MD, John W**

Basic Information
Time seen: Date & time 02/27/12 17:08:00.
History source: Patient.
Arrival mode: Private vehicle, walking.
History limitation: None.

History of Present Illness
The patient presents with right arm paresthesia. The onset was 13 hours ago. The course/duration of symptoms is constant. Location: Right face upper extremity. The character of symptoms is altered sensation and tingling. The degree at onset was moderate. The degree at maximum was moderate. The degree at present is moderate. Risk factors consist of smoking. The dominant hand is unknown. Prior episodes: none. Therapy today: none. Associated symptoms: headache. Baseline status: ambulatory.
Additional history: none.

Review of Systems
Constitutional symptoms: Negative except as documented in HPI.
Skin symptoms: Negative except as documented in HPI.
Eye symptoms: Negative except as documented in HPI.
ENMT symptoms: Negative except as documented in HPI.
Respiratory symptoms: Negative except as documented in HPI.
Cardiovascular symptoms: Negative except as documented in HPI.
Gastrointestinal symptoms: Negative except as documented in HPI.
Genitourinary symptoms: Negative except as documented in HPI.
Musculoskeletal symptoms: Negative except as documented in HPI.
Neurologic symptoms: Negative except as documented in HPI.
Psychiatric symptoms: Negative except as documented in HPI.
Endocrine symptoms: Negative except as documented in HPI.

Health Status
Allergies:
Allergic Reactions (All)
NKA

Past Medical/ Family/ Social History

Medical history
Negative.
Surgical history: Reviewed as documented in chart.
Family history: Not significant.

ED Documentation

Social history: Tobacco use, Family/social situation: Married.

Physical Examination

Vital Signs
Vital Signs.

02/27/12 16:40	Temperature Oral	98.4 DegF
	Peripheral Pulse Rate	79 bpm
	Respiratory Rate	16 br/min
	NIBP Systolic	168 mmHg
	NIBP Diastolic	89 mmHg
	NIBP Mean Calculated	115 mmHg

General: Alert, no acute distress.
Skin: Warm, dry.
Head: Normocephalic.
Neck: Supple.
Eye: Extraocular movements are intact, normal conjunctiva.
Ears, nose, mouth and throat: Oral mucosa moist.
Cardiovascular: Regular rate and rhythm, No murmur.
Respiratory: Lungs are clear to auscultation, respirations are non-labored, breath sounds are equal.
Chest wall: No tenderness.
Back: Nontender, Normal range of motion.
Musculoskeletal: Normal ROM.
Gastrointestinal: Soft, Nontender, Non distended, Normal bowel sounds, No organomegaly.
Neurological: Alert and oriented to person, place, time, and situation, No focal neurological deficit observed, CN II-XII intact, normal sensory observed, normal motor observed, normal speech observed, normal coordination observed.
Psychiatric: Appropriate mood & affect.

Medical Decision Making
Differential Diagnosis: Paresthesia.
Documents reviewed: None available.

Head Computed Tomography: No acute disease process.

Impression and Plan

Diagnosis

Paresthesia 782.0 (ICD9 782.0, Discharge, Emergency medicine, Medical)

Plan

Condition: Stable.
Disposition: Discharged: Time 02/27/12 18:27:00, to home.
Patient was given the following educational materials: PARAESTHESIAS.

ED Documentation

Follow up with: Return to Emergency Department Within 2 to 4 days.
Counseled: Patient, Regarding diagnosis, Regarding treatment plan.

CONSENT FOR EXAMINATIONS, TREATMENTS AND OPERATIONS

Consent for Examinations, Treatments, and Operations: I hereby consent to and authorize Baptist Easley Hospital and the physician or surgeon in charge of my case to perform such examinations, treatments, operations, diagnostic procedures, administration of blood and blood products and necessary anesthetics which may in his/her opinion be necessary.

I consent to the disposal by hospital authorities of any tissue or members which may be removed during the course of my treatment. I further understand if my tissue is used rather than destroyed, it will not be linked to my name or any other identifier that could be traced to me.

To protect myself and others, I also give permission to have blood drawn and tested for infectious diseases including, but not limited to, HIV (AIDS virus) and Hepatitis.

PERSONAL VALUABLES RELEASE

I understand that Baptist Easley Hospital maintains an area for storage and safekeeping of my money and valuables, and that I may deposit such items with Baptist Easley Hospital for safekeeping. I further understand that the hospital will not be responsible or liable for the loss or damage to any money and valuables, which I do not deposit with the Hospital. I have voluntarily chosen not to deposit my money and valuables with the Hospital and assume full responsibility for any and all loss of or damage to my money and valuables and I further agree that Baptist Easley Hospital shall be held harmless for any and all such loss or damage.

I certify that I have read the foregoing Release and that I fully understand its provisions.

Acknowledgment of Notice of Privacy Practices

My signature acknowledges my receipt of the Notice of Privacy Practices from Baptist Easley Hospital.

Acknowledgement of Patient's Bill of Rights

My signature acknowledges the availability of the Patient's Bill of Rights (which includes provisions of the Lewis Blackman Patient Safety Act).

Directory Inclusion/Exclusion

I have chosen to opt out of the Baptist Easley Hospital directory.

I have been offered information or assistance regarding Advanced Directives: Patient's Initials JAM

I certify that I have read the Personal Valuables Release and fully understand its provisions: Patient's Initials JAM

I have received a copy of the Lewis Blackman Patient Safety Act Letter Patient's Initials JAM

GUARANTY AND ASSIGNMENT OF INSURANCE BENEFITS

I hereby guaranty payment to d/b/a Baptist Easley Hospital and my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists), for all charges and services incurred for the account(s) of the patient from date of admission until discharge. I do hereby assign to Baptist Easley Hospital and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists), any and all medical insurance, health benefits, hospital benefits, sick benefits, injury benefits and settlement proceeds due or payable because of liability of a third party, payable by any party, organization or insurance company, or other sources of payment, unless I pay the account(s) in full upon discharge, (the "Assignment").

If I fail to pay all charges when due I agree to pay all costs of collection, including attorneys fees, collection costs and court costs.

I hereby authorize and request Baptist Easley Hospital and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists) to release and furnish medical information, necessary to support claims submitted, to any entities for payment, pursuant to the above Assignment.

In the event the undersigned is entitled to health care or medical benefits of any type whatsoever, arising out of any policy of insurance insuring the patient or any party liable to the patient, said benefits are hereby assigned to Baptist Easley Hospital and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists), for application to the patient account(s) for services rendered.

I do hereby appoint and assign to Baptist Easley Hospital and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists) as my true and lawful attorneys in fact, to act on my behalf, with the full power and authority to collect any and all charges incurred for the benefit of the patient pursuant to the assignment of benefits set forth above. I further authorize and appoint Baptist Easley Hospital as my agent to appeal any denial of insurance coverage by a third party. I understand that Baptist Easley Hospital does not accept responsibility for collecting any insurance proceeds or negotiating a settlement on a disputed claim nor is Baptist Easley Hospital required to appeal any denial of insurance benefits.

ACKNOWLEDGEMENT OF RECEIPT OF MEDICARE/TRICARE MEDICAL INFORMATION

I, the undersigned acknowledge that if I am a Medicare/TRICARE beneficiary, I have been provided with a notice from Medicare/TRICARE regarding my rights as a Medicare/TRICARE patient and the rights form has not been altered.

Date Time Patient (Parent or Guardian in case of minor)

General: Alert, no acute distress, pt is calm, has a pleasant demeanor throughout thier examination, answers all questions articulately and appropriately.
Skin: Warm, dry, pink, intact, no pallor, no rash.
Head: Normocephalic, atraumatic.
Neck: Supple, trachea midline, no JVD.
Eye: Extraocular movements are intact, normal conjunctiva.
Ears, nose, mouth and throat: Oral mucosa moist.
Cardiovascular: Normal peripheral perfusion.
Respiratory: Respirations are non-labored.
Chest wall: chest rise symmetrical.
Musculoskeletal: mild-moderate generalized right shoulder discomfort is present. ROM is full.
Neurological: Alert and oriented to person, place, time, and situation, normal sensory observed, normal speech observed, normal coordination observed.
Lymphatics: No lymphadenopathy.
Psychiatric: Cooperative, appropriate mood & affect.

Medical Decision Making
Orders Launch Orders
Pharmacy:
Flexeril (Order): 10 mg, Tab, PO, OT, Routine, Start Date: 05/10/15 20:00, Stop date 05/10/15 20:00
predniSONE (Order): 40 mg, Tab, PO, OT, NOW, Start Date: 05/10/15 19:59, Stop date 05/10/15 19:59
Lortab 7.5 (Order): 1 tab, PO, OT, NOW, Start Date: 05/10/15 19:59, Stop date 05/10/15 19:59.

Impression and Plan
(1) impingement syndrome (2) rotator cuff syndrome
Plan
Condition: Stable.
Disposition: Medically cleared, Discharged: Time 05/10/15 20:00:00, to home.
Prescriptions: Launch prescriptions
Pharmacy:
baclofen 10 mg oral tablet (Prescribe): 10 mg = 1 tab, PO, 3xdaily, X 7 days, # 21 tab, 0 Refill(s)
predniSONE 20 mg oral tablet (Prescribe): 40 mg = 2 tab, PO, daily, X 4 days, # 8 tab, 0 Refill(s)
Ultram 50 mg oral tablet (Prescribe): 50 mg = 1 tab, PO, q4hr(s), X 5 days, # 30 tab, 0 Refill(s).
Patient was given the following educational materials: SHOULDER IMPINGEMENT SYNDROME, Understanding Rotator Cuff Injuries.
Follow up with: " UPSTATE BONE AND JOINT Within 2 to 4 days.
Counseled: Patient, Regarding diagnosis, Regarding diagnostic results, Regarding treatment plan, Regarding prescription, Patient indicated understanding of instructions.

GUARANTY AND ASSIGNMENT OF INSURANCE BENEFITS

I hereby guaranty payment to d/b/a Baptist Easley Hospital and my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists), for all charges and services incurred for the account(s) of the patient from date of admission until discharge. I do hereby assign to Baptist Easley Hospital and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists), any and all medical insurance, health benefits, hospital benefits, sick benefits, injury benefits and settlement proceeds due or payable because of liability of a third party, payable by any party, organization or insurance company, or other sources of payment, unless I pay the account(s) in full upon discharge. (the "Assignment").

If I fail to pay all charges when due I agree to pay all costs of collection, including attorneys fees, collection costs and court costs.

I hereby authorize and request Baptist Easley Hospital and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists and anesthesiologists) to release and furnish medical information, necessary to support claims submitted, to any entities for payment, pursuant to the above Assignment.

In the event the undersigned is entitled to health care or medical benefits of any type whatsoever, arising out of any policy of insurance insuring the patient or any party liable to the patient, said benefits are hereby assigned to Baptist Easley Hospital and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists), for application to the patient account(s) for services rendered.

I do hereby appoint and assign to Baptist Easley Hospital and/or my attending and consulting physician(s) (including, but not limited to, pathologists, radiologists, and anesthesiologists) as my true and lawful attorneys in fact, to act on my behalf, with the full power and authority to collect any and all charges incurred for the benefit of the patient pursuant to the assignment of benefits set forth above. I further authorize and appoint Baptist Easley Hospital as my agent to appeal any denial of insurance coverage by a third party. I understand that Baptist Easley Hospital does not accept responsibility for collecting any insurance proceeds or negotiating a settlement on a disputed claim nor is Baptist Easley Hospital required to appeal any denial of insurance benefits.

ACKNOWLEDGEMENT OF RECEIPT OF MEDICARE/TRICARE MEDICAL INFORMATION

I, the undersigned acknowledge that if I am a Medicare/TRICARE beneficiary, I have been provided with a notice from Medicare/TRICARE regarding my rights as a Medicare/TRICARE patient and the rights form has not been altered.

Baptist Easley General Consent

All Patients I consent to and authorize Baptist Easley to perform as applicable:

Blood Draws	Medications	Tissues Disposal/Donation
Examinations	Procedures	Treatments
Lab Tests	Therapy	Transportation

These activities may be performed by authorized Baptist Easley or affiliated physicians and/or clinicians, including appropriately supervised students and residents.

DO YOU WANT TO DESIGNATE A FAMILY MEMBER OR OTHER INDIVIDUAL WITH WHOM THE PROVIDER MAY DISCUSS YOUR MEDICAL CONDITION? DORN, DARLA (864)507-0355

My photograph may be taken for identification purposes and is the property of Baptist Easley unless I withdraw my consent in writing. If I have provided my e-mail address, I am requesting the ability to access my medical information through the Baptist Easley on-line Patient Portal.

I give permission to share my electronic medical record among my health providers and obtain medication history through a Provider Health Information Exchange (HIE). Baptist Easley will not provide sensitive information such as behavioral health, substance abuse treatment, sexual abuse, genetic test results, HIV/STD status and adoption records unless mandatory disclosure is required by state or federal law. I may opt out of the HIE and continue to receive care.

I provided the following information:

I have requested to not be listed in the Baptist Easley Patient Directory	YES DIRECTORY
I am an organ donor	N
I have an Advance Directive	N
I would like information about Advance Directives	N
I was given a Privacy Practices Notice on	20150501

Hospital Patients Only

If I signed a general consent form at my physician's office today, it is not necessary to sign another copy.

I understand video cameras may be used in some hospital rooms for observation purposes and additional photographs may be taken for medical purposes.

If I bring money and valuables to the hospital, I am responsible for any loss or damage for items not sent home or deposited with Baptist Easley.

I was shown/provided a copy of the Lewis Blackman Hospital Patient Safety Act Letter. I understand that the Patient Bill of Rights notice is posted in the public lobbies, printed in Patient Guides and available through the hospital's website @ www.BaptistEasley.org.

If applicable, I consent to the disposal by Baptist Easley authorities of any tissue or body part which may be removed during the course of my treatment. I further understand if my tissue is used rather than destroyed, it will not be linked to my name or any other identifier that could be traced to me. To protect myself and others, I also give permission to have blood drawn and tested for infectious diseases including, but not limited to, HIV (AIDS virus) and Hepatitis. I further understand that certain circumstances require mandatory disclosure to organizations such as the state health department.

Exhibits

No exhibits marked.

Court Reporter's Note: This transcript may contain quoted material. Such material is reproduced as read or quoted by the speaker. Double hyphens (--) denote interruption of speech, incomplete sentence/phrase, or trailing off. [ph] denotes phonetically written. [sic] denotes written as spoken. Social Security number, if present, has been partially or fully redacted or blacked out.

Stipulations

The reading and signing of this deposition is waived by the deponent and counsel for the respective parties.

Whereupon,

Jeffrey Allen Miller, being duly sworn and cautioned to speak the truth, the whole truth, and nothing but the truth, testified and deposed as follows:

The Court Reporter: State your name for the record.

The Deponent: Jeffrey Allen Miller.

Examination

By Mr. Huff:

Q Mr. Miller, my name is Ros Huff. I'm an attorney, and I have been practicing law for 40 years and been doing workers' comp for about 35. I know your attorney. I -- I'll say it on the record, I highly respect him. You couldn't have picked a better attorney. He's knowledgeable with what he does. He's a very fair and honest person. I'm not here to trick you. He'll tell you that. I'm just here to find out facts about your case. Then once I find out the facts, I'll report them back to my client, and they make the decisions. I don't make

them. So, today, if I ask you any question that you don't understand, don't answer it. Just say Mr. Huff, -- or just say I don't understand it. I'll repeat it, and I'll keep repeating it till you understand it, okay?

A Mm-hmm.

Q Now, you need to say yes or no.

A Oh. Yes.

Q That's okay. I'm going to instruct you, because, you know, in the south, we have a tendency to say uh-huh and uh-uh, and they sound a lot a like, don't they?

A Yep.

Q So, just give me a yes/no. Now, if the yes/no answer you don't think is a complete answer, you can give me any answer you want to. I don't put any limits. You can tell me. Like I could say did you drive in your car here today. You can say yep, I drove a 2010 Ford Expedition. That's fine. I don't care what your answer is. If at any time you need to take a break, to go to the bathroom, to get water, or you're in pain and you need to take a break, we'll take a break. If you need to stand up and move around, stand up and move around. Okay?

A (Nods head.)

Q Is that okay with you?
A Yes.
Q All right. You'll see I've got different colored pens over here, and it's just a way I can make my notes as I'm -- as I'm writing things down. And the lights are not the brightest in here for me, but I think -- and I didn't bring my magnifying glass, but let's just do this here.

Mr. Desai: I can turn the blinds up a little bit so we can get some light in here.

Mr. Huff: Yes, if we could.

Mr. Desai: Sure.

[Off the record briefly at 10:35 a.m.]

Examination Continues

By Mr. Huff:

Q Can you give me your date of birth?
A [redacted]
Q I was already out of college. All right. How old are you right now?
A Forty-three.
Q Forty-three. Are you married?
A No.
Q Have you ever been married?
A Yes.

Q Are you divorced or separated?
A Separated.
Q Separated. So, technically, you're still married?
A Yes.
Q All right. How long have you been separated, approximately? Five? Ten? How long?
A Fifteen.
Q Fifteen. Do you have any children?
A Yes.
Q How many?
A Four.
Q Way to go. I would say one of each, but since there's four, there's got to be a combination. What's your combination? How many boys and girls?
A Four girls.
Q Four girls. Ooh, baby. I've got one girl. I'm thinking about paying for one wedding. Four is a lot. Just give me their ages. I don't need their names because that's private.
A Let me think on that. Twenty-four; --
Q Yeah.
A -- twenty-two; --
Q Yeah.
A -- nineteen; --
Q Mm-hmm.

A -- seventeen.
Q Started off with two of them that are odds and two of them that are -- Okay. Can you give me your address?
A It's 135 Wilson Way.
Q All right. And what is 135 Wilson Way, apartment, mobile home, home?
A It's a home.
Q Home. Okay. Who lives there with you?
A My mother-in-law and father-in-law.
Q All right. Could you, please, give me your height and your weight?
A Five-foot-six. 220.
Q 220. I used to be bigger than you. I used to be 230. Yeah. I just learned how to eat. It took me two years, but I got rid of it. Okay. I'm going to ask you your Social Security number, but once you give it to me, it will be redacted. I won't have it where anybody can find it. What's your Social?
A XXX-XX-XXXX.
Q XXXX. So, you're a native South Carolinian?
A Yes.
Q All right. And what city were you born in?
A Pickens.

Q Pickens. My best friend used to play football for Pickens back in the '70s, a long time ago. Okay. Home of the Blue Flame. Beautiful place. All right. Do you own any vehicles?
A No.
Q All right. How did you get here today?
A Girlfriend.
Q Do you have a valid South Carolina driver's licence?
A No.
Q Has it been suspended?
A Yes.
Q Can you tell me the reason for the suspension?
A DUI.
Q Have you had more than one? Two? Three?
A Two.
Q Two. When was the last one?
A I think about six years ago.
Q Six years ago. Okay. Since we're talking about vehicles, have you ever been involved in a motor vehicle accident where you were either the driver or passenger?
A Yes.
Q How many?
A One.

Q What year was that? Do you remember?
A '91.
Q All right. Tell me about that accident. What happened?
A A man pulled out in front of me.
Q So, the other driver was at fault?
A Mm-hmm.
Q As a result of that accident, did you have any injuries?
A No.
Q All right. Did you get any type of a settlement?
A No.
Q Did you have an attorney represent you?
A No.
Q Your attorney today, I know him very well. You chose a very good person. He knows what he's doing. Have you ever had any other occasion to have an attorney to represent you in any matter?
A No.
Q When this accident occurred, I'm showing -- What date are you saying you were injured?
A I can't remember exactly when it was.
Q What year was it?
A It was last year.
Q Last year?

A I mean -- It was 2014.
Q What month? Do you know?
A Um, --
Q Take your time. We're in no hurry.
A I think it was March, --
Q All right.
A -- I think.
Q I'm showing a date of injury being March of 2015, this year.
A Yeah.
Q Plus, I read medicals. There may have been more than one accident on the job while working for Alice Manufacturing. Do you think that could be true?
A No.
Q All right. Just one accident for Alice; is that correct?
A Yes.
Q All right. Like I said, I'm not here to trick you. I'm just -- I'm just trying to find the facts out. Your attorney has indicated, by filing paperwork on your behalf, that you're claiming that you were injured on March 17th of 2015. Do you think that could be right?
A Yes.

Q Okay. Tell me how you got hurt on that day.
A Me and the coworker was pulling off the warps, and we were having to do so many, and as we was pulling them off, I felt something start burning in my arm.
Q Which arm?
A The right arm.
Q All right. Where in the right arm?
A From my wrist and my elbow. Then it went from the elbow up to the shoulder.
Q So, started wrist, elbow, then elbow to shoulder, right?
A Yes.
Q Are you wearing any type of item on your right arm presently, any type of stocking or stretch --
A Yes.
Q What have you got on your arm?
A It's just a brace, arm -- just a arm band to hold it tight.

Mr. Huff: Monty, can we describe that? Would you like to describe that for the record?

Mr. Desai: Go ahead.

Q Describe that. It's like an elastic --
A Yes, elastic --
Q -- strap?

A Yeah. Just to hold it tight.
Q All right. Did a doctor prescribe that for you, or did you go to the drugstore to get it? How did you get that?
A I went and got this and started using it, and it seemed like that it helped it a little.
Q All right. Did any doctor write you a prescription for that? I didn't see a prescription --
A No.
Q So, you got it on your own to help?
A Yes.
Q And you think it helps?
A To a point, yes.
Q All right. I'm going to go back on some other subjects in a minute, but I'm going to stay on the injury we have here. Today, as we sit here, you're claiming that you sustained an injury to your right arm?
A Yes.
Q All right. And the injury to the right arm is located -- I want you to say it in your own words again. It looks like it's -- You tell me where it is exactly.
A It's on the elbow and --
Q Right elbow. Okay. Continue.

A And it's in my shoulder.
Q Your shoulder. Does it go above the shoulder, in the back, or does it just stop at the shoulder?
A It -- Sometimes in the morning it's up into my shoulder into my -- toward my back.
Q When you say up toward the back, do you mean down into the shoulder blade area or over the shoulder? This is your time to tell me.
A It's up over the back -- back side of my shoulder.
Q Tell me what problems you're having or what symptoms. You can say, for an example, I have pain, I have numbness, I have tingling. Just use your words.
A Pain. Numbness.
Q All right.
A I have tingling. And I can't put my arm straight up.
Q Are you currently working?
A No.
Q When's the last time you worked?
A I believe it's right around March 17th.
Q Of 2015?
A Yes.
Q Why are you not working? Did someone send you home or did a doctor write you out? Tell me why you're

not working.

A The doctor wrote me a light-duty paper, --

Q Uh-huh.

A -- and the mill said they didn't have light duty, so the doctor just pulled me out of work.

Q Have you made any attempts to try to apply for work anywhere since you left the mill?

A No.

Q All right. What source of income do you have right now?

A None.

Q After you got out of high school, -- Did you graduate?

A No.

Q How far did you go in school? Like the last grade that you completed, what grade was that?

A Seventh grade.

Q Did you go to work?

A Yes.

Q Where was your first job that you can remember?

A Logging.

Q All right. Do you remember who the employer was maybe? If you can't, --

A I just -- My daddy.

Q All right. How long did you do logging work?

A Twenty-one, 22 years.
Q Did you work for more than one employer during that 21, 22 years? Like other than your father, did you work for anybody else?
A Yes.
Q Give me the employers that you worked for doing logging work.
A Lavern Stone.
Q All right. How long did you work for Lavern Stone?
A Probably 19 years.
Q Where was he located?
A Six Mile.
Q I know where Six Mile is. What did you do for Lavern Stone?
A Cut the trees; topped the trees; drove the skidder.
Q Why did you quit doing work for Lavern Stone?
A He passed away.
Q Okay. Where did you go to work after that?
A I'm trying to think.
Q Take your time.
A McKechnie Plastic.
Q Pardon?
A McKechnie Plastic.
Q McKechnie. Where are they located?
A In Easley.

Q How long did you work for them?
A Probably seven months.
Q What type of work did you do for them?
A I was over the cleanup crew.
Q All right. Why did you leave?
A Job wasn't going nowhere.
Q Did you leave?
A Yeah.
Q Where did you work after that?
A Ellison.
Q At the plant, my plant?
A Yes.
Q How long have you worked for Ellison? More than one occasion? One time? How many times?
A For the whole --
Q Yeah. I'm trying to find out how many times you've worked for Alice Manufacturing at the Ellison plant.
A I worked at Elljean when I was about seventeen, eighteen, something like that.
Q So, the last time I'm showing that you came to work there was in March of this year. Right? Last -- '14. Excuse me. You were there one year before you had this accident?
A Yes.

Q All right. Where did you work before you came to us in March of '14?
A McKechnie Plastic.
Q All right. And when you came to the Ellison Plant in March of '14, what was your job title?
A Cloth doffer.
Q Cloth docker?
A Doffer.
Q Doffer. Okay. What does that require you to do?
A You take the rolls of cloth off the machine.
Q What time would you come in?
A It was seven.
Q A.m.?
A Yes.
Q What time would you get off?
A Three.
Q How many days a week did you work?
A It varied. Sometimes it was five, and sometimes it was six.
Q So, five to six days, depending?
A Yes.
Q And who is your immediate supervisor?
A Kim LeCroy.
Q All right. On the day that you said that you were injured, which was March 17th of 2015, tell me one

more time -- I'm just going to write it down again. You were moving cloth, right? Tell me what happened.

A We was pulling -- pulling the beam thing, pulling the waste off of it.

Q Say that again.

A Pulling the waste off of the beam.

Q All right. And who was standing next to you when this happened?

A Scott Ramey.

Q Did anyone else other than Scott Ramey witness what happened to you?

A I can't remember exactly.

Q All right. And then you reported it to your supervisor, correct?

A Yeah.

Q And your supervisor again was?

A Kim LeCroy.

Q All right. Tell me how you went about telling her you were injured. Where were you standing? What did you tell her? What did you show her?

A I just told her I'd done something to my arm.

Q Did you send someone to go get her or was she standing by when it happened? I'm trying to see -- How did you get together with her?

A She was walking across the weaving.
Q All right. Tell me what -- Did you tell her to come over? I need to know --
A Yes.
Q Well, tell me exactly how you gave notice. You got hurt. You had your -- You had your witness there. Kim's your boss. I want to know how you got together with Kim and told her this happened.
A We hollered -- I hollered to her, and then I walked down toward her.
Q Okay. All right. Tell me what happened.
A I told her I just hurt my arm pulling off the beam.
Q And what did she tell you?
A I don't really recall.
Q That's a good answer. If you don't recall, you don't -- I don't want you to give me an answer you don't know. Did she ask you if you -- Just take your time and remember. If you can, you can. If you can't, you can't. Did she say do you want to go to the doctor, do you want to go to the first aid room, do you want to see a nurse? I'm just trying to see what you can possibly remember to the best that you can. If you can't, you can't.
A I went out to the mill nurse --
Q Who is that, if you remember?

A Mm-mm.
Q Okay. Go ahead.
A And she said it might be a pull or a sprain or something in my muscle.

Mr. Huff: Excuse me. Can we take a break for just a minute?

Mr. Desai: Sure.

[Off the record at 10:53 a.m.; back on the record at 10:57 a.m.]

Examination Continues

By Mr. Huff:

Q We went off the record for a minute, and while we were off the record, Mr. Miller, did I ask you any questions about your claim?
A No.
Q All right. You didn't volunteer any information to me, did you?
A No.
Q So, this is our first conversation since we went off the record and came back?
A Yes.
Q I like to do that to protect the record for both of us. Thank you very much. So, when you went to the mill nurse and you told them what happened, did

anybody at the employer indicate to you that they would refer you to anybody to be seen, anything like that?

A No.

Q Can you tell me when you first received any type of medical treatment because of the injuries that you're claiming? Was it like the next day, the next week?

A It would've been the next -- the following Monday.

Q Following Monday. Tell me -- Tell me how that came about.

A All weekend my arm was hurting --

Q Thank you.

A -- even worser [sic].

Q Which arm again? I want to be --

A Right.

Q Right arm hurting over the weekend.

A Mm-hmm.

Q Keep going.

A And I went to the doctor on Monday.

Q Did someone send you to the doctor?

A No. I went on my own.

Q All right. So, on Monday, you went to see the doctor, right?

A Yes.

Q Who did you see?
A Dr. Nations.
Q Who is Dr. Nations, family doctor or what?
A Yes.
Q All right. Did you tell your employer that you were going to go see Dr. Nations, or tell anybody about it?
A I don't recall. I think -- I think so.
Q All right. Did you ask your employer to send you to a doctor? And, if so, who did you ask?
A No. I told Kim that I needed to go to the doctor.
Q And what did Kim say?
A "If you go out the door, you're fired."
Q What is Kim's last name again?
A LeCroy.
Q Okay. And she said to you, "If you go out the door, you're fired"?
A Yes.
Q Did you go out the door?
A No.
Q So, you didn't leave?
A No.
Q But you did go to the doctor?
A Yes, the following Monday.
Q Following Monday. So, when did she tell you if you

go out the door you'll be fired?
A That was on the Friday.
Q Friday. And when you went to the doctor on Monday, that was after work?
A No. The start of my shift.
Q So, how did you get there? Did you go back to the employer and ask to be sent to the doctor? That's what I'm trying to find out.
A No. I went to the doctor.
Q You just went to the doctor before you went to work?
A Yes.
Q After you went to the doctor, did you then go to work?
A She gave me a work note, and I turned it in to Stan Brooks, and he said they don't have light-duty work.
Q Did he send you home then?
A Yes.
Q For this injury that we're talking about today, which is your right arm area, can you give me the names of the doctors -- I'm going to -- that you may have seen because of the injury? I'm showing that you may have been seen at Baptist Medical Center Easley. Does that sound correct?

A Yes.
Q I'm showing that you may have seen Easley Family Practice. Does that sound correct?
A Yes.
Q All right. I've seen that you've been to, it looks like, Upstate Bone and Joint, Dr. Boyer. Does that sound right?
A Yes.
Q I'm showing that you were seen at Carolina Neurology Associates, a Dr. Thomas Fox. Does that sound correct?
A Yes.
Q And I'm showing that you were seen by Dwight Jacobus at Oaktree Orthopaedics. Does that sound correct?
A Yes.
Q Is there anybody else that you may have seen?
A Nuh-uh.
Q Is that a no?
A No.
Q All right. Who sent you to Dr. Jacobus?
A I was referred by -- I think it was Easley Upstate Bone and Joint.
Q Okay. Did your attorney refer you to see anybody?
A Yes.

Q Who were you referred to see?
A Upstate Bone and Joint.
Q Which would be Dr. Boyer?
A Yes.
Q All right. Did anybody -- Did your attorney refer you to Dr. Jacobus or anybody like that?
A Yes.
Q Okay. Are you scheduled to see anybody else?
A I've got -- Let me think. Yes.
Q Who are you scheduled to see?
A I'm supposed to having a follow-up with Dr. Jacobus.
Q Dr. Jacobus?
A Yes.
Q When is that scheduled?
A I don't recall.
Q Okay. Could you tell me, what is a typical -- typical day for you? And by that I mean -- I want you to say something like this. I normally get up at 6:30 or I get up at 8:15, I take a shower, I make a bowl of cereal, I watch a little TV, I go to the drugstore or I go to the grocery store or I sit out on the porch or I have lunch around noontime, I go visit a friend. I want you just to tell me. What is a typical day for you right now?

A I get up around six, 6:30.
Q Six to 6:30 a.m.?
A Yes.
Q All right. Tell me what -- Keep going.
A I take a shower and --
Q All right.
A -- just sit around the house.
Q Does your mother or father work?
A No.
Q Is there a reason why they don't work?
A Mother is disabled, and father is, too.
Q Are they disabled from work by accident, or how -- What do you mean by disabled?
A My daddy, he had a stroke.
Q All right. How old is your dad?
A Hmm?
Q How old, approximately, is your daddy?
A Seventy, seventy-one.
Q All right. All right. How about your mom?
A She fell and hurt her back.
Q Was that work-related?
A No.
Q How old is she?
A Sixty-eight.
Q All right. Since this accident occurred in March

of 2015, -- so, during this calendar year -- have you left South Carolina?

A No.

Q Been to North Carolina or Georgia, anything like that?

A Oh. Yes.

Q Okay. That's fine. I'm not here to trick you. I'm trying to find out. So, the answer is you have left South Carolina, then?

A Yes.

Q All right. Where have you gone?

A To North Carolina.

Q Where in North Carolina?

A Brevard.

Q Why?

A I have a friend up there.

Q Did you go visit somebody?

A Yes.

Q How long were you there, approximately? A week? A day or two?

A Probably about an hour and a half.

Q All right. Did anybody go with you?

A Yes.

Q Who went with you?

A My girlfriend.

Q All right. What's her name?
A Darla Dorn.
Q Darla Dorn?
A Dorn. Mm-hmm.
Q D-o-r-n?
A Yes.
Q Okay. Did she drive?
A Yes.
Q And you told me, I think, earlier that there's been -- you've been in one car wreck before?
A Yes.
Q And you hit -- What did you hit?
A Another car.
Q Another car. Okay. Have you ever been in any car wreck where you may have hit a house, a tree, a wall, a -- anything like that?
A No.
Q All right. Okay. All right. Before this accident of 3/17/15, have you ever had any -- any problems with your right or left shoulder, any problems right or left shoulder?
A No.
Q So, if you've had no right or left shoulder problems, you've had no right or left shoulder medical treatment; is that true?

A Yes.
Q All right. Have you ever been diagnosed with any heart problems?
A No.
Q All right. And because of this accident that occurred in March of this year, you're not claiming any injury to any body part below the waist, are you, like legs, feet, toes, knees?
A No.
Q Okay. And you're not claiming any injury to the left side, like the left shoulder, arm, elbow, fingers, --
A No.
Q -- wrist? Okay. It's just strictly the right side?
A Yes.
Q And prior to this accident I'm looking at right here in March 17th of 2015, you've never had any right arm numbness or facial numbness or neck numbness or pain or anything like that?
A No.
Q So, that's a true statement, no prior problems?
A Yes.
Q Okay. Was there a time in your life that you used illegal drugs?

A No.
Q Before this accident occurred to you on -- occurred on 3/17 of 2015, your job, was it manual labor?
A Yes.
Q All right. And tell me about -- whether it -- whether it was mild manual labor, moderate manual labor, extra duty heavy manual labor. Just tell me what you would do in your normal job when you were doing your normal job.
A It just depends on how many looms was standing or coming off.
Q All right. And your job was what to do with the looms?
A We took and pulled the waste off the beams, --
Q All right. Just tell me about it.
A -- and we'd rack them --
Q Mm-hmm.
A -- and tie them in, come around and tie them in.
Q In a given day, did you do two, would you do 200, would you do 20? Just tell me, what is a normal day for you? You'd come in and -- Tell me your job duties and what you would do.
A I believe it's about five, six.
Q All right. You'd get them ready to run and run them?

A Yes.
Q And what would you do while they're running, stand there?
A Go to the next one.
Q Next one. Okay. And when one finished running, what would you do?
A We would pull the waste off, take the beam out, get a full beam, put back in it.
Q Did it always take two people to do it or just one person?
A Yes, two.
Q Two. And your coworker doing that was who?
A Scott Ramey.
Q And y'all worked together as a team every day?
A Yes.
Q This material that you had to pull or push or lift or move, about what did it weigh?
A I think I've seen on the beam head, it's about 5,000 pounds, --
Q So, how did you move --
A -- or 4500.
Q All right. How would you move 5,000 pounds? Would you --
A You had a jack and then a crane.
Q All right. Tell me about how you would use the

jack and crane.

A You would set it down at the end of the aisle with the jack, onto the floor, and you would take the crane and hook it to the ends and take it up the aisle.

Q Did you have to crank it up or down?

A No.

Q So, you hooked the crane up to it?

A Yes.

Q Tell me how you hooked it up.

A You put the cables on each end of it and lift it up, take it up to the machine, lower it, put it in and pull the waste off to get down to the good yarn.

Q So, when you hooked it up to the machine, did you crank something or push a button to lift or lower? That's what I'm trying to find out.

A When you put it on the machine, you had to pull it by hand.

Q And it took two people?

A Yes.

Q Did your employer eventually refer you for an evaluation?

A No.

Q Okay. Has any doctor said you need surgery?

A No.
Q Do you take any type of mental medication for mental stress, depression, anxiety, anything like that?
A No.
Q Has your weight changed any in the last six or seven months?
A No.
Q I'm showing that when this accident occurred that you were making about $11 an hour, 11.50 an hour, somewhere in that range. Is that --
A Yes.
Q All right. Did you have any other employment anywhere else other than Alice at the time of the accident?
A No.
Q What do you want -- You're claiming you got hurt. What do want out of this?
A My arm fixed, better.
Q And that's your right arm?
A Yes.
Q Anything else? I'm trying to find out. What do you want us to do? I've got to report back to my client.
A I just want my arm fixed, the pain.

Q If you had to rate the pain from zero pain to ten -- ten out of ten, where would your pain level be?
A Nine.
Q Where is the pain exactly?
A In my elbow and my shoulder and --
Q Right elbow, right shoulder?
A Yes.
Q All right. Anything else?
A And my wrist.
Q Tell me about what problem you have -- And that's right wrist?
A Yes.
Q Tell me what problem, if any, you're having with the right wrist.
A It's just -- just pain.
Q How can you describe the pain for me? I mean, different levels of pain. I mean, it can be sharp, it can be coming and going, it can be constant, it could be like --
A It's like a toothache.
Q Like a toothache. That's good. Anything else you want to -- because I've got to go back to my client and tell them how you described it. You're saying it's like a toothache.
A It's just -- It's numb and tingling all the time.

Q All right. When you're talking about right wrist, -- and I'm trying to get as specific as I can so I can report to them -- you can have pain on the top, you can have it on the bottom, you can have it on the inside toward the body or outside away from the body. Try to describe for me, when you're saying -- It could be the whole wrist. I don't know. How can you describe that for me?

A Like the inside of it, and it's sort of like a -- like a broke bone.

Q Okay. That's good. Does it come and go? Is it constant? What would be --

A It's constant.

Q Constant pain. And you never had that problem before?

A No.

Q All right. Where else are you having problems? You said the elbow area.

A Elbow.

Q All right. How about between the wrist and the elbow? Any problem with the bone itself?

A Yes.

Q All right. Tell me what problem you're having between the elbow -- I mean the wrist and elbow.

A The bone hurts.

Q All right. What do you mean by hurts? If you had to grade it, say four or five or sharp or dull, --
A It's like a sharp pain coming up my bone.
Q Okay. All right. Tell me what problems you're having, again, with the elbow itself. Can you bend the elbow? Can you turn the elbow? Just tell me.
A No, I can't -- I can't turn my arm.
Q All right. Anything else you want to describe the elbow? It's your time to do it.
A No. It's just the pain's there.
Q Always there? Comes and goes?
A It's -- It's always there.
Q All right. All right. Let's talk about from the elbow up to the shoulder. Any problem between the elbow and the shoulder, or just in the shoulder?
A It's in, like, my muscle up there on my shoulder and then in my nerves in it.
Q What about them?
A It just hurts, like burning.
Q And you've never had these symptoms before?
A No.
Q Since you have left Alice Manufacturing, have you had any communication with Kim LeCroy? Have you talked to her on the phone, seen her in person, any way at all?

A No.
Q How many times have you had a conversation with Kim regarding this accident?
A Just when it happened.
Q One time, right?
A Yes.
Q And on the date that this accident occurred, she told you if you left you would be fired?
A Yes.
Q Prior to this date of accident, did you have a good working relationship with Kim?
A Yes.
Q Why would she fire you if you got hurt on the job?

Mr. Desai: I'm going to object to that.

Q Okay. He objects. The commissioner will rule. But -- And I'm going to phrase the question again, and -- subject to his objection. Why would she fire you?
A Short of help. I mean, I don't know.
Q Did you ask her why are you doing this to me?
A She wouldn't talk.
Q What do you mean she wouldn't talk?
A She wouldn't talk after that. She walked off.
Q Prior to this notice of this accident to Kim, did y'all have a good working relationship?

A Yes, I guess.
Q All right. Did you make any inquiry to her, like why are you treating me like this or --
A No. Most the time when she done it, I just left her alone.
Q Okay. Was anybody present that could be a witness to this -- that this conversation occurred?
A Yes.
Q Who was there?
A Scott Ramey.
Q Did you talk to Scott after she walked away, like what the heck's going on here or anything? What conversation at all did you have with Scott?
A He said if it was me, he'd have just walked out.
Q So, Scott said if it was me, I'd -- I'd walk out of the plant?
A Yeah. Yes.
Q How many times after this accident occurred did you have a conversation with human resources? What was that man's name again?
A Stan Brooks.
Q Yeah. How many times did you talk to Stan?
A Quite a few.
Q Tell me about the conversations you had with Stan Brooks.

A It was over my insurance, him stopping my insurance --

Q All right.

A -- when it -- when all this first started. Then one time he was trying to fire me.

Q All right. Tell me what happened there.

A He -- I took him doctor's statements.

Q What did he say, if anything?

A He couldn't fire me.

Q He said I can't fire you because you've got doctor's statements, or what --

A Not them exact words, but --

Q Okay. But he didn't fire you?

A No, he didn't.

Q Tell me any other conversations you had with Stan. I have stopped the insurance, he talked to you about -- tried to fire you but he didn't, you took him doctor's statements. Tell me any other --

A I think one of them he said that -- I took him one down there, and he said Kim had fired me. Then he had to call her and straighten all that out.

Q Have you had any communications with anybody other than Stan or Kim or this other guy, Scott -- Have you talked to anybody else about this claim?

A No.

Q And do you happen to remember when your next appointment is?
A No. I can't recall.
Q Okay. That's fine. And there's no doubt that as you were pulling the rack off the machine, you felt immediate pain in the arm?
A Yes.
Q And you reported it to your coworker?
A Yes.
Q And his name was?
A Scott.
Q And then you reported it to your supervisor?
A Yes.
Q And the supervisor's name was?
A Kim.
Q And nobody sent you anywhere?
A No.
Q You went to the doctor the following Monday?
A Yes.
Q And you haven't worked since then?
A No.
Q What source of income is in the household right now, to your knowledge?
A Just my mother-in-law and father-in-law.
Q Have you gone by any other name other than Jeffrey

Miller?
A No.
Q And I think earlier you did testify that you have been arrested?
A Yes.
Q How many times have you been arrested?
A About seven, eight.
Q Tell me what you've been arrested for.
A DUI.
Q All right. More than one time, right?
A Yes.
Q You told me at least two times?
A Yes.
Q All right. What else?
A Driving under suspension.
Q All right.
A I think CDV.
Q Criminal domestic violence?
A Yes.
Q How many times for that, once, twice?
A Two, I think.
Q Two times. Anything else? I've got two DUIs, two criminal domestic violence, driving under suspension.
A I think that's it.

Q When was the last time you were arrested? Five years ago? Two years --
A Yeah.
Q Pardon?
A About five years ago.
Q Are there any pending charges against you now?
A Not that I know of.
Q All right. When you applied for work at Alice Manufacturing, you had to fill out certain documents, like an application for employment; is that correct?
A Yes.
Q All right. Also, they asked you medical history, questionnaire, about any prior problems you may or may not have had; is --
A Yes.
Q -- that correct?
A Yes.
Q Did you give any false answers on any of those statements?
A No.
Q All of your answers to those statements were truthful?
A Yes.
Q All right. They ask those questions of you so they

can rely on them in the hiring process, correct?
A Yes.
Q Okay. Can you read and write?
A Yes.
Q When you went to work with my employer, -- And I'm showing your -- you were hired in March of '14, and you're saying this accident occurred in March of '15. You were there for about a year, correct?
A Yes.
Q During that year that you worked for my employer, did you have to miss any time from work because of any medical conditions or injuries, if you can remember?
A I think once for stress.
Q What type of stress were you under?
A Just work and at home.
Q All right. What type of stress at home were you having?
A Family stress.
Q All right. Due to your children, your --
A Yes.
Q -- ex-wife? Okay. You're not claiming your family stress is any way related to your work, are you?
A No.
Q Okay. Are there any legal actions against you for

child support or anything like that?
A No.
Q Do you know an employee at Alice Manufacturing by the name of Derek or Dirk?
A No.
Q Have you ever been self-employed?
A Yes.
Q What were you doing as self-employed?
A I tried to log.
Q All right. And you're familiar with Stone Logging?
A Mm-hmm.
Q And who is that again?
A Lavern Stone.
Q And he's deceased now?
A Yes.
Q So, would it be a true statement that Stone Logging was basically your employer for most of your adult life --
A Yes.
Q -- until you came -- Okay. Have you had dizziness problems?
A Yes.
Q Have you ever fainted?
A No.
Q Is there any doubt in your mind that the problems

you're having on your right upper extremity is related to the job?

A No.

Q Have you ever told anybody that the problems you're having with your right arm is unknown whether it's work-related or not, whether you did it in writing or verbally or talking?

A No.

Q So, you've never told anybody --

A No.

Q It's clear in your mind it's work-related?

A Yes.

Q Alrighty. Is there anything else you want to tell me about your claim or why you think it's related or why we should accept it?

A No.

Q Have all your answers been truthful today?

A Yes.

Q Have you given any false answers?

A No.

Q Did you answer any question that you did not understand?

A No.

Q So, if you answered the question, you're indicating you understood the question and gave a truthful

response, correct?

A Yes.

Mr. Huff: With that, I have nothing further. Your attorney may. If he does, then I may have more. Otherwise, that's it.

Mr. Desai: I don't.

Mr. Huff: I appreciate it. Thank you very much.

(Whereupon the deposition was concluded at 11:36 a.m.)

(Deponent has waived reading and signing.)

State of South Carolina)
) Certificate
County of Richland)

Be it known that the foregoing deposition of Jeffrey Allen Miller was taken before me;

That I was then and there a Notary Public in and for the State of South Carolina-At-Large;

That by virtue thereof I was duly authorized to administer an oath;

That the witness was by me first duly sworn to testify the truth, the whole truth, and nothing but the truth concerning the matter in controversy aforesaid;

That the foregoing transcript of 46 typewritten pages represents a true, accurate and complete transcription of the testimony so given at the time and place aforesaid to the best of my skill and ability;

That I am not related to nor an employee of any of the parties hereto, nor a relative or employee of any attorney or counsel employed by the parties hereto, nor interested in the outcome of this action.

Signed this 1st day of November 2015.

Barbara P. Scott
