Mr. Shearhouse

JUN 26 2017

I'm writing ~~you~~ **S.C. SUPREME COURT** concerning the time in which I'll be receiving my belated Appeal which was granted March of last year by Judge Eckl... September of this year will be 18^{months} that I have been just sitting in prison as if my case has somehow slipped thru a crack or has been forgotten about. Sir at this point I don't know anything what I do know is that this entire case is just wrong from the beginning starting with the arrest warrants in which if you wouldn't mind taking a look where the Affiant's name is located you'll see where Mike Hess name has been crossed out and replaced with the name John Hicks I have no idea who this guy is or nobody knows who this guy is and if you look thru all of my transcripts and paperwork there is no mention of his name at all nowhere not even trial no appearance by the Affiant (The one that reports facts to the Judge) Why wasn't he summoned to appear at trial along with the crime scene photographer and the other 5 Aiken county officers present these are the officers who actually detained me

They also knew that there was no way possible for me to have committed any crime and I certainly didn't have any objects of any kind in my hands when the officers approached me... I obeyed their commands to the fullest because I had did nothing wrong those officers would have picked up anything and if I was laying on it the officer who found it underneath me would have stated that he was the one that actually found it and marked it in as evidence and a photo of where it was found..... Sir again I ~~ask you to look~~, the solicitor stated that I was found under some bushes covered with leaves... "not true" the C.S.P R & E Took them from me never returned them as they said they would whenever I got shipped to a yard. but their isn't a bush in the yard...

I'd also like to know just how does an average guy such as myself with a minimal record never been in trouble in SC sit on wire rd. for 5 months only see my public defender twice went in front another Judge after P.D. admitted to the Judge that he hadn't much time to work on my case and he's seen where I had been leaving several messages from me he also told the Judge that I wanted a different P.D. the Judge denied it of course and he made the

statement that hes never seen McMillen
work a case but he'll make you a fine
attorney... its in transcripts Traveling Judge
McManus something like that is his name

How does one get the grand Jury
to convene on July 2, 2015 which
was a Thursday and the trial starts
July 7, 2015 that Tues Sir there isnt
no true bill stamp (Its handwritten)
no time dated stamps ~~(shamlegal)~~

I've been granted a PCR and it
was taken back to give me belated
appeal Sir all I really would like to
get my appeal to clear my name and
get back to my family. I've received
my appellate brief from Ms. Hetchett
and its on point for this wrongful
conviction as you will see that there
is no evidence, witnesses, no fingerprints
and nobody lived or lives in a house
that I cannot be placed inside of it
and given time Sir please find the time
to look into this matter. I really
shouldnt be in prison surrounded by people
with life sentences 30, 40 50 yr sentences
my life is worth about a Mexican
Food stamp... Please contact me back.
as you always do and thank you for time
"I'm Innocent"
Is there a date for my belated appeal?
September will be 18^{months} its been granted
