RE: ALTON BROOKS V. STATE
APPELLATE CASE NO. 2015-001610

JUL 24 2017

S.C. SUPREME COURT

Dear Mr. Shearhouse:

This responds to your letter dated July 10, 2017, stating that the court cannot accept this pro se document for filing of my objection dated June 30, 2017. Petitioner submits that he request that Robert M. Pachak file the objection. Petitioner further informs the court that the denial to file his objection violates his 14th amendment to the United States Constitution and that Robert M. Pachak has never answered the phone to discuss any issue to present to the court and has disconnected the appellate defense services via telephone of petitioner. to contact him. Petitioner further submits that he's objected to the order of dismissal in this case and to the validity of the transcript of the lower court and that the record on appeal is not accurate for appellate review, as petitioner requested the tapes of the April 22nd 2016 hearing and the objection is timely, and the tape shall be included on the record for appeal. Also petitioner never failed to call any witness as the dismissal order states and counsel petition for certiorari states, petitioner presents that he move to strike that he failed to call a witness from his appeal and that he has a 59E motion to alter or amend the judgment on this issue in the lower court. Also petitioner, submits that his amendments to the application is not on appeal, his motion and hearings to rehear counsel before Judge Thomas Cooper, Stephanie P. McDonald, Roger Young are not on appeal, as counsel Robert M. Pachak has not included petitioner argument of denial of discovery by Judge Stephanie P. McDonald and the erroneous order is not on appeal which requested James Warren Miller & Ray - et scann's etc and the appellate counsel is in conflict and has intentionally left these documents out and petitioner request that these documents be filed.
