Appeared on behalf of Employer, James Raber d/b/a
Raber's Discount Tire Rack

Matthew J. Story
Clawson & Staubes, LLC
126 Seven Farms Dr., Ste. 200
Charleston, SC 29492
Appeared on the behalf of the UEF

Purpose of Hearing:

To determine compensability as set forth in the Form 50

Decision and Order:

Susan S. Barden, Commissioner

Filed:

April 30, 2015

APA SUBMISSIONS/EXHIBITS

Under the Administrative Procedures Act, the following records were submitted into evidence without objection:

A. Claimant's Submissions:

	NAME OF REPORT(S)/PHYSICIAN OR OTHER EVIDENCE	DATE OF REPORT(S)	NUMBER OF PAGES
1.	Barnwell County Hospital Records	02/19/2014 to 03/06/2014	1-20
2.	Carolina ENT Clinic Dr. Ansley	02/20/2014 to 03/06/2014	21-26
3.	Barnwell Family Practice	02/25/2014 to 03/31/2014	27-46
4.	Oaktree Medical Centre, PC Dr. David Rogers	05/19/2014	47-52
5.	Medical Bills	02/19/2014 to 05/19/2014	53-59
	EXHIBITS		
6.	Subpoenaed Responses from Raber's Tire	04/21/2014	60-109
7.	Subpoenaed Documents from Enterprise Bank	06/01/2013 to 02/28/2014	110-288
8.	Facebook messages from Raber's Tire	02/27/2014 to 03/18/2014	289-293
9.	Picture of time clock from Raber's Tire		294

B. Employer's Submissions:

NAME OF REPORT(S)/PHYSICIAN OR OTHER EVIDENCE		DATE OF REPORT(S)	PAGE NUMBER
	EXHIBITS		
A.	Security video footage dated February 19, 2014		
B.	Audio Records		
C.	Payment Records		

Claimant objected to the report of Dr. Bettle (Coastal Neurology), as contained in Defendants' APA, pages 1-2, for the reason that Dr. Bettle (a) does not state his opinions to a reasonable degree of medical certainty, and (b) did not physically examine Claimant, and instead only reviewed Claimant's records. I considered Dr. Bettle's report, and agree with Claimant that the conclusions are not made to a reasonable degree of medical certainty; nonetheless, I find that reference to or reliance upon Dr. Bettle's report is wholly unnecessary to a decision in this case (I make no other citation to Dr. Bettle's report in this Order), and I can therefore disregard the report. However, Dr. Rogers' report is even less reliable than Dr. Bettle's report for the reasons stated herein. I therefore give the greatest weight to the treatment records in evidence on the date of the hearing, and to the testimony/presentation of Claimant at the hearing.

STIPULATIONS

At the call of the case, the attorneys representing Claimant and Defendants made the following stipulations:

1. The purpose of the hearing was to determine compensability as set forth in Forms 50 and 51;
2. Venue and jurisdiction are proper;
3. Notice was properly served on all parties; and
4. The APA submissions not objected to are properly in evidence before the undersigned, with the exception of self-serving declarations and unstipulated medical reports.

STATEMENT OF THE CASE

Claimant takes the position that on February 19, 2014, he suffered compensable injuries arising out of and during the course and scope of his employment when an air hose on a compressor exploded near his head. Claimant alleges (a) injuries to his head and brain, (b) bilateral hearing loss, (c) aggravation of a pre-existing psychological condition, and (d) a vestibular disturbance, including problems with dizziness and balance. Claimant alleges that he is unaware of the full extent of his brain injury, and requests additional evaluation/treatment. Claimant acknowledges that he did not lose consciousness as a result of the injury, but takes the position that he was dazed, and that the statutes and case law do not require a loss of consciousness to prove a brain injury.

Claimant contends that his hearing loss is confirmed by audiometric testing performed by the ear, nose, and throat specialist (Dr. Ansley) to whom Claimant was referred by providers at the Emergency Room. Claimant argues that the testing showed a complete loss of hearing in his right ear (the side on which the Commissioner was sitting

during the hearing), and a significant loss of hearing in the left ear. Both tests showed similar patterns of hearing loss. The left ear retains some hearing, specifically a >90% ability to distinguish and understand spoken words when amplified. Claimant states that he wears an amplifier in his left ear, which he purchased at Walgreen's. Claimant testified that wearing an amplifier allows him to hear spoken words well enough to testify, albeit with some difficulty. Although Claimant contends that he retains a very slight ability to hear, Claimant also contends that audiometric testing confirms an impairment of 100% bilaterally, as defined in Regulation 67-1102. Claimant's E.N.T. physician recommended more objective testing at MUSC, specifically an A.B.R. (auditory brainstem response) test which Claimant never underwent. However, Claimant's personal understanding is that the test was for consideration of cochlear implants. Claimant testified that he was unable to obtain the test, as he alleges that MUSC does not accept his insurance and he has no other means to pay for the objective test.

Claimant seeks temporary total disability benefits from the date of the accident and continuing, with Defendants to receive a credit for two partial days of employment since the date of the accident. Claimant also seeks reimbursement of the medical expenses he has incurred, as well as ongoing medical treatment with the doctors with whom he has already established a treatment relationship. Claimant also seeks a determination that he was an employee on the date of the accident and not an independent contractor, and that the characterization of Claimant as an independent contractor in the employment contract is not dispositive. Claimant contends that more compelling is the fact that Employer exercised sufficient control over Claimant to create an employer-employee relationship.

Defendants take the position that the claim should be denied. The UEF issued a general denial, and does not admit an accident or incident occurred without a finding by the Commission. Employer admits that an incident occurred when a hose separated from the tire changer when Claimant was standing near it, but denies that Claimant was struck by any object as a result of this incident. Employer also asserts that Claimant worked to re-attach the hose, and continued working shortly after this incident. Therefore, if there was any injury, it was mild. Employer and the UEF both take the position that there was no brain injury, as there was not a loss of consciousness; further, according to the Emergency Room records from the date of the accident, there was no blow to the head, no complaint of a head injury, and Claimant's head was documented as atraumatic. Nor was any complaint of dizziness or cognitive difficulty made/documentated; nor was any brain diagnostic test ordered/undergone. Defendants contend that the first medical record containing a reference to a blow to the head occurred three months after the date of the accident--when Claimant was sent to an IME (Dr. Rogers) by his attorney. Even assuming Claimant was struck by an object in the accident, Defendants contend that the blow was insufficient to cause a brain injury. Defendants deny any alleged psychological aggravation on the basis that there is no evidence that Claimant's pre-existing psychological conditions are causally-related/were aggravated, other than by Claimant's self-serving statements to his IME physician three months after the date of the accident. Defendants also argue that no doctor has established the presence or aggravation of a vestibular disturbance other than through Claimant's self-serving statements to providers. As to alleged hearing loss, Defendants argue that Claimant could have undergone an objective hearing test, but Claimant failed to do so.

Therefore, Defendants contend that Claimant cannot establish any claim for hearing loss by credible evidence. Defendants also contend that Claimant was an independent contractor, based upon the terms of the contract itself and the fact that Defendant Raber did not exercise sufficient control over Claimant to establish an employer-employee relationship. Defendants also take the position that Claimant has not established that Employer regularly employed four or more employees on the date of this incident. Defendants take the position that if the case is found compensable, Claimant was offered and rejected light duty work; thus, Claimant would not be entitled to any temporary benefits. Finally, Defendants request the right to direct Claimant's treatment if the claim is found compensable.

At the hearing, Claimant objected to the admission of the report of Dr. Bettel of Coastal Neurology on the grounds that (a) Dr. Bettel failed to state his opinion to a reasonable degree of medical certainty, and (b) Dr. Bettel did not physically examine Claimant.

The UEF requested that if the claim is found compensable, Employer be found to be a non-qualified self-insurer subject to the Act.

EVIDENCE OF THE CASE

I. Claimant's testimony

A. Direct Examination

Claimant testified on direct examination that he is thirty-seven years old, and is married with six children. He is a high school graduate. On February 19, 2014, he was working at Raber's Tire. (Tr. P.19, 1.21-P.20, 1.15).

At Raber's, there are four bays. Claimant's boss was Raber, and Chad Williams was the shop foreman. Other employees included Marie in the office, "Little Man" Pernell, Red, Alfred (Alfie/Red), and Claimant. Claimant was paid \$9.00 per hour, and he typically worked from 7:00 a.m. to 6:00 p.m., but his work hours fluctuated; sometimes, Claimant would additionally work Sundays to finish something. Claimant worked full-time, and he was not paid time and a half when he worked more than forty hours. Claimant wore a uniform supplied by Raber, and Raber and Marie directed his work. Claimant used his own specialty tools, and believes it is normal for a mechanic to provide his own hand tools. In addition to tools, Claimant also used Raber's large tire changer, the balancer, the brake lays, the alignment rack, and the lift; all these items belonged to Raber. Claimant would not have been able to perform his work duties without using the equipment provided by Raber. Raber assigned Claimant his work at the shop. (Tr. P.21, 1.10-P.24, 1.14).

On the day of the accident in issue, Claimant was working with Chad, Alfie, and "Little Man." Claimant pulled a trailer that morning with his truck, and then he put new shocks on his truck because they were blown out. Before doing so, he asked Chad if it was ok; Chad told Claimant that since Claimant's truck was damaged while Claimant was towing the trailer for Raber's, Claimant could order the shocks through Raber's and install them. Alfie actually performed this work, and Claimant traded him some air tools for doing the work. (Tr. P.24, 1.15-P. 25, 1.21).

Claimant testified that he could not remember what he was working on at the time of the accident, but recalls hearing a loud hiss by the tire changer. Claimant and Alfie went over to the tire changer to try to find the location of the hiss, and he got down close to it.

When the hose popped loose, "it was like a bomb." Claimant testified that he had a bruise on his right forehead as a result of something striking him. (Tr. P.25, 1.22-P.28, 1.20). Claimant testified that he recalled being on his hands and knees holding his head and ears immediately after the incident; his head and ears were painful and his ears were ringing. Claimant testified that he was dazed, stunned, and slightly dizzy. (Tr. P.28, 1.9-22).

Claimant's wife took him to the Emergency Room on the date of the accident. Based upon Claimant's complaints of hearing loss and ringing in his ears, the Emergency Room physician referred Claimant to an ear, nose, and throat specialist (Dr. Ansley). Claimant testified that he was referred by Dr. Ansley to a hospital in Charleston for testing for cochlear implants, but he was unable to be seen there because they did not accept his wife's insurance. Claimant testified that he is willing to have that test or any other recommended treatment should the case be found compensable. (Tr. P.30, 1.16-P.31, 1.22). Claimant also saw an IME physician (Dr. Rogers), and Claimant testified that he spent approximately 2-2½ hours with Dr. Rogers. In fact, Claimant doubled the time spent with Dr. Rogers, as the actual time was one hour and 15 minutes. Dr. Rogers performed a lot of reflex tests and balance tests on Claimant, as well as memory tests. Claimant testified that he could not complete the balance tests because he almost fell. Claimant also had difficulty with one of the memory tests. Claimant would like Dr. Rogers named as the treating physician. (Tr. P.31, 1.23-P.34, 1.6).

Claimant testified that he tried to continue working after the incident, but he could only work half of two days. Claimant testified that he was wearing hearing aids, and the noises from the electric fans, the bright lights, and the noise from the lifts gave him a

headache. Claimant testified that his ears would also bleed at night onto his pillow. (Tr. P.28, 1.23-P.30, 1.8; P.56). Claimant believes he tried to work the day after the incident. Claimant also served as a volunteer fireman before this incident, but states that he is no longer allowed to assist in fighting fires. Claimant testified that he has to either stay at the fire house or sit in the truck at the scene. Claimant also testified that he has difficulty hearing his children when he is driving and they are in the back seat talking. (Tr. P.34, 1.15-P.35, 1.25).

B. Cross Examination by Raber

On cross examination by counsel for Defendant-Employer Raber, Claimant testified that when he began working for Raber, Claimant signed a contract stating that he was an independent contractor. Claimant did not have any set vacation, and was allowed to work and take off as needed. Claimant admitted that he used his own hand tools and his own air compressor tools, but that he did not buy his own floor jack. Claimant already knew how to work on cars when he was hired. Raber did not teach Claimant anything about how to work on vehicles. Claimant had to clock in and out, and had to check with someone before he could leave. If Raber was not there, Claimant had to check with Marie or Chad prior to leaving. (Tr. P.36, 1.9-P.38, 1.14).

On the day of the alleged accident in issue, Claimant pulled his truck into the garage at approximately 2:30 p.m. Alfie performed the work on the truck. Claimant believes that Claimant is a better mechanic than Alfie at some things, but Alfie can install shocks, which was the work to be performed. Claimant ordered the shocks on Raber's account with Chad's permission, but acknowledged that he never asked Raber permission before doing so.

Claimant testified that he does not remember working on his own truck just before the accident. Claimant believes he was by the alignment rack, but alleges that he cannot remember what he was doing. It would not have taken long to change the shocks on his truck, as it was only a few bolts, and Claimant states that he does not know how long the truck was on the rack. Claimant testified that he cannot remember whether he worked on his truck on the day of the accident. (Tr. P.38, 1.19-P.41, 1.24).

Claimant testified that he does not recall that he worked on the tire changer shortly after the hose detached, and that he does not recall much after the accident. He claims that he reported memory loss to the Emergency Room staff on the day of the accident, even though the Emergency Room records are devoid of such a complaint. Claimant also testified that he was also experiencing ear and head pain, and that he had a bruise on his head. However, the Emergency Room records state that Claimant's head was atraumatic with no head bruise noted. Claimant alleges the doctors were more concerned with his ears than his head. (Tr. P.42, 1.10-P.44, 1.12; Tr. Page 43, lines 8-13 and 22).

After being seen in the Emergency Room on the date of the accident, Claimant underwent two hearing tests at Carolina E.N.T with Dr. Ansley. The first test was on February 20, 2014 (the day after the accident), and the second test was on March 6, 2014. Inexplicably, the tests showed that Claimant's hearing had gotten worse from February 20, 2014, to March 6, 2014, prompting Dr. Ansley to refer Claimant to MUSC for a "more objective" test. Claimant cannot explain why his hearing would have gotten worse between the two visits with Dr. Ansley. Claimant admitted that Dr. Ansley recommended a more objective test at MUSC, but Claimant claims MUSC would not accept his insurance. (Tr.

P.44, 1.13-P.46, 1.5). The A.B.R. test recommended by Dr. Ansley would more objectively determine any hearing loss. However, Claimant has never undergone this test to prove causally-related hearing loss. (Tr. P.53, 1.6-20).

Claimant was asked at the hearing if he had ever been diagnosed with depression, anxiety, and Bipolar disorder. Claimant testified that he takes a depression medication, but the reason he takes it is to keep his temper down. Claimant admitted that he had depression before the incident, and was taking medication for depression at the time of the incident. However, Claimant denied ever being previously diagnosed with anxiety or Bipolar disorder, when in fact Claimant has been diagnosed with both conditions (Bipolar disorder since 2007). When Claimant was asked if he told the Emergency Room providers if he had Bipolar disorder, he answered "Why would I tell them if I had Bipolar if I wasn't diagnosed with it?" (Tr. P.46, 1.25-P.49, 1.14). Although Claimant alleges that his depression is more severe after the accident in issue, Claimant's family physician--who treats Claimant for depression--did not render an opinion in this case that Claimant's pre-existing depression was aggravated. Claimant believes that his IME (Dr. Rogers) reviewed Claimant's records prior to rendering an opinion, but Dr. Koukos' records were not provided to Dr. Rogers (Claimant's APA #4, page 47, as to "Records Reviewed"). Claimant believes that he saw Dr. Rogers for 2½ hours, but Dr. Rogers' report indicates the visit was for 1 hour and 15 minutes. Claimant could not explain this discrepancy. (Tr.P.50, 1.15-P.53, 1.5; Tr. pages 52-53).

Claimant admitted that he had a history of migraines prior to the accident in issue, but insisted that "everybody" has migraines. Claimant admitted that he was diagnosed with

migraines prior to the accident, and had been prescribed migraine medication. Claimant alleges increased headaches as a result of the accident. (Tr. P.49, 1.20-P.50, 1.14).

Claimant believes that a metal clamp hit him in the head at the time of the accident, because he saw the clamp by his hat when he picked up his hat a few minutes after the accident; however, Claimant told Dr. Rogers that he was in fact hit in the head with the clamp. Claimant testified that he remembered seeing the clamp, but claims he has no recollection of working on the tire changer after the incident. (Tr. P.54, 1.2-P.55, 1.20; *See* Claimant's APA #4, page 47).

Claimant testified that he tried to return to work after the incident, but he was only able to work two half-days. Claimant admitted that his hearing aid was removable, and he could adjust the volume of it. He again testified that the noises in the shop were too loud. He could not turn the volume down enough to solve the problem. He testified that he cannot remove the hearing aid either, because then he states he cannot hear at all. (Tr. P.56, 1.11-P.59, 1.23).

Claimant was shown the surveillance video of the incident in issue, and Claimant admits that Chad, the shop foreman, was talking to him right after the incident. Claimant cannot recall what Chad said to him. Afterward, Claimant texted his wife to come get him. Claimant testified that he remembers talking to Chad and texting his wife, but he does not remember working to repair the tire changer. He testified that he recalls telling Chad he could not hear. Claimant testified that he told everybody in the shop he could not hear. The video shows Claimant talking to "Little Man" shortly after the accident, and asking "Little Man" to do something to help him repair the tire changer. Claimant testified that he does

not remember working on the machine. He testified that he could not hear anything, but that he was still trying to repair the tire changer within five minutes of the incident because he has six children to feed. (Tr. P.60, 1.22-P.65, 1.18).

C. Cross Examination by the UEF

On cross-examination by counsel for the UEF, Claimant testified that his hat was on the ground in front of him immediately after the incident; however, earlier in his testimony, Claimant inconsistently testified that his hat was blown off his head behind him during the incident. Claimant again testified that his hat was blown behind him, but he acknowledged that on the video, this was not actually the case. (Tr. P.66, 1.14-P.67, 1.21).

Claimant testified that he was the best mechanic in the shop at the time, and no one directed him on how to do his work. Raber would approve things based on what Claimant told him a car needed. Claimant used both his own tools and Raber's tools for the work. Claimant was expected to give the customers a result by fixing the car. (Tr. P.67, 1.22-P.71, 1.23).

Claimant moved a trailer full of used tires from one side of the shop to the other on the day of the accident, and he damaged the shocks in his truck while he was performing this act for Employer. Claimant received Chad's permission to order shocks through the shop because Claimant damaged his truck while moving the trailer for Raber. The shocks came in the same day Claimant ordered them, and Alfie put them on. (Tr. P.71, 1.24-P.73, 1.8).

Claimant admitted that he signed the independent contractor document. Claimant tried to read this document prior to signing it, but states that he has difficulty reading because he is dyslexic. (Tr. P.73, 1.9-P.76, 1.16).

Claimant continues to work as a volunteer fire fighter. Prior to the accident, Claimant worked approximately 6 house fires and 10-13 brush fires over the years. After the accident, there have been ten house fires in four months, and he testified that he could not assist with these fires. (Tr. P.79, 1.20-P.81, 1.14).

D. Redirect Examination

On redirect, Claimant testified that he had been working for Raber a few weeks when Claimant signed the independent contractor agreement, and had already received several pay checks. He was moving Raber's trailer at the time he damaged the shocks on his truck. Claimant testified that Dr. Rogers was nice to him, but Claimant left feeling bad because he could not do a lot of the things Dr. Rogers asked him to do. (Tr. P.82, 1.3-P.83, 1.1).

E. Medical Evidence

The APA submissions in this case contrast sharply with Claimant's testimony. Contrary to Claimant's testimony regarding his condition after the accident, the records from Barnwell County Hospital on the date of the accident provide that Claimant was affirmatively found to be alert and oriented x 3 with a normal mood/affect. There is no documentation of a complaint or observation of head trauma, headache, cognitive difficulty, dizziness, bleeding from either ear, or memory loss. Nor was any diagnostic study of Claimant's head ordered or recommended. Claimant reported that a tire changer caused his injuries, and complained of ringing in his ears, difficulty hearing, and right ear/right side facial pain. Claimant's head was noted to be atraumatic, and a "disoriented" option was not checked or marked. Claimant indicated that he had a history of depression, and was currently taking Ambien and Effexor. Claimant is also Bipolar, as he was diagnosed with

such condition in 2007 (Claimant's APA #1, pages 1-9; Claimant's APA #3, pages 27 and 43-46).

Based upon his complaints of hearing loss, Claimant was seen the day after the accident by Dr. Ansley of Carolina E.N.T on February 20, 2014. During this visit, Claimant reported that "a machine [blew] up in his face a couple days ago and he is having some difficulty hearing." The note does not contain any mention or complaint of a head trauma, headaches, dizziness, balance problems, bleeding from the ears, cognitive difficulty, or loss of memory. Dr. Ansley diagnosed bilateral tympanic membrane perforations, and performed an audiogram which showed severe hearing loss in both ears. The right ear showed profound hearing loss and the left ear showed severe hearing loss. Dr. Ansley recommended a CT scan of Claimant's temporal bones, which was performed on February 25, 2014 (6 days after the incident); the CT scan indicated that Claimant had normal auditory canals, normal ossicles, and normal tympanic cavities. The report suggested that if Claimant had sensorineural hearing loss, a brain MRI could be performed as a follow-up. The CT scan also showed chronic sinusitis with mucosal thickening. Dr. Ansley scheduled Claimant for a follow-up visit, and expected Claimant's hearing thresholds to improve in the interim (Claimant's APA #1, pages 10-11; Claimant's APA #2, pages 21-23).

Claimant was seen by his family doctor, Dr. Koukos at Barnwell Family Medicine, on February 25, 2014, complaining of hearing loss, right sided headache, and dizziness. Dizziness and headaches are mentioned for the very first time even though Claimant was previously seen at the Emergency Room on the date of the accident and by Dr. Ansley on February 20, 2014. Claimant has pre-existing migraine headaches. Notwithstanding

Claimant's complaints, his hearing was documented as "normal." The neurological exam was completely normal, with Claimant "alert and oriented x3, with no impairment of recent or remote memory, normal attention span and ability to concentrate, able to name objects and repeat phrases, and appropriate fund of knowledge. I give this record great weight (Claimant's APA #3, pages 39-42).

Claimant returned to E.N.T. Dr. Ansley on March 6, 2014, for the follow-up visit for hearing loss. At this visit, Claimant complained of continued hearing difficulty. This treatment note contains no mention whatsoever of any complaint of head trauma, headaches, dizziness, balance problems, bleeding from the ears, cognitive problem, or loss of memory. Whereas Dr. Ansley expected improvement in audiogram testing on this date, he was surprised to see a downward shift on audiogram. The left ear test showed profound hearing loss, and Claimant's score on the left ear speech test dropped from 80 to 40, but his word discrimination score improved from 92% to 96%. Dr. Ansley referred Claimant for an A.B.R. at MUSC "to obtain [a] more objective measure of his hearing," and this testing was scheduled for Claimant. Dr. Ansley's assessment was "rule out sensorineural hearing loss," and Dr. Ansley was to see Claimant again once the A.B.R. test was completed. Claimant never underwent this more objective test, and never returned to see Dr. Ansley as instructed. Claimant claims he or his wife called Dr. Ansley's practice and informed the practice that MUSC would not accept Claimant's insurance, but there is no documentation of this communication/occurrence in any record from Dr. Ansley. Dr. Ansley's last record contains the referral for the A.B.R., and there is no further treatment annotation. Even

though Dr. Ansley is Claimant's treating E.N.T., Claimant did not submit a causation opinion from Dr. Ansley (Claimant's APA #2, pages 24-26).

On March 14, 2014, Claimant underwent a CT scan of his head at Aiken Regional Medical Center for his complaints of constant headaches and hearing loss. This scan was normal (Claimant's APA #3, page 38).

On March 26, 2014, Claimant was seen at the Barnwell County Hospital Emergency Room for a rib injury sustained when he got out of the bath tub, tripped, and fell. There is no mention of any dizziness or balance problem as a causative factor--or otherwise--in the entirety of these records, and Claimant was treated solely for a right rib fracture—nothing else. Under “location of pain,” the only body part marked was “chest.” Under “Clinical Impression,” the only thing noted is “right rib contusion.” Under “chief complaint,” the only thing written is “right rib.” Although there were opportunities for providers to mark “memory impairment,” “head,” and “face,” these body parts/conditions were not marked. Claimant's ENT exam is documented as “normal,” because of the “normal” findings during the ENT exam, because the only complaint was the rib, and because Claimant's hearing was “normal” on February 25, 2014, and without issue on March 31, 2014, I find that the “hearing loss” reference on Claimant's APA #1, page 17, appears to be a reference to Claimant's earlier visit at the hospital on the date of the accident. Nor did Claimant complain of any headache or dizziness as he had before in previous medical visits. These Emergency Room records indicate that Claimant reported a prior history of migraines and depression, but he reported no present problem with either at this visit. Nor is there any documentation of any bleeding from the ears or loss of memory—past or present. Claimant

followed up for his rib injury with his family doctor at Barnwell Family Medicine on March 31, 2014. Claimant had no complaints of hearing loss, headache, cognitive difficulty, dizziness, memory loss, or bleeding. His only complaints were the rib injury and wheezing for which Claimant was prescribed an antibiotic. An examination of Claimant's ears revealed "normal external auditory canals with tympanic membranes clear and mobile." This record is Claimant's last treatment record as submitted on the date of the hearing (Claimant's APA #1, pages 12-20; Claimant's APA #3, pages 27--37).

Claimant underwent no further treatment until his May 19, 2014, independent medical evaluation with Dr. Rogers at Oaktree Medical Centre Department of Neurology. During this one-time IME visit, Claimant told Dr. Rogers that a hose clamp struck him in the right temporal aspect of his head. At this visit (3 months after the date of the accident), Claimant complained of a head injury for the very first time to a medical provider; it is the very first record where Claimant reported that he was struck by an object when the accident occurred. Claimant complained to Dr. Rogers that Employer "did not even call 911," but Claimant did not tell Dr. Rogers that immediately after the incident, Claimant continued to work by repairing the tire changer. While none of Claimant's other treatment records mention any falls from being off balance, Claimant reported to Dr. Rogers that he had several falls from being off balance, including the fall leading to the rib fracture. By contrast, the rib injury records from the Emergency Room and from Claimant's family doctor do not mention any balance issue causing the fall. Claimant also told his IME physician that he has bleeding from his right ear when exposed to loud noises. This is the very first mention in any medical record of alleged bleeding from Claimant's ears. Claimant reported to Dr.

Rogers that he experienced headaches 18 of the past 30 days, but Dr. Rogers fails to mention in his report that Claimant has pre-existing migraine headaches. Claimant also admitted in his testimony that he had been prescribed headache medication before this incident, but Dr. Rogers' report does not indicate that Claimant told him about the pre-existing migraine medications. Claimant reported "a lot" of dizziness to Dr. Rogers. However, neither the March 26, 2014, Emergency Room record for the rib injury nor the March 31, 2014, family doctor follow-up visit for the rib injury contains any complaint of or reference to dizziness. Additionally, the February 25, 2014, evaluation showed that Claimant had normal hearing, a record which either Dr. Rogers was not given or did not review; the March 31, 2014, record documents no problems other than Claimant's rib and wheezing, and this record is likewise notably absent from the list of records Dr. Rogers reviewed. Claimant reported insomnia problems to Dr. Rogers, but Claimant was already taking Ambien prior to the accident. For the very first time (to any medical provider), Claimant reported cognitive and memory difficulties to Dr. Rogers. In previous records, Claimant's memory, concentration, and cognition are all noted to be normal (Claimant's APA #3, page 40). Claimant also reported to Dr. Rogers that he was experiencing irritability and anxiety, but Claimant admitted at the hearing that he was already on medication for his temper before the accident in issue. Dr. Rogers' notes state "[Claimant himself] reports a history of depression, anxiety, and Bipolar affective disorder;" at the hearing just one month later, however, Claimant denied to the undersigned any prior history of anxiety or Bipolar disorder. Claimant reported to Dr. Rogers, "I sit at home now but that is all. I was a volunteer fireman, but now I cannot hear," and that Claimant no longer works as a volunteer

fireman. During the hearing, however, Claimant testified that he continues to work as a volunteer firefighter, but that he cannot fight fires and must sit in the truck or at the station. Dr. Rogers noted an "apparent healed 60% tear of the right tympanic membrane. More complete approximately 80% tear in the left tympanic membrane." Dr. Rogers does not account for the inconsistency of these findings with Claimant's other medical records. Dr. Rogers also fails to address how Claimant's hearing would worsen from one test to the next with no increased or subsequent trauma. Dr. Rogers additionally fails to address Claimant's failure to undergo the objective hearing test recommended by E.N.T. Dr. Ansley. Even though Claimant never underwent the objective testing recommended by Dr. Ansley, Dr. Rogers assigns permanent impairments just 3 months after the date of the accident, including an impairment for a "closed head injury with resultant post-concussive syndrome" (Claimant's APA #4).

Impressions of the Undersigned Commissioner

Claimant's conduct/presentation at the hearing (including prior to opening the record) was more revealing than the substance of his actual testimony. This is a hearing that needed to be videotaped/audiotaped. Prior to opening the record, I asked Claimant about his ability/inability to hear me, and Claimant asked me to raise my voice in order for him to hear me. However, as an audio/video tape would show, Claimant was inconsistently able to answer questions asked by a defense attorney--at a normal volume--while Claimant's back was to the attorney (*i.e.*, Claimant was not in a position to lip read). Claimant was wildly inconsistent at the hearing. Lip reading would certainly be plausible, but at times Claimant either looked at his hands while answering questions, or had his back to the questioner.

Further, Claimant's counsel was slightly farther away from Claimant than I was, and spoke in a voice/tone softer than my normal speaking voice that Claimant was able to hear and understand. Additionally, when defense counsel for Raber was approximately 10 feet away from Claimant, and was crouching down to deal with the video footage, I could barely hear this attorney, yet Claimant heard and answered the questions posed to him. It did not reflect well upon Claimant to "need" me to speak loudly, but then to inconsistently be able to answer questions posed (a) in a softer tone than my regular speaking voice, and (b) when Claimant's back was turned to the person asking the question.

Claimant testified that he told his co-workers at Employer's shop that he could not hear, but the surveillance video shows Claimant holding his ears momentarily after the incident, then asking a co-worker for a part within five minutes of the incident to repair the tire changer. Claimant testified that he did not even remember subsequently working on the tire changer—that he has memory loss—but he is able to remember picking up a hose clamp by his hat right after the incident which he now states hit him in the head (according to Dr. Rogers' report). Inconsistently, Claimant told every treating doctor exactly what happened to cause his accident, but none of the descriptions make reference to a hose clamp. Further, not until three months after the accident did Claimant raise memory issues notwithstanding all the prior treatment records which contain no reference to a memory problem. At prior treatment venues, Claimant was alert and oriented, and passed memory tests administered by treating physicians. Inconsistently, Claimant claims a brain injury. Claimant states that he drives and listens to the radio so loudly that his mother-in-law complained, but Claimant

inconsistently says he cannot work because it is too loud at Employer's shop and it causes his head to hurt.

POST-TRIAL MOTION AND REPLY TO THE MOTION

After the hearing, Claimant filed a Motion to Submit Additional Evidence. In order to determine whether or not I would consider this new evidence, I necessarily had to review it. Claimant submitted (a) records for visits occurring after the date of the hearing, and (b) an Affidavit stating that Claimant has applied for (*i.e.*, not received) Social Security Disability benefits. The application for Social Security Disability is premised upon an **August 2014** record (dated 2 months after the date of the hearing) from a physician who states that Claimant reported that Claimant has had balance issues “ever since” the accident, and that Claimant “reads lips.” This physician: (a) could have verified the “ever since” statement if he had reviewed three months of records after the date of accident; (b) apparently did not review the post-accident record from Claimant’s own family physician stating that Claimant’s hearing is “normal;” and (c) could have personally verified the “reads lips” statement had he attended the hearing where Claimant answered questions with Claimant’s back turned to the questioner. Even more striking than this physician’s record is the fact that Claimant then later (**September 2014**) underwent another audiological evaluation with another provider (*i.e.*, not Dr. Ansley). In the September 2014 report, audiologist Lunn **noted and specified inconsistencies in Claimant’s testing**, such that Lunn—just like Dr. Ansley had earlier—recommended [in a letter to Disability Determination Services] that Claimant

undergo the A.B.R. testing as a means “for obtaining more objective measures of [Claimant’s] hearing” and for determining “a truer estimate of [Claimant’s] hearing. Further recommendations *should be postponed until such time*” as the ABR test has been undergone [emphasis added]. This additional evidence not only does not change my conclusions, it also confirms them. This evidence actually hurts Claimant’s case more than it helps.

FINDINGS OF FACT

Based upon the evidence submitted by the parties pursuant to the Administrative Procedures Act, the evidence presented at the hearing, and the Commission’s file relative to this claim, the undersigned Commissioner finds the following facts, based upon a preponderance of the evidence:

1. An incident/accident does not always equate to or result in a permanent injury. Claimant’s “display” and evasiveness at the hearing (among other problematic issues) make me seriously question whether or not there was an actual injury. One cannot help but question that if Claimant had legitimate, causally-related hearing loss, he would have felt no need to “perform” at the hearing. However, because there was an incident (captured by video) and for which Claimant went to the Emergency Room, I find that Claimant sustained an injury to his ears on the date of the accident.
2. Claimant has pre-existing migraine headaches, anxiety, depression, and “chronic sinusitis.” Claimant was also diagnosed in 2007 as Bipolar. He also sustained a coma from a

motor vehicle accident in 1990, which left 2 scars on the left temporal side of his head (medical evidence in its entirety).

3. Prior to the accident, Claimant served as a volunteer fire fighter. As of the date of the hearing, Claimant continues to serve as a fire fighter. Claimant, who has the burden of proof, did not offer any testimony as to whether or not he has worn or wears hearing protection while serving as a fire fighter.

4. In the accident in issue, Claimant alleges that he was struck in the head on the right temporal side of his head with a hose clamp (at least this is what Claimant told Dr. Rogers three months after the date of the accident), and that he has sustained a brain injury, bilateral hearing loss, dizziness, cognitive difficulties, memory loss, headaches, bleeding from his ears, and an aggravation of his pre-existing psychological condition.

5. The Emergency Room records on the date of the accident state that Claimant's head was "atraumatic;" the forehead bruise Claimant described at the hearing is not described in any of these records. Although Claimant reported hearing loss and ear pain after the work accident, he reported no dizziness, memory loss, cognitive issues, bleeding, or headaches to Emergency Room providers (Claimant's APA #1, pages 1-9; Claimant's APA #3, pages 43-46; Hearing Transcript, page 27).

6. This is a hearing that begged to be videotaped/audiotaped from the moment I introduced myself to Claimant prior to opening the record. Claimant's inconsistent performance at the hearing as to what he can allegedly hear/not hear is the most persuasive evidence of all. The undersigned paid close attention to Claimant's ability to hear and respond to questions of different volumes, and observed when Claimant was directly facing

or turned away from the questioner. What Claimant could hear/purportedly not hear had no modicum of consistency at the hearing. Prior to the opening of the record, I asked Claimant if he would be able to hear me (*i.e.*, to determine whether I and others would need to raise our voices accordingly), and Claimant indicated that I would need to raise my voice from its normal level. Although I strained to raise my voice sufficiently (at an uncomfortable level), Claimant, during questioning, answered questions of his attorney (slightly farther away from Claimant than I was) who spoke in a normal tone—softer than my regular voice—without forced amplification. Further, while Claimant watched a video of the incident with his back turned to Defendant's counsel (*i.e.*, Claimant could not read lips with his back turned), Claimant answered questions posed to him in normal tones with no request for amplification. It was very poor acting, and I therefore necessarily must find that Claimant is not credible. I also find it unconvincing that if Claimant could not hear anything, as he claims he could not after the incident, he would then continue to work to repair the tire changer, including telling other people to get him things.

7. Claimant contended at the hearing that he could not remember the accident or its aftermath, but proceeded to testify otherwise. He remembered exactly what he texted his wife ("come get me"), he remembers finding a metal hose clamp by his hat shortly after the accident, he remembers telling his co-workers that he could not hear; however, Claimant alleges that he does not remember that he continued to work on the tire changer after the accident occurred. Claimant acknowledged that he appears in the video to tell "Little Man" to get a part to repair the tire changer on the video, but Claimant also claims he could not hear at this time. Notwithstanding Claimant's claim of memory loss regarding the accident,

Claimant also described to IME physician Dr. Rogers exactly how the accident occurred. Similarly, Claimant told other providers how the accident occurred. Very important is the fact that Dr. Koukos (Claimant's own family doctor) does not document a memory issue after the accident, and instead found "no impairment of recent or remote memory" (Claimant's APA #3, page 40). Dr. Koukos' impression is supported by the fact that at the hearing, Claimant--by memory--recounted the specific distance to a provider of exactly 77.2 miles. I give this evidence great weight, as this statement does not show a memory problem (in fact, it shows the opposite), and is more persuasive than Claimant's later statements to Dr. Rogers—3 months after the date of the accident—that Claimant has memory/cognitive problems. Claimant's subjective statements to Dr. Rogers are just that: statements, which are not supported by any treatment record pre-dating the Rogers' one-time appointment. I find that Claimant did not suffer memory loss as a result of the accident, based on the greater weight of the evidence. Nor do the Emergency Room records contain any documentation of a head injury (Tr. P.60, 1.22-P.65, 1.18; P. 79; medical evidence, *e.g.*, Claimant's APA #1, pages 1-10; Claimant's APA #3, pages 43-46; Claimant's APA #4, page 47).

8. In addition to Claimant's presentation at the hearing (which unavoidably leads the undersigned to question Claimant's motivations regarding this claim), the two most compelling records in this case are (a) a March 26, 2014, Emergency Room visit for a trip and fall rib injury—one month after the date of the accident; and (b) the follow-up visit for the rib injury with Claimant's family doctor 5 days later on March 31, 2014;

(a) at the Emergency Room visit on March 26, 2014, Claimant complained of rib pain only; these records are devoid of any other complaint, including headaches. Nor is there any description of dizziness or loss of balance. In fact, the record states that Claimant tripped and fell. The only "clinical impression" in this record is the right rib condition--the only condition Claimant complained of. Additionally, and very importantly, under "Past History," the accident in issue (which occurred just one month earlier) and any of its alleged sequelae are notably absent. I find this striking, considering that Claimant alleges significant injuries including but not limited to a brain injury. It speaks for itself that Claimant did not think enough of the significance of the injury in issue to mention it; nor did Claimant mention any problem with memory loss, bleeding, headaches, etc. By contrast, under "Past History," Claimant reported his 1990 coma, prior leg injury, and other pre-existing conditions as detailed in this ER record. It does not stand to reason that Claimant would not include such recent and allegedly significant conditions as he pleads and as he testified to at the hearing. As Claimant has pre-existing migraine headaches, I find that any alleged causally-related headaches resolved or returned to baseline. Claimant's complaint of "constant headaches" after the accident is refuted by these records. As Claimant has pre-existing migraines and is not credible, I cannot find that there was an aggravation of a pre-existing condition, notwithstanding Claimant's testimony or statements to

Dr. Rogers to the contrary (Claimant's APA #1, pages 12-20; Claimant's APA #3, pages 32-37);

(b) at the follow up visit with his family doctor on March 31, 2014 for the rib injury, Claimant reported continued rib pain and wheezing for which Claimant was prescribed an antibiotic (Cipro). Strikingly absent are any references to hearing loss (Claimant's tympanic membranes are "clear and mobile"), memory loss, headaches, dizziness, bleeding, or psychological difficulty. For these reasons, I find that any injury Claimant sustained in the accident in issue resolved by March 31, 2014.

9. Claimant is entitled to receive reimbursement for the medical treatment he received through (and including) the March 31, 2014, visit, with the exception of the March 26, 2014, Emergency Room visit for the unrelated rib injury.

10. As to more temporal records, Claimant was referred to E.N.T. Dr. Ansley the day after the accident because of Claimant's complaints of hearing loss. Absent in the records from these two visits with Dr. Ansley (February 20, 2014 and March 6, 2014) are any reference to headache, head injury, dizziness, memory loss, psychological difficulty, cognitive difficulty, or bleeding from the ears. When there was a downward shift in the two sequential tests, Dr. Ansley found it not only remarkable enough to mention (Dr. Ansley thought Claimant's hearing would improve), he also referred Claimant to MUSC for a "more objective" test. Claimant never underwent the objective test, and never returned to Dr. Ansley. Notwithstanding Claimant's explanation at the hearing that he and/or his wife called Dr. Ansley's office staff to inform them that the MUSC test was not covered by

insurance, Dr. Ansley's records are devoid of such an entry (Claimant's APA #2, pages 21-22 and 24-26).

11. On February 25, 2014 (in between the two Ansley visits), Claimant reported headaches, dizziness, and hearing loss to his family doctor. However, Claimant's neurologic exam on this date showed "normal" hearing, and Claimant's ENT exam did not note any problems with Claimant's tympanic membranes. Because of Claimant's complaints, a CT scan was ordered (Claimant's APA #3, pages 39-42).

12. Claimant's February 25, 2014, temporal bones CT scan (as referenced in the preceding finding of fact) shows only "chronic sinusitis" (Claimant's APA #1, pages 10-11).

13. Another CT scan of the brain (March 14, 2014), ordered because of Claimant's "constant headaches" and hearing loss, was normal--except for Claimant's chronic sinusitis (Claimant's APA #3, page 38).

14. Because the video indeed shows an incident/accident, my first inclination might have been to order the more objective test that Claimant, for a reason now abundantly clear to me, has avoided. However, Claimant's audiogram testing shows inconsistencies, and Claimant—not Defendants—has the burden of proof. Even putting aside (a) the significant credibility problems relating to the "performance" at the hearing, (b) Claimant's outright denial at the hearing of pre-existing conditions he had just admitted to Dr. Rogers just one month prior, and (c) the fact that the records from the intervening accident and its follow-up visit tell a different story from the one Claimant alleges, the March 31, 2014, visit as

referenced *supra* show that any injuries Claimant sustained on the date of the accident resolved.

15. Claimant has the burden of proof; it does not lie with Defendants. Although I do not doubt that Claimant may have some ongoing hearing loss (whether from his exposure to sirens as a firefighter, (b) chronic sinusitis, and/or (c) his prior head injury resulting in a coma), Claimant's own physician found that Claimant has "normal" post-accident hearing. I find it most telling that Claimant's family physician offered no opinions in this case; nor did Dr. Ansley (Claimant's E.N.T.), offer an opinion, as Claimant never returned to Dr. Ansley and never underwent the objective test Dr. Ansley ordered.

16. Claimant is not required to prove a brain injury through objective means, and I do not hold him to such a standard. The objective testing can be completely disregarded, which still leaves the undersigned with (a) Claimant's inconsistent presentation at the hearing, (b) no mention of a head injury in the Emergency Room records, and (c) Claimant's evasiveness at the hearing regarding prior/pre-existing conditions. Finally, Claimant's head was specifically found to be "atraumatic" on the date of the accident (Claimant's APA #1, pages 1-11; Claimant's APA #3, pages 38 and 43-46; Claimant's APA #4).

17. Although Claimant told the undersigned at the hearing that he did not have anxiety or a Bipolar condition prior to the accident in issue, Claimant's medical records (including but not limited to his pre-existing, ongoing prescription of Effexor "to keep calm") refute Claimant's testimony. What is more problematic is that Claimant himself had just reported these prior/pre-existing conditions to Dr. Rogers one month prior to the date of the hearing. One cannot help but question Claimant's motivation. Further, Claimant told Dr.

Rogers that he formerly worked as a volunteer firefighter, but now just sits at home; at the hearing, Claimant inconsistently testified that he still works as a volunteer firefighter, but he has to wait in the truck on calls. Claimant testified he cannot work because it is too loud and causes him to develop headaches and that he cannot hear his children talking in the back seat when he is driving; by contrast, Claimant admitted to going on fire calls and listening in the radio so loudly in his car with his kids that his mother-in-law complained and his ears bled. This self-serving testimony and evasiveness damage Claimant's credibility, and call into questions the veracity of the remainder of Claimant's testimony (medical evidence in its entirety; Tr. P.28, 1.23-P.30, 1.8; Tr. P.34, 1.15-P.35, 1.25; Tr.P29, 1.20-P.30, 1.14).

18. Claimant's testimony that he has bleeding from his ears is unsupported by any medical treatment record. Simply telling Dr. Rogers that there is bleeding from the ears does not make it so. There is no ER treatment record documenting any bleeding, no family doctor treatment record as to any bleeding, and no other treatment record documenting any bleeding. Even Dr. Rogers found "no evidence of blood" in Claimant's ears (Claimant's APA #4, page 50).

19. Claimant has pre-existing migraine headaches, which I find wax and wane, and which were not aggravated by the accident in issue. I base this finding on the fact that there was no brain injury and, according to the temporal medical evidence, no head trauma. Claimant's self-serving testimony and statements to Dr. Rogers are not persuasive in this regard. At the hearing, Claimant attempted to downplay his pre-existing migraines when he testified that "everybody has migraines." Dr. Rogers' report does not serve to help Claimant's case, as Dr. Rogers was apparently not made aware of Claimant's pre-existing migraines; the report

does not concede or acknowledge that Claimant already had migraines headaches. Either Claimant withheld the information from Dr. Rogers, or Dr. Rogers' report is outcome determinative; nonetheless, the report shows that the medical information on which Dr. Rogers based his opinions is incomplete and unreliable. Finally, by late March 2014, Claimant reported no headaches to two separate providers (Claimant's APA #4).

20. Claimant complained to Dr. Rogers about alleged insomnia, presumably as a result of the accident; however, Claimant in fact was **already taking Ambien** on the date of the accident, and there is no evidence that the prescription dosage has been increased. Interestingly, Dr. Rogers mentions this prescription in his report under "current" medications, and therefore may not be aware that Ambien is in fact a pre-existing prescription. This omission further renders Dr. Rogers' report incomplete and unreliable (Claimant's APA #4).

21. Claimant did not present any evidence that his dosage of pre-existing psychotropic medications have increased, in order to support a finding of aggravation. Dr. Koukos—Claimant's treating physician for depression—offered no opinion on Claimant's behalf.

22. I give greater weight to the medical note of Dr. Koukos (Claimant's family doctor) documenting no memory problems than I give to Claimant's statement to Dr. Rogers (as contained in Dr. Rogers' report) to the contrary. I also give greater weight to the fact that Claimant drives his children around, than I give to Claimant's self-serving statement to Dr. Rogers that Claimant has cognitive, thinking, and planning difficulties (Claimant's APA #4, page 48; Cf. Claimant's APA #3, page 40).

23. Claimant's testimony regarding his inability to hear what people in the back seat of a car say to him is not believable. When Claimant turned his back at the hearing to look at the video, he answered a question asked at a normal speaking tone while his back was to the questioner. This observation is in sharp contrast to Claimant's other inconsistent conduct at the hearing.

24. Dr. Rogers' report does not explain the reason for the inconsistent audiograms.

25. Interestingly, Claimant's "chief complaint" to Dr. Rogers is ear pain. By contrast, at the hearing, Claimant did not mention any ongoing ear pain at the hearing.

26. If Claimant is dizzy, and has cognitive, planning and thinking difficulties (per his self-serving statement to Dr. Rogers), I find it inconsistent that Claimant drives, including driving his children around. His statements in this regard are not credible. Nonetheless, by March 31, 2014, Claimant no longer reported any dizziness, the source of which is unknown to the undersigned.

27. IME physician Dr. Rogers' statement that Claimant had "post-concussive" syndrome is not supported by the greater weight of the evidence. In fact, the Emergency Room records from the date of the accident state that Claimant's head was atraumatic, Claimant was alert and oriented x 3, and Claimant described what happened at the time of the accident. Claimant also had a normal neurologic exam at Barnwell Family Medicine on February 25, 2014, medical evidence which further refutes Dr. Rogers' report.

28. I find that Claimant's IME from Dr. Rogers is generally and wholly unreliable, and I therefore give it no weight. There are too many inaccuracies and omissions in order to lend the report any credence. Further, even though Claimant has not ever undergone the more

objective hearing test that Dr. Rogers, by virtue of reading the records, is well aware has been recommended, Dr. Rogers has already “decided” that Claimant’s (inconsistent) hearing loss is valid and permanent. Dr. Rogers also fails to explain why Claimant’s hearing would be worse on the March 6, 2014, audiogram than it was on the February 20, 2014, audiogram, even though Claimant denied any further injuries. For reasons unknown to the undersigned, Dr. Rogers was not provided the Barnwell Family Medicine record of March 31, 2014, which contains the documented “normal” neurological evaluation and the “normal”-looking tympanic membrane exams. Dr. Rogers also fails to explain the long list of symptoms Claimant presented to him that are not noted in any of the other previous records/reports. Further, Claimant’s presentation at the hearing trumps anything in Dr. Rogers’ report.

29. Claimant continued to work after the incident, as shown on the video in evidence.

30. Although not dispositive, and even unnecessary to the conclusions I reach, according to websites from the Mayo Clinic and the National Institute of Health, perforated eardrums are often caused by infections/an accumulation of fluid in the ear. Air travel is another cause. Loud sounds/noises can certainly cause them. Foreign items such as Q-tips can cause them. Severe head injury such as a skull fracture can cause them. Claimant did not suffer a severe head injury in this case, but in 1990, sustained a head injury leaving him in a coma; Claimant also has “chronic sinusitis.” These websites also state that perforated eardrums generally heal on their own within a few weeks or months. If they do not heal, surgery or a patch is recommended. Dr. Rogers reported that Claimant’s right tympanic membrane tear appeared healed (Claimant’s APA #4, page.51). Interestingly, no provider has recommended either patch or surgical procedure. Although not dispositive in this case,

perforations rarely cause permanent hearing loss, according to these websites. This information does dovetail with Claimant's presentation in late March 2014, (intervening rib fracture accident) during which Claimant presented with no ear, hearing, headache, or other problems; Claimant's eardrums looked normal, and he had normal hearing. Even assuming and finding that Claimant had some causally-related hearing loss from the accident (because of the loud noise, a potential cause of perforations, as discussed in this finding). I find that Claimant's condition resolved as of March 31, 2014, per the records of Claimant's family physician.

31. Dr. Rogers' 100% bilateral hearing loss assessment is refuted by Claimant's ability to answer questions posed in a low, soft tone at the hearing while Claimant looked at his hands and while his back was turned to the questioner. Dr. Rogers' "assessment," therefore, is given no weight, as Claimant's presentation at the hearing refutes the assessment.

32. As to the employment relationship, I find by the greater weight of the evidence that Claimant was an employee on the date of the accident because (a) he wore Raber uniforms, (b) he was paid by the hour; and (c) the most significant equipment used to perform the job was Raber's (Claimant's APA, pages 289 and 293--"we are hiring").

33. An "independent contract" purporting to establish the nature of the work relationship is not dispositive in a workers' compensation case. In this particular case, the contract's designation is not persuasive (Claimant's APA, pages 108-109).

34. Four or more individuals were regularly employed on the date of the accident. I base this finding the evidence as a whole.

35. I do find this entire claim questionable, as Claimant is untruthful, evasive, and inconsistent, which behavior inevitably leads to doubt. However, credible medical sources (as referenced above) state that exposure to loud noises can cause perforations, and perforations were in fact diagnosed by Dr. Ansley on February 20, 2014. Defendants are therefore responsible for reimbursement of the ER visit on the date of the accident; Dr. Ansley's visits of February 20, 2014, and March 6, 2014; the CT scans of February 25, 2014 and March 14, 2014 (and associated visits); and the March 31, 2014 visit, showing that any alleged injury resolved or returned to baseline, as Claimant had no complaints other than his rib injury and wheezing.

36. If all complaints to providers (including but not limited to Dr. Rogers) were dispositive, there would be no need for a hearing or for Commission involvement. Claimant's performance at the hearing and lack of credibility speak more loudly than his statements to providers about the origin of his alleged problems. It is frankly difficult to discern when the truth starts and stops with this claimant. Legitimate, ongoing hearing loss issues are not borne out by the (a) "selective hearing" displayed at the hearing, (b) inconsistencies in the medical records, and (c) denial of prior conditions which Claimant pleads as causally-related conditions. However, Claimant's motivations in this case are not for the undersigned to ponder.

37. Claimant reached maximum medical improvement on March 31, 2014. Even Claimant's IME found Claimant to be at maximum medical improvement. However, I find that Claimant has not proven any permanency, as Dr. Rogers' report is unreliable. More importantly, Claimant's own family doctor found Claimant's hearing normal after the date of

the accident, and offered no opinion to the contrary. Claimant's ongoing complaints and pleading of a brain injury are questionable.

38. Claimant is not entitled to receive any temporary benefits, as there are no work excuse notes in the record entitling Claimant to such benefits.

39. After the hearing on June 26, 2014, the undersigned's office served Order Instructions on the parties on July 10, 2014, which were not objected to by any party. The undersigned received the draft Order on October 30, 2014. On the same date (October 30, 2014), Claimant's counsel advised the undersigned that he was filing a Motion regarding the submission of additional evidence. Claimant's Motion was received by the Commission on December 19, 2014. Defendants' Reply to Claimant's Motion was received by the Commission on December 29, 2014. At that point, the undersigned re-viewed all the evidence, reconsidered her rulings, and re-wrote/revised the Decision and Order.

40. As to Claimant's Motion served December 19, 2014, the undersigned finds, for the reasons stated elsewhere in this Order, that the new evidence does not serve to help Claimant's case. The physician's statements are not borne out by the other evidence, including that from Claimant's own family physician, or by the fact that Claimant heard and understood normal speaking voices with his back turned during the hearing. Claimant does not have to "read lips" in order to hear.

41. I find it compelling that there are no causation statements in evidence from Claimant's two treating providers (Drs. Koukos and Ansley). Instead, Claimant traveled by car approximately 3 hours to Greenville to obtain the IME opinion from Dr. Rogers (Hearing Transcript, pages 78-79).

42. Claimant's average weekly wage is \$541, yielding compensation rate of \$360.68.

CONCLUSIONS OF LAW

In view of these Findings of Facts, I conclude as matters of law:

1. Employer did regularly employ four or more employees on the date of the accident, and therefore is subject to the Act pursuant to SC Code Ann. §42-1-360.
2. Claimant was an employee pursuant to Section 42-1-130, and not an independent contractor.
3. Claimant failed to prove by the greater weight of the evidence any ongoing medical problems which would entitle him to medical treatment beyond the March 31, 2014, visit with his family doctor, during which visit Claimant had no complaints or problems other than his unrelated rib injury and wheezing.
4. Claimant failed to prove any permanent disability by the greater weight of the evidence that would entitle him to any award pursuant to SC Code Ann. §42-9-10, 20, or 30, as any injury resolved or returned to baseline.
5. Claimant did not prove by the greater weight of the evidence that he was unable to work, and he is therefore not entitled to any temporary total disability payments pursuant to SC Code Ann. §42-9-260.

AWARD

Based upon the foregoing, it is hereby:

ORDERED, ADJUDICATED, AND DECREED that Employer is subject to the Act.

IT IS FURTHER ORDERED that Claimant is entitled to be reimbursed for the Emergency Room visit on the date of the accident, the CT scans and associated visits, the two visits with Dr. Ansley, and the February 25, 2014, and March 31, 2014, visits to Barnwell Family Practice.

IT IS FURTHER ORDERED that Claimant is not entitled to any future medical or psychological benefits.

IT IS FURTHER ORDERED that Claimant is not entitled to any temporary total disability payments as a result of the incident.

IT IS FURTHER ORDERED that Claimant is not entitled to any permanent impairment as a result of the incident as any injuries resolved or returned to baseline.

AND IT IS SO ORDERED.

Susan S. Barden

CERTIFICATE OF SERVICE

This is to certify that the undersigned has on this date served a copy of this order in the above entitled action upon all parties to this case by sending an electronic copy hereof by electronic mail addressed to the attorneys for said parties; or if there is an unrepresented party(ies), by depositing a copy hereof, postage paid, in the United States mail, first class, addressed to the unrepresented party(ies) and to the attorney(s) for the represented party(ies).

April 30, 2015

By: Kristi Love, Administrative Assistant to Commissioner Barden

BEFORE THE
SOUTH CAROLINA WORKERS' COMPENSATION COMMISSION
W.C.C. FILE NO. 1403368

Danny B. Crane,

Claimant,

v.

Raber's Discount Tire Rack,

Employer,

and

South Carolina Uninsured Employers
Fund,

Carrier.

APPELLATE DECISION AND ORDER

APPEARANCES:

Claimant is represented by Steve Chandler of Law Office of R. Steven Chandler, LLC.

Raber's Discount Tire Rack is represented by O. Edwards Lipfert, II.

South Carolina Uninsured Employers Fund is represented by Matthew J. Story.

HEARING:

July 21, 2015

STATEMENT OF THE CASE

The parties were heard by Commissioner Barden on June 26, 2014 in Port Royal, South Carolina. On April 30, 2015 Commissioner Barden issued an Order finding that Raber's Discount Tire Rack was subject to the Workers' Compensation Act, that Claimant sustained an injury to his ears on the date of the accident and ordered that Mr. Crane be reimbursed for his Emergency Room visit on February 19, 2014 his CT scan and associated visits, his two visits to Dr. Ansley, his treating ENT, and his follow-up

visit to Barnwell Family Practice. The Commissioner denied compensation for any future medical benefit, temporary total disability payments, and any permanent impairment as a result of the incident.

Within the statutory period, counsel for claimant filed an application for review in this case, setting forth their reasons for review, prior to oral arguments presented to the Appellate Panel on July 21, 2015. All proper testimony has been taken. All proffered testimony, together with all documentary evidence, has been delivered by oral argument to individual members of the Full Commission and has since been under study and consideration. In appeal, the claimant respectfully submits the following:

1. Whether the Single Commissioner erred as a matter of fact and law in finding that Claimant did not suffer from hearing loss in the accident when substantial hearing loss was shown by three objective hearing tests using the "pure tone audiogram" required by Regulations 67-1102.
2. Whether the Single Commissioner erred as a matter of fact and law in failing to order an auditory brainstem response test (ABR) with follow up treatment to determine whether the hearing loss resulted from inner ear damage or from brain injury, and whether Claimant should undergo a cochlear implant.
3. Whether the Single Commissioner erred as a matter of fact and law in finding that Claimant had not proven his case when the medical evidence and refuted testimony proved Claimant suffered from hearing loss related to the accident.
4. Whether the Single Commissioner erred as a matter of fact and law in finding that Claimant was not credible regarding his hearing loss when the

"inconsistencies" in his ability to hear are actually confirmation of profound hearing loss in his right ear and substantial hearing loss in his left ear.

5. Whether the Single Commissioner erred as a matter of fact and law in finding that Claimant was not entitled to temporary total disability compensation when the evidence showed he was unable to work in a tire store due to the hearing loss.

6. Whether the Single Commissioner erred as a matter of fact and law in finding that if Claimant had reached MMI, then failing to make a disability award for hearing loss under Regulation 67-1102.

7. Whether the Single Commissioner erred as a matter of fact and law in relying on boilerplate default entries in electronic medical records.

In an appellate review, the panel shall, pursuant to S.C. Code Ann. § 42-17-50, review the award, weigh the evidence as presented at the initial hearing, and if good grounds be shown therefor, make its own findings of fact and reach its own conclusions of law consistent with or inconsistent with those of the Hearing Commissioner. After carefully reviewing the case, the Commission, by unanimous vote, has determined all of the Hearing Commissioner's findings of fact and conclusions of law are correctly stated. Accordingly, these shall become and hereby are, the law of the case and:

Therefore, the Order is **AFFIRMED** in its entirety.

FINDINGS OF FACT

1. The parties hereto are subject to and bound by the South Carolina Workers' Compensation Act.

2. Jurisdiction, venue and sufficiency of notice are proper.

3. An incident/accident does not always equate to or result in a permanent injury. Claimant's "display" and evasiveness at the hearing (among other problematic issues) make us seriously question whether or not there was an actual injury. One cannot help but question if Claimant had legitimate, causally-related hearing loss, he would have felt no need to perform at the hearing. However, because there was an incident (captured by video) and for which Claimant went to the Emergency Room, we find Claimant sustained an injury to his ears on the date of the accident.

4. Claimant has pre-existing migraine headaches, anxiety, depression, and chronic sinusitis. Claimant was also diagnosed in 2007 as Bipolar. He also sustained a coma from a motor vehicle accident in 1990 which left 2 scars on the left temporal side of his head (medical evidence in its entirety).

5. Prior to the accident, Claimant served as a volunteer fire fighter. As of the date of the hearing, Claimant continues to serve as a fire fighter. Claimant, who has the burden of proof, did not offer any testimony as to whether or not he has worn or wears hearing protection while serving as a fire fighter.

6. In the accident at issue, Claimant alleges he was struck in the head on the right temporal side of his head with a hose claim (at least this is what Claimant told Dr. Rogers three months after the date of the accident), and that he has sustained a brain injury, bilateral hearing loss, dizziness, cognitive difficulties, memory loss, headaches, bleeding from his ears, and an aggravation of his pre-existing psychological condition.

7. The Emergency Room records on the date of the accident state that Claimant's head was "atraumatic;" the forehead bruise Claimant describes at the hearing is not described in any of these records. Although Claimant reported hearing

loss and ear pain after the work accident, he reported no dizziness, memory loss, cognitive issues, bleeding, or headaches to Emergency Room providers (Claimant's APA #1, pages 1-0; Claimant's APA #3, pages 43-36; Hearing Transcript, page 27).

8. Claimant's inconsistent performance at the hearing as to what he can allegedly hear/not hear is the most persuasive evidence of all. The Single Commissioner paid close attention to Claimant's ability to hear and respond to different questions of different volumes, and observed when Claimant was directly facing or turned away from the questioner. What Claimant could hear/purportedly not hear had no modicum of consistency at the hearing. Prior to the opening of the record, the Single Commissioner asked Claimant if he would be able to hear her (i.e. to determine whether those speaking would need to raise their voices accordingly), and Claimant indicated that the Single Commissioner would need to raise her voice from its normal level. Although the Single Commissioner raised her voice, Claimant during questioning, answered questions of his attorney who spoke in a normal tone without forced amplification. Further, while Claimant watched a video of the incident with his back turned to Defendant's counsel, Claimant answered questions posed to him in normal tones with no request for amplification. We find that Claimant is not credible. We also find it unconvincing that if Claimant could not hear anything, as he claims he could not after the incident, he would then continue to work to repair the tire changer, including telling other to get him things.

9. Claimant contended at the hearing that he could not remember that accident or its aftermath, but proceeded to testify otherwise. He remembered exactly what he texted his wife ("come get me"), he remembers finding a metal hose clamp by

his hat shortly after the accident, he remembers telling everyone he worked with that he could not hear; however, Claimant alleges he does not remember that he continued to work on the tire changer after the accident occurred. Claimant acknowledged that he appears to tell "Little Man" to get a part to fix the tire changer on the video, but Claimant also claims he could not hear at this time. Notwithstanding Claimant's claim of memory loss regarding the accident, Claimant also described to IME physician Dr. Rogers exactly how the accident occurred. Very important is the fact that Dr. Koukos (Claimant's own family doctor) does not document a memory issue after the accident, and instead found "no impairment of recent or remote memory" (Claimant's APA #3, page 40). Dr. Koukos' impression is supported by the fact that at the hearing, Claimant – by memory- recounted the specific distance to a provider of exactly 77.2 miles. We give this evidence great weight, as this statement does not show a memory problem, and is more persuasive than Claimant's later statements to Dr. Rogers – 3 months after the date of the accident – that Claimant has memory/cognitive problems. Claimant's subjective statements to Dr. Rogers are just that: statements, which are not supported by any treatment record pre-dating the Rogers' one-time appointment. I find that Claimant did not suffer memory loss as a result of the accident, based on the greater weight of the evidence. Nor do the Emergency Room records contain any documentation of a head injury. (Tr. P.60, 1.22-P.65, 1.17; P.79; medical evidence, e.g. Claimant's APA #1, pages 1-10; Claimant's APA #3, pages 43-46; Claimant's APA #4, page 47).

10. In addition to Claimant's presentation at the hearing, the two most compelling records in this case are (a) a March 26, 2014 Emergency Room visit for a

trip and fall rib injury – one month after the date of the accident; and (b) the follow-up visit for the rib injury with Claimant's family doctor 5 days later on March 31, 2014:

(a) at the Emergency Room visit on March 26, 2014, Claimant complained of rib pain only; these records are devoid of any other complaint, including headaches. Nor is there any description of dizziness or loss of balance. In fact, the record states that Claimant tripped and fell. The only clinical impression in this record is the right rib condition – the only condition Claimant complained of. Additionally, and very importantly, under "Past History," the accident in issue (which occurred just one month earlier) and any of its alleged sequelae are notably absent. We find this striking, considering that Claimant alleges significant injuries, including, but not limited to, a brain injury. It speaks for itself that Claimant did not think enough of the significance of the injury at issue to mention it; nor did Claimant mention any problem with memory loss, bleeding, headaches, etc. By contrast, under "Past History," Claimant reported his 1990 coma, prior leg injury, and other pre-existing conditions as detailed in this ER record. It does not stand to reason that Claimant would not include such recent and allegedly significant conditions as he pleads and as he testified to at the hearing. As Claimant has pre-existing migraine headaches, I find that any alleged causally-related headaches resolved or returned to baseline. Claimant's complaint of "constant headaches" after the accident is refuted by these records. As Claimant has pre-existing migraines and is not credible, I cannot find that there was an aggravation of a pre-existing

condition, notwithstanding Claimant's testimony or statements to Dr. Rogers to the contrary (Claimant's APA #1, pages 12-20; Claimant's APA #3, pages 32-37);

(b) at the follow up visit with his family doctor on March 31, 2014 for the rib injury, Claimant reported continued rib pain and wheezing for which Claimant was prescribed an antibiotic. Strikingly absent are any references to hearing loss (Claimant's tympanic membranes are "clear and mobile"), memory loss, headaches, dizziness, bleeding, or psychological difficulty. For these reasons, we find that any injury Claimant sustained in the accident at issue resolved by March 31, 2014.

11. Claimant is entitled to receive reimbursement for the medical treatment he received through (and including) the March 31, 2014 visit, with the exception of the March 26, 2014 Emergency Room visit for the unrelated rib injury.

12. As to the more temporal records, Claimant was referred to E.N.T. Dr. Ansley the day after the accident because of Claimant's Complaints of hearing loss. Absent in the records from these two visits with Dr. Ansley (February 20, 2014 and March 6, 2014) are any reference to headache, head injury, dizziness, memory loss, psychological difficulty, cognitive difficulty, or bleeding from the ears. When there was a downward shift in the two sequential tests, Dr. Ansley found it not only remarkable enough to mention (Dr. Ansley thought Claimant's hearing would improve), he also referred Claimant to MUSC for a "more objective" test. Claimant never underwent the objective test, and never returned to Dr. Ansley. Notwithstanding Claimant's explanation at the hearing that he and/or his wife called Dr. Ansley's office staff to inform them that

the MUSC test was not covered by insurance, Dr. Ansley's records are devoid of any such entry (Claimant's APA #2, pages 21- 22 and 24-26).

13. On February 25, 2014 (in between the two Ansley visits), Claimant reported headaches, dizziness, and hearing loss to his family doctor. However, Claimant's neurologic exam on this date showed "normal" hearing, and Claimant's ENT exam did not note any problems with Claimant's tympanic membranes. Because of Claimant's complaints, a CT scan was ordered (Claimant's APA #3, pages 39-42).

14. Claimant's February 25, 2014 temporal bones CT scan (as referenced in the preceding finding of fact) shows only "chronic sinusitis" (Claimant's APA #1, pages 10-11).

15. Another CT scan of the brain (March 14, 2014), ordered because of Claimant's "constant headaches" and hearing loss, was normal – except for Claimant's chronic sinusitis (Claimant's APA #3, page 38).

16. Because the video indeed shows an incident/accident, we might have ordered the more objective test that Claimant, for a reason now abundantly clear, has avoided. However, Claimant's audiogram testing shows inconsistencies, and Claimant – not Defendants – has the burden of proof. Even putting aside (a) the significant credibility problems relating to the "performance" at the hearing, (b) Claimant's outright denial at the hearing of pre-existing conditions he had just admitted to Dr. Rogers just one month prior, and (c) the fact that the records from the intervening accident and its follow-up visit tell a different story from the one Claimant alleges, the March 31, 2014 visit, as referenced *supra*, shows that any injuries Claimant sustained on the date of the accident resolved.

17. Claimant has the burden of proof; it does not lie with the Defendants. Although I do not doubt that Claimant may have some ongoing hearing loss (whether from (a) his exposure to sirens as a firefighters, (b) chronic sinusitis, and/or (c) his prior head injury resulting in a coma), Claimant's own physician found that Claimant has "normal" post-accident hearing. I find it most telling that Claimant's family physician offered no opinions in this case; nor did Dr. Ansley (Claimant's E.N.T.) offer an opinion, as Claimant never returned to Dr. Ansley and never underwent the objective test Dr. Ansley ordered.

18. Claimant is not required to prove a brain injury through objective means, and I do not hold him to such a standard. The objective testing can be completely disregarded, which still leaves the undersigned with (a) Claimant's inconsistent presentation at the hearing, (b) no mention of a head injury in the Emergency Room records, and (c) Claimant's evasiveness at the hearing regarding prior/pre-existing conditions. Finally, Claimant's head was specifically found to be "atraumatic" on the date of the accident (Claimant's APA #1, pages 1-11; Claimant's APA #3, pages 38 and 43-46; Claimant's APA #4).

19. Although Claimant told the Single Commissioner at the hearing that he did not have anxiety or a Bipolar condition prior to the accident at issue, Claimant's medical records (including, but not limited to, his pre-existing, ongoing prescription of Effexor "to keep calm") refute Claimant's testimony. What is more problematic is that Claimant himself had just reported these prior/pre-existing conditions to Dr. Rogers one month prior to the date of the hearing. One cannot help but question Claimant's motivation. Further, Claimant told Dr. Rogers that he formerly worked as a volunteer firefighter, but

now just sits at home. At the hearing, Claimant inconsistently testified that he still works as a volunteer firefighter, but he has to wait in the truck on calls. Claimant testified he cannot work because it is too loud and causes him to develop headaches and that he cannot hear his children talking in the back seat when he is driving; by contract, Claimant admitted to going on fire calls and listening to the radio so loudly in his car with his kids tha this mother-in-law complained and his ears bled. This self-serving testimony and evasiveness damage Claimant's credibility, and call into question the veracity of the remainder of Claimant's testimony (medical evidence in its entirety; Tr. P. 28, I.23-P.30, I.8; Tr. P.34, I.15;-P.35, I.25; Tr. P.29, I.20-P.30, I.14).

20. Claimant's testimony that he has bleeding from his ears is unsupported by any medical treatment record. Simply telling Dr. Rogers that there is bleeding from the ears does not make it so. There is no ER treatment record documenting any bleeding, no family doctor treatment record as to any bleeding, and no other treatment record documenting any bleeding. Even Dr. Rogers found "no evidence of blood" in Claimant's ears (Claimant's APA #4, page 50).

21. Claimant has pre-existing migraine headaches, which I find wax and wane, and which were not aggravated by the accident at issue. I base this finding on the fact that there was no brain injury and, according to the temporal medical evidence, no head trauma. Claimant's self-serving testimony and statements to Dr. Rogers are not persuasive in this regard. At the hearing, Claimant attempted to downplay his pre-existing migraines when he testified that "everybody has migraines." Dr. Rogers' report does not serve to help Claimant's case, as Dr. Rogers was apparently not made aware of Claimant's pre-existing migraines, the report does not concede or acknowledge that

Claimant already had migraine headaches. Either Claimant withheld the information from Dr. Rogers, or Dr. Rogers' report is outcome determinative; nonetheless, the report shows that the medical information on which Dr. Rogers based his opinions is incomplete and unreliable. Finally, by late March 2014, Claimant reported no headaches to two separate providers (Claimant's APA #4).

23. Claimant did not present any evidence that his dosage of pre-existing psychotropic medications have increased, in order to support a finding of aggravation. Dr. Koukos – Claimant's treating physician for depression – offered no opinion on Claimant's behalf.

24. We give greater weight to the medical note of Dr. Koukos (Claimant's family doctor) documenting no memory problems than we give to Claimant's self-serving statement to Dr. Rogers that Claimant has cognitive, thinking, and planning difficulties (Claimant's APA #4, page 48; Cf. Claimant's APA #3, page 40)>

25. Claimant's testimony regarding his inability to hear what people in the back seat of a car say to him is not believable. When Claimant turned his back at the hearing to look at the video, he answered a question asked at a normal speaking tone while he his back was to the questioner. This observation is in sharp contrast to Claimant's other inconsistent conduct at the hearing.

26. Dr. Rogers' report does not explain the reason for the inconsistent audiograms.

27. Interestingly, Claimant's "chief complaint" to Dr. Rogers is ear pain. By contrast, at the hearing, Claimant did not mention any ongoing ear pain.

28. If Claimant is dizzy, and has cognitive, planning, and thinking difficulties (per his self-serving statement to Dr. Rogers), I find it inconsistent that Claimant drives, including driving his children around. His statements in this regard are not credible. Nonetheless, by March 31, 2014, Claimant no longer reported any dizziness, the source of which is unknown to the undersigned.

29. IME physician Dr. Rogers' statement that Claimant had "post-concussive" syndrome is not supported by the greater weight of the evidence. In fact, the Emergency Room records from the date of the accident state that Claimant's head was atraumatic, Claimant was alert and oriented x3, and Claimant described what happened at the time of the accident. Claimant also had a normal neurologic exam at Barnwell Family Medicine on February 25, 2014 – medical evidence which further refutes Dr. Rogers' report.

30. We find Claimant's IME from Dr. Rogers is generally and wholly unreliable, and therefore, give it no weight. There are too many inconsistencies and omissions in order to lend the report any credence. Further, even though Claimant has not ever undergone the more objective hearing test that Dr. Rogers, by virtue of reading the records, is well aware has been recommended, Dr. Rogers has already "decided" that Claimant's (inconsistent) hearing loss is valid and permanent. Dr. Rogers also fails to explain why Claimant's hearing would be worse on the March 6, 2014 audiogram than it was on the February 20, 2014 audiogram, even though Claimant denied any further injuries. For reasons unknown to the undersigned, Dr. Rogers was not provided the Barnwell Family Medicine record of March 31, 2014 which contained the documented "normal" neurological evaluation and the "normal"-looking tympanic

membrane exams. Dr. Rogers also fails to explain the long list of symptoms Claimant presented to him that are not noted in any of the other previous records/reports. Further, Claimant's presentation at the hearing trumps anything in Dr. Rogers' report.

31. Claimant continued to work after the incident, as shown on the video in evidence.

32. Although not dispositive, and even unnecessary to the conclusions we reach, according to websites from the Mayo Clinic and the National Institute of Health, perforated eardrums are often caused by infections/an accumulation of fluid in the ear. Air travel is another cause. Loud sounds can certainly cause them. Foreign items such as q-tips can cause them. Severe head injury such as a skull fracture can cause them. Claimant did not suffer a severe head injury in this case, but in 1990, sustained a head injury leaving him in a coma; Claimant also has "chronic sinusitis." These websites also state that perforated eardrums generally heal on their own within a few weeks or months. If they do not heal, surgery or a patch is recommended. Dr. Rogers reported that the Claimant's right tympanic membrane tear appeared healed. (Claimant's APA #4, P.51). Interestingly, no provider has recommended either patch or surgical procedure. Although not dispositive in this case, perforations rarely cause permanent hearing loss, according to these websites. This information does dovetail with Claimant's presentation in late March 2014 (intervening rib fracture incident), during which he presented with no ear, hearing, headache, or other problems; Claimant's eardrums looked normal, and he had normal hearing. Even assuming and finding that Claimant had some causally-related hearing loss from the accident (because of the loud noise, a potential cause of perforations, as discussed in this find), we find that

Claimant's condition resolved as of March 31, 2014, per the records of Claimant's family physician.

33. Dr. Rogers' 100% bilateral hearing loss assessment is refuted by Claimant's ability to answer a question posed in a low, soft tone at the hearing while Claimant looked at his hands and while his back was turned to the questioner. Dr. Rogers' "assessment," therefore, is given no weight, as Claimant's presentation at the hearing refutes the assessment.

34. As to the employment relationship, I find by the greater weight of the evidence that Claimant was an employee on the date of the accident because (a) he wore Raber uniforms; (b) he was paid by the hours; and (c) the most significant equipment used to perform the job was Raber's (Claimant's APA, pages 289 and 293 – "we are hiring").

35. An "independent contract" purporting to establish the nature of the work relationship is not dispositive in a workers' compensation case. In this particular case, the contract's designation is not persuasive (Claimant's APA, pages 108-109).

36. Four or more individuals were regularly employed on the date of the accident. We base this finding on the evidence as a whole.

37. We do find this entire claim questionable, as Claimant is untruthful, evasive, and inconsistent, which behavior inevitably leads to doubt. However, credible medical sources (as referenced above) state that exposure to loud noises can cause perforations, and perforations were in fact diagnosed by Dr. Ansley of February 20, 2014. Defendants are therefore responsible for reimbursement of the ER visit on the date of the accident; Dr. Ansley's visits of February 20, 2014, and March 6, 2014; the

CT scans of February 25, 2014 and March 14, 2014 (and associated visits); and the March 31, 2014 visit, showing that any alleged injury resolved or returned to baseline, as Claimant had no complaints other than his rib injury and wheezing.

38. If all complaints to providers (including, but not limited to Dr. Rogers) were dispositive, there would be no need for a hearing or for Commission involvement. Claimant's performance at the hearing and lack of credibility speak more loudly than his statements to providers about the origin of his alleged problems. It is frankly difficult to discern when the truth starts and stops with this claimant. Legitimate, ongoing hearing loss issues are not borne out by the (a) "selective hearing" displayed at the hearing, (b) inconsistencies in the medical records, and (c) denial of prior conditions which Claimant pleads as causally-related conditions. However, Claimant's motivations in this case are not for the undersigned to ponder.

39. Claimant reached maximum medical improvement on March 31, 2014. Even Claimant's IME found Claimant to be at maximum medical improvement. However, I find that Claimant has not proven any permanency, as Dr. Rogers' report is unreliable. More importantly, Claimant's own family doctor found Claimant's hearing normal after the date of the accident, and offered no opinion to the contrary. Claimant's ongoing complaints and pleading of a brain injury are questionable.

40. Claimant is not entitled to receive any temporary benefits, as there are no work excuse notes in the record entitling Claimant to such benefits.

41. After the hearing on June 26, 2014, the Single Commissioner's office served Order Instructions on the parties on July 10, 2014, which were not objected to by any party. The undersigned received the draft Order on October 30, 2014. On the same

date (October 30, 2014), Claimant's counsel advised the undersigned that he was filing a Motion regarding the submission of additional evidence. Claimant's Motion was received by the Commission on December 19, 2014. Defendants' Reply to Claimant's Motion was received by the Commission on December 29, 2014. At that point, the Single Commissioner reviewed all the evidence, reconsidered her rulings, and re-wrote/revised the Decision and Order.

42. As to Claimant's Motion served December 19, 2014, the undersigned finds, for the reasons stated elsewhere in this Order, that the new evidence does not serve to help Claimant's case. The physician's statements are not borne out by other evidence, including that from Claimant's own family physician, or by the fact that Claimant heard and understood normal speaking voices with his back turned during the hearing. Claimant does not have to "read lips" in order to hear.

43. We find it compelling that there are no causation statements in evidence from Claimant's two treating providers (Drs. Koukos and Ansley). Instead, Claimant travelled approximately 3 hours to Greenville to obtain the IME opinion from Dr. Rogers (Hearing Transcript, page 78-79).

44. Claimant's average weekly wage is \$541, yielding compensation rate of \$360.68.

CONCLUSIONS OF LAW

Based on the foregoing Findings of Fact and under the laws of South Carolina as provided in the South Carolina Workers' Compensation Act, the undersigned makes the following conclusions of law:

1. The Employer did regularly employ four or more employees on the date of the accident , and therefore is subject to the Act pursuant to SC Code Ann. §42-1-360.

2. Claimant was an employee pursuant to Section 42-1-130, and not an independent contractor.

3. The Claimant failed to prove by the greater weight of the evidence any ongoing medical problems which would entitle him to medical treatment beyond the March 31, 2014 visit with his family doctor, during which visit Claimant had no complaints or problems other than his unrelated rib injury and wheezing.

4. Claimant failed to prove any permanent disability by the greater weight of the evidence that would entitle him to any award pursuant to SC Code Ann. §42-9-10, 20, or 30, as any injury resolved or returned to baseline.

5. Claimant did not prove by the greater weight of the evidence that he was unable to work, and he is therefore not entitled to any temporary total disability payments pursuant to SC Code Ann. §42-9-260.

ORDER

IT IS HEREBY ORDERED that Employer is subject to the Act.

IT IS FURTHER ORDERED the Claimant is entitled to be reimbursed for the emergency room visit on the date of the accident, the CT scans and associated visits, the two visits with Dr. Ansley, and the February 25, 2014 and March 31, 2014 visits to Barnwell Family Practice.

IT IS FURTHER ORDERED the Claimant is not entitled to any temporary total disability payments as a result of the incident.

IT IS FURTHER ORDERED the Claimant is not entitled to any permanent impairment as a result of the incident as any injuries resolved or returned to baseline.

AND IT IS SO ORDERED.

A claim for workers' compensation benefits is made based on the following grounds: _____ Date of Injury or Illness: 2/19/2014
☒ Injury ☐ Illness ☐ Repetitive Trauma ☐ Occupational Disease ☐ Physical Brain Injury ☐ Concurrent Jurisdiction

1. The claimant sustained an injury to Head/brain, Ears (hearing) and face (Part(s) of Body Injured) on 2/19/2014 (Month/Day/Year) in Barnwell county, state of SC. Body part(s) affected are: Head/brain, Ears (hearing) and face.
2. Briefly describe how the accident occurred. Tire changer's airline ruptured into claimant's ears and clasp holding airline hit him in the head.
3. Both the claimant and the employer were subject to the South Carolina Workers' Compensation Act at the time of injury.
4. The relationship of employer and employee existed at the time of injury.
5. At the time of the injury the claimant was performing services arising out of and in the course of employment.
6. Notice of the accidental injury was given to the Employer on 2/19/2014 (Month/Day/Year) in the following manner:
In person

- ☒ 7. Due to injury, the claimant is in need of (check one):
☒ (a) medical examination and treatment for: Head injury and hearing loss to both ears; vertigo.
☒ (b) additional medical examination and treatment for: Head injury and hearing loss to both ears; vertigo.

- ☒ 8. Due to injury, the claimant requests temporary total disability benefits because of lost compensable time from work and wages for the period of:
02/19/2014 and continuing.

- ☐ 9. Due to the injury, the Claimant has permanent disability of the following nature and extent (check one):
☐ (1) General Disability: ☐ Total ☐ Partial ☐ (2) Specific Disability: ☐ Total ☐ Partial ☐ (3) Wage Loss

- ☐ 9a. ☒ A determination of permanent disability is premature at this time.

- ☐ 10. Due to the injury, the Claimant has a serious bodily disfigurement consisting of:

10a. At the time of the injury, the Claimant was paid weekly wages of \$550.00, and demands accounting of days worked and wages earned as provided by law.

10b. Give names and addresses of all employers for whom the Claimant has worked since the date of the accident:
Rabor's Tire 10090 Dunbarton Blvd. Barnwell, South Carolina 29812

11. Further grounds or unusual aspects of claim:
Total loss of hearing in right ear and more than 80 percent loss of hearing in left ear.

11a. List names and addresses of all physicians or other medical specialists who have seen or treated the Claimant as a result of the accident:
See attached list.

11b. To the best of your knowledge, did you have any prior permanent disability?
If yes, describe: none

12. Appropriate benefits as provided in the Act for the above grounds and other relief as the Workers' Compensation Commission may direct as just and proper.

☐ 13a. I am filing a claim. I am not requesting a hearing at this time.

14. Estimated time needed for hearing: 90 minutes

☒ 13b. I am requesting a hearing. A \$25 fee is required.

☐ Mediation

- ☐ a. Mediation is requested to be ordered pursuant to Reg. 67-1801 B.
☐ b. Mediation is required pursuant to Reg. 67-1802.
☐ c. Mediation is requested by consent of the Parties pursuant to Reg. 67-1803.
☐ d. Mediation has been conducted by a duly qualified mediator and resulted in an impasse.

Questions regarding mediation may be submitted to mediation@wcc.sc.gov.

I certify I have served this document pursuant to Reg. 67-211 by delivering a copy to Rabor's Tire 10090 Dunbarton Rd
address Barnwell SC on the 11 day of March 2014 by ☒ first class postage ☐ certified mail ☐ personal service.

PRE-HEARING BRIEF

ATTACHMENT TO PRE-HEARING BRIEF (WCC FORM #58)

Claimant: Danny Crane
WCC File No.: 1403368

Facts in Controversy:

1. Whether Crane is an employee or an independent contractor;
2. Whether Raber Tire employs 4 or more persons.
3. Average weekly wage and compensation rate.
4. Body parts injured in the accident (ears – severe hearing loss; head/brain with cognitive and vestibular symptoms; psychological overlay).
5. Medical treatment, including designation of Dr. David Rogers as the authorized treating neurologist.
6. Temporary total disability from March 19, 2014 and continuing on a running award.
7. Permanency is premature as Crane is not at MMI for his closed head injury.

Procedural History and Statement of the Case:

This hearing is set on a Form 50 filed by the Claimant, Danny Crane. The Employer, Raber Tire, is uninsured. Crane was injured when working for Raber Tire when an air-compressor exploded. Crane suffered head/brain injuries¹; severe hearing loss; and psychological overlay.

The Employer is James Raber dba Raber's Discount Tire and Auto. Employer operates an automobile service center in Barnwell, SC. The location has 4 service bays enabling them to service at least 4 vehicles at a time.

Raber regularly employs more than four people. As of this writing, Employer has not provided complete pay records. However, the limited records received show the following employees in September 2013:

1. Danny Crane.
2. Michael Myers
3. Marie Brown
4. Pemnel Gill
5. Chad Williams

¹As Crane is not at MMI, a determination of physical brain damage is premature and not before the Commission at this hearing.

6. Eric Johnson
7. Ruben Brunson

Raber contends Crane and other mechanics were independent contractors rather than employees. Raber required his mechanics to sign a document purporting to make them independent contractors. However, the terms of the document itself confirm that Raber exercised sufficient control that they were in fact employees.

Raber provided equipment and uniforms. Crane was paid \$9.00 per hour.² He was required to clock in using a time clock. A photograph of the time clock shows at least 4 time cards.

This case arises out of a work-related accident which occurred on February 19, 2014. Claimant Danny Crane was working on an air-powered tire changer when a high-pressure 3" diameter hose exploded near his face. Crane was hit in the head with a metal clamp from the hose and suffered injury from the shock wave. Both ear drums were ruptured.

Crane taken to the emergency room. He was referred to an ENT for his hearing loss. After testing showed severe, persistent hearing loss, the ENT referred Crane to MUSC for additional testing - specifically a brain stem test.

Crane has been evaluated by Dr. David Rogers, a Greenville neurologist. Dr. Rogers made several diagnoses and has offered a plan of treatment, including enrollment in a traumatic brain injury program.

Since the injury, Crane has suffered from severe hearing loss as shown by audiometric testing. Although he retains a very slight ability to hear, objective testing confirms Crane's hearing impairment is 100% bilaterally as defined in Regulation 67-1102.

Crane also suffers from depression, balance problems (resulting in falls), and cognitive issues – all of which are causally related to the accident and require further treatment.

²Raber did not pay overtime for work over 40 hours – despite Crane regularly working a 52-hour work week. As the Fair Labor Standards Act requires time and a half to be paid, Crane requests his average weekly wage be based on the FLSA requirement. This results in an average weekly wage of \$541.00 with a compensation rate of \$360.68.

Danny Crane

BARNWELL COUNTY HOSPITAL

CONSENT TO EXAMINATION, TREATMENT, EMERGENCY/OUTPATIENT AND/OR ADMISSION

I do hereby volunteer to consent to routine diagnostic and therapeutic procedures, including photography where indicated, and hospital care by Barnwell County Hospital, my physician and their assistants and designees. I understand that I am under the care and supervision of my attending physician (or in the emergency department, the emergency department physician) and it is the responsibility of the hospital and its staff to carry out the instructions of such physicians. I understand that the physicians and/or surgeons furnishing services to me may be employees of the hospital or may be independent contractors and not employees or agents of the hospital, and that all physicians and surgeons expect payment for their services, and I will assist in billing appropriate insurance companies if insurance or other benefits are involved. I further understand that the practice of medicine and surgery is not an exact science and that no guarantees have been made as to the results of the hospital care and treatment that I have authorized. I further understand that I may be required to relinquish private room accommodations in the event they are needed.

RELEASE OF INFORMATION (Initial each statement below)

The hospital may not use or disclose protected health information except as allowed by the HIPAA Privacy Standards. The Notice of Privacy Practices describes how PHI is used and/or disclosed.

SC I have received a copy of the hospital's Notice of Privacy Practices and Patient's Rights.

SC I authorize BCH to include my name, location, religious affiliation and a general statement of condition in the hospital directory and disclose this information to members of the clergy or others who may inquire about me. Note any restrictions:

SC I authorize BCH to disclose relevant protected health information to family members, other relatives or other involved in my care or the payment of my care. Note any restrictions:

ASSIGNMENTS OF BENEFITS

I hereby assign payment directly to BCH and the physicians accepting this assignment of all hospitalization and medical benefits, assignable and otherwise payable to me. I understand that I am financially responsible for the hospital and physician(s) for charges not covered by this assignment or for any and all charges which the insurance carrier declines to pay. I further request, direct and authorize BCH (or the physician for physician charges) to apply any and all insurance benefits, or payments to any co-payments for which I am legally responsible for the payment thereof. A carbon or photostat copy of this assignment of insurance benefits shall be considered as effective and valid as the original copy.

PERSONAL VALUABLES AND PERSONAL PROPERTY SC (Patient or personal representative's initials)

I understand that I have been advised not to keep valuables and personal property, such as dentures and eyeglasses, in my room and that I should have my valuables and personal property locked in the hospital safe. I hereby release BCH for any liability resulting from theft or loss unless these articles are placed in the hospital safe. I further understand and agreed that all valuables and personal property will be picked up no later than 20 days after discharge, after which the hospital will not be responsible.

FINANCIAL RESPONSIBILITY

The undersigned agrees to pay the hospital bills when due. The undersigned agrees, whether she signs as an agent or as a patient that in accordance with the services to be rendered to the patient, she is hereby individually obligated to pay the account of the hospital in accordance with the regular hospital rates and terms. I understand that the self-pay portion, and/or amounts left unpaid by insurance, may be subject to interest charges of up to 15% if not paid in full within 90 days of service. Should the account be referred for collection to a collection agency, the SC Debt Set Off program, or the C.A.B. program, a \$50.00 fee will be charged, and the undersigned shall pay all collection expense, including attorney's fees and court costs. I am aware that an itemized bill may be rendered at my request.

GENERAL DUTY NURSING

The hospital provides general nursing care to all patients.

MEDICARE PATIENTS ONLY

I certify that the information given by me in applying for payment under Title XVIII and/or Title XIX of the Social Security Act is correct. I authorize any holder of medical or other information about me to release information needed for use claims to the Social Security Administration or its intermediary, carrier, or fiscal. I request that payment of authorized benefits be made on my behalf. I assign the benefits payable for physician(s) and/or hospital services to said hospital and physician(s). I understand that I am responsible for any health insurance deductibles or coinsurances.

ACKNOWLEDGEMENT OF RECEIPT OF AN IMPORTANT MESSAGE FROM MEDICARE (Medicare Patients Only)

My signature only acknowledges receipt of this message from BCH and does not waive any of my rights to request a review or make me liable for any payment.

ADVANCE DIRECTIVES

I have been advised of my rights as a Medicare patient, including my rights to give advance directives. BCH will honor my advance directive to the extent authorized by SC Law and hospital policy.

1. Does the patient have an advance directive? Yes No Unable to determine at this time.
2. If yes, was a copy provided? Yes No (Institution and family that until a copy is provided, patient will be treated as if no such directive exists.)
3. If no, was written information given to the patient? Yes Declined written information
4. Are you a organ donor? Yes No Is it documented on your driver's license? Yes No

LEWIS BLACKMAN PATIENT SAFETY ACT HOSPITAL INFORMATION

Dear Patient:

Thank you for choosing Barnwell County Hospital for your care. We want to provide you with the best care during your stay with us.

You will be receiving services provided by many persons within Barnwell county Hospital. For your comfort, we want to inform you about these people. Examples of these people are nursing students, medical students, consulting physicians, and other medical trainees. These clinical staff members may participate in direct patient care and are under the supervision of a properly appointed hospital approved person.

If you are to stay in the hospital, you will be admitted by a doctor considered to be your "attending physician." If this physician is unable to see you on a particular day, he or she will designate another doctor to see you in order to help cover your care. Your doctor may also ask other physicians to help with your care. Please ask your physician or nurse to explain to you who other persons involved in your care are, if you are not sure.

All staff members, people in training, as well as doctors on the medical staff, will be wearing a badge clearly stating their name, department, and job or title. We do this to assist you in knowing who is involved in your personal care, treatment decisions, or surgical procedures.

The nursing staff is frequently in contact with the physicians and others involved in your care. If, at any time you have questions, please contact your nurse/clinical staff member. The nurse or clinical staff member will promptly provide a means allowing you to independently access a physician, clinical supervisor, and/or a member of administration. If you want your nurse or clinical staff member to contact the attending physician or any other physician helping with your care, they will promptly access them on your behalf if requested.

Barnwell County Hospital thanks you for allowing us the opportunity to assist with your medical care needs.

I have received Barnwell County Hospital's Lewis Blackman Patient Safety Act Information Sheet, which includes patients' rights as defined in the Lewis Blackman Patient Safety Act of 2005.

 Patient/Representative

Patient: CRANE, DANIEL Date: 02-19-2014 Time: 18:00:21 Page: 1

Instructions for: CRANE, DANIEL

Date: 02-19-2014 Your care provider was: DR KASSAHUN

Antibiotic ear drops:

You've been given a prescription for antibiotic ear drops. These drops kill bacteria in the ear. They are used for outer ear infection or for a middle ear infection where there's a hole or a tube in the eardrum. These drops do not contain steroids.

Your ear drops won't do much good if they don't get all the way in. To help the ear drops penetrate all the way to the ear drum, use the following technique. If you encounter problems of any kind, notify the physician.

- Lay your head sideways on a pillow, so the ear getting the medicine is up.
- Place the dropper tip just barely inside the ear canal, almost touching the bottom side of the canal. The liquid is tolerated better on the bottom of the canal.
- Squeeze out the appropriate amount of medicine, and remove the dropper.
- Grab the back of the ear (just behind the ear canal) between your index finger and thumb.
- Tug up, then let the ear drop back. Repeat several times. This pumps the medicine down.
- Wait five minutes, then place a cotton ball in the ear canal to catch and hold the medicine.

I have received a copy of these instructions and have had an opportunity to discuss them. My questions have been answered. (Entiendo estas instrucciones y he recibido copia de ellas.)

Patient (or representative)

Witness

Name: Crane Daniel
 Patient ID: 404006
 Account Number: 733715
 History:
 Date Of Birth:
 Study: CT FACIAL W/O CONTR
 Facility: Barnwell County Hospital
 Physician: 133398
 Date Of Service: 02/25/2014 10:00:00

STUDY: CT TEMPORAL BONES WITHOUT CONTRAST

REASON FOR EXAM: Male, 37 years old. Sudden hearing loss. Patient states he had a tire changer with 150 PSI blow up in his face last week, with loss of hearing both ears.

RADIATION DOSAGE (If Supplied By Facility): CTDIvol = () mGy, DLP = () mGycm

TECHNIQUE: The patient was scanned in a multi detector CT scanner. Transaxial imaging was performed without the administration of intravenous contrast material. Sagittal and coronal images were reconstructed.

COMPARISON: None.

FINDINGS:

RIGHT TEMPORAL BONE:

Normal right osseous internal auditory canal.

Normal visualized ossicles and tympanic cavity. Normal right cochlea and semicircular canals. Normal vestibular aqueduct.

Normal aditus ad antrum and mastoid air cells. Normal petrous apex. Normal carotid canal. Normal jugular fossa.

Normal right external auditory canal with intact scutum.

LEFT TEMPORAL BONE:

Normal left osseous internal auditory canal.

Normal visualized ossicles and tympanic cavity. Normal left cochlea and semicircular canals. Normal vestibular aqueduct.

Normal aditus ad antrum and mastoid air cells. Normal petrous apex. Normal carotid canal. Normal jugular fossa, larger on the left than the right, compatible with dominant left jugular bulb.

Normal left external auditory canal with intact scutum.

ADDITIONAL:

Chronic sinusitis, with mucosal thickening most significantly involving the left maxillary sinus.

IMPRESSION:

Normal appearance of bilateral temporal bone structures on unenhanced temporal bone CT. If the patient has sensorineural hearing loss, consider further evaluation with MRI brain and internal auditory canals.

Chronic sinusitis.

Electronically Signed:

Diane R. Newton, M.D.

Instructions for: CRANE, DANIEL

Date: 03-26-2014 Your care provider was: DR. DRAGO

Oral narcotic medication:

You have been given a prescription for pain control. This medication is a narcotic. It's best taken with food, as nausea can result if taken on an empty stomach.

Don't operate machinery or drive within six hours of taking this medication. Do not combine this medicine with alcohol, or with any medication which can cause sedation (such as cold tablets or sleeping pills) unless you get permission from the physician.

Narcotics tend to cause constipation. If possible, drink plenty of fluids and eat a diet high in fiber and fruits.

I have received a copy of these instructions and have had an opportunity to discuss them. My questions have been answered. (Entiendo estas instrucciones y he recibido copia de ellas.)

Study: CT CHEST W/O CONTR
Facility: Barnwell County Hospital
Physician: 148835
Date Of Service: 03/26/2014 17:57:00

STUDY: CT CHEST WITHOUT CONTRAST

REASON FOR EXAM: Male, 37 years old. Fell this morning. Right-sided chest pain.

RADIATION DOSAGE (If Supplied By Facility): CTDIvol = () mGy, DLP = () mGycm

TECHNIQUE: High resolution transaxial imaging was performed without the administration of intravenous contrast material. Sagittal and coronal reconstruction.

COMPARISON: None.

FINDINGS:

The lungs are well expanded and clear. No pneumothorax. No pleural effusions.

Normal heart and pericardium.

Normal mediastinum. Normal hilar regions. Normal unenhanced pulmonary arteries. Normal aorta arch and descending thoracic aorta.

There is an acute nondisplaced fracture of the right anterior seventh rib series 3/92, series 401/19. There is only minimal adjacent edema. No other rib fractures. There are minimal degenerative changes in the spine. The bony structures are otherwise unremarkable.

There is no demonstrated abnormality of the visualized upper abdomen.

IMPRESSION:

Acute nondisplaced transverse fracture of the anterior right seventh rib.

Otherwise normal unenhanced CT Chest examination.

Electronically Signed:

Peter Fitzer, M.D.

2/20/14 10:00 AM WNCN Hospital
RETURN 3/10/14 10:00 AM

PATIENT: Danny Crane, Jr.
CHART # 87634
DATE: 2/20/14

HISTORY OF PRESENT ILLNESS: Danny Crane comes in for evaluation of his hearing. He had a machine blow up in his face a couple days ago and he is having some difficulty hearing.

PHYSICAL EXAMINATION

HEAD: Normocephalic.

EYES: PERRLA, full EOM.

EARS: Bilateral tympanic membrane perforations.

AUDIO: He does seem to be having difficulty hearing. He was sent for an audiogram which showed a severe sensorineural hearing loss in bilateral ears.

NOSE: Unremarkable.

OROPHARYNX: Unremarkable.

NECK: Supple.

LARYNX: Normal.

ASSESSMENT: Severe sensorineural hearing loss

PLAN: I would like to get a CT scan of his temporal bones. I would like to see him back in a couple of weeks. Hopefully his thresholds will improve.

BARNWELL COUNTY HOSPITAL

87634

Name: Crane Daniel

Patient ID: 404006

Account
Number: 739716

History: REASON FOR EXAM:: sudden hearing loss. pt states he had a tire changer with 150 psi blow up in his face last week and he lost hearing in both ears

Date of
Birth:

Study: CT - Temporal Bones, CT Temporal Bones W/O Contrast

Facility: Barnwell County Hospital

Physician: CASSONE, ROCCO

Date of
Service: 02/25/2014 10:02:32

STUDY: CT TEMPORAL BONES WITHOUT CONTRAST

REASON FOR EXAM: Male, 37 years old, Sudden hearing loss. Patient states he had a tire changer with 150 PSI blow up in his face last week, with loss of hearing both ears.

RADIATION DOSAGE (If Supplied By Facility): CT DIvol = () mGy, DLP = () mGycm

TECHNIQUE: The patient was scanned in a multi detector CT scanner. Transaxial imaging was performed without the administration of intravenous contrast material. Sagittal and coronal images were reconstructed.

COMPARISON: None.

FINDINGS:

RIGHT TEMPORAL BONE:

Normal right osseous internal auditory canal.

Normal visualized ossicles and tympanic cavity. Normal right cochlea and semicircular canals. Normal vestibular aqueduct.

Normal aditus ad antrum and mastoid air cells. Normal petrous apex. Normal carotid canal. Normal jugular fossa.

Normal right external auditory canal with intact scutum.

LEFT TEMPORAL BONE:

Normal left osseous internal auditory canal.

Normal visualized ossicles and tympanic cavity. Normal left cochlea and semicircular canals. Normal vestibular aqueduct.

Normal aditus ad antrum and mastoid air cells. Normal petrous apex. Normal carotid canal. Normal jugular fossa, larger on the left than the right, comparable with dominant left jugular bulb.

Normal left external auditory canal with intact scutum.

ADDITIONAL:

Chronic sinusitis, with mucosal thickening most significantly involving the left maxillary sinus.

IMPRESSION:

Normal appearance of bilateral temporal bone structures on unenhanced temporal bone CT. If the patient has sensorineural hearing loss, consider further evaluation with MRI brain and internal auditory canals.

Chronic sinusitis.

Electronically Signed:

404006 / Crane Daniel

Crane 0023

PATIENT: Danny Crane
CHART # 87634
DATE: 3/6/14

HISTORY OF PRESENT ILLNESS: Danny Crane comes in for evaluation of his ears.
He is still having difficulty hearing.

PHYSICAL EXAMINATION

HEAD: Normocephalic.

EYES: PERRLA, full EOM.

EARS: Clear.

AUDIO: He actually had a shift downward on audiogram.

NOSE: Unremarkable.

OROPHARYNX: Unremarkable.

NECK: Supple.

LARYNX: Normal.

ASSESSMENT: Rule out sensorineural hearing loss.

PLAN: He is scheduled for an ABR down at MUSC. I will see him back after completion of this.

Physical Exam

Mol Ky, DO, 03/31/2014 02:25 PM

General

General Appearance - Cooperative and Well groomed. Not in acute distress or Sickly. **Build & Nutrition** - Well nourished. **Posture** - Normal posture. **Gait** - Normal. **Hydration** - Well hydrated.

Eye

Sclera/Conjunctiva - Bilateral - Normal. **Pupil** - Bilateral - Accommodating, Direct reaction to light normal and Equal.

ENMT**Global Assessment:**

Upon examination of the ears, nose, mouth and throat - normal pinnae with no scars, masses or lesions, otoscopic exam reveals normal external auditory canals, with tympanic membranes clear and mobile, on external inspection of the nose, there are no scars, lesions or bony deformities, internal examination of the nose reveals midline septum and pink nasal mucosa with normal turbinates, examination of the oral cavity reveals normal lips, teeth, gums and oral mucosa and hard and soft palates, tongue, tonsils and posterior pharynx are moist and symmetric without lesions.

Mouth and Throat

Salivary Glands: Parotid Glands - Bilateral - normal.

Chest and Lung Exam

Inspection: Shape - Symmetric. **Movements** - Symmetrical. **Accessory muscles** - No use of accessory muscles in breathing.

Percussion:

Quality and Intensity: - Percussion normal.

Palpation: - Palpation normal.

Auscultation:

Adventitious sounds: Inspiratory wheeze - Note: inspiratory wheezing bilaterally

Cardiovascular

Inspection: Carotid artery - Bilateral - Inspection Normal.

Palpation/Percussion: Examination by palpation and percussion reveals - No Thrills.

Cardiac Borders - Normal.

Auscultation: Rhythm - Regular. **Heart Sounds** - Normal heart sounds, S1 WNL and S2 WNL.

Murmurs & Other Heart Sounds: Auscultation of the heart reveals - No Murmurs.

Peripheral Vascular

Lower Extremity: Inspection - Bilateral - No Varicose veins.

Palpation: Edema - Bilateral - No edema.

Musculoskeletal

Tenderness noted to palp over right rib. No edema, erythema or lacerations noted to abdomen.

Assessments & Plans

Mol Ky, DO, 03/31/2014 02:34 PM

Rib fracture (807.00)**Medications**

Started Flonase 50MCG/ACT, 2 (two) spray each, 1 Patch, 03/31/2014, Ref: x12.

Started CIPRO 500MG, 1 (one) Tablet two times daily, #20, 03/31/2014, No Refill.

Sinusitis, acute (461.9)**Medications**

Started Hydrocodone-Acetaminophen 5-325MG, 1 (one) Tablet every 4-6 hrs prn pain, #120, 03/31/2014, No Refill.

Nicotine addiction (305.1)

Bipolar affective disorder, manic (296.40)

Medications

Continued Venlafaxine HCl 50MG, 1 Tablet TID. #90, 03/31/2014, Ref. X3.

BARNWELL COUNTY HOSPITAL

Name: Crane, Daniel
 Patient ID: 404006
 Account Number: 795456
 History: REASON FOR EXAM: FALL PATIENT FELL THIS AM. COMPLAINS OF PAIN TO RIGHT SIDE OF CHEST
 Date of Birth: 10/01/1978
 Study: CT - Chest, CT: Chest High Resolution W/O Contrast
 Facility: Barnwell County Hospital
 Physician: Drago, Paul
 Date of Service: 03/26/2014 15:41:01

STUDY: CT CHEST WITHOUT CONTRAST

REASON FOR EXAM: Male, 37 years old. Fell this morning. Right-sided chest pain.

RADIATION DOSAGE (If Supplied By Facility): CT DIAP = () mGy, DLP = () mGycm

TECHNIQUE: High resolution transaxial imaging was performed without the administration of intravenous contrast material. Sagittal and coronal reconstruction.

COMPARISON: None.

FINDINGS:

The lungs are well expanded and clear. No pneumothorax. No pleural effusions.

Normal heart and pericardium.

Normal mediastinum. Normal hilar regions. Normal unenhanced pulmonary arteries. Normal aorta arch and descending thoracic aorta.

There is an acute nondisplaced fracture of the right anterior seventh rib, series 3702, series 401/10. There is only minimal adjacent edema. No other rib fractures. There are minimal degenerative changes in the spine. The bony structures are otherwise unremarkable.

There is no demonstrated abnormality of the visualized upper abdomen.

IMPRESSION:

Acute nondisplaced transverse fracture of the anterior right seventh rib.

Otherwise normal unenhanced CT Chest examination.

PROCEDURE

CT Head of Brain w/o Contrast

EXAM DATE/TIME

03/14/2014 14:51 EDT

CT Brain

Indication: Constant headache, hearing loss.

Technique: 5 mm axial images acquired through the brain without contrast.

Comparison: None.

Findings: No acute infarction is seen in any major vascular territory. No intraparenchymal hemorrhage is identified. There are no extra-axial fluid collections. The brain is normal in morphology. No midline shift is noted. The visualized paranasal sinuses are clear. The ventricles are non-dilated. There is mucoperiosteal thickening versus a small mucous retention cyst in the bilateral maxillary sinuses.

Impression:

Normal unenhanced head CT.

RIGHT EAR CLEAR

RIGHT SIDE HEADACHE

WILL DO CT BRAIN DX SUBDURAL

General**Mental Status** - Alert. **General Appearance** - Not in acute distress.**Head and Neck****Neck****Global Assessment** - no lymphadenopathy.**Trachea** - midline.**Thyroid****Gland Characteristics** - normal size and consistency.**Eye****Cornea** - Bilateral - Normal. **Lens** - Bilateral - Clear. **Fundi** - Bilateral - Normal. **Pupil** - Bilateral - Normal, Equal, Regular and Round.**ENMT****Ears****Otoscopic Exam:** **Middle Ear** - Bilateral - no effusion noted. **Tympanic Membrane** - Bilateral - tympanic membrane is amber in appearance. no decreased movement observed and no purulent effusion observed.**Nose and Sinuses**Barnwell Family Medicine, <http://www.lowcountryhealthcaresystem.com/>

Crane 0039

Nasal Mucosa - Bilateral - no congestion observed.

Mouth and Throat

Nasopharynx - no discharge present and no exudate observed.

Chest and Lung Exam

Chest and lung exam reveals - normal excursion with symmetric chest walls, quiet, even and easy respiratory effort with no use of accessory muscles and on auscultation, normal breath sounds, no adventitious sounds and normal vocal resonance.

Cardiovascular

Cardiovascular examination reveals - on palpation PMI is normal in location and amplitude, no palpable S3 or S4. Normal cardiac borders., normal heart sounds, regular rate and rhythm with no murmurs, carotid auscultation reveals no bruits and no digital clubbing, cyanosis, edema, increased warmth or tenderness.

Abdomen - Did not examine.

Neurologic

Neurologic evaluation reveals - alert and oriented x 3 with no impairment of recent or remote memory, normal attention span and ability to concentrate, able to name objects and repeat phrases. Appropriate fund of knowledge, normal visual acuity, pupils equal and reactive to light and accommodation, normal sensation of trigeminal nerves, symmetrical functioning of facial nerves, normal hearing, normal gag reflex, symmetrical functioning of accessory nerves, symmetrical functioning of hypoglossal nerve, normal sensation, normal coordination and upper and lower extremity deep tendon reflexes intact bilaterally.

Assessments & Plans

Dean T Koukos, DO, 02/25/2014 02:36 PM

Head ache (784.0)

Medications

Started Fioricet 50-300-40MG, 1 (one) Capsule ONE Q4H PRN HEADACHE, #30, 02/25/2014, Ref. x1.
Continued Ambien 10MG, 1 (one) Tablet ONE AT HS PRN SLEEP, #15, 02/25/2014, Ref. x3.
Continued Feldene 20MG, 1 (one) Capsule ONE DAILY WITH FOOD, #30, 02/25/2014, Ref. x3.
Continued Venlafaxine HCl 50MG, 1 Tablet TID, #90, 02/25/2014, Ref. x3.

Subdural hematoma (432.1)

PATIENT'S NAME:	Danny B. Crane, Jr.
DATE OF BIRTH:	10/01/1976
MRN:	247458
DATE OF SERVICE:	05/19/2014
REFERRING PARTY:	Samuels Law Firm

INDEPENDENT MEDICAL EVALUATION**RECORDS REVIEWED:**

- Barnwell County Hospital emergency department records of February 19, 2014 and March 26, 2014.
- Barnwell County Hospital CT scan of temporal bones bilaterally from February 25, 2014.
- Carolina ENT office records of John F. Ansley, M.D. from February 20, 2014 and March 6, 2014.

HISTORY OF PRESENT ILLNESS:

Mr. Crane is a 37-year-old male who presents for an independent medical examination. Mr. Crane states that he was in a normal state of health until he was involved in a work-related injury occurring February 19, 2014. At the time of his injury, Mr. Crane states that he was employed by Raber Tires as a mechanic. Mr. Crane states that he was working on a tire changer when he noticed a hissing noise coming from a 3-inch high pressure hose. Mr. Crane states that he bent forward to inspect the hose when the hose "exploded". Mr. Crane states that the hose clamp struck him in the right temporal aspect of his head. There was no reported loss of consciousness. Mr. Crane reported abrupt and immediate ear pain with loss of hearing. Mr. Crane states that his wife came to transport him to Barnwell County Hospital emergency department. Mr. Crane stated, "My work did not even call 911."

Emergency department records documented Mr. Crane's injury stating, "Air tank exploded. Raber Tires, not able to hear. Pain with right ear and right side of face. Happened approximately 30 minutes ago. Right elbow pain." Records stated, "Had tire blow...now has difficulty of hearing on both ears." Mr. Crane was diagnosed with inductive hearing loss, middle ear, hearing loss, and was subsequently provided an appointment to follow up with ENT.

On February 20, 2014, Mr. Crane presented to Carolina ENT clinic and was evaluated by John F. Ansley, M.D. who documented Mr. Crane's work-related injury stating, "He had a machine blow up in his face a couple days ago and he is having some difficulty hearing." On examination, Dr. Ansley documented bilateral tympanic membrane perforations and stated, "He does seem to be having difficulty hearing." He was sent for an audiogram which showed a severe sensorineural hearing loss in bilateral ears. Dr. Ansley then diagnosed Mr. Crane with severe sensorineural hearing loss and ordered a CT scan of bilateral temporal bones to be obtained.

Continued...

Danny B. Crane, Jr. 05/19/2014 Page 2

HISTORY OF PRESENT ILLNESS (Cont'd):

Dr. Ansley added, "Hopefully his thresholds (hearing acuity) will improve." Pure tone audiogram demonstrated hearing loss in right ear considered profound and severe in the left ear.

CT scan of bilateral temporal bones was obtained at Barnwell County Hospital February 25, 2014. External auditory canals were considered normal; however, there is an incidental finding of chronic sinusitis with mucosal thickening most significantly involving the left maxillary sinus. The interpreting radiologist, Diane R. Newton, M.D., stated, "If the patient has sensorineural hearing loss, consider further evaluation with MRI of brain and internal auditory canals."

On March 6, 2014, Mr. Crane returned to Dr. Ansley at Carolina ENT clinic. Dr. Ansley stated, "He is still having difficulty hearing, scheduled for ABR (auditory brain response) at MUSC. Patient will return following ABR." Repeat pure tone audiogram then demonstrated profound hearing acuity loss in both ears.

On March 26, 2014, Mr. Crane presented to Barnwell County Hospital emergency department for evaluation. Emergency department records stated, "Patient fell this A.M.; it hurts to take a deep breath. It hurts to move. Patient states can feel pop in right rib area." Emergency department records indicate a diagnosis of right seventh rib fracture. Mr. Crane was provided a prescription for opioid analgesics and discharged to home. A CT scan of chest was obtained prior to discharge on March 26, 2014, which demonstrated an acute nondisplaced fracture of the right anterior seventh rib with some minimal adjacent edema; otherwise, an unremarkable study.

Mr. Crane reports several falls due to being "off balance", with the March 26, 2014 fall resulting in a rib fracture. Mr. Crane states that the other falls have only resulted in minor abrasions.

Mr. Crane's chief complaint is bilateral ear pain, which is daily but episodic. The patient states that the left ear is more grossly affected than right. Mr. Crane also states that he feels "sensitive to air pressure". Occasionally, Mr. Crane states that he has bleeding from right ear, particularly when he is exposed to loud noises.

Mr. Crane reports persistent headache activity occurring 18 of the past 30 days. Headaches are associated with pulsatile quality, incapacitation, and photophobia. These headaches are largely in the bilateral temporal and occipital areas. The patient states that most activities will aggravate these headaches. Nothing seems to reduce these headaches. Mr. Crane also reports dizziness "a lot". Mr. Crane states that this dizziness causes him to feel "off balance". Mr. Crane is also reporting high-pitched, squealing noise, which is more audible in the left noise. Mr. Crane is also reporting fatigability, noise sensitivity, impaired taste perception, photopsia, scotomata, and insomnia.

Mr. Crane is also reporting cognitive impairment with decreased concentration, alteration in recent memory, thinking, and planning.

Mr. Crane also reports increased irritability "a lot" of anxiety and admits to depression. Mr. Crane states that he has a history of depression; however, states that his symptoms have grown markedly worse since his work-related injury of February 19, 2014.

Danny B. Crane, Jr. 05/19/2014 Page 3

HISTORY OF PRESENT ILLNESS (Cont'd):

Mr. Crane reports impairments of activities of daily living with disrupted sleep. Mr. Crane reports a significant decrease in social activity and an inability to work with the volunteer fire department, which he states is a major source of satisfaction for him. Mr. Crane states that he has not returned to work since his work-related injury of February 19, 2014.

PAST MEDICAL HISTORY:

Notable for motor vehicle accident in 1990 resulting in exploratory surgery and splenectomy. Orthopaedic injury to left ankle required hardware placement. Mr. Crane states that he was in a coma and required a blood transfusion due to that accident. Mr. Crane reports a history of depression, anxiety, and bipolar affective disorder, but states that his symptoms have grown markedly worse since February of 2014.

CURRENT MEDICATIONS:

Effexor.

Ambien.

Meloxicam.

The patient states he takes no over-the-counter preparations..

ALLERGIES:

The patient has no known allergies to foods or medications.

FAMILY HISTORY:

Noncontributory.

SOCIAL HISTORY:

The patient states, "I sit at home now but that is all, I was a volunteer fireman, but now I cannot hear." The patient lives with his wife. The patient last worked at Raber Tires February 19, 2014, having been employed there approximately 1 year. Prior to that, the patient states that he worked at Extreme Automotive Equipment and serviced air conditioning units. The patient reports he was attending a special class through public school and later received technical training. The patient denies any excessive ETOH use. The patient dips 1/2 can of tobacco a day.

PATIENT PROFILE:

The patient completed a Beck's Depression Inventory with a score of 47. Inventory is notable for increased sadness, hopelessness, self-failure, dissatisfaction, tearfulness, self-punishment, self-disgust, suicidality, irritability, and worry regarding physical problems stating, "I am so worried about my physical problems I am unable to function normally." The inventory is also notable for decreased enjoyment of most activities, social interests, self-esteem, sleep, energy level, weight, initiative, appetite, and decision-making ability. Mr. Crane completed a Mood Disorder Questionnaire which was positive for features of bipolar affective disorder. When asked if he felt he had lost control of his current physical condition, Mr. Crane stated, "Hell, I cannot do nothing; my life controls me." When asked if he felt depressed, Mr. Crane stated, "I do feel depressed and aggravated all the time, I just wish I was dead but I do not feel suicidal." Continued...

Danny B. Crane, Jr. 05/19/2014 Page 14

PATIENT PROFILE (Cont'd):

Patient denies any homicidal ideation. Patient reports difficulty falling asleep stating, "It takes me until 2 A.M. to get to sleep and then I am up and down all night." When asked if he obtains restorative sleep, Mr. Crane states that when he awakens, he is not rested. Mr. Crane stated, "It is just hard to sleep. I have so much stuff running through my mind." Mr. Crane states he will supplement his sleep with daytime naps.

PHYSICAL EXAMINATION:

Temp: Afebrile P: 91 and regular BP: 122/84 Ht: 5' 10" Wt: 197 lbs

General: This is a well-nourished, well-developed, right-hand dominant, Caucasian male in no apparent physical distress.

HEENT: Head: Patient demonstrates some hypopigmented, normotrophic 2 cm and 1.5 cm laceration scars in the left temporoparietal area secondary to motor vehicle accident in 1990. There appears to be no depression of the skull at this site. Head was normocephalic. Eyes PERRLA, EOMI. Visual acuity was 20/20 OD, OS, and OU without correction. The funduscopic examination revealed sharp disc margins bilaterally. There is no obvious retinopathy. ENT: Patient demonstrates apparent healed 60% tear of right tympanic membrane. More complete approximately 80% tear in the left tympanic membrane. Both TMAs were injected, left being affected more greatly than right. No evidence of blood in the EACs bilaterally. Percussion of bilateral frontal and maxillary sinuses produced no discomfort. There is no jaw crepitus or temporalis tenderness.

Neck: The patient demonstrated essential FROM. There are no carotid bruits detected.

Lungs: CTA bilaterally.

Heart: Heart was RRR, negative RMG.

Skin, Spine, and Extremities: Patient demonstrated a hyperpigmented, hypertrophic surgical scar along the ventral midline secondary to exploratory surgery. Patient has tenderness to palpation of the right lateral epicondyle.

**Neurological/
Mental Status:** Mental status: The patient was alert and oriented to person and purpose. Patient completed a Folstein Mini Mental Status Examination with a score of 26/30. Patient was 8/10 orientation, 3/3 registration, 4/5 attention and calculation, 2/3 recall at 3 minutes. Mr. Crane's sentence was, "It a nice day; the sun is out and heat is cool." Mood appeared depressed; affect was flat. Patient demonstrated no overt pain behavior throughout the interview and examination. Affect appeared to be somewhat labile as the patient easily became frustrated and tearful throughout the interview. Patient remained pleasant and cooperative, however, throughout the interview and examination.

Continued...

Danny B. Crane, Jr. 05/19/2014 Page 5

PHYSICAL EXAMINATION (Cont'd):

Cranial nerves: Visual fields appeared full to confrontation. Eyes PERRLA, EOMI. There is no gross facial asymmetry. Air conduction was greater than bone conduction on left. Bone conduction was greater than air conduction on right. Weber lateralized to the left. Tongue and uvula appeared midline. Shoulder shrug was equal bilaterally.

Motor Strength: The patient demonstrated grip strength of 55, 54, and 55 pounds on the right compared to 110, 110, and 110 pounds on the left utilizing a JAMAR Dynamometer at the 4 cm setting. DTRs were 2 throughout upper and lower extremities. Negative Hoffman sign.

Sensory: Revealed no focal deficits to thermal or vibratory perception. Coordination FTN and RAM were performed with some mild dysmetria, right being affected more greatly than left. There is no significant tremor. The patient has 2 to 3 beats of horizontal nystagmus bilaterally. Vestibulo-ocular reflex stable bilaterally.

MEDICAL ASSESSMENT:

Medical records, medical history, and current neurological findings are consistent with a work-related injury occurring on February 19, 2014, resulting in bilateral tympanic membrane ruptures and subsequent profound sensorineural hearing loss in addition to closed head injury with significant affective, cognitive, and somatic symptomatology consistent with post-concussive syndrome (*Behavioral Neurology* by Orinn Devinsky, M.D. table 70.1 page 268). It is my medical opinion beyond a reasonable degree of medical certainty that Mr. Crane's profound bilateral hearing loss is permanent and that hearing acuity cannot be restored by natural means. Therefore, Mr. Crane, in my opinion, has met maximum medical improvement with regard to this injury and therefore can be provided an impairment rating.

1. **HEARING ACUITY LOSS.** Utilizing tables 11-1 page 247, table 11-2 page 248, and table 11-3 page 250 of *The Guides to the Evaluation of Permanent Impairment, Fifth Edition*, hearing acuity loss measured at 500, 1000, 2000, and 3000 decibels results in 100% hearing loss bilaterally. Per table 11-3 page 250 of *The Guides to the Evaluation of Permanent Impairment, Fifth Edition*, this equates to a 35% whole person impairment.
2. **VESTIBULAR DISORDER, GRADE II.** Per table 11-4 page 253 of *The Guides to the Evaluation of Permanent Impairment, Fifth Edition*, a class II vestibular disorder may be awarded a 10% whole person impairment.
3. **STATUS POST CLOSED HEAD INJURY WITH RESULTANT POST-CONCUSSIVE SYNDROME.** This has resulted in cognitive as well as behavioral/emotional dysfunction. Given the Folstein Mini Mental Status Examination score of 25/30, I would consider this a class I cognitive impairment. Per table 13-5 and 13-6 page 320 of *The Guides to the Evaluation of Permanent Impairment, Fifth Edition*, this would constitute a class I impairment, which may be awarded 14% whole person impairment.

Continued...

Crane 0051

Danny B. Crane, Jr. 05/19/2014 Page 6

MEDICAL ASSESSMENT (Cont'd):

With regard to behavioral/emotional dysfunction, a Beck's Depression Inventory score of 47 indicates a moderate-to-severe level of behavioral/emotional dysfunction. A Mood Disorder Questionnaire demonstrating positive features of bipolar affective disorder suggests pre-existing bipolar affective disorder. Per table 13-8 page 325 of *The Guides to the Evaluation of Permanent Impairment, Fifth Edition*, a class II behavioral/emotional impairment may be awarded 29% whole person impairment, whereas a class III behavioral/emotional impairment may be awarded up to 69% whole person impairment. Neuropsychological testing would help to clarify pre-existing pathology from post-traumatic dysfunction.

Per page 271 of *Behavioral Neurology* by Orrin Devinsky, M.D., "Behavioral consequences are among the most common and devastating effects of a moderate-to-severe head trauma, but are difficult to quantify and treat. These disorders range from subtle personality changes to paranoid psychoses...furthermore, the behavioral disorders may emerge and will progress as the patient recovers motor and cognitive functions and they frequently persist; one study found personality disorders in more than half of patients 10 years after severe head trauma...post-traumatic affective disorders are common and result from both organic and psychogenic factors. Depression is common after moderate-to-severe head trauma, affecting more than half of patients...psychogenic factors are also a major cause of post-traumatic depression. Patients react to their motor, cognitive, and social losses with feelings of helplessness and worthlessness, withdrawing from their family and their passions. This reactive depression may be exacerbated by organic factors. As with all post-traumatic behavioral disorders, a multi-disciplinary team approach—including psychologists, neurologists, therapists, nurses, and social workers—is critical to identifying relevant pathogenic factors...pre-morbid personality has been alleged to determine the presence or form of post-traumatic behavioral disorders, but this connection has not been clearly demonstrated. Lishman (1987) found an association between emotional instability prior to head trauma and development of post-traumatic psychiatric disorders."

Furthermore, it is my medical opinion beyond a reasonable degree of medical certainty that Mr. Crane will require continued medical management to include but not be limited to routine office visits, medications, psychological counseling and therapy (cognitive behavioral therapy) as well as probable vestibular rehabilitation. Such a multi-disciplinary program would be best afforded by a traumatic brain injury program and I strongly endorse Mr. Crane's evaluation in such a program for potential outpatient therapy.

Total time spent with the patient was 1 hour and 15 minutes. Interview and examination was chaperoned by C.E.

SOUTH CAROLINA WORKERS' COMPENSATION COMMISSION

WCC FILE NO.: 1403368

Danny B. Crane, Jr.,

Claimant,

-vs-

James Raber d/b/a as Raber's Discount Tire
Rack,

Employer,

and

SC Uninsured Employers' Fund,

Carrier,

Defendants,

**MOTION TO SUBMIT
ADDITIONAL EVIDENCE**

TO: SOUTH CAROLINA WORKERS' COMPENSATION COMMISSION, O. EDWORTH LIIPFERT, III, ESQUIRE, ATTORNEY FOR THE DEFENDANT, and MATTHEW J. STORY, ESQUIRE, ATTORNEY FOR UEF:

Claimant, by and through his undersigned attorney, hereby moves to submit additional evidence pursuant to Regulations 67-613 and 67-707. The additional evidence to submit would include correspondence signed by Ronald Lunn, M.A., CCC-A on September 15, 2014, a medical note and report from Carolina Ear, Nose and Throat Clinic, performed by Dr. Rocco D. Cassone on August 19, 2014, which were all received by Claimant on October 29, 2014. As grounds for this Motion, Claimant would show the following:

1. This case was heard before Commissioner Susan S. Barden in Port Royal, SC on June 26, 2014, wherein each party presented all evidence known to the Claimant at the time of the hearing.
2. At the conclusion of the hearing, the Commissioner held that the Claimant failed to prove evidence of any ongoing medical problems and any permanent disability that would entitle him to any award. Furthermore, the Commissioner held that the Claimant did not prove he was unable to work, therefore he is not entitled to any temporary total disability payments.

Following the hearing before Commissioner Barden, the Claimant has sought and applied for Social Security Disability benefits. In doing so, and as a course of the application process the Claimant has been sent by Disability Determination services to undertake additional evaluation and medical treatment. On August 19, 2014 he was seen at Carolina Ear, Nose, and Throat Clinic for an evaluation of his long standing hearing loss and correspondence and a report were produced.

3. Claimant hereby moves for leave to submit the additional evidence under Regulation 67-613. The evidence was not known to the moving party at the time of the hearing, by reasonable diligence the new evidence could not have been secured, and the discovery of the new evidence is being brought to the attention of the Commission immediately upon its discovery.

4. The evidence from Carolina Ear, Nose and Throat Clinic is an essential element in the proof of the case. Dr. Cassone opines to a reasonable degree of medical certainty that Claimant had profound hearing loss in each ear and that he should be considered disabled as a result of the injury. This proof was not originally obtained and submitted as Claimant had not been evaluated by Dr. Cassone at the time of the hearing. Submission of Dr. Cassone's opinion into evidence is essential to preserve Claimant's due process rights. See Morgan v. JPS Automotives, 467 S.E.2d 457, 321 S.C. 201 (Ct. App. 1996)

5. Alternatively, Claimant moves to submit the additional evidence to the Appellate Panel under Regulation 67-707 in that the additional evidence is necessary for completion of the record.

THEREFORE, Claimant moves for leave to submit the September 15, 2014 correspondence of Audiologist Ronald Lunn and the August 19, 2014 evaluation records of Dr. Rocco Cassone.

Respectfully Submitted,

Stephen B. Samuels

North Charleston, SC 29419

Dear Ms. Ward,

Danny Crane, age (DOB: 10/1/1972), was seen for an audiological evaluation on August 19, 2014. He was seen on several previous occasions for purposes of audiological assessment with findings demonstrating inter- and intra-test inconsistencies, with recommendations made for auditory brainstem response studies, as a means for obtaining more objective measures of his hearing, so as to obtain a true estimate of his hearing. Findings of the assessment conducted on August 19, 2014, suggest a right profound hearing loss, while the left ear suggests a profound to severe hearing loss. Air-bone gaps did not exist, bilaterally, to equipment limits. A Speech Reception Threshold at the left ear did not appear to be consistent with the pure tone audiometrics, while an SRT or SAT could not be obtained to equipment limits upon right ear stimulation. Mr. Crane obtained a speech discrimination score of 82%, while the right ear was not measured.

It is recommended that Mr. Crane be seen for the administration of auditory brainstem response studies, as a means for obtaining more object measures of his hearing and permit a truer estimate of his hearing. Further recommendations should be postponed until such time that these measures can be obtained.

If you have any questions please feel free to contact me at your earliest convenience.

Sincerely yours,

Ronald Lunn, M.A., C.C.C.-A
Audiologist

Toll Free: 1-800-343-6601

PATIENT: Danny Crane
CHART # 87634
DATE: 8/19/14

HISTORY: Danny Crane is referred by Disability Determination services. The patient has a long standing hearing loss following a sudden injury to his ears when a container blew up in a work related injury. There was an extremely amount of noise and he had sudden ringing in his ears and hearing loss. He has had previous audiometric evaluations. He has had balance problems ever since and has significant difficulty being able to work because of both the hearing loss and the dizziness. He is a pleasant man who is in no acute distress.

PHYSICAL EXAMINATION

HEAD: Normocephalic.

EYES: Unremarkable.

EARS: Tympanic membranes are gray and mobile.

AUDIO: He was sent for audiogram and this showed a profound hearing loss in each ear.

NOSE: Mild rhinitis.

OROPHARYNX: Unremarkable

NECK: Supple

LARYNX: Normal.

IMPRESSION/RECOMMENDATION: He reads lips. He may be a candidate for a cochlear implantation and this should be considered. He should probably have yearly audiometric evaluations. He should be consider disabled because of this.

WCC FILE NO.: 1403368

Danny B. Crane, Jr.,

Claimant,

-vs-

James Raber d/b/a as Raber's Discount Tire
Rack,

Employer,

and

SC Uninsured Employers' Fund,

Carrier,

Defendants,

AFFIDAVIT

The undersigned, being duly sworn, makes the following representations:

My name is Stephen Samuels. I am an attorney in good standing and admitted to practice in the State of South Carolina. I was admitted to the South Carolina Bar on May 11, 1997. My primary area of practice is worker's compensation. I represent Danny B. Crane, Jr., in the above-referenced case.

This case was heard before Commissioner Susan S. Barden in Port Royal, SC on June 26, 2014, wherein each party presented all evidence known to the Claimant at the time of the hearing.

At the conclusion of the hearing, the Commissioner held that the Claimant failed to prove evidence of any ongoing medical problems and any permanent disability that would entitle him to any award. Furthermore, the Commissioner held that the Claimant did not prove he was unable to work, therefore he is not entitled to any temporary total disability payments.

Following the hearing before Commissioner Barden, the Claimant has sought and applied for Social Security Disability benefits. In doing so, and as a course of the application process the Claimant has been sent by Disability Determination services to undertake additional evaluation and medical treatment. On August 19, 2014 he was seen at Carolina Ear, Nose, and Throat Clinic for

an evaluation of his long standing hearing loss and correspondence and a report were produced.

Claimant hereby moves for leave to submit the additional evidence under Regulation 67-613. The evidence was not known to the moving party at the time of the hearing, by reasonable diligence the new evidence could not have been secured, and the discovery of the new evidence is being brought to the attention of the Commission immediately upon its discovery.

The evidence from Carolina Ear, Nose and Throat Clinic is an essential element in the proof of the case. Dr. Cassone opines to a reasonable degree of medical certainty that Claimant had profound hearing loss in each ear and that he should be considered disabled as a result of the injury. This proof was not originally obtained and submitted as Claimant had not been evaluated by Dr. Cassone at the time of the hearing. Submission of Dr. Cassone's opinion into evidence is essential to preserve Claimant's due process rights. See Morgan v. JPS Automotives, 467 S.E.2d 457, 321 S.C. 201 (Ct. App. 1996). Additionally, had the information been known to the Commission and the parties there is a reasonable likelihood the result would have been different.

Stephen B. Samuels

If the claimant appeals and is not represented by counsel, the Judicial Department will properly serve this form pursuant to Reg. 67-607 C. Pursuant to Reg. 67-205 and Reg. 701, the appeal must be postmarked no later than 14 days from the date of service of the Decision and Order of the Hearing Commissioner along with the filing fee. Attach a Form 32, if you are unable to pay the filing fee. Refer to Reg. 67-211 and Reg. 67-701 through 711.

ATTACHMENT TO FORM 30

Danny B. Crane v. James Raber d/b/a Raber's Discount Tire Rack and South Carolina Uninsured Employer's Fund.

WCC File No. 1403368

Grounds of Appeal:

1. Whether the Single Commissioner erred as a matter of fact and law in finding that Claimant did not suffer from hearing loss in the accident when substantial hearing loss was shown by three objective hearing tests using the "pure tone audiogram" required by Regulation 67-1102.
2. Whether the Single Commissioner erred as a matter of fact and law in failing to order an auditory brainstem response test (ABR) with follow up treatment to determine whether the hearing loss resulted from inner ear damage or from brain injury, and whether Claimant should undergo a cochlear implant.
3. Whether the Single Commissioner erred as a matter of fact and law in finding that Claimant had not proven his case when the medical evidence and unrefuted testimony proved Claimant suffered from hearing loss related to the accident.
4. Whether the Single Commissioner erred as a matter of fact and law in finding that Claimant was not credible regarding his hearing loss when the "inconsistencies" in his ability to hear are actually confirmation of profound hearing loss in his right ear and substantial hearing loss in his left ear.
5. Whether the Single Commissioner erred as a matter of fact and law in finding that Claimant was not entitled to temporary total disability compensation when the evidence showed he was unable to work in a tire store due to the hearing loss.
6. Whether the Single Commissioner erred as a matter of fact and law in admitting the Dr. Bettel report into evidence.
7. Whether the Single Commissioner erred as a matter of fact and law in finding that if Claimant had reached MMI, then failing to make a disability award for hearing loss under Regulation 67-1102.
8. Whether the Single Commissioner erred as a matter of fact and law in relying on boilerplate default entries in electronic medical records.

5 * * * * * * * * * * * * * * * *

6 BY COMMISSIONER BARDEN:

7 TODAY'S DATE IS JUNE 26TH, 2014. THIS IS SOUTH
8 CAROLINA WORKERS' COMPENSATION COMMISSION FILE
9 NUMBER 1403368. THIS IS THE CASE OF THE CLAIMANT
10 MR. DANNY CRANE WHO IS PRESENT TODAY AND REPRESENTED
11 BY ATTORNEY STEPHEN SAMUELS VERSUS THE EMPLOYER
12 JAMES RABER DOING BUSINESS AS RABER'S DISCOUNT TIRE
13 RACK. THE -- THERE IS NO -- WE HAVE ATTORNEY --
14 EXCUSE ME -- WORTH LIIPFERT REPRESENTING THE
15 EMPLOYER. THERE IS NO CARRIER, SO WE HAVE ATTORNEY
16 MATT STORY REPRESENTING THE U.E.F. THE PARTIES DO
17 AGREE AND STIPULATE THAT THE -- THAT RABER'S TIRE AS
18 -- I'M NOT SURE EXACTLY HOW THE COMMISSION
19 ESTABLISHED THE DEFENDANTS NAMED AS RABER'S TIRE
20 SHOULD MORE APPROPRIATELY BE JAMES RABER DOING
21 BUSINESS AS RABER'S DISCOUNT TIRE RACK. THE PURPOSE
22 OF TODAY'S HEARING IS TO DETERMINE ISSUES RAISED IN
23 FORMS 50 AND 51. THIS IS A DENIED CLAIM. NOR DO
24 THE PARTIES AGREE ON THE CORRECT FIGURES FOR AVERAGE
25 WEEKLY WAGE AND COMPENSATION RATE, IT IS THE

CLAIMANT'S POSITION THAT BASED ON \$9 AN HOUR AND AS WELL AS THE OVERTIME THAT THE CLAIMANT WORKED THAT HIS AVERAGE WEEKLY WAGE IS \$541. YIELDING A COMPENSATION RATE OF \$360.68. THE U.E.F. TAKES NO POSITION AS TO AVERAGE WEEKLY WAGE AND COMPENSATION RATE. IT'S THE EMPLOYER'S POSITION THAT THE CLAIMANT IS NOT OR WAS NOT AN EMPLOYEE ON THE DATE OF THE ACCIDENT AND RATHER AN INDEPENDENT CONTRACTOR. AND BUT THE EMPLOYER BELIEVES THAT AN AVERAGE WEEKLY WAGE SHOULD BE CALCULATED AS \$395.54, YIELDING A COMPENSATION RATE OF \$263.70. AND THE DATE OF THIS ALLEGED ACCIDENT WAS FEBRUARY 19TH, 2014. BEFORE I ASK IF THERE ARE ANY OBJECTIONS, I AM GOING TO PREEMPT MR. SAMUELS BECAUSE HE DOES IN FACT HAVE AN OBJECTION, AND HIS OBJECTION IS TO THE REPORT OF DR. BETLA OR BETTLE. I'M NOT REALLY SURE HOW HE PRONOUNCES THAT, IT'S B-E-T-T-L-E, OF COASTAL NEUROLOGY IN PORT ROYAL. IT'S MR. SAMUEL'S OBJECTION ON BEHALF OF HIS CLIENT THAT THE REPORT IS NOT MADE TO A REASONABLE DEGREE OF MEDICAL CERTAINTY. I HAVE NOT READ THE REPORT. I'VE SKIMMED IT. BUT THAT OBJECTION RATHER IS GOING TO BE HELD IN ABEYANCE. BUT MR. SAMUELS ON BEHALF OF HIS CLIENT HAS A RUNNING OBJECTION TO THAT REPORT AND ANY TESTIMONY RELATING TO IT, AND I WILL ADDRESS

1 THAT ISSUE IN MY ORDER INSTRUCTIONS. ARE THERE ANY
2 FURTHER OBJECTIONS TO APAs, JURISDICTION, VENUE, OR
3 ANY OTHER ITEMS?

4 BY MR. SAMUELS:

5 REGARDING THE OTHER OBJECTIONS, YOU KNOW, YOUR
6 HONOR, I DID WANT TO JUST MAKE SURE ON THE RECORD
7 WITH DR. BETTLE'S REPORT WE'RE OBJECTING ALSO ON
8 TIMELINESS AND LACK OF FOUNDATION BECAUSE THERE WAS
9 NO ACTUAL EVALUATION.

10 BY COMMISSIONER BARDEN:

11 TIMELINESS? NOW, I DIDN'T KNOW THAT THERE WAS
12 A -- I SEE. I SEE NOW IT'S DATED -- WELL, IT'S JUNE
13 6TH -- AND I DON'T KNOW WHEN YOU'VE GOT -- ARE YOU
14 SAYING WHEN YOU GOT IT, WHEN YOU RECEIVED IT?

15 BY MR. LIIPFERT:

16 HE GOT IT BY E-MAIL JUNE 16TH.

17 BY MR. SAMUELS:

18 I'M -- HE'S CORRECT. I -- YEAH. I WITHDRAW.

19 I WITHDRAW THAT ---

20 BY COMMISSIONER BARDEN:

21 OKAY.

22 BY MR. SAMUELS:

23 --- OBJECTION. HE'S CORRECT THIS TIME.

24 BY COMMISSIONER BARDEN:

25 AND I KNOW YOU HAVE THE -- AS FAR AS THE WEIGHT

1 IS CONCERNED, YOU TOLD ME THE IN THE PRE-HEARING
2 CONFERENCE THAT BECAUSE DR. BETTLE DIDN'T EXAMINE
3 THE CLAIMANT YOU WANTED ME TO OBVIOUSLY KEEP THAT IN
4 MIND AS WELL.

5 BY MR. SAMUELS:

6 YES, SIR. BUT THERE IS NO ---

7 BY COMMISSIONER BARDEN:

8 BUT THAT ---

9 BY MR. SAMUELS:

10 --- FOUNDATION. IT'S NOT CREDIBLE. IT'S -- IT
11 IS -- IT IS ENTIRELY SPECULATION, CLEARLY AN ATTEMPT
12 TO SIMPLY OPPOSE THE EVALUATION BY THE NEUROLOGIST
13 WHO ACTUALLY SAW HIM, MR. CRANE.

14 BY COMMISSIONER BARDEN:

15 OKAY. WELL, YOUR OBJECTION IS HELD IN
16 ABEYANCE. ARE THERE ANY FURTHER OBJECTIONS TO APAs,
17 JURISDICTION, VENUE OR ANY OTHER ITEMS?

18 BY MR. SAMUELS:

19 NONE FROM THE CLAIMANT.

20 BY COMMISSIONER BARDEN:

21 MR. STORY?

22 BY MR. STORY:

23 NONE, COMMISSIONER. NO.

24 BY COMMISSIONER BARDEN:

25 MR. LIIPFERT?

1 BY MR. LIIPFERT:

2 NO.

3 BY COMMISSIONER BARDEN:

4 THANK YOU. WITHOUT FURTHER OBJECTION, THE
5 COMMISSION FILE BECOMES A PART OF THE RECORD WITH
6 THE EXCEPTION OF SELF SERVING DECLARATIONS AND
7 UNSTIPULATED MEDICAL REPORTS.

8 PRIOR TO GOING ON THE RECORD, WE HELD A PRE-
9 HEARING CONFERENCE. IT'S THE POSITION OF THE
10 CLAIMANT THAT HE SUFFERED A COMPENSABLE INJURY BY
11 ACCIDENT ARISING OUT OF AND IN THE COURSE AND SCOPE
12 OF HIS EMPLOYMENT ON FEBRUARY 19TH, 2014, ON WHICH
13 DATE HE INJURED HIS HEAD AND HIS BRAIN. HE ALSO
14 INJURED HIS HEARING FUNCTION SUCH THAT HE HAS
15 BILATERAL HEARING LOSS. IT'S HIS POSITION THAT HE
16 AGGRAVATED A PRE-EXISTING PSYCHOLOGICAL CONDITION,
17 AND THAT HE ALSO HAS EITHER SUSTAINED OR AGGRAVATE -
18 - SUSTAINED A VESTIBULAR DISTURBANCE, I.E. DIZZINESS
19 OR -- AND PERHAPS OTHER BALANCE ISSUES, I'M NOT
20 REALLY SURE YET. THAT WILL BE EXPLORED THROUGH THE
21 MEDICAL RECORDS AND THE TESTIMONY. AND IF HE
22 ALREADY HAD ANY KIND OF VESTIBULAR DISTURBANCE, IT
23 WAS CERTAINLY AGGRAVATED. THE CLAIMANT WOULD
24 CONCEDE THAT AT THIS JUNCTURE HE DOES NOT KNOW THE
25 EXTENT OF HIS BRAIN INJURY. HE ADMITS THAT HE DID

1 NOT SUFFER A LOSS OF CONSCIOUSNESS, THAT HE WAS
2 DAZED. HOWEVER, AND THAT HE WOULD POINT TO MY
3 ATTENTION THE FACT THAT NO STATUTE OR CASE REQUIRES
4 THAT A CLAIMANT HAVE LOST CONSCIOUSNESS PRIOR TO
5 THERE BEING A FINDING OF A BRAIN INJURY. SO THE
6 CLAIMANT WOULD CONTEND THAT HE'S STILL TREATING. HE
7 DOES NOT KNOW THE EXTENT OF HIS INJURIES WITH REGARD
8 TO THE HEAD AND THE BRAIN. AS FAR AS BILATERAL
9 HEARING LOSS IS CONCERNED, HE DOES ADMIT THAT THERE
10 WAS ANOTHER -- A TEST. BUT BECAUSE THIS IS A DENIED
11 CLAIM, HE IS LOOKING FOR A FINDING OF
12 COMPENSABILITY, AND THEN HE WILL UNDERGO WHATEVER
13 TESTS THAT HIS TREATING PHYSICIAN HAS RECOMMENDED.
14 THE CLAIMANT IS LOOKING FOR TEMPORARY TOTAL
15 DISABILITY BENEFITS AND SEEKS AN ORDER REQUIRING THE
16 DEFENDANTS TO PROVIDE HIM WITH TEMPORARY TOTAL
17 DISABILITY BENEFITS FROM THE DATE OF THE ACCIDENT,
18 FEBRUARY 19TH, 2014, TO THE PRESENT AND CONTINUING
19 WITH THE DEFENDANTS TO RECEIVE CREDIT FOR ONE
20 PARTIAL DAY WORK. THE CLAIMANT SEEKS REIMBURSEMENT
21 FOR THOSE EXPENSES HE'S INCURRED THUS FAR WITH
22 REGARD TO THE EVALUATION AND TREATMENT OF HIS
23 INJURIES. HE SEEKS AN ORDER REQUIRING THE
24 DEFENDANTS TO PROVIDE HIM WITH MEDICAL TREATMENT.
25 HE HAS ESTABLISHED AN ONGOING TREATING RELATIONSHIP

1 WITH CAROLINA E.N.T., AND HE WISHES THAT THAT
2 TREATMENT RELATIONSHIP NOT BE DISTURBED, ALTHOUGH HE
3 UNDERSTANDS THAT THE DEFENDANTS ORDINARILY GET --
4 HAVE THE RIGHT TO DIRECT TREATMENT. BUT THE
5 CLAIMANT STRONGLY CONTENTS THAT AN EXCEPTION SHOULD
6 BE MADE IN THIS INSTANCE AS THERE IS AN ONGOING
7 TREATING RELATIONSHIP REGARDING THE HEARING LOSS.
8 THE CLAIMANT ALSO WOULD REQUEST THAT DR. ROGERS BE
9 NAMED THE TREATING NEUROLOGIST AS DR. ROGERS HAS
10 EVALUATED THE CLAIMANT AND HAS RECOMMENDED CERTAIN
11 TREATMENT MODALITIES. AS MR. SAMUELS REFERRED TO
12 THE DEFENDANTS' REPORT FROM COASTAL NEUROLOGY, A
13 COMPETING REPORT DEALING WITH THE ABSENCE OF
14 EXISTENCE OF A BRAIN INJURY, AS MR. SAMUELS SAID,
15 DR. BETTLE DID NOT EXAMINE THE CLAIMANT. THE REPORT
16 IS SPECULATIVE ACCORDING THE CLAIMANT'S
17 INTERPRETATION OF THAT. AND ALSO OF COURSE,
18 PRIMARILY THE CLAIMANT WOULD CONTEND THAT THE REPORT
19 IS NOT MADE TO A REASONABLE DEGREE OF MEDICAL
20 CERTAINTY AND THEREFORE, SHOULD NOT BE ADMITTED
21 WHATSOEVER, NOT EVEN WHAT KIND OF WEIGHT SHOULD BE
22 ACCORDED TO THE REPORT BUT THAT IT SHOULD NOT BE
23 ADMITTED AT ALL. THE CLAIMANT WOULD POINT TO MY
24 ATTENTION THE FACT THAT HE -- WHILE HE MAY BE
25 PERHAPS DID NOT LOSE CONSCIOUSNESS, HE DID IN FACT

1 GO TO THE E.R. WHERE HE SOUGHT TREATMENT FOR THAT
2 DAY TO -- SOUGHT TREATMENT ON THAT DAY FOR HIS
3 MYRIAD INJURIES. AS FAR AS THE EMPLOYMENT
4 RELATIONSHIP, THE CLAIMANT WOULD POINT TO MY
5 ATTENTION THE FACT THAT NO DOCUMENT PURPORTING TO
6 ESTABLISH THE NATURE OF AN EMPLOYMENT RELATIONSHIP
7 OR LACK THEREOF IS DISPOSITIVE, AND THIS CASE WOULD
8 BE NO DIFFERENT. THE CLAIMANT WOULD CONTEND THAT
9 THE EMPLOYER EXERCISED SUFFICIENT CONTROL AND HAD A
10 RIGHT TO EXERCISE SUFFICIENT CONTROL OVER THE
11 CLAIMANT, THAT THE EMPLOYER PROVIDED UNIFORMS, AND
12 THAT THERE WERE CERTAINLY FOUR OR MORE EMPLOYEES
13 REGULARLY EMPLOYED ON THE DATE OF THE ACCIDENT. BUT
14 THE CLAIMANT WOULD CONTEND THAT THERE IS
15 JURISDICTION TO HEAR THE CLAIM AND THAT THE CLAIMANT
16 WAS IN FACT AN EMPLOYEE AND NOT AN INDEPENDENT
17 CONTRACTOR. AND OF COURSE, THOSE ISSUES WILL BE
18 EXPLORED THROUGH THE TESTIMONY, SO I'M NOT GOING TO
19 ELABORATE FURTHER.

20 CONVERSELY, IT IS THE POSITION OF BOTH
21 DEFENDANTS, THE U.E.F. AND THE EMPLOYER, THAT
22 BENEFITS UNDER THE ACT SHOULD BE DENIED. THE U.E.F.
23 HAS ISSUED A GENERAL DENIAL OF THE CLAIM IN GENERAL
24 AND DOES NOT ADMIT AT THIS JUNCTURE THAT THERE WAS
25 EVER EVEN AN INCIDENT THAT OCCURRED. THE EMPLOYER

1 DOES ADMIT THAT THERE WAS AN INCIDENT WHEN A HOSE
2 CAME OFF AT THE -- AT MR. RABER'S PLACE OF BUSINESS,
3 BUT THAT THE CLAIMANT MOVES BACK FROM THAT, AND THE
4 EMPLOYER DOES NOT BELIEVE THAT THE CLAIMANT WAS
5 STRUCK WITH ANYTHING, THAT THE CLAIMANT MOVED BACK
6 INITIALLY AND THEN EVENTUALLY WENT RIGHT BACK TO
7 WORK. SO THE EMPLOYER THINKS THERE WAS NO INJURY
8 WITH REGARD TO THIS CLAIM WHATSOEVER, BUT IF THERE
9 WERE ANY KIND OF INJURY, IT WOULD CERTAINLY HAVE
10 BEEN SOMETHING VERY MILD. THE EMPLOYER AND THE
11 U.E.F. BELIEVE THAT THERE WAS NO BRAIN INJURY, THERE
12 WAS NO LOSS OF CONSCIOUSNESS AND, THEREFORE, THERE
13 COULD BE NO BRAIN INJURY. BUT CERTAINLY IF THE
14 CLAIMANT INJURED HIS HEAD IT WAS SOMETHING VERY
15 MINOR AND RESOLVED. AS FAR AS THE PSYCHOLOGICAL
16 OVERLAY ISSUE IS CONCERNED, THE DEFENDANTS WOULD
17 POINT TO MY ATTENTION THE FACT THAT THE CLAIMANT HAD
18 PRIOR AND PRE-EXISTING BIPOLAR AND PSYCHOLOGICAL
19 DIFFICULTIES FOR WHICH HE WAS TAKING MEDICATIONS ON
20 THE DATE OF THE ACCIDENT AND THAT THERE IS NO
21 EVIDENCE OTHER THAN THE CLAIMANT'S SELF-SERVING
22 STATEMENTS TO DR. ROGERS THAT THESE CONDITIONS WERE
23 AGGRAVATED. IT WOULD BE THE DEFENDANTS' POSITION
24 THAT IF THESE CONDITIONS WERE AGGRAVATED IT WAS
25 CERTAINLY ON A TEMPORARY BASIS AND THOSE, ANY

1 AGGRAVATION, HAD RESOLVED. THE DEFENDANTS FURTHER
2 POINT TO MY ATTENTION THE FACT THAT NO DOCTOR HAS
3 ESTABLISHED THAT THERE HAS BEEN A VESTIBULAR
4 DISTURBANCE INJURY OR AN AGGRAVATION OTHER THAN
5 THROUGH THE CLAIMANT'S SELF-SERVING STATEMENTS. AS
6 FAR AS THE NATURE OF THE EMPLOYMENT RELATIONSHIP,
7 THE DEFENDANTS WOULD AS FAR AS -- LET'S START WITH
8 JURISDICTION, THE U.E.F. WOULD CONTEND THAT THERE
9 WERE NOT FOUR OR MORE -- WELL, THAT IT'S THE
10 CLAIMANT'S BURDEN TO PROVE THAT THERE WERE IN FACT
11 FOUR OR MORE EMPLOYEES REGULARLY EMPLOYED ON THE
12 DATE OF THE ACCIDENT. SO AT THIS JUNCTURE, THERE IS
13 NO JURISDICTION TO HEAR THE CLAIM UNTIL THE CLAIMANT
14 PROVES OTHERWISE. THE DEFENDANTS WOULD POINT TO MY
15 ATTENTION THE FACT THAT THE CLAIMANT SIGNED A
16 CONTRACT SAYING THAT HE WAS IN FACT AN INDEPENDENT
17 CONTRACTOR, AND THAT AS THE CLAIMANT SIGNED THAT
18 THAT GREAT WEIGHT SHOULD BE GIVEN TO THAT CONTRACT.
19 WHILE THOUGH PERHAPS NO CONTRACT IS DISPOSITIVE IN
20 THIS CASE, THE DEFENDANTS BELIEVE THAT THE CLAIMANT
21 DESCRIBED HIMSELF AS AN INDEPENDENT CONTRACTOR IN
22 THE CONTRACT AND SIGNED IT AND SO, THEREFORE, IT
23 SHOULD BE -- IT IS BINDING, AND IT SHOULD BE GIVEN
24 GREAT WEIGHT AS IT IS VALID. AS FAR AS CONTROL IS
25 CONCERNED, THE DEFENDANTS WOULD CONTEND THAT THE

CLAIMANT CAME AND WENT AS HE PLEASED, THAT HE WAS NOT SUPERVISED, THAT HE BROUGHT A LOT OF HIS OWN TOOLS, AND THEN IN FACT HE MAY HAVE BEEN AND WAS PERHAPS AT LEAST THAT ONE DEFENDANT BELIEVES THAT HE WAS WORKING ON HIS OWN VEHICLE, A WHITE TRUCK AT THE EMPLOYER'S PLACE OF BUSINESS, THAT THE CLAIMANT WAS USING PARTS THAT HE HAD PURCHASED UNDER MR. RABER'S ACCOUNT. BUT THE DEFENDANTS PLEAD A WHOLE HOST OF REASONS AS DEFENSES WHY THE CLAIM SHOULD BE DENIED. IF, HOWEVER, I FIND THAT THIS CLAIM IN FACT IS COMPENSABLE AND THE CLAIMANT WAS AN EMPLOYEE, THAT THERE IS JURISDICTION AND THAT HE SUSTAINED SOME OR MORE INJURIES, THE DEFENDANTS WOULD POINT TO MY ATTENTION THE FACT, PARTICULARLY THE EMPLOYER, THAT THE CLAIMANT DID IN FACT REJECT LIGHT DUTY AND SO, THEREFORE, HE WOULD NOT BE ENTITLED TO ANY TEMPORARY BENEFITS. AS FAR AS THE DIRECTING TREATMENT, THE U.E.F. WOULD CONTEND THAT THE DEFENDANTS' RIGHT TO DIRECT TREATMENT SHOULD BE RESPECTED AND COMPLIED WITH, AND UNLESS THE U.E.F. WOULD AGREE TO CERTAIN PROVIDERS THAT PERHAPS THE CLAIMANT HAS ALREADY ESTABLISHED RELATIONSHIPS WITH OR SEEN. THE EMPLOYER, IF THE CLAIM IS COMPENSABLE, DOES NOT HAVE An OBJECTION TO CAROLINA E.N.T. BEING CONTINUED AS THE AUTHORIZED-TREATING PHYSICIAN, BUT THE EMPLOYER

1 DOES OBJECT TO DR. ROGERS BEING MADE OR NAMED AS A
2 TREATING PHYSICIAN FOR THE REASON THAT DR. ROGERS
3 HAS PROVIDED AN EVALUATION ONLY, NO REAL TREATMENT,
4 AND FOR THE FACT THAT THE DEFENDANTS DO NOT BELIEVE,
5 OR THE EMPLOYER RATHER, DOES NOT BELIEVE THAT DR.
6 ROGER'S REPORT -- THAT THEY BELIEVE THAT THE ROGER'S
7 REPORT IS NOT CREDIBLE AND CERTAINLY SHOULD NOT BE
8 GIVEN ANY WEIGHT. IT'S NOT PERSUASIVE IN THAT THE
9 MEDICAL EVIDENCE DOES NOT SUPPORT A FINDING OF A
10 BRAIN INJURY. FOR ONE REASON, THE CLAIMANT DIDN'T
11 SUSTAIN A LOSS OF CONSCIOUSNESS, WAS NOT IN A COMA,
12 AND THE CLAIMANT'S GLASGOW SCORES WERE SUCH THAT
13 THEY SHOW NO COGNITIVE OR NEUROLOGICAL DIFFICULTIES.
14 AS FAR AS THE HEARING IS CONCERNED, THE DEFENDANTS
15 WOULD POINT TO MY ATTENTION THE FACT THAT THE
16 CLAIMANT COULD'VE UNDERGONE A TEST WHICH SHOWED --
17 WOULD SHOW OBJECTIVE HEARING LOSS, AND HE HAS NOT
18 HAD IT, NOT UNDERGONE THAT TEST WHEN HE COULD HAVE.
19 SO THE DEFENDANTS BELIEVE THAT THE CLAIMANT CANNOT
20 BY CREDIBLE EVIDENCE ESTABLISH A REAL HEARING LOSS.
21 OKAY. IF I HAVE -- BECAUSE I HAVE AS Y'ALL KNOW
22 JUST BEEN HANDED THESE APAs, IF I HAVE MISSTATED,
23 MISCHARACTERIZED, OMITTED, OVERSTATED ONE OF YOUR
24 POSITIONS, SOMETHING THAT YOU WANT TO CORRECT OR
25 CLARIFY, I CERTAINLY AM ALL EARS, AND I WILL MAKE

1 ANY NOTES TO CORRECT ANY MISSTATEMENTS I MAY HAVE
2 MADE. AND ALTERNATIVELY, IF YOU'RE SATISFIED WITH
3 THE SUMMARY, THAT'S FINE TOO. SO I'M GOING TO START
4 WITH MR. SAMUELS AS HE REPRESENTS THE MOVING PARTY.

5 BY MR. SAMUELS:

6 I THINK YOU COVERED IT ALL, COMMISSIONER.

7 THANK YOU.

8 BY COMMISSIONER BARDEN:

9 ALL RIGHT. THANK YOU. MR. LIIPFERT:

10 BY MR. LIIPFERT:

11 I THINK YOU GOT IT. THANK YOU.

12 BY COMMISSIONER BARDEN:

13 MR. STORY, IS THERE ANYTHING THE U.E.F. WISHES
14 TO ADD?

15 BY MR. STORY:

16 THE ONLY THING I'D LIKE TO ADD ---

17 BY COMMISSIONER BARDEN:

18 YES, SIR.

19 BY MR. STORY:

20 --- COMMISSIONER, IS IF THIS CLAIM IS FOUND
21 COMPENSABLE THAT THERE BE A DETERMINATION THAT THE -
22 - THAT MR. RABER AND HIS ENTITY ARE DETERMINED AS A
23 NON-QUALIFIED SELF INSURER SUBJECT TO THE ACT, SO
24 THAT IF THE UNINSURED EMPLOYERS' FUND IS RESPONSIBLE
25 FOR BENEFITS THEY MAY RETAIN ALL OF THEIR RIGHTS

1 BACK AGAINST RABER IF YOU FIND HIM TO BE AN
2 EMPLOYER.

3 BY COMMISSIONER BARDEN:

4 ALL RIGHT.

5 BY MR. STORY:

6 THANK YOU.

7 BY COMMISSIONER BARDEN:

8 THANK YOU, SIR. ALL RIGHT. MR. SAMUELS, YOUR
9 FIRST AND ONLY WITNESS IS MR. CRANE; IS THAT
10 CORRECT?

11 BY MR. SAMUELS:

12 THAT'S CORRECT, YOUR HONOR.

13 BY COMMISSIONER BARDEN:

14 ALL RIGHT. MR. CRANE, IF YOU'LL RAISE YOUR
15 RIGHT HAND, PLEASE. MR. CRANE, RAISE YOUR RIGHT
16 HAND, PLEASE.

17 * * * * *

18 THE WITNESS WAS DULY SWORN TO TELL THE TRUTH,
19 THE WHOLE TRUTH AND NOTHING BUT THE TRUTH CONCERNING
20 THE MATTER HEREIN:

21 * * * * *

22 DANNY CRANE

23 BEING FIRST DULY SWORN, TESTIFIED ON HIS OATH AS FOLLOWS:

24 BY COMMISSIONER BARDEN:

25 NOW, YOU'VE GOT TO ANSWER THE QUESTIONS, OKAY?

1 NOW, I UNDERSTAND YOU CAN UNDERSTAND ME FROM MR.
2 SAMUELS SAYS YOU CAN HEAR ME; IS THAT CORRECT?

3 BY THE WITNESS:

4 IF I CAN GET YOU TO SPEAK A LITTLE LOUDER.

5 BY COMMISSIONER BARDEN:

6 OKAY. I'LL BE HAPPY TO. PLEASE STATE YOUR
7 FULL NAME FOR THE RECORD.

8 BY THE WITNESS:

9 DANNY B. CRANE, JUNIOR.

10 BY COMMISSIONER BARDEN:

11 THANK YOU. PLEASE ANSWER ANY QUESTIONS YOUR
12 LAWYER HAS.

13 NOW, MR. SAMUELS, LET'S FIGURE OUT A PLACE FOR
14 YOU TO -- CAN YOU PERHAPS MOVE YOUR CHAIR OVER THERE
15 (INDICATING) AND YOU CAN USE THE TABLE THIS WAY?

16 BY MR. SAMUELS:

17 AND THE CHAIR WHICHEVER.

18 BY COMMISSIONER BARDEN:

19 OR WHAT DO YOU WANT TO DO?

20 BY MR. SAMUELS:

21 THE OTHER SIDE?

22 BY COMMISSIONER BARDEN:

23 I JUST I KNOW YOU'VE GOT A NOTEBOOK AND YOU'RE
24 GOING TO NEED TO USE IT.

25 BY MR. SAMUELS:

1 IF I BRING ---

2 BY COMMISSIONER BARDEN:

3 IS THAT GOING TO BE ENOUGH ROOM FOR YOU?

4 BY MR. STORY:

5 YES, MA'AM.

6 BY COMMISSIONER BARDEN:

7 OKAY. ALL RIGHT.

8 BY MR. STORY:

9 BUT YEAH, I NEED TO SCOOT SOME OF MY STUFF A
10 VERY GOOD OUT OF THE WAY.

11 BY COMMISSIONER BARDEN:

12 AND YOU CAN HEAR OUT OF YOUR LEFT EAR; IS THAT
13 RIGHT; YOUR LEFT EAR YOU CAN HEAR OUT OF?

14 BY THE WITNESS:

15 MY LEFT, YES.

16 BY COMMISSIONER BARDEN:

17 OKAY. WHENEVER YOU'RE READY, SIR.

18 BY MR. SAMUELS:

19 THANK YOU, COMMISSIONER.

20 DIRECT EXAMINATION BY MR. SAMUELS:

21 Q. DANNY, HOW OLD ARE YOU?

22 A. THIRTY-SEVEN.

23 Q. WHAT'S YOUR MARITAL STATUS?

24 A. MARRIED.

25 Q. WHAT'S YOUR WIFE'S NAME?

1 A. KIMBERLY LOVE.

2 Q. HOW LONG HAVE YOU BEEN MARRIED?

3 A. ABOUT FIVE YEARS. WE'VE BEEN TOGETHER SINCE '95,
4 BUT WE'VE BEEN ACTUALLY MARRIED FIVE YEARS.

5 Q. HOW MANY CHILDREN DO YOU HAVE?

6 A. SIX.

7 Q. HOW OLD ARE THEY?

8 A. TOMIKA'S 15. FAWN IS 12. DANNY IS 11. KALEY, TEN.
9 BOSS IS EIGHT. AND GATOR'S SEVEN, I BELIEVE.

10 Q. DID YOU GRADUATE FROM HIGH SCHOOL?

11 A. YES.

12 Q. ON FEBRUARY 19TH, 2014, WHERE WERE YOU EMPLOYED?

13 A. RABER'S TIRE.

14 Q. WHAT'S THE LOCATION OF RABER'S TIRE?

15 A. IN BARNWELL OFF OF DUNBARTON BOULEVARD.

16 Q. I'M GOING TO SHOW YOU A PHOTOGRAPH. DO YOU
17 RECOGNIZE WHAT WE'RE LOOKING AT IN THIS PHOTOGRAPH?

18 A. RABER'S TIRE.

19 Q. IS THAT A TRUE AND ACCURATE REPRESENTATION OF
20 RABER'S TIRE?

21 A. YES.

22 BY MR. SAMUELS:

23 AND I'D MOVE TO SUBMIT THIS PHOTOGRAPH.

24 BY COMMISSIONER BARDEN:

25 AND OBJECTION?

1 BY MR. STORY:

2 NO, MA'AM.

3 BY COMMISSIONER BARDEN:

4 ALL RIGHT. WITHOUT OBJECTION, CLAIMANT'S
5 NUMBER ONE. MR. SAMUELS, GIVE HER ONE SECOND TO
6 MARK THAT BEFORE YOU CONTINUE, PLEASE.

7 (COURT REPORTER MARKS PHOTOGRAPH CLAIMANT'S EXHIBIT ONE,
8 RETAINED IN THE COMMISSION FILE)

9 DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

10 Q. DANNY, HOW MANY BAYS DO THEY HAVE AT RABER TIRE?

11 BY COMMISSIONER BARDEN:

12 WAIT A MINUTE. ONE SECOND. SHE HADN'T MARKED
13 IT YET. SHE JUST -- ONE SECOND. ALL RIGHT. AND GO
14 AHEAD, SIR. YOU ASKED HOW MANY BAYS THEY HAVE.

15 DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

16 Q. HOW MANY BAYS DO THEY HAVE AT RABER TIRE?

17 A. FOUR.

18 Q. WHO'S YOUR BOSS?

19 A. MR. RABER.

20 Q. WAS THERE A SHOP FOREMAN?

21 A. CHAD WILLIAMS.

22 Q. WHO ELSE WORKED AT RABER TIRE?

23 A. THERE WAS MARIE THAT WORKED IN THE OFFICE.

24 BY COMMISSIONER BARDEN:

25 MARIE OR MARY? WHO'S HER NAME?

1 BY THE WITNESS:

2 MARIE.

3 BY COMMISSIONER BARDEN:

4 MARIE, OKAY. GO AHEAD.

5 THE WITNESS RESUMES ANSWER:

6 A. AND THEN THERE WAS CHAD THAT WAS THE FOREMAN.

7 LITTLE MAN PERNELL, RED, ALFRED OR ALFIE, AND ME,
8 AND JAMES HE IS ANYHOW.

9 Q. HOW WERE YOU PAID?

10 A. BY THE HOUR.

11 Q. HOW MUCH WERE YOU PAID PER HOUR?

12 A. NINE.

13 Q. ABOUT HOW MANY HOURS A WEEK DID YOU WORK?

14 A. IT DEPENDS. I MEAN, WE'D WORK FROM 7:00 IN THE
15 MORNING 'TIL, I MEAN, AT 6:00 AT NIGHT. SOMETIMES
16 WE'D STAY OVER. SOMETIMES WE'D SHUTS -- YOU KNOW,
17 SHUT DOWN AND COME BACK LATER TO FINISH SOMETHING OR
18 COME IN SUNDAY AND WORK THEN.

19 Q. DID YOU WORK FULL-TIME?

20 A. YES.

21 Q. DID YOU GET PAID TIME-AND-A-HALF WHEN YOU WORKED FOR
22 OVER 40 HOURS?

23 A. NO.

24 Q. DID YOU WEAR A UNIFORM?

25 A. YES.

1 Q. WHO SUPPLIED THE UNIFORM?

2 A. MR. JAMES.

3 Q. WHO DIRECTED YOUR WORK?

4 A. MR. JAMES AND MARIE.

5 Q. WHOSE TOOLS DID YOU USE?

6 A. MINE.

7 Q. WHICH TOOLS DID YOU HAVE THAT WERE YOURS?

8 A. I -- I HAD A BUNCH OF SPECIALTY TOOLS AND A WHOLE
9 CHEST OF DRAWER FULL OF TOOLS THAT WERE FROM MATCO
10 TOOL TRUCK.

11 BY COMMISSIONER BARDEN:

12 CAN YOU HEAR HIM? YOU'RE GOING TO HAVE TO
13 SPEAK UP, SIR. YOU'RE GOING TO HAVE TO SPEAK UP.

14 THE WITNESS RESUMES ANSWER:

15 A. THERE WAS A WHOLE CHEST OF DRAWER FULL OF TOOLS THAT
16 COME OFF OF THE MATCO TOOL TRUCK.

17 DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

18 Q. IS THAT NORMAL AS A MECHANIC TO HAVE YOUR OWN HAND
19 TOOLS?

20 A. IN EVERY SHOP I'VE BEEN IN.

21 Q. THE OTHER MECHANICS HAVE THEIR OWN HAND TOOLS?

22 A. NOT AT HIS SHOP. THE REST OF THEM DID TIRE WORK,
23 AND THE ONLY MECHANIC AT THE TIME WAS ME. ALFIE DID
24 SOME WORK, AND HE HAD A LITTLE KIT THAT HE BROUGHT
25 IN, BUT HE USED MINE AND WHATEVER MR. RABER HAD.

1 Q. IN TERMS OF LARGER EQUIPMENT, WHAT LARGER EQUIPMENT
2 DID YOU USE AT THE JOB?

3 A. THE TIRE CHANGER, THE BALANCER, THE BRAKE LAYS, THE
4 ALIGNMENT RACK AND THE LIFT, THAT WAS ALL MR.
5 RABER'S.

6 Q. WOULD YOU HAVE BEEN ABLE TO DO YOUR WORK WITHOUT THE
7 EQUIPMENT PROVIDED BY MR. RABER?

8 A. NO.

9 Q. WOULD YOU BEEN -- WOULD YOU HAVE HAD ANY WORK TO DO
10 IF YOU WEREN'T IN RABER'S SHOP?

11 A. I'M NOT UNDERSTANDING.

12 Q. THE WORK -- YOU WERE GIVEN WORK TO DO. WHO ACTUALLY
13 GAVE YOU THE WORK TO DO?

14 A. MR. RABER.

15 Q. DO YOU REMEMBER HAVING AN ACCIDENT AT WORK?

16 A. YES.

17 Q. WHO WAS WORKING THAT DAY?

18 A. I THINK IT WAS CHAD, ME, ALFIE, AND LITTLE MAN.
19 JAMES AND MARIE WERE IN A CLASS OR TRAINING.

20 Q. WHAT WERE YOU WORKING ON ALL OF THAT DAY?

21 A. DIFFERENT THINGS. MR. RABER HAD A -- A PORTABLE
22 OFFICE THAT'S PEOPLE CAME TO GET. AND WE NEEDED TO
23 MOVE A TRAILER, SO I USED MY PICK-UP TO MOVE THE
24 TRAILER AROUND. I THINK WE DONE AN OIL CHANGE TOO.
25 I'M NOT ONE HUNDRED-PERCENT SURE, AND TIRE WORK,

1 CLEANING UP.

2 Q. DID YOU HAVE YOUR OWN TRUCK THERE THAT DAY?

3 A. YES.

4 Q. WAS IT PULLED INTO THE SHOP FOR ANYTHING?

5 A. YES.

6 Q. WHAT WAS DONE TO YOUR TRUCK?

7 A. I -- THE SHOCK ON THE REAR HAD BLOWN OUT, AND I
8 DISCUSSED WITH CHAD, AND CHAD SAID THAT, WELL, SINCE
9 YOU WERE USING IT TO PULL THE TIRE TRAILER FULL OF
10 TIRES AND WATER TO GO AHEAD AND ORDER THE SHOCKS AND
11 TO PUT THEM ON.

12 Q. AND WHO ACTUALLY PUT THE SHOCKS ON?

13 A. ALFIE. I SWAPPED HIM -- HE WANTED SOME AIR TOOLS,
14 AND I SAID LET'S -- I DON'T FEEL LIKE WORKING ON IT.
15 IF YOU PUT THE SHOCKS ON IT, I'LL GIVE YOU MY AIR
16 TOOLS.

17 Q. WHEN YOUR TRUCK WAS WORKED ON, WAS IT TAKEN UP ON A
18 LIFT INSIDE THE SHOP?

19 A. YES. AND I DO BELIEVE I WAS THE ONE THAT RACKED IT
20 BECAUSE ALFIE WAS SCARED TO ASSIST IN IT FOR IT TO
21 FALL.

22 Q. WHEN -- WHEN THE ACCIDENT HAPPENED, WHAT WERE YOU
23 ACTUALLY DOING?

24 A. I DON'T EXACTLY REMEMBER. I REMEMBER HEARING A LOUD
25 HISS, AND I WENT ACROSS TO THE TIRE CHANGER AND

1 ALFIE COME BEHIND ME, AND WE WAS LISTENING TO WHERE
2 IT WAS COMING FROM BECAUSE AT FIRST IT SOUNDED LIKE
3 IT WAS COMING FROM UP AROUND THE COUPLER AREA, AND
4 THEN AS I GOT DOWN LOWER AND GOT RIGHT DOWN ON TOP
5 OF IT, WHEN IT POPPED LOOSE, I MEAN, IT WAS -- WAS
6 LIKE A BOMB.

7 BY COMMISSIONER BARDEN:

8 SO WHAT DON'T YOU REMEMBER? YOU SAY YOU DON'T
9 REMEMBER THAT, BUT YOU REMEMBER IT WAS WITH THE TIRE
10 CHANGER?

11 BY THE WITNESS:

12 YES. I DON'T REMEMBER EXACTLY WHAT I WAS
13 WORKING ON. MY -- WHAT NOW?

14 BY COMMISSIONER BARDEN:

15 YOU SAID YOU WERE LISTENING TO WHERE THE SOUND
16 WAS COMING FROM?

17 BY THE WITNESS:

18 UH-HUH.

19 BY COMMISSIONER BARDEN:

20 IS THAT A YES?

21 BY THE WITNESS:

22 YES, MA'AM.

23 BY COMMISSIONER BARDEN:

24 OKAY. OKAY. SO THEN IT -- WHAT HAPPENED AT
25 THAT POINT?

1 BY THE WITNESS:

2 WHEN I WAS LISTENING FOR THE SOUND OF THE --
3 THAT THREE -- IT'S ABOUT A THREE INCH HOSE COME OFF
4 THE -- FROM THE BACK, IT WAS RIGHT UP INTO MY FACE
5 AND...

6 BY COMMISSIONER BARDEN:

7 SO YOU REMEMBER IT HITTING YOU IN THE FACE?
8 DID IT HIT YOU IN THE FACE? DID IT STRIKE YOU, OR
9 IT JUST CAME AT YOU?

10 BY THE WITNESS:

11 I MEAN, I -- I HAD A BRUISE HERE (INDICATING).

12 BY COMMISSIONER BARDEN:

13 OKAY. A BRUISE ON YOUR HEAD; IS THAT RIGHT?

14 BY THE WITNESS:

15 YES, MA'AM.

16 BY COMMISSIONER BARDEN:

17 ON YOUR RIGHT FOREHEAD? ON THE RIGHT SIDE OF
18 YOUR HEAD?

19 BY THE WITNESS:

20 YES, MA'AM.

21 BY COMMISSIONER BARDEN:

22 ALL RIGHT.

23 BY THE WITNESS:

24 AND AS IT COME UP, I WAS TURNING THIS WAY
25 (DEMONSTRATING) TOWARDS THE RIGHT.

1 BY COMMISSIONER BARDEN:

2 OKAY.

3 BY THE WITNESS:

4 AND I DO REMEMBER PUSHING, I THINK IT WAS
5 ALFRED, I PUSHED BACK BEHIND THE OTHER TIRE CHANGER.

6 BY COMMISSIONER BARDEN:

7 OKAY.

8 DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

9 Q. ALL RIGHT. IMMEDIATELY AFTER IT HAPPENED, AFTER
10 WHAT YOU'VE JUST DESCRIBED, WHAT HAPPENED NEXT?

11 A. I DON'T KNOW. I WAS ON MY HANDS AND KNEES HOLDING
12 MY EARS 'CAUSE IT WAS RINGING, AND I MEAN IT WAS
13 PAINFUL.

14 Q. WHERE DID IT HURT?

15 A. MY HEAD, MY EARS.

16 Q. WERE YOU KNOCKED OUT?

17 A. NOT THAT I RECALL.

18 Q. AND HOW WERE YOU FEELING OVERALL FOR THE NEXT LITTLE
19 WHILE?

20 A. DAZED, STUNNED, YOU KNOW, SLIGHT DIZZIES. BUT UNTIL
21 THEY GOT A HOLD OF JAMES OR MY WIFE CAME I JUST KIND
22 OF FUMBLER AROUND.

23 Q. DID YOU KEEP ON WORKING?

24 A. YES. I HAVE SIX KIDS TO SUPPORT. AND I TRIED TO
25 CONTINUE TO WORK AFTER, BUT I COULDN'T MAKE IT BUT

1 HALF-A-DAY. 'CAUSE WITH THE AMPLIFIER THAT THEY
2 TOLD ME TO, YOU KNOW, TO USE OR TO GET, THE NOISES
3 FROM THE ELECTRIC FANS OR THE BRIGHT LIGHTS OR THE
4 ELECTRIC PUMP FOR THE LIFT TO GO UP OR DOWN WOULD
5 GIVE ME A HEADACHE. I'D GO HOME AT NIGHT AND MY
6 EARS WOULD BE BLEEDING. I NEVER COULD MAKE IT PAST
7 HALF-A-DAY.

8 BY COMMISSIONER BARDEN:

9 YOUR EARS WOULD BLEED? BLEED?

10 BY THE WITNESS:

11 YES, MA'AM.

12 BY COMMISSIONER BARDEN:

13 ON THE INSIDE OUT?

14 BY THE WITNESS:

15 THEY WOULD, YES. IT WOULD BLEED OUT ONTO THE
16 PILLOWS AND...

17 BY COMMISSIONER BARDEN:

18 OKAY. ALL RIGHT.

19 DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

20 Q. WHEN -- WHEN'S THE LAST TIME YOU HAD A PROBLEM WITH
21 YOUR EARS BLEEDING?

22 A. WHEN THEY PULL -- THE LAST DAY OF SCHOOL. BRINGING
23 THE KIDS HOME FROM SCHOOL, WE WAS TRYING TO LISTEN
24 TO THE RADIO AND I KEPT TURNING IT UP, KEPT TURNING
25 IT UP, KEPT TURNING, AND IT GOT SO LOUD THAT MY

1 MOTHER-IN-LAW WAS COMPLAINING WHEN I PULLED IN THE
2 YARD.

3 BY COMMISSIONER BARDEN:

4 SO YOU WERE DRIVING WHEN YOU PULLED IN?

5 BY THE WITNESS:

6 YES.

7 BY COMMISSIONER BARDEN:

8 YEAH. OKAY.

9 BY THE WITNESS:

10 BUT WHEN I PULLED INTO THE YARD, MY MOTHER-IN-
11 LAW WAS COMPLAINING OF HOW LOUD THE MUSIC WAS, BUT
12 THAT'S THE ONLY WAY I CAN HEAR IT IS HAVING IT THAT
13 LOUD OVER TOP OF THE ROAD NOISE AND THE -- THE TRUCK
14 ITSELF.

15 DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

16 Q. GO BACK TO THE DAY OF THE ACCIDENT. DID YOU GO TO
17 THE HOSPITAL?

18 A. YES.

19 Q. WHO TOOK YOU TO THE HOSPITAL?

20 A. MY WIFE.

21 Q. AND AFTER YOU WERE SEEN AT THE HOSPITAL, WERE YOU
22 REFERRED ANYWHERE?

23 A. YES. I WAS REFERRED TO THE -- THE EAR NOSE AND
24 THROAT SPECIALIST, WHICH IS DR. ANSLEY, AND DR.
25 KOUKOS AT BARNWELL FAMILY MEDICINE.

1 Q. DO YOU HAVE A RELATIONSHIP WITH -- AND I GUESS DO
2 YOU -- DO YOU WANT TO GO BACK TO THE EAR NOSE AND
3 THROAT SPECIALIST?

4 A. YES.

5 Q. WERE YOU REFERRED ANYWHERE FOR ANY FURTHER TESTING
6 BY THE EAR NOSE AND THROAT SPECIALIST?

7 A. DOWN IN CHARLESTON AT M. SOMETHING, IT WAS FOR THE
8 COCHLEAR IMPLANTS, BUT THEY CAN'T GET ME IN BECAUSE
9 OF THE TYPE OF INSURANCE THAT MY WIFE'S GOT US ON;
10 THEY WON'T ACCEPT IT. SO THEY'RE IN THE PROCESS OF
11 TRYING TO SWITCH THE H.M.O, IS IT? I CAN'T REMEMBER
12 THE EXACT, BUT A CHANGE IN THE PLAN SO THAT THEY
13 WILL ACCEPT IT.

14 Q. IS THAT THE REASON WHY YOU HAVEN'T GONE FOR THAT
15 TEST?

16 A. YES.

17 Q. IF YOU WERE ABLE TO GO AND THAT WERE ARRANGED AND
18 PAID FOR AND SCHEDULED, WOULD YOU GO TO THAT TEST?

19 A. MOST DEFINITELY.

20 Q. WOULD YOU GO TO ANY TEST OR ANY TREATMENT THAT WOULD
21 HELP YOU?

22 A. YES.

23 Q. DID YOU ALSO SEE A DR. ROGERS?

24 A. YES.

25 Q. DO YOU REMEMBER SEEING DR. ROGERS?

1 A. THE ONE TOWARDS NORTH CAROLINA.

2 Q. HOW LONG DID YOU SPEND ACTUALLY WITH DR. ROGERS IN
3 THE ROOM WITH HIM?

4 A. ABOUT TWO HOURS, TWO AND -- SOMETHING LIKE THAT,
5 TWO-AND-A-HALF.

6 Q. AND WITHOUT SAYING WHAT HE ACTUALLY TOLD YOU, WOULD
7 YOU DESCRIBE WHAT HAPPENED ON THAT VISIT?

8 A. WELL, HE DONE A BUNCH OF THE REFLEX STUFF. AND LIKE
9 IF I WAS TO GET PULLED OVER BY A D.U.I., HOW THEY
10 MAKE YOU WALK AND STAND LIKE THIS (DEMONSTRATING), I
11 COULDN'T DO; I'D END UP FALLING.

12 Q. DID YOU TRY TO DO IT?

13 A. I TRIED.

14 Q. AND WHAT HAPPENED?

15 A. AND I ALMOST FELL.

16 BY COMMISSIONER BARDEN:

17 WHERE DID YOU ALMOST FALL? WHERE DID YOU
18 ALMOST FALL?

19 BY THE WITNESS:

20 AT DR. ROGERS.

21 BY COMMISSIONER BARDEN:

22 OKAY.

23 BY THE WITNESS:

24 I HAVE FELL OUT OF, YOU KNOW, TRYING TO GET OUT
25 OF THE TUB AND BROKE MY RIBS. IF IT COMES TO AN

1 UNEVEN STEPS LIKE THIS (DEMONSTRATING), OR UNEVEN
2 LIKE THAT, IF I GET JUST A SLIGHT BIT OFF BALANCE, I
3 CAN'T -- I'LL END UP FALLING.

4 DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

5 Q. IS THAT STILL HAPPENING?

6 A. YES.

7 Q. WHAT KIND OF RELATIONSHIP DO YOU THINK YOU HAVE WITH
8 DR. ROGERS BASED ON YOUR TIME WITH HIM?

9 A. HE WAS A VERY NICE GUY, ALL -- ALL OF EXCEPT AND,
10 YOU KNOW, HE MADE ME FEEL LIKE AN IDIOT.

11 Q. WHAT DO YOU MEAN?

12 A. AND NOT BEING ABLE TO HEAR HIM, BEING OFF BALANCE
13 AND JUST SOME OF THE STUFF THAT HE'S DONE. AND IT'S
14 HARD FOR ME TO EXPLAIN, BUT I WAS AGGRAVATED A LOT.

15 Q. WHY WERE YOU AGGRAVATED?

16 A. BECAUSE I COULDN'T HEAR. SOME OF THE THINGS LIKE HE
17 SAID HE HAD THREE LETTERS. HE TALKED -- ME AND HIM
18 TALKED ABOUT AT THE BEGINNING. AND AT THE END, HE
19 ASKED ME ABOUT THE SAME THREE LETTERS, AND LIKE
20 APPLE AND, YOU KNOW, THREE -- JUST THREE LETTERS.
21 AND AT THE END OF THE MEETING WITH HIM, I COULDN'T
22 REMEMBER ALL THREE OF THEM.

23 Q. WOULD YOU LIKE DR. ROGERS TO BE YOUR DOCTOR?

24 A. YEAH. HE WAS -- HE'S LIKE DR. ANSLEY. YOU KNOW,
25 HE'S EASIER TO GET ALONG WITH.

1 BY COMMISSIONER BARDEN:

2 EASIER THAN WHAT? YOU SAID HE'S EASIER TO GET
3 ALONG WITH, I THOUGHT YOU SAID?

4 BY THE WITNESS:

5 YOU KNOW, LIKE LAID BACK. YOU KNOW, EASY TO
6 TALK TO AND NOT SO UPTIGHT FEELING AND...

7 DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

8 Q. HAVE YOU EVER BEEN SEEN BY A DR. BETTLE?

9 A. I DON'T REMEMBER THAT NAME.

10 Q. DID RABER TIRES OR THE INSURANCE COMPANY OR THE
11 UNINSURED EMPLOYERS' FUND SEND YOU TO SEE ANY
12 DOCTORS?

13 A. NO. IT WAS DR. ANSLEY AND THE OTHER DOCTOR UP NORTH
14 AND MY REGULAR FAMILY DOCTOR.

15 Q. WHEN YOU TRIED TO GO BACK TO WORK, WHAT HAPPENED
16 WHEN YOU WENT BACK TO WORK?

17 A. WITH THE AMPLIFIER THAT THEY PUT IN, WITH THE NOISES
18 FROM LIKE THE BRAKE LAYS, THAT ELECTRIC MOTOR
19 RUNNING AND THE LOUD SQUEALS THAT YOU CAN AMPLIFY
20 OFF OF THAT AXLE CUTTING OF BRAKE LAYS, THE ELECTRIC
21 MOTORS OF THE LIFTS GOING UP AND DOWN, THEY WOULD
22 GIVE ME A HEADACHE AND I COULDN'T -- I MEAN
23 SEVERELY.

24 Q. HOW -- HOW MUCH DID YOU WORK AFTER YOUR ACCIDENT AT
25 RABER? WAS IT THE NEXT DAY OR A WEEK, HOW -- HOW

1 FAR ALONG AFTER THE ACCIDENT WAS IT?

2 A. I BELIEVE I TRIED TO GO BACK THE NEXT DAY.

3 Q. DID YOU COMPLETE AN ENTIRE SHIFT?

4 A. NO. LIKE I SAID I HAD SIX, YOU KNOW, I HAVE SIX
5 KIDS. EVEN WHEN I CUT MY HAND AND WENT TO DR.

6 KOUKOS AND HAD IT SEWED UP, I HAD WENT RIGHT BACK TO
7 WORK.

8 Q. YOU'D CUT YOUR HAND AT WORK BEFORE THIS ACCIDENT?

9 A. YES.

10 Q. DO YOU ALSO SERVE AS A VOLUNTEER FIREMAN?

11 A. USED TO.

12 Q. UP UNTIL WHEN?

13 A. JUST WHEN THAT ACCIDENT HAPPENED.

14 Q. HOW MUCH TIME HAVE YOU SPENT AT THE FIREHOUSE?

15 A. A LOT.

16 Q. DO YOU GO ON CALLS AND FIGHT FIRES?

17 A. I LOVE IT. IT'S -- NOW THAT THIS HAS HAPPENED, THEY
18 WON'T LET ME. THEY MAKE ME STAY BACK OR RIDE AND
19 SIT, JUST SIT IN THE TRUCK. IT'S ---

20 Q. HOW DOES IT MAKE YOU FEEL, DANNY?

21 A. DEPRESSING. LIKE WHEN YOU GO ON THE TRIP WITH THE
22 KIDS AND THEY'RE TRYING TO TALK TO ME IN THE BACK, I
23 CAN'T HEAR THEM. WHEN THEY'RE IN THE BACK SEAT, I
24 CAN'T HEAR THEM, NOT WITH THE ROAD NOISE. SO
25 EVERYTHING GOING ON I CAN'T.

1 BY MR. SAMUELS:

2 THANK YOU, DANNY. PLEASE ANSWER ANY QUESTIONS
3 THE OTHER ATTORNEYS HAVE FOR YOU.

4 BY COMMISSIONER BARDEN:

5 MR. LIIPFERT.

6 BY MR. LIIPFERT:

7 THANK YOU, MA'AM.

8 CROSS EXAMINATION BY MR. LIIPFERT:

9 Q. MR. CRANE. MR. CRANE, WHEN YOU STARTED WORKING WITH
10 MR. RABER -- MY NAME IS WORTH LIIPFERT, AND I'M
11 REPRESENTING RABER'S TIRE. OKAY? WHEN YOU STARTED
12 WORKING WITH MR. RABER, YOU SIGNED AN AGREEMENT THAT
13 YOU WERE GOING TO BE AN INDEPENDENT CONTRACTOR,
14 RIGHT?

15 A. YES. I GOT LIKE A WEEK OR TWO AFTER I'D ALREADY
16 STARTED. WHAT WOULD YOU DO? WOULD YOU SIGN YOUR
17 CONTRACT?

18 BY COMMISSIONER BARDEN:

19 SIR, YOU DON'T GET TO ASK THE QUESTIONS. YOU
20 ONLY CAN ANSWER THEM.

21 CROSS EXAMINATION RESUMED BY MR. LIIPFERT:

22 Q. YOU DIDN'T HAVE ANY SET VACATION DID YOU? YOU WERE
23 ABLE TO WORK AND TAKE OFF AS YOU NEEDED, WEREN'T
24 YOU?

25 A. YES.

1 Q. YOU USED YOUR OWN TOOLS?

2 A. YES.

3 Q. YOU BROUGHT YOUR OWN -- DID YOU BRING YOUR OWN OR
4 BUY YOUR OWN TIRE JACK?

5 A. WELL, SAY THAT AGAIN.

6 Q. DID YOU BUY YOUR OWN FLOOR JACK?

7 A. NO.

8 Q. OKAY. YOU HAD AIR COMPRESSOR TOOLS TOO, DIDN'T YOU?

9 A. CORRECT.

10 Q. AND YOU ALREADY KNEW HOW TO DO ALL OF THE WORK ON
11 CARS WHEN YOU GOT THERE, DIDN'T YOU?

12 A. YES.

13 Q. MR. RABER DIDN'T TEACH YOU ANYTHING AT ALL WORKING
14 ON CARS, DID HE?

15 A. NO. NOT ON THE VEHICLES.

16 Q. YET YOU -- ARE YOU A BETTER MECHANIC THAN MR. RABER?

17 A. YES.

18 Q. AND YOU WERE FREE TO COME AND GO AS YOU PLEASE AS
19 FAR AS WORK, TIME FRAME AND EVERYTHING, WEREN'T YOU?

20 A. HE MADE ME CLOCK IN AND OUT.

21 Q. BUT YOU COULD DO THAT WHENEVER YOU WANTED TO,
22 COULDN'T YOU?

23 A. YOU STILL HAD TO CHECK WITH JAMES BEFORE YOU WENT
24 ANYWHERE.

25 Q. OKAY. WELL, WHEN HE WASN'T THERE, BUT COULD YOU

1 LEAVE?

2 A. I HAD TO CHECK WITH EITHER CHAD OR MARIE. IF THEY
3 SAID, NO, THEN -- THEN YOU WERE THERE.

4 Q. NOW ---

5 BY COMMISSIONER BARDEN:

6 YOU'RE GOING TO HAVE TO SPEAK UP, SIR. SHE
7 CAN'T HEAR YOU.

8 BY THE WITNESS:

9 OKAY.

10 BY COMMISSIONER BARDEN:

11 AND I CAN BARELY HEAR YOU. JUST TURN UP THE
12 VOLUME. THANK YOU.

13 THE WITNESS RESUMES ANSWER:

14 A. IF THEY SAY, NO, THEN -- THEN YOU'RE THERE UNTIL ---

15 BY COMMISSIONER BARDEN:

16 YOU CAN LOOK AT ME. YOU DON'T NEED TO LOOK AT
17 HER. THANK YOU. GO AHEAD.

18 CROSS EXAMINATION RESUMED BY MR. LIIPFERT:

19 Q. AND YOU WERE -- AND IT LOOKS LIKE YOU -- YOUR TRUCK
20 IS A WHITE TRUCK, RIGHT?

21 A. YES.

22 Q. YOU PULLED A -- THERE'S A SURVEILLANCE VIDEO
23 FOOTAGE. HAVE YOU SEEN THAT?

24 A. I KNOW HE'S GOT SURVEILLANCE, YEAH.

25 Q. AND HAVE YOU SEEN THE FOOTAGE FROM THE DAY OF THIS

1 INCIDENT?

2 A. NO.

3 Q. OKAY. IT SHOWS THAT YOU PULLED YOUR TRUCK INTO THE
4 -- INTO THE GARAGE ABOUT 3:30; DOES THAT SOUND ABOUT
5 RIGHT TO YOU?

6 A. I THOUGHT IT WAS EARLIER THAN THAT.

7 Q. OKAY. SO IT MAY EVEN HAVE BEEN EARLIER THAN THAT?

8 A. YES.

9 Q. OKAY. ABOUT AROUND 2:30; DOES SOUND RIGHT?

10 A. PROBABLY.

11 Q. AND NOW ARE YOU TELLING ME THAT ALFIE DID THE WORK
12 ON YOUR TRUCK AND NOT YOU THAT DAY?

13 A. AS FAR AS I CAN REMEMBER, I DIDN'T DO ANYTHING TO IT
14 BUT PULLED IT IN AND SAT IT ON THE RACK.

15 Q. ALL RIGHT. AND WHO DO YOU THINK'S A BETTER
16 MECHANIC, YOU OR ALFIE?

17 A. PROBABLY PUTTING SHOCKS ON IT, ALFIE CAN DO THAT.

18 Q. DO YOU THINK YOU'RE A BETTER MECHANIC THAN ALFIE?

19 A. AT SOME THINGS.

20 Q. AND WHAT PARTS WERE YOU PUTTING ON YOUR CAR?

21 A. SHOCKS.

22 Q. JUST SHOCKS?

23 A. YES.

24 Q. AND YOU ORDERED THOSE ON MR. RABER'S ACCOUNT?

25 A. YES.

1 Q. AND YOU DIDN'T ASK HIM BEFORE YOU DID THAT, DID YOU?

2 A. THROUGH JAMES, CHAD ASKED FOR ME.

3 Q. SO YOU DIDN'T ASK MR. RABER ABOUT IT, DID YOU?

4 A. NOT PERSONALLY. I WENT TO CHAD BECAUSE JAMES WASN'T
5 THERE.

6 Q. AND OKAY. AND SO YOU BOUGHT NEW SHOCKS WHILE JAMES
7 WASN'T EVEN THERE ON MR. RABER'S ACCOUNT, RIGHT?

8 A. BUT CHAD'S, YOU KNOW, PERMISSION.

9 Q. AND DID YOU EVER PAY WITH YOUR ---

10 **BY COMMISSIONER BARDEN:**

11 COULD YOU SPEAK UP A LITTLE BIT PLEASE, SIR?

12 GO AHEAD.

13 **CROSS EXAMINATION RESUMED BY MR. LIIPFERT:**

14 Q. AND WERE YOU -- YOU -- WERE YOU WORKING ON YOUR OWN
15 TRUCK RIGHT IN BEFORE THIS ACCIDENT HAPPENED?

16 A. NOT THAT I REMEMBER.

17 Q. WHAT WERE YOU WORKING ON?

18 A. I THINK I WAS BY THE ALIGNMENT RACK.

19 Q. OKAY. WERE YOU WORKING, OR WHAT WERE YOU GOING TO
20 DO?

21 A. I CAN'T REMEMBER EXACTLY ONE HUNDRED PERCENT ON WHAT
22 WAS BEING DONE.

23 Q. AND HOW LONG WOULD IT TAKE TO CHANGE OUT STRUTS ON -
24 - OR THE SHOCKS IN YOUR CAR?

25 A. NOT LONG. I MEAN, IT'S FOUR, SIX, EIGHT, EIGHT

1 BOLTS AND NUTS.

2 Q. SO IT SHOULD HAVE -- I MEAN, LESS THAN AN HOUR YOU
3 THINK?

4 A. IT SHOULD HAVE, YES.

5 Q. AND YOU'RE -- AND YOUR CAR WAS IN THE BAY 'TIL
6 AROUND 5:38; DOES THAT SOUND RIGHT?

7 A. I'M NOT SURE. I WASN'T THERE.

8 Q. OKAY. AND DO YOU KNOW HOW LONG IT HAD BEEN IN THE
9 BAY AT THE TIME OF YOUR ACCIDENT?

10 A. NO, NOT ONE HUNDRED PERCENT. CHARLIE, CHAD'S
11 BROTHER'S THE ONE THAT BROUGHT ME THE KEY -- TO THE
12 HOSPITAL. SO I DON'T KNOW WHO LET IT DOWN OR WHO
13 PUT IT OUT IN -- IN -- IN THE YARD.

14 Q. OKAY. AND HAD YOU WORKED ON YOUR TRUCK BEFORE THE
15 DAY OF THE -- HAD YOU WORKED ON YOUR TRUCK ON THE
16 DAY OF THIS ACCIDENT AT ANY POINT THAT DAY?

17 A. NOT THAT I REMEMBER. I'M NOT SAYING I DIDN'T, BUT
18 NOT THAT I REMEMBER.

19 Q. OKAY. SO YOU THINK ALFIE DID ALL THE WORK ON YOUR
20 TRUCK?

21 A. AS FAR AS I CAN REMEMBER, YES. 'CAUSE I DIDN'T -- I
22 WASN'T -- WELL, I MAYBE WALKED UNDER THERE AND
23 SHOWED HIM. OKAY. I'LL -- YOU KNOW, THE HERE AND
24 HERE, BUT HE ONLY PUT THE TWO IN THE REAR ON.

25 Q. OKAY. DO YOU REMEMBER ANYTHING YOU DID WORK ON THAT

1 DAY?

2 A. I THINK IT WAS AN OIL CHANGE OR TWO, MOVING THE
3 TRAILER AROUND, CLEANING UP, MOVING STUFF AROUND AND
4 TIRES. AS FAR AS I CAN RECALL, IT REALLY WASN'T A
5 BUSY DAY.

6 Q. AND ---

7 A. AND A MATTER OF FACT, THE TRAILER IS SITTING IN THE
8 EXACT SAME SPOT I PUT IT WHEN I DISCONNECTED IT FROM
9 MY TRUCK.

10 Q. DID YOU -- DID YOU WORK ON THE MACHINE RIGHT AFTER
11 IT HAD -- AFTER THE HOSE CAME OFF?

12 A. I DON'T REMEMBER WORKING ON THE MACHINE.

13 Q. ALL RIGHT.

14 A. WE MIGHT HAVE TO KEEP IT GOING, BUT I DON'T REMEMBER
15 WORKING ON IT.

16 Q. OKAY. WHAT DO YOU REMEMBER AFTER THE ACCIDENT?

17 A. NOT VERY MUCH.

18 Q. DID YOU REPORT MEMORY LOSS TO ANY OF THE PHYSICIANS
19 AT THE EMERGENCY ROOM OR ---

20 A. YEAH.

21 Q. --- AFTER THAT? YOU REPORTED IT AT THE EMERGENCY
22 ROOM ON THE DAY OF THE ACCIDENT?

23 A. YES.

24 Q. OKAY. AND WHAT OTHER COMPLAINTS DID YOU HAVE ON THE
25 DAY OF THE ACCIDENT IN THE EMERGENCY ROOM?

1 A. MY EARS AND MY HEAD WAS HURTING RIGHT HERE

2 (INDICATING) ON MY ---

3 BY COMMISSIONER BARDEN:

4 ON YOUR RIGHT SIDE?

5 BY THE WITNESS:

6 RIGHT SIDE.

7 CROSS EXAMINATION RESUMED BY MR. LIIPFERT:

8 Q. AND YOU'D ENDED UP WITH A -- WITH YOU HAD A BRUISE
9 THERE?

10 A. YES.

11 Q. AND DID THE DOCTORS LOOK AT THE BRUISE, THEY COULD
12 SEE IT?

13 A. YES.

14 Q. AND WHAT DID YOU SAY ABOUT YOUR MEMORY LOSS ON THE
15 DAY OF THE ACCIDENT?

16 A. I -- I DIDN'T HEAR YOU.

17 Q. WHAT DID YOU SAY ABOUT YOUR MEMORY LOSS ON THE DAY
18 OF THE ACCIDENT?

19 A. EVERYBODY AT THE DOCTORS, AT THE EMERGENCY ROOM, AT
20 THE DOCTORS OFFICE, AND EVEN AT THE E.N.T., THEY
21 WERE ALL CONCERNED AND MORE ABOUT MY EAR THAN THEY
22 WERE WITH THE BRUISE ON MY HEAD.

23 Q. WHAT DID YOU SAY AT THE EMERGENCY ROOM ABOUT YOUR
24 MEMORY LOSS?

25 A. YOU JUST ASKED ME SOMETHING DIFFERENT.

1 Q. WHAT -- OKAY. WELL, ANSWER THAT QUESTION. WHAT DID
2 YOU SAY AT THE EMERGENCY ROOM ABOUT YOUR MEMORY
3 LOSS?

4 A. THEY ASKED ME WHAT WAS I WORKING ON, AND I -- LIKE I
5 TOLD THEM, I DON'T REMEMBER EXACTLY WHAT I WAS
6 DOING.

7 Q. OKAY.

8 A. I REMEMBER DOING THAT AND THE EXPLOSION AND THEN FOR
9 A FEW MINUTES I DON'T REMEMBER.

10 Q. AND YOU TOLD THE EMERGENCY ROOM THAT YOU DON'T
11 REMEMBER A FEW MINUTES AFTER THE ACCIDENT?

12 A. YES.

13 Q. OKAY. NOW, YOU WENT AND SAW CAROLINA E.N.T.; IS
14 THAT RIGHT?

15 A. YES.

16 Q. AND THEY DID IT LOOKS LIKE TWO HEARING TESTS ON YOU,
17 ONE WAS ON FEBRUARY 20TH, THE DAY AFTER THIS, AND
18 ONE WAS ON MARCH 6TH; DOES THAT SOUND RIGHT?

19 A. YES.

20 Q. AND YOUR HEARING ACTUALLY HAD GOTTEN WORSE BETWEEN
21 THE TWO; DID YOU KNOW THAT?

22 A. THAT'S WHAT HE SAYS.

23 Q. DID YOU -- DID ANYTHING ELSE HAPPEN TO YOUR HEARING
24 DURING THAT TIME THAT WOULD CAUSE IT TO GET WORSE?

25 A. NO. NOT THAT I KNOW OF, I MEAN.

1 Q. OKAY. AND HE WANTED YOU TO GO GET ANOTHER KIND OF
2 TEST, A.V.R. TEST, RIGHT?

3 A. IF THAT'S IN CHARLESTON.

4 Q. YEAH.

5 A. CORRECT.

6 Q. YEAH. YEAH.

7 A. YES.

8 Q. AND HE SET UP AN APPOINTMENT FOR YOU, RIGHT?

9 A. TRIED TO. THEY WON'T ACCEPT MY INSURANCE, NOT UNTIL
10 WE -- THEY GET EVERYTHING SWAPPED AROUND WITH THE
11 INSURANCE PLAN TO GO DOWN THERE.

12 Q. DID YOU GO BACK AND TELL THEM THAT AND TRY TO GET
13 SEEN SOMEWHERE ELSE?

14 A. YES.

15 Q. OKAY. AND THEY -- THERE'S NO WHERE ELSE THEY CAN DO
16 THAT TEST; IS THAT ---

17 A. NO. AND HE WAS -- HE KEEPS REFERRING ME BACK THERE.

18 Q. SO YOU WENT BACK TO HIM AND SAW AT -- SAW HIM AFTER
19 THAT PROBLEM?

20 A. ON THE PHONE TO LET THEM KNOW THAT THEY WOULD NOT
21 ACCEPT OUR INSURANCE.

22 Q. SO YOU NEVER SAW HIM AFTER THAT?

23 A. I CAN'T -- I'M NOT ONE HUNDRED PERCENT CERTAIN.

24 Q. OKAY.

25 A. I'VE BEEN TO ORANGEBURG TWO OR THREE TIMES.

- 1 Q. OKAY. AND YOU DON'T KNOW IF YOU'VE BEEN BACK TO THE
2 DOCTOR AND TOLD THEM YOU COULDN'T GET THE TESTING
3 AND ASK HIM TO SEND YOU SOMEWHERE ELSE?
- 4 A. NOT PERSON TO PERSON. MY WIFE SPOKE WITH HIM ON THE
5 PHONE.
- 6 Q. OKAY. YOU MENTIONED YOU FELL IN YOUR BATHROOM?
- 7 A. YES.
- 8 Q. WERE YOU WET AT -- YOUR FEET WET AT THE TIME YOU
9 WERE GETTING OUT OF THE SHOWER?
- 10 A. YEAH, I WAS STEPPING OUT OF THE -- OUT OF THE
11 SHOWER, SO THEY PROBABLY WERE WET.
- 12 Q. IS WHAT -- IS YOUR SHOWER SLIPPERY?
- 13 A. NO.
- 14 Q. IT'S NOT?
- 15 A. NO. OUR SHOWER'S GOT THE LIKE SANDPAPER STRIPS ALL
16 THROUGH IT AND ON THE STEPS COMING DOWN.
- 17 Q. OKAY.
- 18 A. I MEAN, I GOT SICK TO DEATH SO WE TRY TO DO
19 EVERYTHING SAFE.
- 20 Q. THAT THE MEDICAL RECORDS SAY THAT YOU FELL FROM THE
21 COMMODE OR TOILET; IS THAT WHAT HAPPENED?
- 22 A. WHEN I WAS COMING OUT, THAT'S WHAT I HIT.
- 23 Q. OH, YOU FELL ONTO IT?
- 24 A. YES.
- 25 Q. OKAY. NOW, YOU HAD DEPRESSION AND ANXIETY AND BI-

1 POLAR DISORDER BEFORE THIS ACCIDENT, CORRECT?

2 A. IT WAS -- I DON'T KNOW HOW -- WHAT THEY -- THE
3 TECHNICAL TERM FOR IT, BUT...

4 BY COMMISSIONER BARDEN:

5 WELL, WHAT HAVE YOU HAD BEFORE?

6 BY THE WITNESS:

7 SOME DEPRESSION BUT THE MEDICINE I TAKE IS FOR
8 DEPRESSION, BUT IT'S FOR TO KEEP THE TEMPER DOWN.

9 BY COMMISSIONER BARDEN:

10 OKAY. SO YOU HAD DEPRESSION BEFORE?

11 BY THE WITNESS:

12 SOME.

13 BY COMMISSIONER BARDEN:

14 SOME. WERE YOU TAKING ANY MEDICATION FOR
15 DEPRESSION WHEN THIS HAPPENED TO YOU?

16 BY THE WITNESS:

17 YES.

18 BY COMMISSIONER BARDEN:

19 OKAY. WHAT ABOUT ANXIETY, DID YOU HAVE THAT
20 BEFORE?

21 BY THE WITNESS:

22 NO.

23 BY COMMISSIONER BARDEN:

24 JUST DEPRESSION?

25 BY THE WITNESS:

1 JUST, YEAH, DEPRESSION.

2 BY COMMISSIONER BARDEN:

3 OKAY. HOW ABOUT BIPOLAR, WERE YOU EVER
4 DIAGNOSED AS HAVING BIPOLAR?

5 BY THE WITNESS:

6 NO.

7 BY COMMISSIONER BARDEN:

8 OKAY. OKAY.

9 CROSS EXAMINATION RESUMED BY MR. LIIPFERT:

10 Q. DID -- DID YOU TELL THE EMERGENCY ROOM WHEN YOU WENT
11 THAT YOU HAD BIPOLAR?

12 A. NO. WHY WOULD I TELL THEM IF I HAD BIPOLAR IF I
13 WASN'T DIAGNOSED WITH IT?

14 Q. DID YOU TELL ANY DOCTORS THROUGHOUT YOUR TREATMENT
15 THAT YOU HAD BIPOLAR.

16 A. NOT THAT I RECALL. WHY WOULD I DO THAT?

17 Q. IF IT APPEARS IN YOUR MEDICAL RECORDS, DO YOU KNOW
18 WHERE THEY GOT THAT FROM IF YOU DIDN'T TELL THEM?

19 A. THE ONLY ONE THAT SHOULD HAVE -- SHOULD HAVE BEEN IN
20 WOULD HAVE BEEN FROM UP NORTH.

21 Q. AND ARE YOU TALKING ABOUT DR. ROGERS?

22 A. IS THAT IN THE ---

23 BY COMMISSIONER BARDEN:

24 YOU CAN'T GET ANY HELP. YOU JUST ANSWER THE
25 QUESTIONS AS BEST YOU CAN.

1 BY THE WITNESS:

2 IF THAT'S HIS NAME, DOCTOR ---

3 BY COMMISSIONER BARDEN:

4 SO DR. ROGERS IS THE ONLY ONE THAT WOULD HAVE
5 WRITTEN THAT ABOUT -- I DON'T UNDERSTAND. SO YOU
6 HAVEN'T TOLD ANY DOCTOR THAT YOU HAD BIPOLAR,
7 CORRECT? THAT'S WHAT YOU TOLD ME. YOU SAID, "WHY
8 WOULD I DO THAT?"

9 BY THE WITNESS:

10 YEAH.

11 BY COMMISSIONER BARDEN:

12 OKAY.

13 BY THE WITNESS:

14 AND I -- I DON'T BELIEVE. NO.

15 BY COMMISSIONER BARDEN:

16 OKAY. GO AHEAD, MR. LIIPFERT.

17 BY MR. LIIPFERT:

18 THANK YOU.

19 CROSS EXAMINATION RESUMED BY MR. LIIPFERT:

20 Q. YOU HAD A HISTORY OF MIGRAINES BEFORE THE ACCIDENT
21 TOO, DIDN'T YOU?

22 A. YES.

23 Q. SO YOU HAD HEADACHES BEFORE THE ACCIDENT AND AFTER
24 THE ACCIDENT?

25 A. YES. BUT NOT DAILY. EVERYBODY HAS A MIGRAINE.

1 Q. EVERYBODY HAS MIGRAINES?

2 A. AT SOME POINT IN TIME IN THEIR LIFE OR A HEADACHE.

3 Q. OKAY. BUT YOU HAD ACTUALLY BEEN DIAGNOSED WITH
4 MIGRAINE HEADACHES BEFORE THIS ACCIDENT, HADN'T YOU?
5 AND YOU REPORTED THAT TO THE EMERGENCY I THINK,
6 DIDN'T YOU?

7 A. I HAVE HAD HEADACHE MEDICINE. YES.

8 Q. OKAY. YOU'VE BEEN PUT ON PRESCRIPTION MEDICINE FOR
9 HEADACHES BEFORE THIS ACCIDENT?

10 A. YEAH.

11 Q. OKAY. AND THAT'S ONE OF THE THINGS YOU'RE
12 COMPLAINING ABOUT AS A RESULT OF THIS ACCIDENT IS
13 HEADACHES, RIGHT?

14 A. YES.

15 Q. AND YOU'RE COMPLAINING ABOUT DEPRESSION, AND YOU HAD
16 THAT BEFORE THIS ACCIDENT TOO, RIGHT?

17 A. NOT AS SEVERE.

18 Q. AND WHO JUDGED THAT IT'S MORE SEVERE; THAT IS JUST
19 YOU SAYING IT'S MORE SEVERE, RIGHT?

20 A. THAT MAN UP NORTH, MY REGULAR DOCTOR?

21 Q. NOW, WHO IS YOUR REGULAR DEPRESSION DOCTOR?

22 A. I DON'T -- WELL IT, KOUKOS IS THE ONE I GO TO.

23 Q. OKAY. YOU GO ---

24 BY COMMISSIONER BARDEN:

25 HOW DO YOU -- DO YOU KNOW HOW TO SPELL THAT

1 NAME, KOUKOS?

2 BY THE WITNESS:

3 NO, MA'AM. I DON'T.

4 BY COMMISSIONER BARDEN:

5 OKAY.

6 BY THE WITNESS:

7 MY WIFE DOES.

8 BY COMMISSIONER BARDEN:

9 THAT'S ALL RIGHT. WE CAN GET IT.

10 CROSS EXAMINATION RESUMED BY MR. LIIPFERT:

11 Q. OKAY. KOUKOS IS YOUR REGULAR DOCTOR?

12 A. YES.

13 Q. FOR ---

14 A. BARNWELL FAMILY MEDICINE.

15 Q. FOR -- FOR WHERE?

16 A. BARNWELL FAMILY MEDICINE.

17 Q. OKAY. KOUKOS HADN'T GIVEN ANY OPINION THAT YOUR
18 DEPRESSION'S WORSE NOW THAT YOU HAVE SUBMITTED
19 TODAY, HAS HE?

20 A. I DON'T KNOW IF HE HAS OR HASN'T. I DON'T HAVE THE
21 PAPER.

22 Q. PAPER?

23 BY COMMISSIONER BARDEN:

24 WERE YOU GETTING YOUR MEDICATION FROM KOUKOS?

25 BY THE WITNESS:

1 KOUKOS.

2 BY COMMISSIONER BARDEN:

3 FROM KOUKOS FOR DEPRESSION?

4 BY THE WITNESS:

5 YES.

6 BY COMMISSIONER BARDEN:

7 OKAY.

8 CROSS EXAMINATION RESUMED BY MR. LIIPFERT:

9 Q. THEN DR. ROGERS HAD NEVER SEEN YOU FOR DEPRESSION
10 BEFORE THIS, RIGHT?

11 A. NO. THAT'S THE FIRST I'VE SEEN DOCTOR ---

12 Q. SO HE DOESN'T KNOW WHAT YOUR DEPRESSION LOOKED LIKE
13 BEFORE THIS, DOES HE, OTHER THAN WHAT YOU TOLD HIM?

14 A. IN MY MEDICAL RECORDS.

15 Q. DID YOU GIVE HIM DR. KOUKOS'S RECORDS ABOUT YOUR
16 DEPRESSION?

17 A. EVERYTHING WAS FAXED TO HIM.

18 Q. OKAY. IF IT -- AND WHATEVER HE SAYS HERE, DO YOU
19 AGREE THAT THAT'S WHAT HE REVIEWED?

20 A. YES.

21 Q. DO YOU THINK YOU SAW HIM FOR TWO-AND-A-HALF HOURS;
22 IS THAT RIGHT?

23 A. ABOUT, YES.

24 Q. OKAY. IF HIS RECORDS SAID YOU ONLY SAW HIM FOR AN
25 HOUR-AND-FIFTEEN-MINUTES, WOULD YOU AGREE WITH THAT?

1 A. I WOULD HAVE TO -- I DON'T KNOW. I WOULDN'T THINK
2 SO. I THOUGHT IT WAS LONGER THAN THAT.

3 Q. OKAY. SO YOU WOULD THINK HIS RECORD WOULD BE WRONG
4 IN THAT REGARD?

5 A. IT SEEMED LONGER THAN THAT.

6 Q. AND THE ONLY -- THE ONLY TESTS YOU'VE HAD DONE ON
7 YOUR HEARING IS WHERE THEY PLAY A NOISE FOR YOU AND
8 ASK YOU IF YOU COULD HEAR IT, RIGHT?

9 A. THAT HAD FINDINGS -- THEY PUT STUFF IN MY EARS.
10 THEY'VE -- THE ONLY THING THAT DR. KOUKOS -- ANSLEY
11 SAID DIFFERENTLY WOULD BE GOING DOWN THERE TO SEE IF
12 I COULD BE A COCHLEAR IMPLANT, LIKE AN IMPLANT.

13 Q. AND SO HE WANTED YOU TO SEEK THE COCHLEAR IMPLANTS?

14 A. THAT'S WHAT THE THING DOWN IN -- IN CHARLESTON IS
15 ABOUT.

16 Q. AND HIS MEDICAL RECORDS SAY THAT THEY WANTED YOU TO
17 GET A A.V.R. TEST FOR A MORE OBJECTIVE TEST OF YOUR
18 HEARING LOSS; WERE YOU AWARE OF THAT?

19 A. YEAH. I WAS UNDER THIS UNDERSTAND THAT THAT WAS TO
20 SEE IF WE WERE A CANDIDATE FOR THE COCHLEAR IMPLANT.

21 Q. OKAY. AND YOU THINK -- IS IT YOUR TESTIMONY THAT
22 YOU WERE -- YOU AND MR. RABER AGREED THAT YOU'D BE
23 PAID \$9.00 AN HOUR?

24 A. YES.

25 Q. HE DIDN'T AGREE TO PAY YOU \$450.00 A WEEK?

1 A. NOT THAT I RECALL.

2 Q. OKAY. AND DO YOU KNOW THAT IT -- DO YOU KNOW WHAT
3 HIT YOU IN THE HEAD TO CAUSE THE BRUISE YOU TALKED
4 ABOUT?

5 A. I BELIEVE IT WAS THE METAL CLAMP. IT WOULD HAVE
6 BEEN THE HOSE THAT -- I BELIEVE IT WAS THE METAL
7 CLAMP, BECAUSE THE METAL CLAMP WAS WITH MY HAT WHICH
8 WAS BEHIND ME ON THE FLOOR.

9 Q. OKAY. I THINK -- AND DO YOU RECALL THAT FROM RIGHT
10 AFTER THE ACCIDENT?

11 A. NO. WHEN I PICKED MY HAT UP THOUGH.

12 Q. HOW LONG AFTER THE ACCIDENT DID YOU PICK YOUR HAT
13 BACK UP?

14 A. A FEW MINUTES.

15 Q. THREE MINUTES. SO YOU REMEMBER WHAT WAS GOING ON
16 THREE MINUTES AFTER THE ACCIDENT?

17 A. I SAID A FEW.

18 Q. A FEW MINUTES?

19 A. UH-HUH.

20 Q. BUT I THOUGHT YOU SAY YOU DIDN'T REALLY REMEMBER
21 MUCH ABOUT WHAT WAS GOING ON AFTER THE ACCIDENT, THE
22 ONLY THING YOU REMEMBER IS YOUR HAT AND THE METAL
23 CLAMP?

24 A. A FEW MINUTES. I MEAN ---

25 Q. AND YOU DON'T REMEMBER TRYING TO WORK ON THE MACHINE

1 AT ALL?

2 A. NOT THAT I RECALL. NO.

3 Q. OKAY. AND YOU DON'T RECALL WORKING ON YOUR TRUCK AT
4 ALL THE DAY OF THE ACCIDENT?

5 A. NOT THE DAY OF THE ACCIDENT, NO.

6 Q. HAD YOU WORKED ON YOUR TRUCK BEFORE THAT?

7 A. YES.

8 Q. WERE YOU SUPPOSED TO ASK MR. RABER BEFORE YOU WORKED
9 ON YOUR TRUCK OR WERE YOU ---

10 A. AND I HAVE.

11 Q. AND WERE YOU ALLOWED TO WORK ON YOUR TRUCK WHENEVER
12 YOU WANTED?

13 A. AS LONG AS WE WEREN'T BUSY.

14 Q. AND WERE YOU SUPPOSED TO ASK MR. RABER, OR WERE YOU
15 ALLOWED TO WORK ON YOUR TRUCK, AND WHEN WAS ---

16 A. I'VE ALWAYS ASKED JAMES OR CHAD.

17 Q. OKAY. BUT YOU DIDN'T WORK ON YOUR TRUCK THAT DAY,
18 SO YOU DIDN'T ASK ANYBODY THAT DAY ABOUT WORKING ON
19 THE TRUCK; IS THAT RIGHT?

20 A. CHAD.

21 Q. YOU ASKED CHAD ABOUT WORKING ON YOUR TRUCK THAT DAY?

22 A. I ASKED CHAD ABOUT, YOU KNOW, IT BEING PULLED IN TO
23 PUT THE SHOCKS ON IT.

24 Q. OKAY.

25 A. AND CHAD WAS ALSO IN AGREEANCE(phonetic) WITH ALFRED

1 DOING THE WORK FOR THE AIR TOOLS, THE RATCHET WRENCH
2 AND IMPACT WRENCH.

3 Q. DID YOU GIVE THOSE TO ALFIE?

4 A. YES.

5 Q. NOW ---

6 A. I GAVE HIM THEM BEFORE HE STARTED.

7 Q. NOW, SINCE THE ACCIDENT, YOU'VE TRIED TO GO BACK TO
8 WORK FOR HALF-A-DAY?

9 A. IT WAS A COUPLE OF DAYS THAT I NEVER DID MAKE IT A
10 FULL DAY.

11 Q. SO YOU WENT BACK FOR A COUPLE OF DAYS FOR HALF-A-
12 DAY?

13 A. YES.

14 Q. AND MR. RABER WAS GOING TO LET YOU WORK THERE; IN
15 OTHER WORDS, YOU WERE ABLE TO COME BACK; YOU WENT
16 BACK TO RABER TIRE, RIGHT?

17 A. YES.

18 Q. CAN YOU TAKE OUT -- THE -- IS THAT THE HEARING THING
19 YOU'VE GOT IN YOUR LEFT EAR, IS IT REMOVABLE?

20 A. YES.

21 Q. CAN YOU ADJUST THE VOLUME?

22 A. YES.

23 Q. AND THE PROBLEMS YOU HAVE ARE THAT IT WAS TOO LOUD
24 IN YOUR EAR, RIGHT?

25 A. YES.

1 Q. YOU COULDN'T TURN THE VOLUME DOWN AND SOLVE THAT
2 PROBLEM?

3 A. IT'S IN THE AMPLIFIER, EVEN WITH IT TURNED ALL THE
4 WAY DOWN. IT ---

5 Q. YOU COULD PULL IT OUT, COULDN'T YOU?

6 A. BUT THEN I CAN'T HEAR. THEN I COULDN'T HEAR
7 NOTHING. IF YOU WAS TO REVIEW HIS -- HIS OWN
8 SURVEILLANCE, YOU WOULD SEE WHERE I ALMOST GOT RUN
9 OVER TWICE. IF I WOULDN'T HAVE LOOKED UP, I WOULD
10 HAVE GOT RUN OVER.

11 Q. BY WHO?

12 A. ALFRED WAS ONE OF THEM BACKING OUT, AND LITTLE MAN
13 WAS THE OTHER.

14 Q. AND WHEN DID ALL OF THIS HAPPEN?

15 A. ONCE I WAS TURNING A BRAKE DRUM -- ROTOR, AND TURNED
16 AROUND, AND ALFRED WAS BACKING OFF THE LIFT.

17 Q. SO DID YOU -- DID YOU TAKE YOUR HEARING AID OUT AND
18 THAT SOLVED THE NOISE PROBLEM, BUT THEN YOU ALMOST
19 GOT RUN OVER? YOU DIDN'T MENTION THAT EARLIER.

20 A. YOU DIDN'T SAY THAT EARLIER. EVEN IF IT ---

21 Q. WELL, THEN YOU -- YOU WERE ASKED BY YOUR ATTORNEY
22 WHY YOU COULDN'T WORK ANYMORE, AND YOU SAID IT WAS
23 BECAUSE IT WAS TOO LOUD ---

24 A. YES.

25 Q. --- WITH YOU'RE -- WITH YOUR HEARING AID?

1 A. EVEN IF YOU TAKE IT OUT, HOW CAN YOU -- HOW CAN I
2 WORK IF I CAN'T HEAR?

3 Q. WELL, YOU'RE ABLE TO TURN A ROTOR, AREN'T YOU?

4 A. THAT'S BY VISUAL.

5 Q. OKAY. YOU CAN CHANGE A TIRE, CAN'T YOU?

6 A. BUT HOW ARE YOU GOING TO -- HUH?

7 Q. YOU CAN CHANGE A TIRE, CAN'T YOU?

8 A. YES.

9 Q. ALL RIGHT. AND SO THE REASON YOU COULDN'T WORK IS
10 BECAUSE IT'S TOO LOUD?

11 A. YES. AND IF YOU TAKE THE HEARING AID OUT, HOW CAN I
12 HEAR HIM?

13 Q. AND EVEN AT THE LOWEST SETTING, IT'S TOO LOUD?

14 A. YES. IT'S AN AMPLIFIER. THAT'S WHY THEY WANT ME TO
15 -- ROGERS WANTS ME TO GET A DIGITAL AMPLIFIER, BUT I
16 HAVE TO GO TO...

17 Q. CHARLESTON?

18 A. I -- I THINK IT'S CHARLESTON. AND THEN AGAIN, I'M
19 ALSO WAITING TO GET ANOTHER APPOINTMENT WITH ANSLEY.

20 Q. AND ANSLEY WANTED YOU TO HAVE THIS OTHER TEST BEFORE
21 HE SAW YOU AGAIN, RIGHT? DID YOU KNOW THAT, HE
22 WANTED YOU TO HAVE AN OBJECTIVE HEARING TEST BEFORE
23 HE SAW YOU AGAIN?

24 A. NO.

25 Q. YOU DIDN'T KNOW THAT?

1 A. I KNOW THAT HE WANTED ME TO GO DOWN THERE AND THEN
2 COME BACK TO HIS OFFICE.

3 Q. NOW, LET'S BACK UP. OKAY, SO YOU CAN PULL THE
4 AMPLIFIER OUT AND THAT STOPS THE LOUDNESS, RIGHT?

5 A. (WITNESS NODS HEAD)

6 Q. IS THAT A YES?

7 A. YES.

8 Q. OKAY. AND THEN WHEN YOU NEED TO HEAR YOU CAN PUT IT
9 IN AND YOU CAN HEAR WHAT YOU NEED TO HEAR, RIGHT?

10 A. NOT ONE HUNDRED PERCENT, BUT, YES.

11 Q. AND SO YOU COULD JUST PULL IT OUT, DO THE VISUAL
12 WORK, PUT IT BACK IN, LISTEN, PULL IT OUT, DO THE
13 VISUAL WORK, PUT IT BACK IN AND LISTEN, RIGHT?

14 A. YES. BUT THEN YOU GOT THE DANGERS OF OTHER
15 VEHICLES. IF I STAND RIGHT HERE WORKING ON A CAR --
16 PARK IT, WALKING FROM MY BAY TO THE BATHROOM, OR IF
17 I DON'T HAVE IT THEN I TAKE THE CHANCES OF GETTING
18 HIT. IF I GOT IT IN ALL DAY LONG, THEN I CAN'T
19 MAKE IT THROUGH THE DAY, NOT WITHOUT HAVING A SEVERE
20 HEADACHE.

21 Q. HAVE YOU EVER ALMOST RUN OVER SOMEBODY PULLING INTO
22 THE BAY?

23 A. NOT THAT I REMEMBER.

24 Q. 'CAUSE YOU LOOK WHERE YOU'RE GOING, RIGHT?

25 A. SAY THAT AGAIN.

1 Q. OKAY. STILL ---

2 BY MR. LIIPFERT:

3 STRIKE THAT. I BEG THE COURT'S INDULGENCE FOR
4 A MINUTE.

5 BY COMMISSIONER BARDEN:

6 SURE.

7 BY MR. LIIPFERT:

8 ONE MORE MINUTE. I'M GOING TO TRY TO PLAY THIS
9 (VIDEO PRESENTATION), YOUR HONOR.

10 BY COMMISSIONER BARDEN:

11 SURE.

12 BY MR. LIIPFERT:

13 IF IT'S NOT ON, IF YOU'LL LET ME TRY. IT'S NOT
14 VERY LONG.

15 BY COMMISSIONER BARDEN:

16 SURE.

17 BY MR. LIIPFERT:

18 SORRY ABOUT THAT. I DIDN'T MEAN TO BLIND YOU.
19 LET ME SEE IF I CAN GET THAT TOO. IT'LL JUST BE ONE
20 MINUTE.

21 CROSS EXAMINATION RESUMED BY MR. LIIPFERT:

22 Q. (MR. LIIPFERT PRESENTS VIDEO) OKAY. CAN YOU TELL
23 ME WHO THOSE TWO PEOPLE ARE?

24 A. (WITNESS OBSERVES VIDEO) THIS?

25 Q. NO. CAN YOU TELL ME WHO THOSE TWO PEOPLE ARE THAT

1 ARE UP THERE WORKING?

2 A. THAT'S LITTLE MAN PERNELL.

3 Q. OKAY.

4 A. AND ALFRED, RED.

5 Q. ALFRED LOOKS LIKE HE'S WORKING ON SOME TIRES OR
6 SOMETHING, RIGHT?

7 A. YES.

8 Q. AND THAT WASN'T FOR YOUR VEHICLE, WAS IT?

9 A. DON'T LOOK LIKE IT. NO.

10 Q. YOUR VEHICLE WAS OVER IN THE FAR BAY TO THE RIGHT;
11 IS THAT RIGHT?

12 A. YES.

13 Q. OKAY. IS THAT YOU RIGHT THERE?

14 A. THAT'S CHAD, THAT'S THE FOREMAN. THERE'S ME
15 (INDICATING).

16 Q. YEAH. AND YOU CAME FROM OVER -- AND YOU CAME FROM
17 THE RIGHT OVER BY WHERE -- SIR, YOU CAME FROM THE
18 RIGHT OVER BY WHERE YOUR VEHICLE WAS, RIGHT?

19 A. YES.

20 Q. AND WHAT ARE YOU DOING -- AND WHAT ARE YOU DOING
21 RIGHT THERE?

22 A. TRYING TO FIND THE AIR LEAK.

23 Q. OKAY. IS THAT WHAT ALFIE'S DOING TOO? IS THAT WHAT
24 ALFIE'S DOING TOO?

25 A. YES.

- 1 Q. IS THAT WHEN THE -- IS THAT RIGHT AFTER THAT HOSE
2 CAME OFF? SIR, IS THAT RIGHT AFTER THE HOSE CAME
3 OFF?
- 4 A. I DON'T KNOW IF THAT WAS AFTER OR BEFORE.
- 5 Q. WELL, LET ME TRY TO GET IT TO PLAY AGAIN REAL QUICK.
6 AND Y'ALL ARE DOWN THERE?
- 7 A. YES.
- 8 Q. AND IS THAT AFTER THE HOSE CAME OFF?
- 9 A. YES.
- 10 Q. WHO'S THAT TALKING TO -- WHO'S THAT TALKING TO YOU?
- 11 A. THAT'S CHAD, THE SHOP FOREMAN.
- 12 Q. AND WERE YOU -- WELL, DO YOU REMEMBER WHAT HE WAS
13 SAYING TO YOU?
- 14 A. NOT ONE HUNDRED PERCENT.
- 15 Q. YOU WERE ABLE TO HEAR HIM THOUGH?
- 16 A. I WAS MORE OR LESS TRYING TO READ HIS MOUTH.
- 17 Q. HOW WAS YOUR CELL PHONE SET THAT DAY, WAS IT SET ON
18 RING OR VIBRATE?
- 19 A. IT'S SET ON VIBRATE.
- 20 Q. NOW IT IS. WAS IT ON VIBRATE THAT DAY?
- 21 A. IT STAYED ON VIBRATE.
- 22 Q. OKAY. DO YOU REMEMBER WHAT -- WHO YOU WERE TEXTING
23 RIGHT THERE?
- 24 A. MY WIFE.
- 25 Q. OKAY. WHAT DID YOU TEXT HER?

1 A. COME GET ME.

2 Q. OKAY. NOW WHAT ARE YOU DOING?

3 A. LOOKING AT IT WITH RED.

4 Q. AND YOU REMEMBER TEXTING YOUR WIFE COME AND GET YOU?

5 A. YES.

6 Q. AND THAT'S ABOUT TWO MINUTES AFTER THIS HAPPENED?

7 A. THAT'S HOW ---

8 Q. BUT YOU DON'T ---

9 A. I DID -- I STILL DIDN'T REMEMBER WORKING ON THAT

10 TIRE CHANGER.

11 Q. OKAY. DID YOU REMEMBER TALKING TO CHAD? SO DID YOU

12 REMEMBER TALKING TO CHAD?

13 A. WE WAS TRYING TO TALK.

14 Q. DO YOU REMEMBER THAT?

15 A. YES.

16 Q. OKAY.

17 A. BUT I STILL DON'T REMEMBER WORKING ON IT. I SEE IT

18 BUT I STILL DON'T REMEMBER WORKING ON IT.

19 Q. OKAY. BUT YOU DO REMEMBER TALKING TO CHAD AND YOU

20 DO REMEMBER TEXTING YOUR WIFE COME AND GET ME? SIR?

21 A. YES. NOW THAT I SEE IT. YES.

22 Q. YOU DO REMEMBER TEXTING YOUR WIFE COME GET YOU AND

23 YOU REMEMBER TALKING TO CHAD, RIGHT?

24 A. YES. NOW THAT I'VE SEEN IT.

25 Q. OKAY.

1 A. BUT I STILL DON'T REMEMBER LOOKING AT THE TIRE
2 CHANGER AFTER ---

3 Q. OKAY. AND DO YOU REMEMBER IF YOU TOLD CHAD THAT YOU
4 WERE OKAY?

5 A. I TOLD CHAD -- I DO REMEMBER TELLING CHAD I COULDN'T
6 HEAR.

7 Q. OKAY. DID YOU TELL HIM -- OKAY. DID YOU TELL
8 ANYBODY ELSE YOU COULDN'T HEAR?

9 A. EVERYBODY IN THAT SHOP.

10 Q. OKAY.

11 A. JAMES WASN'T THERE.

12 Q. SO AND WAS THIS WHEN YOU WERE TELLING LITTLE MAN
13 THAT YOU COULDN'T HEAR RIGHT THERE?

14 A. AND ASKING HIM TO DO SOMETHING I THINK.

15 Q. OKAY. TO HELP FIX THE MACHINE?

16 A. MOST LIKELY IF THAT'S WHAT I WAS I WAS DOING.

17 Q. WAS THAT WHAT YOU WERE DOING?

18 A. THAT'S WHAT IT LOOKS LIKE.

19 Q. WHAT, DID HE JUST BRING YOU SOMETHING FROM THE
20 MACHINE?

21 A. A TOOL OR A CLAMP.

22 Q. SO YOU'RE DOING ALL THAT; YOU DON'T REMEMBER ANY OF
23 THAT?

24 A. NO.

25 Q. AND YOU TOLD HIM YOU COULDN'T HEAR AND THEN BRING

1 YOU THE TOOL AND THE CLAMP IS WHAT YOU'RE TELLING ME
2 TODAY?

3 A. IT'S LIKE I SAID, I STILL DON'T REMEMBER WORKING ON
4 THAT.

5 Q. BUT YOU COULDN'T HEAR WHAT HE WAS SAYING TO YOU?

6 A. NO.

7 Q. BUT YOU TOLD HIM TO GO GET YOU SOMETHING ---

8 A. IF YOU WANT ---

9 Q. --- TO FIX THE MACHINE EVEN THOUGH YOU COULDN'T HEAR
10 ANYTHING?

11 A. IF YOU LOOK AT HIM, I HAVE TO LOOK AT HIM BECAUSE I
12 COULDN'T HEAR HIM. UH-UH.

13 Q. BUT YOU WENT TO RIGHT TO WORKING ON THAT MACHINE,
14 DIDN'T YOU? I MEAN, THIS IS WITHIN THE FIVE MINUTES
15 OF THIS ACCIDENT TAKING PLACE, YOU'RE DEAF BUT YOUR
16 STILL GOING TO FIX THE MACHINE?

17 A. I HAVE SIX KIDS. I DO WHATEVER I HAVE TO TO SUPPORT
18 MY FAMILY.

19 Q. OKAY.

20 BY MR. LIIPFERT:

21 I DON'T THINK I HAVE ANYTHING FURTHER.

22 BY COMMISSIONER BARDEN:

23 MR. STORY.

24 BY MR. STORY:

25 A COUPLE, YOUR HONOR. I'M LOOKING RIGHT HERE.

1 CAN YOU PUT THAT ON 15, 16? I DON'T WANT TO ASK A
2 QUESTION IF I FIND -- RIGHT BEFORE THAT. OKAY. HOW
3 ABOUT LIKE A MINUTE OR SO BEFORE?

4 BY MR. LIIPFERT:

5 SURE.

6 BY MR. STORY:

7 OKAY. WELL THAT -- WELL, THAT'S FINE. THAT'S
8 FINE RIGHT THERE, WORTH.

9 CROSS EXAMINATION BY MR. STORY:

10 Q. MR. CRANE, MY NAME'S MATT STORY. I REPRESENT THE
11 UNINSURED EMPLOYERS' FUND AND I GOT A COUPLE OF
12 QUESTIONS FOR YOU.

13 A. UH-HUH.

14 Q. THIS ITEM RIGHT HERE (INDICATING), THAT'S NOT YOUR
15 HAT IS IT?

16 A. NO. MY HAT'S -- WELL, YOU'LL ---

17 Q. THIS IS BEFORE?

18 A. YEAH.

19 Q. THIS IS -- OKAY. HERE YOU COME. YOU'RE WEARING
20 YOUR HAT?

21 A. YES.

22 Q. SO THAT'S NOT YOUR HAT?

23 A. NO. MY HAT'S THIS THERE (INDICATING).

24 Q. ON YOUR HEAD?

25 A. YES.

1 Q. OKAY. SO AFTER THIS, YOU SAID YOUR HAT GOT BLOWN
2 BEHIND YOU?

3 A. I BELIEVE IT WAS BEHIND ME.

4 Q. OKAY. WELL, HERE -- WE -- I JUST WANT TO WATCH IT
5 'CAUSE I'M TRYING TO FIGURE OUT WHERE YOUR HAT WENT?

6 A. SEE, ME AND ALFIE, WE'RE LOOKING AT IT.

7 Q. OKAY. AND THAT'S -- YOU'RE HOLDING YOUR HEAD.

8 OKAY. YOUR HAT'S NOT BEHIND YOU, IS IT?

9 A. NO. IT WAS IN FRONT OF ME.

10 Q. OKAY. 'CAUSE EARLIER YOU SAID ---

11 A. IT WAS BEHIND ME.

12 Q. I'M TRYING TO UNDERSTAND. EARLIER YOU SAID IT WAS
13 BLOWN BY YOU WITH A PIECE OF SOMETHING?

14 A. YES, IT WAS.

15 Q. BUT APPARENTLY IT WAS NOT?

16 A. IT MOST LIKELY'S GOING TO BE RIGHT THERE ON THIS.

17 Q. IT'S NOT ANYWHERE WE CAN SEE?

18 A. RIGHT.

19 Q. OKAY. SO IT'S -- AND IT'S NOT BEHIND THAT TIRE
20 THAT'S BEHIND YOU?

21 A. NO.

22 Q. OKAY. I JUST WANT TO MAKE SURE WHAT I SAW THERE.

23 I'VE JUST GOT A COUPLE OF MORE QUESTIONS FOR YOU.

24 MR. SAMUELS ASKED YOU ABOUT YOUR WORK BEING DIRECTED

25 BY CHAD OR BY MR. RABER?

1 A. YES.

2 Q. OKAY. BUT I WANT TO KNOW WHAT IT MEANS WHEN THEY
3 SAY DIRECTED YOUR WORK. OKAY? YOU'RE THE PRO
4 MECHANIC IN THE SHOP; IS THAT RIGHT?

5 A. CORRECT.

6 Q. YOU'RE THE BEST MECHANIC THERE IS IN THIS SHOP?

7 A. AT -- AT THE TIME, YES.

8 Q. OKAY. YOU KNOW MORE ABOUT BEING A MECHANIC THAN
9 ANYBODY ELSE?

10 A. IN AT THE SHOP AT THE TIME? YES.

11 Q. OKAY. AND WHAT YOU DO IS YOU USE YOUR SKILL AS A
12 MECHANIC TO DO YOUR JOB?

13 A. YES.

14 Q. OKAY. YOU USE YOUR TOOLS TO DO YOUR JOB?

15 A. YES.

16 Q. OKAY. WHEN -- WHEN A JOB COMES IN, IS IT ASSIGNED
17 TO YOU?

18 A. YES.

19 Q. OKAY. AND YOU GET A JOB, AND WHAT'S THE EXAMPLE OF
20 A JOB, IS IT CHANGE TIRES?

21 A. WHETHER IT'S CHANGE TIRES, DO AN ALIGNMENT, OIL
22 CHANGE, FRONT END PARTS, BRAKES.

23 Q. OKAY.

24 A. TUNE UPS, WATER PUMPS, RADIATORS, OR EVEN
25 DIAGNOSTICS.

1 Q. OKAY. AND WHEN YOU GET THOSE JOBS, YOU'RE NOT TOLD
2 HOW TO DO THOSE THINGS, ARE YOU? MR. RABER DOESN'T
3 SAY "I WANT YOU TO CHANGE THESE TIRES, AND I WANT
4 YOU TO GO TO THE RACK, AND I WANT YOU TO PUT THIS
5 TIRE ON THIS WHEEL, AND I WANT YOU TO PUT IT ON THIS
6 THING AND I WANT YOU TO BOLT IT IN IN THIS MANNER"?
7 THEY DON'T TELL YOU HOW TO DO YOUR JOB?

8 A. NO. NO.

9 Q. OKAY.

10 A. NO.

11 Q. OKAY. YOU ---

12 A. NOT STEP BY STEP.

13 Q. --- NOT -- THEY JUST SAY "CHANGE THE TIRES"?

14 A. RIGHT.

15 Q. AND IN THE END, YOU GIVE THEM A RESULT, CHANGED
16 TIRES; IS THAT RIGHT?

17 A. (WITNESS NODS HEAD)

18 BY COMMISSIONER BARDEN:

19 IS THAT A YES?

20 BY THE WITNESS:

21 YES.

22 CROSS EXAMINATION BY MR. STORY:

23 Q. OKAY. THEY DON'T TELL YOU HOW TO DO IT; THEY WANT
24 TO GET A RESULT FROM YOU; IS THAT FAIR?

25 A. CORRECT.

1 Q. OKAY. IF THEY GOT A BRAKE JOB, THEY SAY "DO ME A
2 BRAKE JOB." YOU FIGURE OUT WHAT'S NEEDED, CORRECT?

3 A. YES.

4 Q. YOU FIGURE OUT IF YOU NEED TO -- TO TAKE DOWN THE
5 ROTORS, PUT IN NEW PADS, IF THEY'RE GOOD; YOU MAKE
6 ALL THOSE DETERMINATIONS?

7 A. TO A CERTAIN EXTENT. HE HAS TO APPROVE IT.

8 Q. SURE. BUT HE'S APPROVING IT BASED ON WHAT YOU'RE
9 TELLING HIM?

10 A. CORRECT.

11 Q. HE'S NOT -- HE'S NOT GOING IN AND SAYING "I WANT YOU
12 TO CHECK THIS ROTOR AND THIS ROTOR AND THIS ROTOR."
13 YOU NORMALLY CHECK ALL OF THOSE THINGS?

14 A. RIGHT.

15 Q. OKAY. AND YOU KNOW TO COME IN AND MAKE YOUR
16 ASSESSMENT OF THIS IS WHAT I THINK NEEDS TO BE DONE?

17 A. YES.

18 Q. AND THEN YOU ACTUALLY DO THE WORK?

19 A. YES.

20 Q. NOBODY STANDS OVER YOU WHILE YOU'RE DOING THE WORK
21 WATCHING YOU DO THE WORK?

22 A. NOT EVERY DAY, NOT RIGHT OVER TOP OF ME BUT YES.

23 Q. OKAY. DO PEOPLE COME AND THEY WATCH YOU AND THEY
24 CHECK AND MAKE SURE THINGS ARE GETTING DONE?

25 A. YEAH.

1 Q. BUT YOU'RE DOING THE WORK?

2 A. YES.

3 Q. OKAY. I JUST WANT TO MAKE SURE I UNDERSTAND. YOU
4 USE YOUR OWN TOOLS; IS THAT CORRECT?

5 A. RIGHT.

6 Q. EVERY SHOP YOU'VE WORKED IN -- YOU'VE WORKED IN
7 OTHER SHOPS; IS THAT CORRECT?

8 A. YES.

9 Q. EVERY SHOP YOU'VE WORKED IN, SOMEBODY PROVIDES THE
10 BUILDING?

11 A. RIGHT.

12 Q. SOMEBODY PROVIDES THE BAYS?

13 A. CORRECT.

14 Q. SOMEBODY PROVIDES THE LIFTS?

15 A. YES.

16 Q. SOMEBODY PROVIDES THE TIRE -- THE BALANCER OR THE
17 TIRE MACHINE AND EVERYTHING?

18 A. YES.

19 Q. YOU CAN'T BE A MECHANIC WITHOUT THOSE PIECES?

20 A. CORRECT.

21 Q. OKAY. BUT IN ORDER TO BE THE MECHANIC, YOU'VE GOT
22 TO STEP IN TO DO IT?

23 A. YES.

24 Q. OKAY. I WAS A LITTLE CONFUSED. YOU SAID YOU TOOK
25 YOUR TRUCK AND YOU MOVED A TRAILER?

1 A. YES.

2 Q. IS THAT THE DAY THIS ACCIDENT HAPPENED?

3 A. YES.

4 Q. OKAY. SAME DAY YOU -- YOU HOOK UP YOUR TRUCK TO A
5 TRAILER, YOU MOVE IT AROUND AND YOU PARK IT?

6 A. YES. I MOVE IT FROM THIS SIDE OF THE BUILDING
7 (INDICATING) ALL THE WAY AROUND TO THIS SIDE.

8 Q. OKAY.

9 A. SO THAT THEY -- WHOEVER IT WAS SOLD -- BOUGHT THE
10 PORTABLE BUILDING CAN GET IT MOVED.

11 Q. OKAY.

12 A. AND THEN I BROUGHT IT BACK AROUND, AND THE TIRE
13 TRAILER WITH THE TIRES ARE STILL SITTING IN THE
14 EXACT SAME SPOT I LEFT IT.

15 Q. OKAY. WHEN YOU DO THAT, YOU SAID THAT YOU HAD A
16 PROBLEM WITH YOUR SHOCKS?

17 A. YES. I HAD SOME PROBLEMS ---

18 Q. --- FROM DOING THAT?

19 A. YES.

20 Q. OKAY. AND THEN YOU GO TO CHAD, AND CHAD SAYS
21 BECAUSE YOU MOVED IT, ORDER NEW SHOCKS?

22 A. LIKE HE -- LIKE CHAD SAID, IT BROKE WHILE YOU WERE
23 MOVING HIS TRAILER, HE SAID, I'D ORDER IT, YOUR NEW
24 SHOCKS TO PUT ON IT.

25 Q. OKAY. THAT'S WHAT SO ---

1 A. I SAID, "SO THAT'S WHAT YOU WANT ME TO DO?" HE
2 SAID, "WELL, I'M TELLING YOU GO AHEAD."

3 Q. OKAY. SO YOU ORDERED THEM AND GOT THEM THE SAME
4 DAY?

5 A. YES.

6 Q. OKAY. AND THEN YOU GO AND YOU HAVE ALFIE PUT THEM
7 ON?

8 A. YES.

9 Q. OKAY. NOW, YOU DON'T KNOW WHAT ALFIE'S RELATIONSHIP
10 IS WITH MR. RABER, DO YOU?

11 A. NO.

12 Q. OKAY.

13 A. I MEAN, HE'S JUST ANOTHER EMPLOYEE LIKE I WAS.

14 Q. WELL, YOU SIGNED THE INDEPENDENT CONTRACT, RIGHT?
15 YOUR UNDERSTANDING WAS YOU WERE AN INDEPENDENT
16 CONTRACTOR?

17 A. WELL, EVERYBODY HAS SIGNED THAT.

18 Q. I WASN'T -- I KNOW, BUT I WANT TO TALK ABOUT YOU.
19 YOU KNOW THAT WHAT YOU SIGNED CALLED YOU AN
20 INDEPENDENT CONTRACTOR?

21 A. TO A CERTAIN EXTENT, YES.

22 Q. I UNDERSTAND THAT AND I KNOW WE'RE HERE OVER A LEGAL
23 QUESTION, BUT THAT'S WHAT YOU SIGNED?

24 A. YES.

25 Q. OKAY. EVERYBODY ELSE DID THE SAME THING?

1 A. YES.

2 Q. DID YOU SEE THEM DO THAT?

3 A. YES.

4 Q. SO YOU WATCHED?

5 A. SOME OF -- SOME OF THEM.

6 Q. OKAY. SO YOU WATCHED OTHER PEOPLE SIGNED OUT THE --
7 -

8 A. NOW, ALFIE, I DIDN'T REMEMBER SEEING HIM. BUT ME,
9 CHAD, AND PERNELL SIGNED OURS ALL AT THE SAME TIME.

10 Q. OKAY. SO YOU WATCHED OTHER PEOPLE DO THAT THE SAME
11 TIME. SO YOUR UNDERSTANDING WAS YOU WERE AN
12 INDEPENDENT CONTRACTOR?

13 A. THAT'S ---

14 Q. THAT'S WHY YOU SIGNED IT?

15 A. WELL, I HAD TO. I AIN'T GOING TO LOSE MY JOB FOR
16 NOT SIGNING IT.

17 Q. I UNDERSTAND THAT, BUT THAT'S WHY YOU SIGNED IT.
18 YOU WERE TOLD TO SIGN IT, YOU READ IT; IS THAT
19 CORRECT?

20 A. FROM WHAT I CAN UNDERSTAND OF IT, YES.

21 Q. OKAY. YOU SIGNED YOUR NAME SAYING YOU READ IT?

22 A. YES.

23 Q. YOU DIDN'T SIGN YOUR NAME WITHOUT READING IT, DID
24 YOU?

25 A. TO THE BEST OF MY ABILITY. I HAVE PROBLEMS WITH

1 READING.

2 Q. YOU'RE A HIGH SCHOOL GRADUATE?

3 A. YES.

4 Q. READ THE NEWSPAPER?

5 A. NOT COMPLETELY, NOT AND UNDERSTAND EVERY WORD.

6 Q. OKAY. BUT YOU WATCH T.V., YOU SEE THINGS AND YOU
7 CAN READ AND YOU KNEW THEY ASKED YOU TO SIGN
8 SOMETHING, AND YOU SIGNED IT?

9 A. YES.

10 Q. OKAY.

11 BY COMMISSIONER BARDEN:

12 DO YOU HAVE PROBLEMS READING?

13 BY THE WITNESS:

14 YES, MA'AM.

15 BY COMMISSIONER BARDEN:

16 HAVE YOU ALWAYS HAD PROBLEMS READING?

17 BY THE WITNESS:

18 YES, MA'AM.

19 CROSS EXAMINATION RESUMED BY MR. STORY:

20 Q. HAVE YOU EVER ---

21 BY COMMISSIONER BARDEN:

22 UNDERSTANDING WORDS OR WHAT?

23 BY THE WITNESS:

24 THEY -- WHEN I WAS IN SCHOOL, THEY PUT ME IN
25 E.S.E., SAYING IT WAS DYSLEXIC. AND THEN I HAVE

1 TRIED TO GET MY TRANSCRIPT FROM SCHOOL, BUT THEY SAY
2 THAT SINCE IT HAS BEEN SO LONG THAT THEY DON'T HAVE
3 IT NO MORE.

4 BY COMMISSIONER BARDEN:

5 WHAT DO YOU NEED ---

6 BY THE WITNESS:

7 WHERE WOULD I GO TO FIND THAT?

8 BY COMMISSIONER BARDEN:

9 WHAT DO YOU NEED YOUR TRANSCRIPT FOR?

10 BY THE WITNESS:

11 FOR OPPORTUNITIES LIKE WITH JAMES. JAMES KNEW
12 I HAD PROBLEMS READING.

13 BY COMMISSIONER BARDEN:

14 ALL RIGHT. THANK YOU.

15 BY MR. STORY:

16 THANK YOU, COMMISSIONER.

17 CROSS EXAMINATION RESUMED BY MR. STORY:

18 Q. BUT YOUR POSITION IS THAT Y'ALL WERE ALL WORKING AT
19 THE TIME OF THIS INCIDENT?

20 A. UH-HUH.

21 Q. AND WHEN YOU BROUGHT YOUR TRUCK IN, YOU ORDERED THE
22 SHOCKS, THEY COME THE SAME DAY; IS THAT CORRECT?

23 A. YES.

24 Q. AND YOU'RE ON THE CLOCK, AND ALFIE'S ON THE CLOCK;
25 IS THAT CORRECT.

- 1 A. YES.
- 2 Q. BUT YOU ---
- 3 A. I'VE WORKED ON CHAD'S TRUCK, JAMES'S TRUCKS, MARIE'S
- 4 CAR, ON -- I MEAN, IT'S PULL IT IN. IF WE WERE
- 5 SLOW, PULL IT IN, DO WHAT YOU DO AND THEN THERE YOU
- 6 GO.
- 7 Q. AND YOU GET PAID FOR THAT?
- 8 A. YES. I MEAN, I'D NEVER CLOCK ---
- 9 Q. REGULAR PAY?
- 10 A. I'VE NEVER CLOCKED OUT AND CLOCKED BACK IN.
- 11 Q. OKAY. AND YOU'D NEVER SEEN ANYBODY ELSE CLOCK OUT
- 12 AND CLOCK BACK IN ---
- 13 A. NO.
- 14 Q. --- TO DO THAT? BUT IN THIS CASE, YOU PAY ALFIE TO
- 15 WORK ON YOUR CAR; IS THAT RIGHT?
- 16 A. THAT'S WHY I SWAPPED THE TOOLS WITH ALFIE. HE
- 17 WANTED TO DO IT, AND I FELT -- DIDN'T FEEL LIKE
- 18 WORKING ON IT.
- 19 Q. SURE. BUT HE WAS SUPPOSED TO WORK. HE WAS THERE
- 20 WORKING LIKE YOU WERE?
- 21 A. UH-HUH.
- 22 Q. SO HE WAS SUPPOSED TO WORK IF THERE'S WORK TO BE
- 23 DONE, BUT YOU PAID HIM IN TOOLS TO DO THIS
- 24 PARTICULAR JOB ON YOUR TRUCK?
- 25 A. RIGHT.

1 Q. OKAY.

2 A. HE WANTED THE TOOLS, AND I WAS LIKE YOU -- YOU KNOW,
3 IF YOU DO THAT, I'LL JUST GIVE YOU MY TOOLS THEN AND
4 ---

5 Q. SURE. SO YOU PAID HIM SOMETHING IN ---

6 A. --- I HAVE.

7 Q. YOU MADE A -- AN ADDITIONAL DEAL WITH HIM TO DO THAT
8 WORK?

9 A. YES.

10 Q. OKAY. NOW, LET ME ASK YOU ABOUT SEEING DR. ROGERS.
11 YOU SAID HE'S A NICE GUY, YOU'S -- BUT THEN YOU SAID
12 YOU WEREN'T REAL HAPPY WITH HIM. YOU'VE MET HIM ONE
13 TIME; IS THAT CORRECT?

14 A. RIGHT. HE SAT ME -- HE'S A NICE GUY. THE ONLY
15 THING I DIDN'T LIKE OR WAS UNHAPPY IS THE WAY I FELT
16 WHEN I LEFT.

17 Q. SURE. SURE. BUT YOU'VE MET HIM ONE TIME?

18 A. YES.

19 Q. YOU DON'T HAVE AN ONGOING RELATIONSHIP WITH HIM; IS
20 THAT CORRECT?

21 A. NO.

22 Q. OKAY. NOW, YOU DROVE FROM BARNWELL TO GREENVILLE TO
23 SEE HIM?

24 A. MY WIFE, YES.

25 Q. ALMOST THREE HOURS?

- 1 A. YES.
- 2 Q. OKAY. ABOUT 160 MILES AWAY?
- 3 A. I'M ---
- 4 Q. ABOUT THREE HOURS?
- 5 A. ABOUT THAT.
- 6 Q. OKAY. SO IF WE DO 60 -- IF Y'ALL GO 60 MILES AN
- 7 HOUR, THAT'S ABOUT 180 MILES. ORANGEBURG FROM WHERE
- 8 YOU LIVE IS ABOUT 35 MILES; IS THAT RIGHT?
- 9 A. APPROXIMATELY.
- 10 Q. OKAY. BEAUFORT, WHERE WE ARE -- WE'RE IN PORT ROYAL
- 11 NEAR BEAUFORT, BEAUFORT IS ABOUT 72 MILES FROM YOU;
- 12 IS THAT RIGHT?
- 13 A. IT'S -- BY THE G.P.S., I REMEMBER THIS 'CAUSE OF
- 14 WATCHING THE -- MY WIFE PROGRAM IT WAS SEVENTY-SEVEN
- 15 POINT TWO.
- 16 Q. THERE YOU GO. SO A LITTLE BIT OVER AN HOUR TO GET
- 17 TO BEAUFORT. SO ALL OF THOSE PLACES ARE CLOSER TO
- 18 YOU THAN GREENVILLE IS; IS THAT RIGHT?
- 19 A. YES.
- 20 Q. YOU'VE TALKED ABOUT BEING A VOLUNTEER FIREMAN. YOU
- 21 STILL PARTICIPATE AS A VOLUNTEER FIREMAN; IS THAT
- 22 RIGHT?
- 23 A. AS MUCH AS I CAN.
- 24 Q. OKAY. SO YOU HAVEN'T QUIT DOING THAT; YOU JUST HAVE
- 25 DIFFERENT DUTIES NOW?

1 A. YES.

2 Q. OKAY. HOW MANY FIRES DID YOU EVER WORK AN ACTUAL
3 FIRE BEFORE THIS ACCIDENT?

4 A. SEVERAL.

5 Q. WHAT'S SEVERAL MEAN, FIVE?

6 A. OVER THE FIVE YEARS I'VE BEEN ON THAT DEPARTMENT,
7 PROBABLY SIX ---

8 Q. OKAY.

9 A. --- HOUSE FIRES.

10 Q. SIX WHEN YOU GO OUT AND YOU'VE ACTUALLY GOT TO PUT A
11 FIRE OUT?

12 A. YES.

13 Q. OKAY.

14 A. AND THEN THE BRUSH FIRES. CAR WRECKS, I'VE PROBABLY
15 DONE NINE DIFFERENT CARS.

16 Q. OKAY.

17 A. PROBABLY ABOUT TEN OR THIRTEEN DIFFERENT BRUSH
18 FIRES.

19 Q. OKAY. SINCE THIS ACCIDENT, HOW MANY HOUSE FIRES
20 HAVE THERE BEEN THAT THEY DIDN'T LET YOU GO OUT TO,
21 SINCE FEBRUARY TO NOW AND JUNE?

22 A. ABOUT TEN.

23 Q. SO THERE HAVE BEEN TEN HOUSE FIRES IN THE LAST FOUR
24 MONTHS?

25 A. THAT WE WERE AFFILIATED WITH, WHETHER IT WAS OUR

1 DEPARTMENT OR BACKUP FOR SOMEBODY ELSE.

2 Q. BUT I'M TRYING TO UNDERSTAND. IN THE FIVE YEARS
3 BEFORE THIS ACCIDENT, YOU WORKED TEN HOUSE FIRE --
4 YOU WORKED SIX HOUSE FIRES TOTAL?

5 A. YES. I ALSO WORKED IN ATLANTA AS WELL.

6 Q. OKAY. BUT SINCE THIS, IN THE LAST FOUR MONTHS THERE
7 HAVE BEEN TEN HOUSE FIRES ---

8 A. RIGHT.

9 Q. --- THAT YOU COULDN'T WORK ON?

10 BY COMMISSIONER BARDEN:

11 IS THAT A YES?

12 CROSS EXAMINATION RESUMED BY MR. STORY:

13 Q. IS THAT A YES?

14 A. YES.

15 Q. OKAY. I APPRECIATE THAT.

16 A. BUT SEE, LIKE I SAY, BEFORE I WAS ALSO WORKING IN
17 ATLANTA SO I WASN'T HERE ALL THE TIME LIKE I WAS --
18 AND THAT'S ONE THING I DID LIKE ABOUT JAMES. JAMES
19 WAS VERY UNDERSTANDING AND WOULD LET YOU GO IF WE
20 WEREN'T BUSY.

21 Q. SURE.

22 BY MR. STORY:

23 THAT'S ALL THE QUESTIONS I HAVE COMMISSIONER.

24 THANK YOU.

25 BY COMMISSIONER BARDEN:

1 OKAY. MR. SAMUELS, ANY OTHER QUESTIONS?

2 RE-DIRECT EXAMINATION BY MR. SAMUELS:

3 Q. LET ME ASK YOU ABOUT THIS INDEPENDENT CONTRACTOR
4 AGREEMENT. HOW LONG HAD YOU BEEN WORKING WHEN YOU
5 SIGNED THAT?

6 A. A COUPLE OF WEEKS, A MONTH MAYBE.

7 Q. HAD YOU ALREADY RECEIVED A PAYCHECK BEFORE THEN?

8 A. A COUPLE OF THEM.

9 Q. YOU'VE ALREADY HAD ---

10 BY MR. SAMUELS:

11 SCRATCH THAT.

12 RE-DIRECT EXAMINATION RESUMED BY MR. SAMUELS:

13 Q. WHO'S TRAILER WAS IT THAT YOU'D HAULED AROUND THE
14 BUILDING THAT HAD THE TIRES ON IT?

15 A. MR. JAMES'S.

16 Q. WHO'S MACHINE WERE YOU WORKING ON AND BENDING OVER
17 WHEN YOU WERE INJURED?

18 A. MR. JAMES'S.

19 Q. HAS -- HAVE YOU BEEN SENT BY THE UNINSURED
20 EMPLOYERS' FUND OR RABER TIRE TO ANY DOCTORS,
21 ORANGEBURG, BEAUFORT, ANYWHERE?

22 A. NONE OF THOSE.

23 Q. AND YOU WENT TO DR. ROGERS. DID HE MAKE YOU FEEL
24 BAD BECAUSE HE WAS MEAN TO YOU OR BECAUSE OF THE WAY
25 YOU WERE?

1 A. 'CAUSE OF THE WAY I ---

2 BY MR. STORY:

3 I'M GOING TO OBJECT, YOUR HONOR, AS TO WHAT WAS
4 IN DR. ROGER'S MIND WHEN HE WAS DOING ANY OF HIS
5 ANALYSIS.

6 BY COMMISSIONER BARDEN:

7 WELL, I'M GOING TO LET HIM TESTIFY AS TO WHAT
8 HIS FEELINGS WERE AFTER HE LEFT. AND TO NOT TO WHAT
9 DOCTOR -- NOT TO WHAT -- HE BELIEVES DR. ROGERS DID
10 OR SAID BUT JUST WHAT HIS OWN FEELINGS WERE, AND
11 I'LL ALLOW HIM TO TESTIFY. GO AHEAD, SIR.

12 BY THE WITNESS:

13 ABOUT HOW HE MADE ME FEEL?

14 BY MR. SAMUELS:

15 YES, SIR.

16 BY COMMISSIONER BARDEN:

17 HOW DID YOU FEEL? NOT HOW DID HE MAKE YOU, HOW
18 DID YOU FEEL WHEN YOU LEFT?

19 BY THE WITNESS:

20 DEPRESSED, AGGRAVATED, HOPELESS, LIKE A
21 FAILURE.

22 (RECORDING DEVICE MALFUNCTIONED AT 1:32 P.M. AND LAST
23 LESS THAN ONE MINUTE OF HEARING WAS NOT RECORDED)

24 (THERE BEING NO FURTHER QUESTIONS, THIS HEARING WAS
25 CONCLUDED AT THE HOUR OF 1:33 P.M.)
