**Objection to Respondent's Response to Appellant request for Extension of Time**

---

Comes now, Hayes, Demetric by special appearance responding to the respondent's response to my motion of continuance. I am objecting to the respondent's attorney due to the fact that it was the action of his client that has cause the delay in completing the requirements for this appeal case.

The respondent had an auction on my property in April 2017, even though there was an active appeal case that was not dismissed. It seems that the respondent did not take advantage of consulting legal advice before moving forward to auction my property. All of this could have been avoided if the respondent had consulted with their attorney, who could have pointed out Rule 241 under the South Carolina Court of Appeals, which would allow the request of a Superseding Bond. In fact, the request for a superseding bond should have been requested after I filed the notice of appeal but the respondent waived the opportunity.

Therefore, base upon the information I stated above, the response of the respondent's attorney should not be considered and my request for extension of time should be granted.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Demetric Hayes", written over a horizontal line.
