REF: Case# 2016-000598

Ms. Allen:

I have reviewed the timelines stated in your letter and therefore has concern. SC Court of Appeals in the non-dispositional Order dated October 31, 2017 stated that Appellant Record on Appeal out of time is granted. The non-dispositional order does not stipulates a specific time but allowed Appellant to submit Record On Appeal because of verification of Respondents distortions to this COURT. Appellant informed the COURT and submitted many written verifications of Respondents' distortions that went ignored. I do believed that the COURT allowed Appellant to served record out of time because of previous orders in error based on verification of distortions by Respondents.

Appellant is requesting additional time of up to February 15, 2018 to submit all documents because of the COURT errors, distortions by Respondents that has been verified, excessive documents to complete record, pure harassment and financial burdensome to deny justice.

I request the additional extension by the COURT that will provide assistance in submitting all required documents.

Clarence B. Jenkins Jr.
Pro Se Appellant.
