

To: the court of appeals

My name is Clarence J. Puckett III on Nov. 15 2012 I was sentenced to 10 yrs. by John Hayes III for trafficking cocaine. This being said, there was not nobody to witness, no video, no money transfered's, not even a picture of drugs in my home by police. They say someone came 2 days prior of Aug 21. 09 and witness me sell drugs. When nobody is to witness or no proof of that what so ever. With that said here are a few more facts of my case.

1) First trial by Mrs. Melinda Butler of Union Sq. May, 2010 was mistrial, she was scared to do second trial.

2) Parents hired William Bill Whitney of Union for second trial, come to find out he is City of Union's attorney wanted me to just plead guilty?, Never went to court had to go thru South Carolina Bar to get back money

3) Had to go with Public Defender Misty H. Shelton who quit on count of my trial - she is now in York as solicitor - please contact if needed, she said she wasn't goin to stand for this.

4) This was the third time I was put in front of Judge Hayes for same charges, after mistrial in 2010 I was rearrested and placed back in county jail to bond out again.

5) Whitney tried a sequestered trial for the drug count in front of Hayes III then I was indicted for another charge the day before trial if I didn't plead.

6.) Co-defendant

Travis Anderson with D.S.S. at the time was at my home and sold me \$90 worth of marijuana 5 min later they came with all this.

note: The police pictures of his car show drugs in his back seat. I was at my home and had never been in his car and they claim I took weed for his drugs in his car.

And now Mr Anderson's dad is new city judge

note: I've never been in in trouble like this and it's been hard but I hope I get a chance to prove myself.
