

Dear South Carolina Supreme Court,

I am writing to you regarding new-undisclosed evidence discovered concerning several John Doe civil cases against the Citadel; an educational institution located in Charleston, SC.

(Known case #s 2017-002242 and 2017-002210)--- However others are active in the SC Supreme Court's care.

I have recorded on video tape, Plaintiff Attorney; Gregg Meyers admitting that Citadel Lawyer, Mark Brandenburg called Gregg seeking advice on how to handle accusations from a Camper that came forward in 2007 with allegations of sexual abuse by then, Citadel employee; Louis Skip ReVille.

Gregg Meyers has never shared this information/conversation between himself and the Citadel Lawyer, Mark Brandenburg. Gregg continues to say on tape that he recommended to Mark Brandenburg to go public with Camper's accusations, to blow it up and notify law enforcement. Gregg also states, that even though he made these suggestions the Citadel chose to do the exact opposite. And lastly Gregg noted that this information makes him a witness although he has never been deposed to bring this evidence forward.

I am more than willing to provide/submit my tape as evidence. My hope is that both Mark Brandenburg and Gregg Meyers are deposed and can testify under oath regarding this case material.

Please reach out with any questions or concerns. I look forward to speaking with you.

Thank You for your time,

Sincerely,

Christina Welsh
