RE: CASE 2013 CA 400-0084

DEAR JUDGE LEE,

may the blessings of the one
true God be upon you and yours.

can you please see that the attached
document is immediately filed with
the clerk of court?

The correspondence is to also
LOB

make you aware of one additional
Act of Fraud attempted by the de-
fendants. On October 22, 2015 SCDC
called Cook to the education building
via Ofc Meggett. They were ques-
tioning him about the (B1) page
document appointing you as my
trustee. They were trying to threat-
en and intimidate Cook into saying
he did not sign the document to
make it look like I forged his signa-
ture so they could tell you that
the document is tainted and
cannot be adjudicated by you. This

2015

appears to be their intention. This is the same criminal stunt they pulled in New York in case "183". They with Sharpe in secret Ex parte meetings and investigations called the inmates to inquire to make it look like they did not sign the documents and I forged their signatures. This is how they got case "183" with additional acts of destroying evidence dismissed. We and the inmates there had to file notarized affidavits stating that each of

US ~~indeed~~ signed the documents personally, that the court engaged in Acts of Fraud upon the court, which produced the presently pending case in New York, case "984". This relates to financial statements also.

They may be coming at you with an additional deception judge ~~law~~. I'm giving you notice. Cook did ~~indeed~~ signed the document and due to the default, state and federal laws are of no effect without our consent and I can act as counsel by rights now established
4085

by the default ~~except~~ though Cook
did indeed ~~signed~~ the document.
If you have any questions write
Cook directly and make him re-
spond in writing. He will tell you
he did sign the document. BE
blessed. Still remain,

Execute the document respectfully,
please Judge Lee. Jahan Al Mahdi
