Freeman v. Pres. Jm

Dear Sir:

Enclosed is a check for the Audio of Oral Arguments on Case No. 2010-181306.

I would also like a little more clarity on the certification on this case. Does the court use Rule 220 as a guideline for certification as it does on writs or do they use other guidelines? Statutes 14-8-240 and 14-8-250 require the courts to give a person the State Statutes or Court Rules to understand why their decisions were made. I haven't had anyone at your Court explain to me what information the Justices used or what Justices participated in these cases.

Thank you:
