Re: Appellate Case No. 2017-001724 & 2017-001725

Dear Ms Kitchens;

It is obvious that my layman's understanding of this Court's proceedings are lacking. However, in common sense terms how can this Court be "unable to discover that any material fact or principle of law has been either overlooked or disregarded, . . ." when facts so clearly present that I, as an inmate in the Department of Corrections of South Carolina am being denied the ability to pay the notice to appeal filing fee, and when in postage alone I've paid more than four times that fee. I have funds to pay but the Agency in which I'm being held is so obviously hindering my ability to pay such fee. And that the brief I've filed with this Court so obviously proves corruptions, collaborations, and violates my due process rights. This Court will not hear my brief because the Agency it's filed against is the same Agency that holds me, violating basic due process rights. I'm fighting against a "State" agency in "State" Court! How is this fair and unbiased? How else can I pay the filing fee if the Agency that holds my rights refuses to allow me access? Can someone else pay on my behalf? And how do they go about doing so, if yes?

Due to an event that happened here at Lee CI I am currently unable to properly respond to motions or orders from the Court. Please allow extended time to properly file to this Court.
