RE: Deficiencies,

Dear Ms. Kitchings

In your letter of May 8, 2018, you state that the record on Appeal does not contain the complete record on Appeal in the Administrative Law court as designated in the respondent's designation of matter. A review of the respondents letter of March 22, 2018, states please find enclosed copies of matter we designated for inclusion in the record on Appeal that matter is the Administrative Law Court's order filed Dec. 21, 2017, 6 pages. The first 6 pages of my record on Appeal are the same order we are locked down as a result of the incident at Lee County, no access to the Law library (the court Rules.

Thank you
