

Motion for an Additional
Continuance
S.C. Court of Appeals
Case ~~140~~, 2018-001831

870B3

I am writing this letter for a continued continuance. The literature says that "few courts impose hard and fast rules defining how many continuances will be allowed in a case", A considering reason and merit. As I said, in my previous motion for a continuance, based on illness/ a stroke, that I am still struggling with. On top of the stroke I fell trough my apartment steps which were rotted out and I suffered injuries of my full back and head. The head injury has caused concentration and short term memory problems. I am due for two days of MRI's at 11am on august 30 and 31 at Piedmont Imaging in Spartanburg SC. In addition to the medical issues, I determined that I cannot proceed additionally under 210 because of misconduct by the stenographer in both my hearings. I clearly request cost and transcripts for two court dates, of June 1st which appellants missed because of medical issues. We were granted another hearing on August 1st of 2017. I clearly put both dates on my transcript request. There is no argument from us on the missed motion to dismiss in June 1st 2017. I have talked to the administrator about this a could not get her to understand at the time. I am going to file a misconduct charge on the clerk reporter and submit a thread where the administrator was cc's the thread / email which shows I was asking for both transcripts. Both of which the respondents attorneys have. I am a including a regulation that is under codes for criminal cases but should apply in civil matters also. SCCR 16: Defendant Not Competent, But Likely to Restore. In our case we are plaintiffs.
