CO Court of Appeals

Dear Daniel,

Upon watching the news last night, I had learned the facts, in the evidence lab came clean with a lot of confessions of her illegal workplace misconduct activities. She was forced to tamper & manipulate evidence until it denied accused and alleged drug dealers, a right to a fair trial, upon her confession and clear ~~was~~ concerns of the evidence manipulation, in my case, I would like to persevere criminal charges against her, on behalf of her involvement, inside of their corruption that allowed me to become a victim, due to her negligent acts to participate that have led to many unlawful arrests and illegal convictions of several innocent individuals. I will also like to ask for an immediate release from the Dept. of Corr. and also have her arrested for not coming forth sooner.

I also believe that the removal of all of the corrupt employees involved will help decrease the massive amounts of racism inside of the judicial process of the York County courts. It is also a blessing for her to come forth, it could really help a lot of the wrongly convicted, whose evidence was changed or manipulate in order to gain prosecution, and also railroad and force a lot of victims into sentences or pleas. I am currently fighting my case inside of the supreme court now, all I'm asking for is my right to an fair trial.

Thanks
