Phillip Andrew Bridges, Appellant

v.

Simpsonville Police Dept. Respondent

EMERGENCY MOTION FOR A CONTINUANCE

Now comes the Appellant, named above, Pro Se,
to move this Court for a continuance.

Based on, the Appellant is diabetic and both
of his legs have open wounds or sores
that wont heal. Appellant has a deadline
with the Court that rolls over until
today, 10-15-2018 that he cant make or
satisfy. I build homes with my family

and I'm exposed to the elements. When hurricane Florence made landfall it left a lot of stagnant water behind as it pushed on through. Both my legs got infected and shortly after I had infection all in my body. Doctors were telling me to stay off my feet, if they couldn't get the swelling down and infection out they may have to remove them. As of now infection is gone and Appellant request ~~the~~ the court grant a 2 week continuance and reset date of deadline.

Wherefore the Appellant prays the court grant's his Motion For A Continuance, and reschedule the deadline for early November, or as the Court deems just and proper.
