SC Court of Appeals

To whom may this letter be given to with the court of appeal this is a letter regards of a letter that I wrote to the court of appeal and could you read this letter before decision come about with this matter. I never fully explain myself the correct way in my letter on how things happen on October 28, 2015 since I didn't approach the bench or took the stand November 27-29, 2017 to tell my side of the story of how this event took place at Hampton County Police Department during the interview October 28, 2015 but I would like to explain what happen that night, I was intoxicated that day so I did not had the chance to explain what happen correctly because of officer Captain Russell words and the intoxication the words sounded pressuring, influencing and I also was in a panic mode of what just took place. The questioning of his words that pressure me, influenced me, to lie on myself at the time of the recording I been unaware, I been intoxicated, I been influenced, from Office Captain Russell's words once the interview took place the questioning and influenced words came to a point of me lying on myself and to the officers about the victim getting shot, about the force entry, and saying that the weapon was mines. If you could see that theirs not a sign of force entry, never been a intent to committ a crime, or never was their a sign of using a weapon to committ a crime in this state of matter. And on the scene I asked him what happen while I was at his apartment he said that
