RE:

Trey Williams v. State

Appellate Case No. 2016-001553

RECEIVED

SC Court of Appeals

Motion to Notify Court of Appeals of
Colorable Claims, Concerns, Request and motions
to Assert Due Diligence to prevent undue delay

I move to serve notice to the Court of Appeals that I intend to address a plethora of legal issues that involve fraud of PCR Counsel Charles Brooks which results in misconduct that qualifies for immediate attention to correct and complete a full fair bite at the apple. I will have case laws, litigation and official documents that incontrovertibly demonstrate all claims which will result in me having a evidentiary/ hearing to review all facts and pause or terminate this case currently to readdress lower court proceedings. I have documents that need to be added to record of appeal that does not prejudice any party and I need to amend to the appendix, the amended PCR application that was granted to be perfected over a year ago. I have not gotten any notification of the current status of my appeal, of me being prose or any update status as of the above mentioned date however I will be prose soon as the honorable courts notify me and I will need the SCCID indigent defense to be instructed to be associated with my case solely for the purpose of providing copies for proof of services etc. Appellate Defender LAURA R. BAER was on such prior duties. I am indigent and will need copies of PCR application etc to be added on appendix record. This is a notice of my intentions. *Trey Williams*
