Dear Michelle Owens;

Howdy, Thank you for the phone conversation of last Thursday, Hope things are fine & on an improving basis there.

What I was alluding to then was that the high/higher cost of filing an Appeal, just as it is now!

There should be some ~~way~~ ^{form of} avenue for people, such as myself to ~~have a way~~ ^{the} address grievances of the lower court. It was there that I received all type of irregularities & things not proper for any "court" of a ~~civilized~~ ^{civilized} group of people.

Incidents therewith were!

- 1) That supposed "court" began before we all got seated.
- 2) There were 2 supposed judges, ~~there both~~ were middle age white people.
- 3) Neither one of them identified themselves. After that "gathering" or "meeting", I was able to identify the man there as Henry Bothington.

In my case, there was way too many glaring abnormalities, which were not in keeping with any standard court procedure. Specifically, the Appeal Court, I am confident will remedy much, if not all that junk that occurred; If I just got ~~the~~ ^{sufficient} opportunity to present those facts.

So, if reason prevails, the SC court Administration, in this case will waive & set aside that filing fee as I request.

I remain,.....

P.S. In the unlikely event that the filing fee cannot be ~~abolished~~ ^{forgone}, it would be O.K. for it to be reduced to \$150. That I can do because I have that ~~set~~ set aside for that purpose. over →
