DOC 804 80

I am filling this Appeal on the grounds that I have been wrongfully pushed to displacement not because of anything involving the law, but one who (Apartment managers) is using the court's or should I say misusing the court's to seek personal revenge for the fact that I am going to speak when I am wronged. I also feel that the Judge B.C. Stepp has allowed this things to take place while being completely one sided inspite their Kelly Kerch and

Monique who's last name I am not sure of but have remained absolutely unprofessional while harrasing my family as a whole for their own gradifiati I am looking for fairness at the minimum however I am also submitting a motion.

I am requesting a motion to have the eviction removed off of my name as long as at the time of my Appeal any and all money is due is paid I am also requesting that because of the numerous Attempts that were filed out of Malicious Intent and nothing they of Full Blown harrasment that they being the Defendant's be responsible for all of my Filing fee's meaning the \$250⁰⁰ and also the \$50⁰⁰ for the motion fee. I am also Filing a motion that they allow me out of the remainder

Of my lease but allowing me at least
60 days to find a new place
of residence as long as I
keep my obligations to them up to
date I am also filing a motion
to have the eviction's off of my
daughter's name as she is only 18
and her life just beginning and
shouldn't have to have something
of that magnitude interrupting the
little life of hers that is just
beginning. I also would like to
file a motion that prevents
the defendant's from being able
to discuss any matters in regards
to my family to any other's not
relevant to the case as I
shall do the same. My motion
overall is to be heard so that the
defendant's are not at all

One sided if they could have come up with 1 thing I actually have done other than have struggles by way of having limited financial security I was forced to accept the bond condition. I had no choice and agreed under duress of the idea that my family was once again facing being homeless again after just ~~being~~ ~~done~~ done came from that less than 2 months ago. The courts charged me way above and beyond my only income which one had full knowledge of meaning ~~of~~ ~~of~~ defendant and the judge but they still did it in a way that would then make it impossible for me to actually stick to the compounds of the bond which then left us to be put out with no money at all. While the defendants are captured making light of a serious situation.

A Pawe
