↓ back pain h/a
neck/shoulder pain

PATIENT NAME: McFadden, Jeffery
DATE: 07/19/10
MM: 7902

S: Workman's Comp to the city of Lake City. The patient is here for evaluation of history of driving a small pickup truck on dirt road going between 45 to 55 miles an hour, not sure how fast and when he lost control, the car started to swerve when he tried to avoid a ditch, the car and the truck ended up flipping and rolling. He was unbelted. He does not remember hitting anything in the car as soon as the truck stopped, they call out the door with the truck on its side and he just kind of fell to the ground. Initially did not hurt, but nose was bleeding, then started getting some pain in multiple areas of neck, back, etc. He was taken to McLeod Emergency Room where he had a CT scan of the facial bones, head, C-spine, chest, abdomen, pelvis, and subsequently was told everything was okay, was sent out with Flexeril and Lortabs and with this in mind, he is evaluated. He has never had trouble with any of his body parts before and now he is very stiff and has a lot of complaints of headaches, thigh pains, aching all over shoulder, just left side face in that occipital area. With this in mind, he is evaluated. Social history, he does not smoke cigarettes, or abuse alcohol, and takes no medicines regularly. Again is a water meter reader for Lake City. Family history is positive for maternal uncle with hypertension, father with diabetes mellitus. Past history, he was never hospitalized.

O: Physical examination demonstrates well-developed and well-nourished, black male in no acute distress. PERRLA. EOMs intact. Discs are sharp. TMs are clear. He has got decreased range of motion of the neck in all modalities, particularly anterior flexion and extension. He can rotate the left little better than others, but otherwise it is very limited. Shoulders, he can abduct 90 degrees, because of pain cannot go further. Lungs are clear and quiet. Cardiovascular is regular in rate and rhythm. Abdomen is benign. Straight raising negative for low back pain, but he has got thigh pain anteriorly and has bruising of the right anterior thigh and the left medial thigh. There is abrasion at the right forehead, lower lip, and chin. ER records from McLeod were reviewed.

A: Status post motor vehicle accident with multiple contusion strains, abrasions, etc.

P: We will go ahead and add in Voltaren 75 mg a day with food. Continue on the Flexeril, Lortab. Gave him note for work that I feel like he probably should be out. Otherwise, see me again in four days, otherwise we will go from there. Ice, passive range of motion, observation and we will go from there.

David W. Moon, M.D.

PATIENT NAME: McFadden, Jeffrey
DATE: 07/23/10
MM: 7902

S: Workman's Comp to the City of Lake City. The patient states that he is still having lot of trouble with cervical pain, decreased range of motion, also he is having some low back pain, pain at the anterior thighs and the bruising area of the thighs. With this in mind, he is checked. He reports otherwise, he has no new complaints.

O: Physical examination demonstrates well-developed and well-nourished black male in no distress. PERRLA. Discs are sharp. TMs are clear. He is without oral lesions. Neck has decreased range of motion in modalities. Lungs are clear and quiet. Cardiovascular is regular rate and rhythm. Abdomen is benign. Skin is without rashes. Straight leg raising is positive for anterior thigh pain but no back radiculopathy is noted. Motor sensory and vascular intact. He still has some pain at the anterior thighs, ecchymosis like areas of his thighs. He can abduct his shoulders to 90 degrees without cervical pain, but not any further.

A: Status post cervical strain, lumbar strain, and multiple contusions.

P: We will refill his Lortabs and his Flexeril, get physical therapy consult. We will bring him back again in a week's time for recheck or earlier if need be.

David W. Moon, M.D.

C/O - 1 week f/u - MVA accident.

DATE:	
WEIGHT:	200
TEMP:	97.3
BP:	116/77
PAIN	9-98
LEVEL:	Pain-8

PATIENT NAME: McFadden, Jeffrey
DATE: 07/30/10
MM: 7902

S: The patient is here for evaluation and followup of motor vehicle accident, which occurred on July 16th. He is still having trouble with the neck and low back pain and thigh pain that contuses. He is doing better. He also has pain at the anterior chest area. He otherwise is without complaints. He is yet to go to physical therapy because attempted to get this approved. With this in mind, he is evaluated. He has no other GI, GU, pulmonary, cardiovascular, or musculoskeletal complaints.

O: Physical examination demonstrates well-developed and well-nourished black male in no distress. Neck, he has slight torticollis with the neck being towards his left. He has got decreased range of motion of the neck in all modalities. Range of motion of the left shoulder, he can now raise up to 90 degrees but because of the pain in the neck cannot go further. Lungs are clear and quiet. Cardiovascular is regular rate and rhythm. Abdomen is benign. Straight leg-raising is negative although he complains of low back pain subjectively but no radiculopathy.

A:

1. Status post motor vehicle accident.
2. Cervical strain.
3. Lumbar strain.
4. Contusions, improving.

P: We will go ahead and try reappointment with physical therapy. We will go ahead and place him on Sterapred six-day Dosepak. Continue on the Flexeril, Lortab, and Voltaren. We will bring him back in 10 days to recheck. Otherwise, we will go from there.

Doctor's Statement and Release

To be completed by physician and given to employee/patient. Employee must present this release to the Risk Manager or HR Manager upon completion.

Today, I have treated employee for:

Diagnosis (detail injury or condition treated)

Cx Strain (Neck) Lumbar Strain (Back Low)
multiple contusions

Prognosis (estimate future care and recovery time)

unknown

Employee is: ☐ Not released to return to work
☐ Released for work Full Duty - No Restrictions
☒ Released for restricted work (please specify below)

Restrictions:

meds will make sleepy - "Desk" job only
not to pain and med

I Recommend Employee: ☒ Return for follow up visit on 10 DAY

☐ Go to specialist: ☐ Orthopedic ☐ Physical Therapy

☐ Other: We are trying to get

physical pt approval

S: Workman's Comp to the Lake City. He is really _____ right. He has been to physical therapy, they really have helped him. His pain is decrease from 8 down to 4 over 10 and with this in mind, he is evaluated. He has no other GI, GU, pulmonary, cardiovascular, or musculoskeletal complaints. Neck is doing better. Low back is doing better. He still has some pain at the anterior chest with deep inspiration.

O: Physical examination demonstrates well-developed and well-nourished black male in no distress. He still has decrease range of motion, lateral flexion, extension, and rotation. He has decreased abduction of the left shoulder stopped at about 100 degrees, the right can go up to 140 degrees. Straight raising is positive for low back pain, but no true radiculopathy. Lungs are clear and quiet. Cardiovascular is regular rate and rhythm. Abdomen is benign.

A: Cervical pain, lumbar pain/strain.

P: He has improved greatly. Continue with physical therapy. Continue on medications two more weeks. Hopefully at that time, we will get close releasing him to full activity and see how he does.

S: The patient is here for evaluation and followup through the Workman's Comp. He works for the City of Lake City. This stems from an accident that occurred on 07/16/10. He states he has at least two more physical therapy appointments. He states his cervical spine is doing well, it is his lumbar spine that is giving trouble, still on medications as before. At times he gets pain in the low back, radiates down to both legs, kind of shooting discomfort. If he stands for long period of time, he gets some trouble and with this in mind he is checked. He otherwise is without complaints.

O: Physical examination demonstrates a well-developed and well-nourished black male in no acute distress. Vital signs as recorded. Blood pressure is mildly up. I have asked him to watch this. PERRLA. Neck has good range of motion. Full range of motion of the shoulders. Lungs are clear and quiet. Cardiovascular is regular in rate and rhythm. Abdomen is benign. Straight leg raising is negative bilaterally.

A: Low back pain.

P: At this time, we will schedule MRI of the LS spine. We will go ahead and continue physical therapy. Bring him back in two more weeks. Reevaluate him and we will go from there. If he starts doing better, we will start tapering off his medications.

DATE OF BIRTH:

~~REDACTED~~

MR#:

230582

STUDY:

MRI LUMBAR SPINE

DATE OF STUDY:

09/10/10

REFERRING PHYSICIAN:

Moon

HISTORY: Lumbar disc disease/pain.

TECHNIQUE: MRI of the lumbar spine was performed with multiple sagittal and axial images using the standard pulse sequences.

FINDINGS: MRI demonstrates evidence of moderate mid/lower lumbar spine degenerative changes. No evidence of lumbar compression, bone contusion, or infiltrative disease.

Moderate spinal canal narrowing at L4-5 and L5-S1 are related to large diffuse, posterior disc bulges with extensive hypertrophic ligamentum flavum/facet joint reaction. Moderate bilateral neural foraminal narrowing and disc desiccation also demonstrated at L4-5 and L5-S1. No evidence of erosive or destructive changes are demonstrated.

IMPRESSION:

1. MRI demonstrates moderate lower lumbar spine degenerative changes as discussed in detail above, most notably involving large, diffuse posterior disc bulges at L4-5 and L5-S1 along with hypertrophic changes, which are resulting in moderate spinal canal narrowing at L4-5 and L5-S1 levels, along with bilateral neural foraminal narrowing.
2. No evidence of lumbar compression fracture, bone contusion, or infiltrative disease.

S: The patient is here for evaluation and followup of motor vehicle accident with cervical and lumbar strain. He states that he is doing better with the low back pain. The neck is really doing pretty well. He states that he is actually making some improvement and apparently takes some medications still. With this in mind he is evaluated. No other GI, GU, pulmonary, cardiovascular, or musculoskeletal complaints.

O: Physical examination demonstrates a well-developed and well-nourished black male in no acute distress. Neck has some decreased range of motion and modalities, range of motion of the shoulders. Straight leg raise is negative on the left and right he has little pulling run down the right leg. His MRI demonstrated some diffuse disc disease at L4-L5 and L5-S1 with some mild bilateral neuroforaminal narrowing.

A: Lumbar strain and cervical strain status post motor vehicle accident.

P: We will go ahead and continue with physical therapy for two more weeks. We will bring him back in two more weeks' time to see how he is doing and otherwise we will go from there.

S: The patient is here for evaluation and followup of motor vehicle accident with cervical and lumbar strain. The neck is doing well. The low back is giving him problems. He is going to physical therapy. They put him on machines and stretches him out and gets better but then he gets off the machine and then gets recurrent pain, and with this in mind, he is evaluated. There is a slow and little bit progress, and with this in mind, he is evaluated. No other GI, GU, pulmonary or cardiac complaints.

O: Physical examination demonstrates a well-developed and well-nourished black male, in no acute distress. Neck has relatively good range of motion. No pain with range of motion of the shoulders. Straight leg raising bilaterally is positive at 25 degrees with low back pain. No true radiculopathy is demonstrated at this time.

A: Low back pain, chronic, persistent status post motor vehicle accident. Cervical pain, resolved.

P: We will go ahead and add some Ultram one or two q.i.d. p.r.n. pain. He seems to be having some mood swings by his report. This may be related to chronic pain and destruction of wake-sleep patterns. We will try him on some Cymbalta 30 mg one a day for chronic pain and see what he does and we will go from there. We will bring him back in two weeks to see what he does and get consult with Dr. White for evaluation of possible caudal epidural injection. Otherwise, we will see what he does.

LEVEL:	Pain - 7

PATIENT NAME: McFadden, Jeffrey
 DATE: 10/19/10
 MM: 7902

S: He is here for evaluation and followup, unfortunately the patient _____ is not back yet. He states the back pain is about the same, no particular improvement, and with this in mind, he is checked. He has no other GI, GU, pulmonary, cardiovascular, or musculoskeletal complaints. Apparently, he has an appointment with Dr. Alexander on 10/25/10 for evaluation. He is apparently not going to physical therapy. We will try and see what hold up is here and with this in mind, he is evaluated. He otherwise has no particular GI, GU, pulmonary, cardiovascular, or musculoskeletal complaints.

O: Lungs are clear and quiet. Cardiovascular is regular in rate and rhythm. Abdomen is benign. The patient complains of discomfort and diffuse pain on the left leg. He states he had a cramp last night that cramped up the whole left leg. Straight leg raising is positive at 90 degrees with this behind the right calf. On the left, he has got straight leg raising positive for just a kind of vague diffuse low back pain. He is very slow in moving around the room and apparently uncomfortable.

A: Low back pain, as outlined above.

P: We will place him back on Sterapred six-day Dosepak. We will keep on the Ultram for pain and keep on the Cymbalta as before. I will give him Flexeril 10 mg one every eight hours p.r.n. spasm and we will bring him back to see us again in approximately two weeks to see how he does after he sees Dr. Alexander.

S: The patient comes to the Lake City. He is still having trouble with cervical and lumbar pain. He had some numbness of his left foot. It sounds more like the S1 nerve root, saw Dr. Alexander and got no report from him. We will try to get that. Apparently, there was a snafu, had a break in physical therapy. He said he was out in the yard picking up some trashes and got some trouble with some neck pain and stopped it and with this in mind, he is checked.

O: The patient is a well-developed and well-nourished black male in no acute distress. Neck actually has full range of motion. He complains of pain over the upper thoracic and lower cervical area bilaterally. Full range of motion of the shoulders. Lungs are clear and quiet. Cardiovascular is in regular rate and rhythm. Straight leg raising is positive.

Pain going down leg

PATIENT NAME: McFadden, Jeffrey
DATE: 11/16/10.
MM: 7902

S: The patient is here for evaluation and followup of cervical and lumbar strain. He reports that he is still going to physical therapy. He has not yet been back to Dr. Alexander apparently, there is a snafu there, He is wondered why when he called their office, and with this mind he is checked. He reports that he is doing stuff at the house and moving around pretty good, but if he does anything major lifting or twisting, he gets into problems. He has got occasionally some radiation of pain down the back of the left leg consistent with S1 nerve root. With this in mind, he is checked. He has no other GI, GU, pulmonary, cardiovascular or musculoskeletal complaints.

O: The patient is a well developed and well nourished black male in no acute distress. Vital signs as recorded. Neck has much better range of motion. Full range of motion of his shoulders. Lungs are clear and quiet. Cardiac is regular rate and rhythm. Abdomen is benign. Straight leg raising on the right is negative at 90 degrees, left is positive at 90 degrees with history of some lower back pain, not much of a radiculopathy. Neurovascular is intact.

- A:
1. Status post cervical strain, marked improvement.
 2. Status post lumbar strain, improvement.

P: Continue with physical therapy. Get more aggressive, get him back on the Cymbalta. We will bring him back in two weeks to see how he is doing. Otherwise, we will go from there. Again, we will try and get records from Dr. Alexander to get his reports.

Authorization to Treat**

(To be taken by the Employee/Patient to the Doctor or Emergency Room)

Doctor: DR. DAVID W. MOORE

Address: 325 Mercy St Lake City SC 29560

Please render medical treatment to:

Employee/Patient: Jeffrey McFadden

Supervisor's Name: _____

Date: 11/30/10

** This authorization is for Initial Treatment Only and payment is guaranteed. Further authorization for testing or treatment must be authorized by our Worker's Compensation administrator.

Companion Third Party Administrators

1.877.825.2477

Post Office Box 11447

Columbia, SC 29211-1447

Doctor's Statement and Release

To be completed by physician and given to employee/patient. Employee must present this release to the Risk Manager or HR Manager upon completion.

Today, I have treated employee for: CX & LUMBAR PAIN
Diagnosis (detail injury or condition treated)

Prognosis (estimate future care and recovery time)

Employee is: ☒ Not released to return to work
☐ Released for work Full Duty - No Restrictions
☐ Released for restricted work (please specify below)

Restrictions: NO LIFT > 20 LBS - AVOID CX
AND LUMBAR TWISTING AND BENDING

I Recommend Employee: ☒ Return for follow up visit on 3WK

☐ Go to specialist: ☐ Orthopedic ☐ Physical Therapy

☐ Other: _____

---	-----------------------	---------------------------	----------	-------

InMed

Diagnostic Services of S.C., LLC

PATIENT NAME:	Jeffrey McFadden
DATE OF BIRTH:	██████████
MR#:	230582
STUDY:	MRI LUMBAR SPINE
DATE OF STUDY:	09/10/10
REFERRING PHYSICIAN:	Moon

HISTORY: Lumbar disc disease/pain.

TECHNIQUE: MRI of the lumbar spine was performed with multiple sagittal and axial images using the standard pulse sequences.

FINDINGS: MRI demonstrates evidence of moderate mid/lower lumbar spine degenerative changes. No evidence of lumbar compression, bone contusion, or infiltrative disease.

Moderate spinal canal narrowing at L4-5 and L5-S1 are related to large diffuse, posterior disc bulges with extensive hypertrophic ligamentum flavum/facet joint reaction. Moderate bilateral neural foraminal narrowing and disc desiccation also demonstrated at L4-5 and L5-S1. No evidence of erosive or destructive changes are demonstrated.

IMPRESSION:

1. MRI demonstrates moderate lower lumbar spine degenerative changes as discussed in detail above, most notably involving large, diffuse posterior disc bulges at L4-5 and L5-S1 along with hypertrophic changes, which are resulting in moderate spinal canal narrowing at L4-5 and L5-S1 levels, along with bilateral neural foraminal narrowing.
2. No evidence of lumbar compression fracture, bone contusion, or infiltrative disease.

Michael E. Faulstich, M.D., Ph.D.
Diplomate, American Board of Radiology

MEF/sdb

Diagnostic Services of S.C., LLC

PATIENT NAME:	JEFFREY MCFADDEN
DATE OF BIRTH:	2-26-74
MR#	[REDACTED]
STUDY:	MRI CERVICAL SPINE
DATE OF STUDY	12-14-10
REFERRING PHYSICIAN:	DAVID MOON

HISTORY: Cervical spine pain.

TECHNIQUE: MRI of the cervical spine was performed with multiple sagittal and axial images using the standard pulse sequences.

FINDINGS: MRI demonstrates slight reversal of the normal cervical lordosis, which could reflect muscle spasm. No cervical vertebral body compression fracture, bone contusion, or subluxation.

No cervical disc herniation or spinal canal stenosis demonstrated. Mild mid/lower cervical degenerative changes are noted with mild disc bulge at C5-6. MRI demonstrates normal signal characteristics throughout the cervical spinal cord and vertebral bodies.

IMPRESSION: MRI demonstrates slight reversal of the normal cervical lordosis, which could reflect underlying muscle spasm.

No evidence of cervical vertebral body compression fracture, bone contusion, or spinal canal stenosis.

Michael E. Faulstich, M.D., Ph.D.
Diplomate, American Board of Radiology

Initial Examination

PATIENT ID: 320281

PATIENT: Jeffery Mcfadden

DOB: [REDACTED]

Employer: City of Lake City

Date of Service: 10/25/10

Age: [REDACTED] years old

Occupation: Meter Reader

Referring Physician: Workman's comp., ,

Other Physicians: ; Brown III, Morris, ;

Date of injury/onset:

Date:
07/16/2010

Type:
injury

Chief Complaint: Low back pain.

History of

Present Illness:

Jeffery Mcfadden is a 36 years old, right hand dominant African American male who was involved in a motor vehicle accident on 7/16/10 when he lost control of his vehicle on a gravel road and the car flipped over and hit a tractor parked on the side of the road. Since the accident he has experienced a moderately severe, sharp, stabbing, throbbing pain in the lower back region that radiates down the bilateral legs to the level of the knees at least two times per week. He also complains of numbness and tingling in the left foot and frequent urination. On the visual analog scale, with 10 being most severe, he rates his pain as a 7. The pain is exacerbated by bending, lifting, sitting and prolonged standing and walking. Taking Flexeril and Hydrocodone tends to decrease the pain.

Allergies: .No Known Drug Allergies

Current Meds: Flexeril (SIG: 1 tab po three times a day), Hydrocodone Bitartrate; Ibuprofen (SIG: 1 tab po twice a day)

Past Med Hx: .None

Surgical History: .None reported

Family History: Cancer; Diabetes; Parents: Father-Living; Parents: Mother-Living

Social History: Alcohol use: None; Drug Use: Never; Employment: Full Time; Marital Status: Married; Tobacco: Previous Smoker

REVIEW OF SYSTEMS:

Review of Systems: General, neuro, psychiatric, respiratory, cardiovascular, GI, GU; blood and lymph, EENT, musculoskeletal, skin and endocrine systems are normal except what is noted below:

General: Generalized pain; Musculoskeletal: Joint swelling/stiffness; Musculoskeletal: Leg cramps; Musculoskeletal: Muscle aches; Musculoskeletal: Muscle weakness

000052

PHYSICAL EXAM:

Vitals: HEIGHT: 5'10" WEIGHT: 265 lbs 0 oz BMI: 38.0 B/P: 122/88

Appearance: No acute distress

Psychiatric: Mood and affect were appropriate.

Head: Normocephalic, atraumatic.

Skin: Clean, dry, no lesions, no rashes.

Neuro: Alert and oriented x 3.

FOCUSED EXAM:

Lumbar spine Exam

Appearance: Well developed, well nourished male. Alert and oriented x 3. In no acute distress.

Observation: Normal gait and station

Palpation:

Spinal process: No tenderness

Paraspinous muscles: No tenderness

Skin: intact

Soft tissue triggers: No triggers are palpated

Muscle Spasms: No muscles spasms

Range of Motion: The patient complains of lower back pain with all ranges of motion. However palpation is unremarkable.

Forward Flexion: Full

Extension: Full extension

Hip: Full and painless

Special Tests: A positive bilateral straight leg raise test is noted.

Sitting Straight Leg Raising: Negative

Supine Straight Leg Raising: Negative

Toe Rise and Walk: Normal

Heel Walking: Normal

Tandem Walking: Normal

Muscle Strength:

Hip

Adductors: Normal

Abductors: Normal

Flexors: Normal

Extensors: Normal

Paraspinous Muscles: Normal

Gluteus Maximus: Normal

Quadriceps: Normal

Hamstrings: Normal

Gastrocnemius: Normal

Anterior Tibials: Normal

Neurological Sensory Testing:

Cranial nerves 2-12: Normal

T12-L1: Normal

L1-L5: Normal

S1: Normal

Reflexes:

Patellar Tendon: 2+

Achilles Tendon: 2+

X-ray: Lumbosacral spine AP and lateral 10/25/10 - essentially unremarkable.

MRI of the lumbar spine 9/10/10 - moderate lower lumbar spine degenerative changes, diffuse posterior disc bulges at the L4-5 and L5-S1 levels with hypertrophic changes resulting in moderate spinal canal narrowing at the L4-5 and L5-S1 levels.

ASSESSMENT:

Diagnosis: -Acute low back pain.

PLAN:

PRESCRIPTION: No data for Prescription

1. Electrodiagnostic study of the bilateral lower extremities and lumbosacral spine to rule out a lumbar radiculopathy.
2. Restrictions of no frequent bending at the waist and no lifting greater than 20 lbs.
3. Physical therapy, TIW - Dr. Mary Harpell.

Work Status:

Anthony W. Alexander, M.D. /dsm

EMG/NCS Examination

PATIENT ID: 320281

PATIENT: Jeffery Mcfadden

DOB: [REDACTED]

Employer: City of Lake City

Date of Service: 12/06/10

Age: 22 years old

Occupation: Meter Reader

Referring Physician: Workman's comp., , ;

Other Physicians: Brown III, Morris, ;

Procedure: Jeffery Mcfadden is here today for EMG/NCS of bilateral lower extremities and lumbar spine

Diagnosis: -pain, numbness and tingling in the bilateral lower extremities. More pronounced on the right

Impression: Lumbar Radiculopathy and /or Spinal Stenosis at L5-S1 on the right . For the full report please see scanned documents.

PRESCRIPTION: No data for Prescription

This study was performed and reviewed by,

Anthony W. Alexander, M.D. / SDW

This document was electronically signed on 12/06/10

Pee Dee Orthopedics Assc.

901 East Cheves Street

Florence, SC 29503

843.662.5233

fax 843.432.1022

Test Date: 12/6/2010

Patient: Jeffery McFadden	DOB: [REDACTED]	Physician: Anthony Alexander, MD
Sex: Male	Height: [REDACTED]	Ref Phys: W.C.
ID#:	Weight: [REDACTED]	Technician: Sheila Weaver

Patient Complaints:

Patient is a 110 year-old male who presents with pain, numbness and tingling in the bilateral lower extremities. More pronounced on the right.

Medications

Patient is currently taking SEE CHART LOGIC.

Patient History / Exam:

Patient has no allergy to medications. Patient is independent in activities of daily living and ambulation. Patient's occupation is unemployed. Past medical history is not significant.

EMG & NCV Findings:

All nerve conduction studies (as indicated in the following tables) were within normal limits. All left vs. right side differences were within normal limits.

All F Wave latencies were within normal limits. All F Wave left vs. right side latency differences were within normal limits. All H Reflex left vs. right side latency differences were within normal limits.

Needle evaluation of the Right MedGastroc and the Right Semimembranosus muscles showed slightly increased spontaneous activity and slightly increased polyphasic potentials. The Right Mid Parspnl and the Right LowerParaspnl muscles showed slightly increased spontaneous activity, spontaneous activity, and slightly increased polyphasic potentials. All remaining muscles (as indicated in the following table) showed no evidence of electrical instability.

Impression:

The above electrodiagnostic study reveals evidence of mild chronic L5 - S1 radiculopathy on the right.

Reccomendations:

Continue therapy.

Anthony Alexander, MD

Follow Up Examination

PATIENT ID: 320281

PATIENT: Jeffery Mcfadden
DOB: [REDACTED]
Employer: City of Lake City

Date of Service: 02/02/11
Age: [REDACTED]
Occupation: Meter Reader

Referring Physician: Workman's comp., , ;
Other Physicians: Brown III, Morris, ;

Date of injury/onset:

Date: 07/16/2010
Type: injury

Chief Complaint: Low back pain.

History of Present Illness: Jeffery Mcfadden presents today in follow-up. His therapist, Dr. Mary Harpell, reports that the patient has plateaued with his progress. He does not appear to be making any gains at this point due to increased lower back pain with prolonged standing, walking and sitting. The patient presents today complaining of having severe lower back pain that radiates down the right leg to the foot. On physical examination he has lower back pain with most ranges of motion, especially forward flexion and side bending.

Allergies: No Known Drug Allergies
Current Meds: Flexeril (SIG: 1 tab po three times a day), Hydrocodone Bitartrate; Ibuprofen (SIG: 1 tab po twice a day)

ASSESSMENT:

Diagnosis: -Moderate spinal canal stenosis L4-5/L5-S1 levels.

PLAN:

PRESCRIPTION: CELEBREX (Dosage: 200MG SIG: 1 TAB PO QD WITH FOOD Dispense: 30 Refills: 0 Method: Print); LYRICA (Dosage: 50MG SIG: 1 TAB PO TID Dispense: 90 Refills: 0 Method: Print); NUCYNTA (Dosage: 50MG SIG: 1 TAB PO Q 6 HOURS PRN MODERATE TO SEVERE PAIN Dispense: 40 Refills: 0 Method: Print)

1. Schedule lumbar epidural steroid injection series.
2. Continue physical therapy, TIW, over the next 3-4 weeks.
3. Discontinue Tramadol.
4. Nucynta 50 mg. one p.o. QID PRN moderate to severe pain. I discussed side effects and risks including sedation and

000063

addiction.

5. Discontinue Skelaxin and Naproxen.
6. Start Lyrica 50 mg. one p.o. TID. I discussed side effects and risks including distal extremity swelling and sedation.
7. Start Celebrex 200 mg. one p.o. q day with food. I discussed side effects and risks including GI upset and the sulfa allergy.
8. Carolina brace - the patient was advised to only wear the brace with prolonged standing and walking.
9. Resume previous restrictions.

Work Status:

L4-5 Interlaminar Epidural Steroid Injection #1

PATIENT: Jeffery Mcfadden
DOB: [REDACTED]

Date of Service: 02/11/11
Age: [REDACTED]

Referring Physician: Workman's comp., ; Brown III, Morris, ;
Other Physicians:

History of Jeffery Mcfadden is a 36 years old male who presents today to undergo his first lumbar
Present Illness: epidural steroid injection. The patient rates his pain as a 7/10.

Procedure: L4-5 Interlaminar Epidural Steroid Injection:

The patient was placed on the table in the prone position with his head and chest supported. The C-arm was set up in the AP plane. The image intensifier was tilted caudally to resolve the parallax at the apophyseal rings. The skin over the target area was sterilized with Betadine solution. The anesthetic was instilled over the lamina of L5 and 3 cc's of 1% Lidocaine was used to anesthetize the soft tissue in this regions. Once anesthesia was obtained the epidural needle was advanced in the same plane with the needle touching the superior edge of the L5 lamina before advancing over the interlaminar space. The loss of resistance technique was used to advance the tip of the epidural needle into the epidural space. Needle placement was within the midline. The air tap test was used to confirm placement of the tip of the epidural needle into the epidural space. 1 cc of Isovue-M200 was instilled into the epidural space at the L4-5 level creating a good epiduragram. Aspiration was negative and there were no radiating pains or paresthesias with needle insertion. Then a mixture of 2 cc's of 0.9% Sodium Chloride solution was combined with 1 cc of Methylprednisolone 80 mg. and instilled into the epidural space via the epidural needle. The needle was removed and a sterile Band-Aid was applied over the entrance wound. The patient tolerated the procedure well and there were no complications. The patient will follow-up in two weeks.

Diagnosis: -Moderate spinal canal stenosis L4-5/L5-S1 levels.

PRESCRIPTION: No data for Prescription

Follow Up Examination

PATIENT ID: 320281

PATIENT: Jeffery Mcfadden
DOB: [REDACTED]
Employer: City of Lake City

Date of Service: 04/05/11
Age: [REDACTED]
Occupation: Meter Reader

Referring Physician: Workman's comp., , ;
Other Physicians: Brown III, Morris, ;

Date of injury/onset:

Date: 07/16/2010
Type: injury

Chief Complaint: Low back pain.

History of Jeffery Mcfadden presents today following his third lumbar epidural steroid injection on 3/17/11. Over the past week he has continued to experience moderately severe pain in the lower back region that radiates down the bilateral legs into the calves. On the 0-10 scale, with 10 being the most severe pain that he has ever felt, he rates his lower back pain as a 7. He also rates his leg pain as a 4-5. I have prescribed a lumbar brace for this patient, a Carolina brace. I am not sure as to why the patient has not been provided with the brace.

Present Illness:

Allergies: No Known Drug Allergies
Current Meds: CELEBREX (Dosage: 200MG SIG: 1 TAB PO QD WITH FOOD Dispense: 30 Refills: 0), LYRICA (Dosage: 50MG SIG: 1 TAB PO TID Dispense: 90 Refills: 0), NUCYNTA (Dosage: 50MG SIG: 1 TAB PO Q 6 HOURS PRN MODERATE TO SEVERE PAIN Dispense: 40 Refills: 0), Flexeril (SIG: 1 tab po three times a day), Hydrocodone Bitartrate; Ibuprofen (SIG: 1 tab po twice a day)

ASSESSMENT:

Diagnosis: -Moderate spinal canal stenosis L4-5/L5-S1 levels.

PLAN:

PRESCRIPTION: No data for Prescription

1. Consultation with orthopaedic spine surgery for evaluation of lumbar spinal stenosis.
2. Carolina brace.

000074

3. Hold physical therapy.
4. The patient will follow-up with me two weeks post orthopaedic spine consultation.
5. Repeat MRI of the lumbar spine. The present MRI is over six months old.

P.S. I spoke with the patient's case manager, Sherri Hickman Gore, RN of Carolina Case Management. I discussed the particulars of this patient's case with her. She is well aware. She will attempt to assist him in getting approval for ortho spine consultation and the Carolina Brace.

Occupation: Meter Reader

Referring Physician: Workman's comp., , ;

Other Physicians: Brown III, Morris, ;

Date of injury/onset:

Date:
07/16/2010

Type:
injury

Chief Complaint: Low back pain

History of

Present Illness:

Jeffery Mcfadden presents today in follow-up. Apparently he was involved in a minor motor vehicle accident in February of 2011. He informs me that the insurance company has not approved any of my previous requests to help treat this patient. Apparently they are investigating this accident and question whether this accident has not worsened his condition. Presently he is waiting on an orthopaedic spine surgery evaluation of the lumbar spine, Carolina brace and repeat MRI of the lumbar spine. He continues to suffer from lower back pain, which he rates on the average as a 7-8. However last week the lower back pain was a 10. He also has bilateral leg pain that radiates down to his calves. The pain is approximately an 8 on the 0-10 scale, with 10 being the most severe pain that he has ever felt.

This questionnaire will give your provider information about how your back condition affects your everyday life. Please answer every section by marking the one statement that applies to you. If two or more statements in one section apply, please mark the one statement that most closely describes your problem.

Pain Intensity

- ☐ 0 The pain comes and goes and is very mild
- ☐ 1 The pain is mild and does not vary much.
- ☐ 2 The pain comes and goes and is moderate
- ☐ 3 The pain is moderate and does not vary much
- ☒ 4 The pain comes and goes and is very severe
- ☐ 5 The pain is very severe and does not vary much

Sleeping

- ☐ 0 I get no pain in bed
- ☐ 1 I get pain in bed but it does not prevent me from sleeping well
- ☐ 2 Because of pain my normal sleep is reduced by less than 25%
- ☒ 3 Because of pain my normal sleep is reduced by less than 50%
- ☐ 4 Because of pain my normal sleep is reduced by less than 75%
- ☐ 5 Pain prevents me from sleeping at all

Sitting

- ☐ 0 I can sit in any chair as long as I like
- ☐ 1 I can only sit in my favorite chair as long as I like
- ☒ 2 Pain prevents me from sitting more than 1 hour
- ☐ 3 Pain prevents me from sitting more than 1/2 hour
- ☐ 4 Pain prevents me from sitting more than 10 minutes
- ☐ 5 I avoid sitting because it increases pain immediately

Standing

- ☐ 0 I can stand as long as I want without pain
- ☐ 1 I have some pain while standing but it does not increase with time
- ☐ 2 I cannot stand for longer than 1 hour without increasing pain
- ☒ 3 I cannot stand for longer than 1/2 hour without increasing pain
- ☐ 4 I cannot stand for longer than 10 minutes without increasing pain
- ☐ 5 I avoid standing because it increases pain immediately

Walking

- ☐ 0 I have no pain while walking
- ☐ 1 I have some pain while walking but it doesn't increase with distance
- ☐ 2 I cannot walk more than 1 mile without increasing pain
- ☐ 3 I cannot walk more than 1/2 mile without increasing pain
- ☒ 4 I cannot walk more than 1/4 mile without increasing pain
- ☐ 5 I cannot walk at all without increasing pain

Personal Care

- ☐ 0 do not have to change my way of washing or dressing in order to avoid pain
- ☐ 1 I do not normally change my way of washing or dressing even though it causes some pain
- ☐ 2 Washing and dressing increases the pain but I manage not to change my way of doing it
- ☒ 3 Washing and dressing increases the pain and I find it necessary to change my way of doing it
- ☐ 4 Because of the pain I am unable to do some washing and dressing without help.
- ☐ 5 Because of the pain I am unable to do any washing and dressing without help.

Lifting

- ☐ 0 can lift heavy weights without extra pain
- ☐ 1 can lift heavy weights but it causes extra pain
- ☐ 2 Pain prevents me from lifting heavy weights off the floor
- ☐ 3 Pain prevents me from lifting heavy weights off the floor, but I can manage if they are conveniently positioned (e.g. on a table)
- ☐ 4 Pain prevents me from lifting heavy weights off the floor but I can manage light to medium weights if they are conveniently positioned
- ☒ 5 can only lift very light weights

Traveling

- ☐ 0 get no pain while traveling
- ☒ 1 get some pain while traveling but none of my usual forms of travel make it worse
- ☐ 2 get extra pain while traveling but it does not cause me to seek alternate forms of travel
- ☐ 3 get extra pain while traveling which causes me to seek alternate forms of travel
- ☐ 4 Pain restricts all forms of travel except that done while lying down.
- ☐ 5 Pain restricts all forms of travel

Social Life

- ☐ 0 My social life is normal and gives me no extra pain
- ☐ 1 My social life is normal but increases the degree of pain.
- ☐ 2 Pain has no significant affect on my social life apart from limiting my more energetic interests (e.g. dancing, etc)
- ☒ 3 Pain has restricted my social life and I do not go out very often
- ☐ 4 Pain has restricted my social life to my home
- ☐ 5 I have hardly any social life because of the pain

Changing degree of pain

- ☐ 0 my pain is rapidly getting better
- ☐ 1 my pain fluctuates but overall is definitely getting better
- ☐ 2 my pain seems to be getting better but improvement is slow
- ☐ 3 my pain is neither getting better or worse
- ☒ 4 my pain is gradually worsening
- ☐ 5 My pain is rapidly worsening

Repeated Movement Testing:

Standing Flexion

Standing Extension

Supine Flexion

Prone Extension

Flexion Rotation

Initial Treatment: anal, flexion, modalities

ASSESSMENT pt presents c 4/5 radicular palsy affecting strength, gut function complicated by SE dysfunction, possible L5 whiplash.

Rehabilitation Potential - Excellent Good Fair Poor

Problem List: per distraction gut deviation
dysfunction down involvement

GOALS

STC
☒ Independent with home exercise program
☒ Posture/Gait: increased awareness and application of principles of posture
☒ ROM 10°
☒ Strength 1/2
☒ Pain Reduction 250/10
☒ Tolerate 30 minutes of therapeutic exercise core
☒ Soft Tissue / Myofascia:

TC
☒ Independent with self-treatment principles and home program
☒ Posture/Gait: without deviation, independent application
☒ ROM 10-15°
☒ Strength 1 grade
☒ Pain reduction 50/10
☒ Biomechanics: lifting, sit/stand
☒ Soft Tissue
☒ ADL/Resume RTW
☒ Increase functional level by 20% per pricing

PLAN:

Physical Therapy 2x per week for 10-12 weeks Project 1018 of 36 visits over 10-12 weeks

Treatment may include: manual, d-stim, ultrasound, iontophoresis, traction, dynamic interactive activities, gait training, manual therapy, neuromuscular re-education, therapeutic exercise, self-care and home management training, wheelchair management, orthotic/prosthetic fitting, training. Agree

Therapist: M. Harper Printed Name: Mary Harper License #: 12/30/10 Date

Physician's Certification

I certify that the above therapy services are required, authorized and will be reviewed every 30 days

This questionnaire will give your provider information about how your back condition affects your everyday life. Please answer every section by marking the one statement that applies to you. If two or more statements in one section apply, please mark the one statement that most closely describes your problem.

Pain Intensity

- ☐ ① The pain comes and goes and is very mild.
- ☐ ② The pain is mild and does not vary much.
- ☐ ③ The pain comes and goes and is moderate.
- ☐ ④ The pain is moderate and does not vary much.
- ☐ ⑤ The pain comes and goes and is very severe.
- ☒ ⑥ The pain is very severe and does not vary much.

Sleeping

- ☐ ① I get no pain in bed.
- ☐ ② I get pain in bed but it does not prevent me from sleeping well.
- ☐ ③ Because of pain my normal sleep is reduced by less than 25%.
- ☒ ④ Because of pain my normal sleep is reduced by less than 50%.
- ☐ ⑤ Because of pain my normal sleep is reduced by less than 75%.
- ☐ ⑥ Pain prevents me from sleeping at all.

Sitting

- ☐ ① I can sit in any chair as long as I like.
- ☐ ② I can only sit in my favorite chair as long as I like.
- ☒ ③ Pain prevents me from sitting more than 1 hour.
- ☐ ④ Pain prevents me from sitting more than 1/2 hour.
- ☐ ⑤ Pain prevents me from sitting more than 10 minutes.
- ☐ ⑥ I avoid sitting because it increases pain immediately.

Standing

- ☐ ① I can stand as long as I want without pain.
- ☐ ② I have some pain while standing but it does not increase with time.
- ☒ ③ I cannot stand for longer than 1 hour without increasing pain.
- ☐ ④ I cannot stand for longer than 1/2 hour without increasing pain.
- ☐ ⑤ I cannot stand for longer than 10 minutes without increasing pain.
- ☐ ⑥ I avoid standing because it increases pain immediately.

Walking

- ☐ ① I have no pain while walking.
- ☐ ② I have some pain while walking but it doesn't increase with distance.
- ☐ ③ I cannot walk more than 1 mile without increasing pain.
- ☒ ④ I cannot walk more than 1/2 mile without increasing pain.
- ☐ ⑤ I cannot walk more than 1/4 mile without increasing pain.
- ☐ ⑥ I cannot walk at all without increasing pain.

Personal Care

- ☐ ① I do not have to change my way of washing or dressing in order to avoid pain.
- ☐ ② I do not normally change my way of washing or dressing even though it causes some pain.
- ☐ ③ Washing and dressing increases the pain but I manage not to change my way of doing it.
- ☒ ④ Washing and dressing increases the pain and I find it necessary to change my way of doing it.
- ☐ ⑤ Because of the pain I am unable to do some washing and dressing without help.
- ☐ ⑥ Because of the pain I am unable to do any washing and dressing without help.

Lifting

- ☐ ① I can lift heavy weights without extra pain.
- ☐ ② I can lift heavy weights but it causes extra pain.
- ☐ ③ Pain prevents me from lifting heavy weights off the floor.
- ☐ ④ Pain prevents me from lifting heavy weights off the floor, but I can manage if they are conveniently positioned (e.g., on a table).
- ☒ ⑤ Pain prevents me from lifting heavy weights off the floor, but I can manage light to medium weights if they are conveniently positioned.
- ☐ ⑥ I can only lift very light weights.

Traveling

- ☐ ① I get no pain while traveling.
- ☐ ② I get some pain while traveling but none of my usual forms of travel make it worse.

Pain Intensity

- ☐ I have no pain at the moment
- ☐ The pain is very mild at the moment
- ☐ The pain comes and goes and is moderate
- ☒ The pain is fairly severe at the moment
- ☐ The pain is very severe at the moment
- ☐ The pain is the worst imaginable at the moment

Personal Care

- ☐ can look after myself normally without causing extra pain
- ☒ can look after myself normally but it causes extra pain
- ☐ it is painful to look after myself and I am slow and careful
- ☐ need some help but I manage most of my personal care
- ☐ need help every day in most aspects of self care
- ☐ do not get dressed, I wash with difficulty and stay in bed

Sleeping

- ☐ I have no trouble sleeping
- ☐ My sleep is slightly disturbed (less than 1 hour sleepless)
- ☐ My sleep is mildly disturbed (1-2 hours sleepless)
- ☐ My sleep is moderately disturbed (2-3 hours sleepless)
- ☒ My sleep is greatly disturbed (3-5 hours sleepless)
- ☐ My sleep is completely disturbed (5-7 hours sleepless)

Lifting

- ☐ can lift heavy weights without extra pain
- ☐ can lift heavy weights but it causes extra pain
- ☐ Pain prevents me from lifting heavy weights off the floor, but I can manage if they are conveniently positioned (e.g. on a table)
- ☒ Pain prevents me from lifting heavy weights off the floor, but I can manage light to medium weights if they are conveniently positioned
- ☐ can only lift very light weights
- ☐ cannot lift or carry anything at all

Reading

- ☐ I can read as much as I want with no neck pain
- ☐ I can read as much as I want with slight neck pain
- ☐ I can read as much as I want with moderate neck pain
- ☒ I cannot read as much as I want because of moderate neck pain
- ☐ I can hardly read at all because of severe neck pain
- ☐ I cannot read at all because of neck pain

Driving

- ☐ can drive my car without any neck pain
- ☐ I can drive my car as long as I want with slight neck pain
- ☐ I can drive my car as long as I want with moderate neck pain
- ☒ I cannot drive my car as long as I want because of moderate neck pain
- ☐ can hardly drive at all because of severe neck pain
- ☐ cannot drive my car at all because of neck pain

Concentration

- ☐ I can concentrate fully when I want with no difficulty
- ☐ I can concentrate fully when I want with slight difficulty
- ☐ I have a fair degree of difficulty concentrating when I want
- ☐ I have a lot of difficulty concentrating when I want
- ☐ I have a great deal of difficulty concentrating when I want
- ☐ I cannot concentrate at all

Recreation

- ☐ am able to engage in all my recreation activities without neck pain
- ☐ am able to engage in all my usual recreation activities with some neck pain
- ☐ am able to engage in most but not all my usual recreation activities because of neck pain
- ☐ am only able to engage in a few of my usual recreation activities because of neck pain
- ☐ can hardly do any recreation activities because of neck pain
- ☒ cannot do any recreation activities at all

Work

- ☐ can do as much work as I want
- ☐ can only do my usual work but no more
- ☐ can only do most of my usual work but no more
- ☐ cannot do my usual work
- ☐ can hardly do any work at all
- ☐ cannot do any work at all

Headaches

- ☐ have no headaches at all
- ☐ have slight headaches which come infrequently
- ☐ have moderate headaches which come infrequently
- ☐ have moderate headaches which come frequently
- ☒ have severe headaches which come frequently
- ☐ have headaches almost all the time

Sleeping

- ☐ 1 I get no pain in bed.
- ☐ 2 I get pain in bed but it does not prevent me from sleeping well.
- ☐ 3 Because of pain my normal sleep is reduced by less than 25%.
- ☒ 4 Because of pain my normal sleep is reduced by less than 50%.
- ☐ 5 Because of pain my normal sleep is reduced by less than 75%.
- ☐ 6 Pain prevents me from sleeping at all.

Sitting

- ☐ 1 I can sit in any chair as long as I like.
- ☐ 2 I can only sit in my favorite chair as long as I like.
- ☒ 3 Pain prevents me from sitting more than 1 hour.
- ☒ 4 Pain prevents me from sitting more than 1/2 hour.
- ☐ 5 Pain prevents me from sitting more than 10 minutes.
- ☐ 6 I avoid sitting because it increases pain immediately.

Standing

- ☐ 1 I can stand as long as I want without pain.
- ☐ 2 I have some pain while standing but it does not increase with time.
- ☐ 3 I cannot stand for longer than 1 hour without increasing pain.
- ☐ 4 I cannot stand for longer than 1/2 hour without increasing pain.
- ☐ 5 I cannot stand for longer than 10 minutes without increasing pain.
- ☐ 6 I avoid standing because it increases pain immediately.

Walking

- ☐ 1 I have no pain while walking.
- ☐ 2 I have some pain while walking but it doesn't increase with distance.
- ☐ 3 I cannot walk more than 1 mile without increasing pain.
- ☐ 4 I cannot walk more than 1/2 mile without increasing pain.
- ☐ 5 I cannot walk more than 1/4 mile without increasing pain.
- ☐ 6 I cannot walk at all without increasing pain.

Personal Care

- ☐ 1 I do not have to change my way of washing or dressing in order to avoid pain.
- ☐ 2 I do not normally change my way of washing or dressing even though it causes some pain.
- ☐ 3 Washing and dressing increases the pain but I manage not to change my way of doing it.
- ☒ 4 Washing and dressing increases the pain and I find it necessary to change my way of doing it.
- ☐ 5 Because of the pain I am unable to do some washing and dressing without help.
- ☐ 6 Because of the pain I am unable to do any washing and dressing without help.

Lifting

- ☐ 1 I can lift heavy weights without extra pain.
- ☐ 2 I can lift heavy weights but it causes extra pain.
- ☐ 3 Pain prevents me from lifting heavy weights off the floor.
- ☐ 4 Pain prevents me from lifting heavy weights off the floor, but I can manage if they are conveniently positioned (e.g., on a table).
- ☐ 5 Pain prevents me from lifting heavy weights off the floor, but I can manage light to medium weights if they are conveniently positioned.
- ☒ 6 I can only lift very light weights.

Traveling

- ☐ 1 I get no pain while traveling.
- ☐ 2 I get some pain while traveling but none of my usual forms of travel make it worse.
- ☐ 3 I get extra pain while traveling but it does not cause me to seek alternate forms of travel.
- ☒ 4 I get extra pain while traveling which causes me to seek alternate forms of travel.
- ☐ 5 Pain restricts all forms of travel except that done while lying down.
- ☐ 6 Pain restricts all forms of travel.

Social Life

- ☐ 1 My social life is normal and gives me no extra pain.
- ☐ 2 My social life is normal but increases the degree of pain.
- ☐ 3 Pain has no significant affect on my social life apart from limiting my more energetic interests (e.g., dancing, etc).
- ☐ 4 Pain has restricted my social life and I do not go out very often.
- ☐ 5 Pain has restricted my social life to my home.
- ☒ 6 I have hardly any social life because of the pain.

36

Changing degree of pain

- ☐ 1 My pain is rapidly getting better.
- ☐ 2 My pain fluctuates but overall is definitely getting better.
- ☐ 3 My pain seems to be getting better but improvement is slow.
- ☐ 4 My pain is neither getting better or worse.
- ☒ 5 My pain is gradually worsening.
- ☐ 6 My pain is rapidly worsening.

Physical Therapy Progress Notes

Date: 3/21/11

Patient's Name: Jeffery McEdden Physician: Dr. Alexander

Frequency/Duration: _____

Treatment Program: Therapy, manual Rx, modalities (PTN)
last of 3 injections 3/18/11

Current Status: PT - averaging 4-6/10 p last injection

Back index ↓ from 76 to 72.

functional capabilities - Able to toss ball, Able to

do house work long duration 30-40min before PT

Strength - hamstring 3 4+/5, DFL 4+/5

Note gait improving ↓ antalgia, ↓ lift, ↓ guarding.

Recommendation:

Cont to PT 2-3X/WK for 4 wks. to progress to

work simulated activity - walking, driving, bending,
clearing out area to odd water. on quadreped.

(Therapist's Signature)

To Be Completed By The Physician:

- ____ 1) Discontinue PT
- ____ 2) Continue PT as above for _____ weeks
- ____ 3) Change treatment as follows: _____

Physician's Signature _____ Date _____

*Please return form to the center by mailing, faxing or sending it with patient.

Re: Jeffrey McFadden
DOB: [REDACTED]
SSN: [REDACTED]

Dear Dr. Brown:

Please be advised this office represents Jeffrey McFadden regarding injuries he sustained in a work related accident. Mr. McFadden has received ongoing treatment at your facility and I would appreciate your forwarding this office a copy of the medical records to include diagnosis, prognosis, treatment rendered, radiology reports, work status slips and referrals beginning the first date of treatment and continuing through the present date.

Attached is an Authorization to Disclose Health Information signed by Mr. McFadden that allows you to release this information to us.

South Carolina, §42-15-95, as amended, provides: "A health care provider must provide the requested information to the employee, their attorneys...within fourteen (14) days after written request." The copying costs for existing records can be charged at \$.65 per page for the first thirty (30) pages and \$.50 per page for all other pages. The maximum clerical fee for searching and handling is not to exceed fifteen (\$15.00) dollars per request, plus actual postage and applicable sales tax.

With kind regards, I am

Yours truly,

WUKELA LAW FIRM

STEPHEN J. WUKELA

Neurologic: CN 2-12 normal. Sensation to pain, touch, and proprioception normal. DTRs normal in upper and lower extremities. No pathologic reflexes.

Psychiatric: Oriented X3, intact recent and remote memory, judgement and insight, normal mood and affect.

A: Headache

Presumptive etiology: migraine

HEADACHE: :346.90

OV Level 4 Det:99214

P:

Medication:

Patient education: Discussed with patient the fact that establishing a treatment regimen that maximizes effectiveness, minimizes side effects and costs can be a matter of trial and error. That the goals of migraine therapy are to minimize symptoms, reduce disability and improve quality of life, but because the severity and frequency of migraine varies widely, treatment programs need to be individualized. Informed patient that for treatment of an individual attack, aim to give enough medication, but no more, and that frequent use of symptomatic treatments, especially analgesics and ergotamine can lead to medication-induced headache and eventually chronic daily headache. Asked patient to keep a headache diary in which symptoms, treatment and response to therapy are recorded, as well as any identified triggers. Informed patient that we would advise prophylactic pharmacotherapy for patients whose migraines are severe or frequent (three or more severe attacks per month).

Follow-up: prn, cont. f/u with PT, ordered mri of head in light of hx. Will notify him if any abnormalities.

Patient: Mcfadden, Jeffery L DOS: 10/25/10

Initial Examination

PATIENT ID: 320281

PATIENT: Jeffery Mcfadden

DOB: [REDACTED]

Employer: City of Lake City

Date of Service: 10/25/10

Age: [REDACTED] years old

Occupation: Meter Reader

Referring Physician: Workman's comp.,

Other Physicians: ; Brown III, Morris, ;

Date of Injury/onset:

Date:
07/16/2010Type:
Injury

Chief Complaint: Low back pain.

History of
Present Illness:

Jeffery Mcfadden is a 36 years old, right hand dominant African American male who was involved in a motor vehicle accident on 7/16/10 when he lost control of his vehicle on a gravel road and the car flipped over and hit a tractor parked on the side of the road. Since the accident he has experienced a moderately severe, sharp, stabbing, throbbing pain in the lower back region that radiates down the bilateral legs to the level of the knees at least two times per week. He also complains of numbness and tingling in the left foot and frequent urination. On the visual analog scale, with 10 being most severe, he rates his pain as a 7. The pain is exacerbated by bending, lifting, sitting and prolonged standing and walking. Taking Flexeril and Hydrocodone tends to decrease the pain.

Allergies: No Known Drug Allergies

Current Meds: Flexeril (SIG: 1 tab po three times a day), Hydrocodone Bitartrate; Ibuprofen (SIG: 1 tab po twice a day)

Past Med Hx: None

Surgical History: None reported

Family History: Cancer; Diabetes; Parents: Father-Living; Parents: Mother-Living

Social History: Alcohol use: None; Drug Use: Never; Employment: Full Time; Marital Status: Married; Tobacco: Previous Smoker

REVIEW OF SYSTEMS:

Review of Systems: General, neuro, psychiatric, respiratory, cardiovascular, GI, GU, blood and lymph, EENT, musculoskeletal, skin and endocrine systems are normal except what is noted below:

General: Generalized pain; Musculoskeletal: Joint swelling/stiffness; Musculoskeletal: Leg cramps; Musculoskeletal: Muscle aches; Musculoskeletal: Muscle weakness

PHYSICAL EXAM:

Vitals: HEIGHT: 5'10" WEIGHT: 265 lbs 0 oz BMI: 38.0 B/P: 122/88

Appearance: No acute distress

Psychiatric: Mood and affect were appropriate.

Head: Normocephalic, atraumatic.

Skin: Clean, dry, no lesions, no rashes.

Neuro: Alert and oriented x 3.

FOCUSED EXAM:

Lumbar spine Exam

Appearance: Well developed, well nourished male. Alert and oriented x 3. In no acute

11/18/2010 2:56 PM FROM: Fax TO: 15433745247,, PAGE: 004 OF 005

Patient: McFadden, Jeffery L DOS: 10/25/10

distress.
Observation: Normal gait and station
Palpation:
 Spinal process: No tenderness
 Paraspinous muscles: No tenderness
Skin: Intact
Soft tissue triggers: No triggers are palpated
Muscle Spasms: No muscles spasms
Range of Motion: The patient complains of lower back pain with all ranges of motion.
 However palpation is unremarkable.
 Forward Flexion: Full
 Extension: Full extension
 Hip: Full and painless
Special Tests: A positive bilateral straight leg raise test is noted.
 Sitting Straight Leg Raising: Negative
 Supine Straight Leg Raising: Negative
 Toe Rise and Walk: Normal
 Heel Walking: Normal
 Tandem Walking: Normal
Muscle Strength:
 Hip
 Adductors: Normal
 Abductors: Normal
 Flexors: Normal
 Extensors: Normal
 Paraspinous Muscles: Normal
 Gluteus Maximus: Normal
 Quadriceps: Normal
 Hamstrings: Normal
 Gastrocnemius: Normal
 Anterior Tibials: Normal
Neurological Sensory Testing:
 Cranial nerves 2-12: Normal
 T12-L1: Normal
 L1-L5: Normal
 S1: Normal
Reflexes:
 Patellar Tendon: 2+
 Achilles Tendon: 2+

X-ray: Lumbosacral spine AP and lateral 10/25/10 - essentially unremarkable.

MRI of the lumbar spine 9/10/10 - moderate lower lumbar spine degenerative changes, diffuse posterior disc bulges at the L4-5 and L5-S1 levels with hypertrophic changes resulting in moderate spinal canal narrowing at the L4-5 and L5-S1 levels.

ASSESSMENT:

Diagnosis: -Acute low back pain.

PLAN:

PRESCRIPTION: No data for Prescription

1. Electrodiagnostic study of the bilateral lower extremities and lumbosacral spine to rule out a lumbar radiculopathy.
2. Restrictions of no frequent bending at the waist and no lifting greater than 20 lbs.

MRI OF BRAIN WITH AND WITHOUT CONTRAST, 08/09/2010:

HISTORY: MVA 7/10/10, headache, left-sided numbness.

Routine pulse sequences were obtained before and after 25 cc IV
Magnevist. Brain volume and signal intensity are normal. No
abnormal extracerebral fluid collection. Normal ventricles.
Pituitary and cervicomedullary junction are normal. No abnormal
enhancement following contrast. No abnormal signal in the sinuses or
orbits.

IMPRESSION:
NEGATIVE BRAIN MRI.

REASON FOR MRI ? CHRONIC BACK PAIN, RT HIP & LEG PAIN

COMMENTS: NO PREV. BACK SURGERY

MRI OF THE LUMBAR SPINE**HISTORY:** Chronic back pain/right leg pain.

Routine image sequences were obtained. Vertebral bodies are of normal height. Disk spaces are well maintained. There is decreased signal in the L4-5 and L5-S1 disk spaces. Conus and cauda equina are normal.

On the axial images, L3-4 is normal. At L4-5, there is a mild central disk protrusion. Neural foramen are patent. AP diameter of the canal measures 1.2 cm.

At L5-S1, there is no spinal stenosis. There is a mild central disk protrusion. Neural foramen are patent.

IMPRESSION: MILD CENTRAL DISK PROTRUSION AT L4-5 AND L5-S1. NO LATERALIZATION.

DISABILITY INSURANCE CLAIM FORM

FRAUD WARNING: Any person who knowingly, and with intent to injure, defraud or deceive any insurance company, files a statement of claim containing any false, incomplete or misleading information is guilty of a felony.

To prevent delays, complete claim in its entirety. Incomplete claims will be returned.

PART I - INSURED INFORMATION

1. Insured's Name First <u>Jeffrey</u> Middle <u></u> Last <u>McFadden</u>		2. Social Security Number <u></u>	3. Date of Birth Mo. <u></u> Day <u></u> Yr. <u></u>
4. Insured's Address Street <u></u> City <u></u> State <u></u> Zip <u></u>			
5. Insured's Sex ☒ Male ☐ Female	6. Job Description and Duties <u></u>		7. If disability is due to an accident, did injury occur at work? ☐ Yes ☐ No
8. I authorize the release of any medical information necessary to process this claim. Signature _____ Date _____			

PART II - PHYSICIAN INFORMATION

9. Date first treated for this disability
Mo. Day Yr. 12 03 07

10. Dates certified disabled and unable to work
From: Mo. Day Yr. Thru Mo. Day Yr. 12 03 07 12 10 07

11. If hospitalized, date admitted
Mo. Day Yr. 12 03 07

12. Nature of Disability ☐ Accident ☒ Sickness ☐ Maternity (If Accident or Maternity, please complete reverse side of this form.)

13. Diagnosis Low Back Pain

14. Diagnosis Code 724.2

15. Prognosis good

16. Physical Findings (List all test results, or enclose test)
Test X-ray of L5 spine ordered 12/03/07 Date 12/03/07 Results pending
Test Date Results
Blood Pressure (Systolic) 135 (Diastolic) 86 (Date) 12/03/07
Remarks:
TREATMENT
Date of onset of this condition? approx one week prior 12/03/07 visit
List all dates of treatment for this condition since patient ceased work
Date of next office visit 01/07/08

Has patient been referred to any other physician ☐ Yes ☒ No Date(s)
If "Yes," name and address
Nature of treatment for this condition (including surgery/medications) Flexeril + Motrin
Physical Therapy
Was patient hospitalized for this condition? ☐ Yes ☒ No If "Yes," date(s) admitted date(s) discharged
Name and address of hospital(s):
Was surgery performed? ☐ Yes ☒ No If "Yes," Date Procedure CPT Code
Progress (please check one) ☐ Recovered ☐ Improved ☐ Unchanged ☐ Retrogressed unable to assess treatment yet
17. IMPAIRMENT
What are the patient's current physical limitations and restrictions?
☐ No limitation of functional capacity; capable of heavy work, no restrictions.
(Lifting 100 lbs. maximum with frequent lifting and/or carrying of objects weighing up to 50 lbs.)
☐ Medium manual activity.
(Lifting 50 lbs. maximum with frequent lifting and/or carrying of objects weighing up to 25 lbs.)
☐ Slight limitation of functional capacity; capable of light work.
(Lifting 20 lbs. maximum with frequent lifting and/or carrying of objects weighing up to 10 lbs. Even though the weight lifted may be only a negligible amount, a job is in this category when it involves sitting most of the time with a degree of pushing and pulling of arm and/or leg controls, or when it requires walking or standing to a significant degree.)
☒ Moderate limitation of functional capacity; capable of clerical/administrative (sedentary) activity.
(Lifting 10 lbs. maximum and occasionally lifting and/or carrying articles. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties.)
☐ Severe limitation of functional capacity; incapable of minimal (sedentary) activity.
What is the psychiatric impairment (if applicable)? N/A
☐ Inadequate information to make assessment.
☐ Essentially good functioning in all areas. Occupationally and socially effective.
☐ Slight difficulty in occupational functioning, but generally functioning well. Has some meaningful interpersonal relationships.
☐ Moderate impairment in occupational functioning. Limited in performing some occupational duties.
☐ Major impairment in several areas - work, family relations. Avoidant behavior, neglects family, is unable to work.
☐ Inability to function in almost all areas.

Employer's Signature _____ Date _____

25. First Day Not at Work			26. Date Returned to Work			27. Amount of Weekly Earnings: \$ _____	28. Amount of Weekly Benefit \$ _____
Mo.	Day	Yr.	Mo.	Day	Yr.		

INSTRUCTIONS FOR FILING CLAIM FOR WEEKLY DISABILITY BENEFITS

The reverse of this form should be completed by the insured employee, the employer and the insured's attending physician as soon as possible after the onset of the accident or sickness for which claim is made. If accident or maternity, details must be stated above.

The date we need a doctor's statement of continuing disability will be indicated on the check stub each week. To prevent delays in weekly disability payments, submit the doctor's statement to Companion Life 10 days before this date occurs.

Weekly disability checks are mailed to the employer's address.

When your employee returns to work, please call our Claims department to notify us immediately and then follow up with the final claim. Notifications can be faxed to:

(803) 735-1231
 (803) 754-1153 FAX

Claims should be forwarded to:

Companion Life Insurance Company
 Attention: Claims Department
 P.O. Box 100102
 Columbia, South Carolina 29202-3102
 www.CompanionLife.com

By furnishing this blank form and investigating the claim, Companion Life Insurance Company shall not be held to admit the validity of any claim, or to waive or breach any terms or conditions of the policy.

Re: Jeffrey L. McFadden vs. City of Lake City
WCC File No.: 1009259

Dear Grady:

I am in receipt of your subpoenas dated July 22, 2011 to Pee Dee Family Practice, Dr. Lawrence Chewning, Dr. Peter Hyman, Dr. Ernest Atkinson, Dr. James Hester, Dr. William McDaniel, Dr. James Lawhon, Dr. Jerry Gersbach, Lake City Community Hospital, Dorine Martin. Please provide me any and all responses you received to those subpoenas.

I also note that previously you have issued the following subpoenas on the following dates:

3/17/11	Progressive Group of Insurance Companies
4/06/11	Progressive Group of Insurance Companies
5/17/11	Carolinas Hospital
5/17/11	Pee Dee Orthopaedics
5/17/11	McLeod Regional Medical Center
5/24/11	State Farm Insurance Company
5/24/11	Allstate Insurance Company
5/24/11	SC Budget and Control Board
5/24/11	State Farm Insurance Company
5/24/11	SC Farm Bureau Mutual Insurance Company
5/24/11	Nationwide Property and Casualty Insurance Company
5/24/11	SC Budget and Control Board, Insurance Reserve Fund
6/15/11	Morris E. Brown, III, MD
6/15/11	Lake City Hospital & Physical Therapy
6/15/11	Williamsburg County Hospital
6/15/11	Olsten Temp Services
6/15/11	Wal-Mart Legal Department/ Litigation Division Attn: Pharmacy Records

6/17/11	Inmed Diagnostic Attn: Medical Records Custodian
6/17/11	Rite Aide Attn: Pharmacy
7/22/11	Pee Dee Family Practice
7/22/11	Lawrence R. Chewning, DMD
7/22/11	Peter D. Hyman, MD
7/22/11	Ernest M. Atkinson, MD
7/22/11	James M. Hester, MD
7/22/11	William D. McDaniel, MD
7/22/11	James M. Lawhon, MD
7/22/11	Jeffrey Gersbach, MD
7/22/11	Lake City Community Hospital
7/22/11	Dorine H. Martin, FNP

I have by letters dated April 12, 2011, May 24, 2011, June 2, 2011, and June 21, 2011 requested the responses you have received from each of those subpoenas. I would like to reiterate that request that you provide me responses to each and every subpoena that you have issued in this case. On June 9, 2011, you provided me responses that you had received from SC Farm Bureau Mutual Insurance Company, related to an accident on February 29, 2008 and responses you received from the SC Budget and Control Board related apparently to an accident on July 11, 2010. I have received no further responses from you. We have a hearing coming up on October 4, 2011 in this matter. It is urgent that I receive from you the responses that you have received from any and all subpoenas in this case.

Furthermore, Grady, this list of some 29 subpoenas represents quite a fishing expedition in this case. Including subpoenas of Mr. McFadden's dental records which I cannot imagine have any bearing on any issue in this case. Your client has been refusing Mr. McFadden treatment at the hands of his authorized treating physician, Dr. Alexander, which he urgently needs for this admitted accident.

This refusal of medical treatment was predicated initially, as I understood it, on the fact that Mr. McFadden had an automobile accident on February 17, 2011. However, Dr. Alexander, the Plaintiff's authorized treating physician has been deposed and has stated unequivocally the treatment that the Claimant requires is the direct result of the admitted worker's compensation accident on July 16, 2010. You all then shifted gears and did what, by any measure, was a exhaustive search of every doctor Mr. McFadden has apparently ever seen in his life. The only fruit born of those attempts was evidence that Mr. McFadden had suffered back pain as recently as the spring of 2008 and in fact had undergone a MRI of his lumbar spine at the direction of his family doctor, Dr. Morris Brown, on March 20, 2008. However, as you are aware, Dr. Alexander was confronted with that fact as well by you in his deposition and it had no effect on his opinion that Mr. McFadden's treatment was necessary as a result of this accident of July 16, 2010.

0002267

Grady Beard, Esquire
Page 3
August 31, 2011

Grady, if there is some other basis in evidence for the carrier to continue to refuse medical treatment at the hands of Dr. Alexander, I would like to know it.

Please provide me your subpoena responses and direct me to any evidence in the record that supports the carrier's continued denial. Short of that, if I am forced to go forward at this hearing on October 4, 2011, I will have no alternative but to seek sanctions and attorney's fees, costs, and penalties for the carrier's refusal to provide Mr. McFadden treatment in this admitted case at the hands of his authorized treating physician.

With kind regards, I am

Yours truly,

WUKELA LAW FIRM

RE: Jeffrey L. McFadden v. City of Lake City
WCC File No.: 1009259
Date of Accident: 07/16/10
Claim No.: 63-77747
Our File No.: 5682/8114

Dear Ms. Crocker:

Enclosed please find an original and one copy of a Petition for Hearing which we are filing on behalf of the defendants in the above-referenced matter. We are filing the original and retaining a clocked-in copy via our courier.

Additionally, we are enclosing a check in the amount of Twenty-Five and No/100 Dollars (\$25.00) for the filing of this document.

By copy of this letter, we are hereby serving a copy of the attached document upon counsel for the claimant.

With kindest personal regards, I remain

Very truly yours,

Grady L. Beard

and
South Carolina Municipal Insurance Trust,
Self-Insured Trust,
Defendants.

PETITION FOR HEARING

TO: MS. VIRGINIA L. CROCKER, JUDICIAL DIRECTOR, SOUTH CAROLINA WORKERS' COMPENSATION COMMISSION; AND STEVE WUKELA, JR., ESQUIRE, ATTORNEY FOR THE CLAIMANT:

Pursuant to S.C. Code Ann. § 42-17-20, the City of Lake City and South Carolina Municipal Insurance Trust ("defendants"), hereby Petition the South Carolina Workers' Compensation Commission to schedule a Hearing in the above-referenced matter "as soon as practicable" in the above-referenced claim, based upon the following grounds:

1. This is an admitted claim involving a motor vehicle rollover accident that occurred on July 16, 2010.
2. By way of Form 50 filed on October 22, 2010, the claimant alleged he sustained injuries to his low back, neck, left shoulder and left hand as a result of the accident. The claimant requested additional medical care for his injuries; compensation for temporary total disability (TTD) from September 20, 2010, and continuing, as well as permanent partial disability (PPD) benefits for his injuries. The claimant also asserted

finances and penalties were due as his TTD benefits were improperly terminated without an Order of the Commission.

3. The defendants filed a Form 51 admitting the claimant sustained a motor vehicle accident on the date alleged. However, the defendants questioned the filing of the Form 50, as the claimant was on a running award of TTD and was receiving authorized medical care.
4. A Hearing was scheduled before Commissioner David W. Huffstetler on January 13, 2011, pursuant to the Forms 50 and 51 filed on behalf of the parties.
5. While the defendants disagreed with the claimant's assertion that penalties or fines were due in this case, the defendants forwarded payment for the alleged penalties, as the cost of litigation substantially exceeded that of the fines/penalties. The claimant's counsel subsequently withdrew his Form 50, and the Hearing was removed from the docket.
6. Since that time the defendants have authorized medical care for the claimant's injuries, including but not limited to physical therapy and injections. The claimant is currently on a running award of TTD.
7. On March 9, 2011, the defendants received a medical report from Dr. Anthony Alexander dated February 22, 2011, wherein he acknowledges the claimant was involved in a new motor vehicle accident on February 17, 2011, which resulted in an increase in his low back pain.
8. The defendants maintain this motor vehicle accident constitutes a subsequent intervening accident, which broke the causal chain. Therefore, the claimant's current problems and need for medical care arise from that accident and are no longer compensable. Sanders v. Wal-Mart Stores, Inc., 379 S.C. 554, 666 S.E.2d 297 (Ct. App. 2008).
9. Therefore, the defendants request a Hearing as soon as possible to determine whether they may stop payment of TTD benefits and medical care, as the claimant's current condition is not related to the admitted accident; rather a subsequent intervening cause.

WHEREFORE, the defendants respectfully Petition the Commission to schedule a Hearing in the above-referenced matter "as soon as practicable" pursuant to S.C. Code Ann. § 42-17-20.

Respectfully Submitted,

SOWELL GRAY STEPP & LAFFITTE, L.L.C.

)
 and)
)
 SC Municipal Insurance Trust)
 % Companion TPA, LLC, Carrier,)
)
 Defendants.)

**CLAIMANT'S RETURN TO CARRIER'S
PETITION FOR HEARING
DATED APRIL 7, 2011**

**TO: SOUTH CAROLINA WORKERS' COMPENSATION COMMISSION AND
GRADY L. BEARD, ESQUIRE, ATTORNEY FOR EMPLOYER/ CARRIER:**

The Claimant responding to the Petition for Hearing of the Carrier dated April 7, 2011
asserts the following:

1. The Claimant sustained an injury by accident to his low back, legs, neck, left shoulder and left hand on Friday, July 16, 2010, arising out of and in the course of his employment, while driving a vehicle on behalf of the Employer. Claimant lost control of the vehicle when the vehicle fishtailed while coming around a curve, traveled toward a ditch on the opposite side of the road, and flipped over.

2. The Carrier admitted the accident, assigned Anthony Alexander, M.D. as the authorized treating orthopaedic physician, and commenced payment of temporary total disability benefits to the Claimant effective July 24, 2010.

3. The Carrier paid the temporary total disability benefits in a timely fashion until September 24, 2010 when without benefit of a Form 15 or a properly documented Form 21 the Carrier terminated Claimant's weekly benefits. A Form 50 was filed on October 22, 2010 seeking penalties for failure to pay benefits. A Form 51 was filed on November 19, 2010 on behalf of the Carrier. The Carrier has never advised the Commission or the Claimant why he was not paid his weekly benefits between September 24, 2010 and October 15, 2010, for which a check was ultimately issued for the unpaid benefits on October 21, 2010.

4. A hearing was scheduled for January 13, 2011 for penalties. On January 6, 2011, the Claimant accepted a partial payment of the penalties in lieu of the hearing scheduled for January 13, 2011.

5. The Carrier maintains they should not have paid those penalties but has not requested the hearing for penalties be rescheduled. Instead, the Carrier filed a Petition for Hearing pursuant to §42-17-20. Again, the Carrier has disregarded the rules of the South Carolina Workers' Compensation Commission and are attempting to circumvent § 42-9-260(F), in so far that it has been 265 days since the date of the accident and injuries to the Claimant on July 16, 2010 and the filing of the Petition for Hearing dated April 7, 2011.

6. The Carrier is well aware of the requirements of § 42-9-260(F) and Regs. 67-506(B), in as much as no health care provider has, "reported the claimant may return to work at the same or other suitable job and such job has been offered by the employer but the claimant refuses to return to work...", pursuant to Regs. 67-506(C).

7. Additionally, Regs. 67-506(E) maintains, "To request a hearing for permission to terminate temporary compensation, the employer's representative shall file a Form 21 with the Judicial Department." This requirement, likewise, has not been complied with by the Carrier.

Notwithstanding the fact that if the Carrier had complied with the filing of the Form 21 and properly served the Claimant, § 42-9-260(D) maintains that the carrier is entitled to a hearing within 60 days.

WHEREFORE, the Claimant asserts that since the Carrier has not complied with the proper requirements of § 42-9-260 and is attempting to subvert the many statutes and rules that regulates hearings pursuant to § 42-17-20, the Petition for Hearing should be dismissed, with costs and attorney's fees assessed.

Subject: RE: RE: Hearing Notice - WCC# 1009259: Mcfadden (5682/8114)

Good Morning Kristi:

I have never heard back regarding the last e-mail on this matter. It appears this case was set for Hearing in the wrong District (Columbia) for a Florence merits Hearing. As indicated below, my clients request the matter be returned to the Florence County District and be reset before whomever may be the appropriate Commissioner in that District. We will be filing our Form 51 shortly in response to the Form 50 filed by Mr. Wukela, and have no objection to the Hearing Notice in Florence waiting to be sent after our Form 51 is filed so all issues can be covered at one Hearing. Please confirm the 6/23/11, Hearing in Columbia is off, and the file is returned to Judicial to be set for Hearing before the jurisdictional Commissioner in Florence County. I am happy to have a Conference Call if necessary to have this resolved. Please advise.

Thanks-Grady

Mr. Beard (et al):

I spoke with Ginger and she says to just send it back to her.

The reason we set it out of district was that it was sent to us as a Motion (because you had no other avenue to get the hearing). Motions only require 10 days to set for hearing. The parties would have needed 30 days to prepare and we had left the Pee Dee by then, so that is why I set it in Columbia.

As Mr. Wukela has now filed a Form 50, you may address the issues at that hearing which will be proper.

Thanks,
Kristi

Kristi:

My Petition "motion" was already ruled upon and Granted by Commissioner Barden that we are entitled to a merits Hearing. Therefore, I cannot withdraw since already resolved. As for the merits Hearing, I am not sure why that was then set in Columbia which is the problem. This simply needs to be transferred back to the Judicial Director and sent to the proper Commissioner whomever that may be. Also, the Forms 50/51 could be set in conjunction with same.

Thanks-Grady

Kristi:

My clients oppose a Hearing in Columbia as they are Municipal officials who cannot be that far away from the Town. The Venue law requires a Hearing be set in the County where the accident occurred, so I do not understand why the case would have followed you when Commissioner Barden left the District. Thus, if the only avenue is to have the matter pulled and reset in the proper Venue please advise, because I do not understand the "no-punt rule" since it should have been with the Commissioner in that District now. Please advise so we can get this matter reset in the proper Venue of Florence. Moreover, since Mr. Wukela has now filed a Form 50, we can have it reset in Florence County for a 50/51 Hearing, once we file our Form 51 in the next few days.

Thanks-Grady

This is indeed set in Columbia.

Mr. Beard filed a Motion for a hearing based upon the fact that he had no other avenue to get this before the Commission, as it is an intervening accident. A Motion only requires ten days notice - and this was sent to Commissioner Barden toward the end of her jurisdiction in the Pee Dee district.

As this was a hearing - not a Motion - we gave 30 days notice. As Commissioner Barden is in the Richland district in June and July - and due to number of cases and the Commissioner's schedule, we were not able to send her back to Florence for one hearing so I set it in Columbia (in order to allow the 30 days). The hearing notices were sent May 12, 2011.
