

To whom this may concern; My name is Lance Rontavis Elam and I'm currently in Prison. My reason for writing the Supreme Court of Appeals is because I'm clueless on what's the next step in this process, so I'm writing because I

need your help. I'm not entirely sure who my Appeal ^{SO} ~~Supreme~~ Attorney is at this moment. I'm hoping you can share that information with me. Along with that

I'm hoping you can give me details on when and where this appeal will take place. I'm not sure if you're already working on my appeal. I was hoping that

you've had the chance to listen to my transcript. Just to give you a little detail on what's going on with me; I'm a loving husband and father of 5

beautiful children. Their ages are 11, 10, 8, 4, & 3 years of age. They miss and need me dearly. My wife is stuck out there alone with 5 very active

personalities. It's very hard accepting that I'll be away from them for the rest of my life. Yes you heard me correctly Beaufort County Circuit gave me life

in prison. They gave me the maximum sentence on both charges. Shocking thing is I've never been in any trouble. This is my 1st felony, and Prison Bid. Everyone

is trying to understand why the sentence so steep. I hope you're asking yourself that question as well. I've witnessed Murders get less time than me, and I've

murdered none. Even more shocking the alleged victim never showed up to trial, or hearings after being subpoenaed. I told them this

from the very beginning that she told me she was making

away from South Carolina. I even asked them to retrieve video footage from the Parkers gas station in Old Town Bluffton, and the Bar. I was forced by Bluffton Police Department to say i'm guilty of these charges. Detective Odom and Detective Wilfong interrogated me that morning with extreme force. They gave my wife's name and number and address and she isn't from here. ⁹¹⁰ I was with my Grandma for a few months to help her out around the house because she was diagnosed with Cancer. Judge Carmen Mullens and Solicitor Hunter Swanson both had it out for me from the very beginning. When you listen to my Transcript you will see what I mean. The strange thing is the Bluffton Police Department had a camera in the interrogation room. I thought everything they did would be played in court showing their aggressive behavior towards me. But they made up an bogus excuse about how some thing happened to it and that they only have audio of the 2nd interrogation. The 1st interrogation is when they lost the cool. I don't know if I can beat the Law but i'm going to try because its no way they can get away with this. I believe this whole case was a Setup from the beginning. I was never read my Miranda Rights upon being arrested. They band all the news ~~cast~~ out the trial room. They made it seem like this case was high profile. However, I need your help and your
