Case Number 2016 001201

Dear Honorable Judge: SC Court of Appeals.

I Harold Simmons Jr, comes to you now asking for a first extension of my Final Brief due to serious and uncommon circumstances that are listed below:

1. Pro Se with serious uncommon disabilities.
2. I have mental, physical, and educational disability challenges when left to work alone on the documents makes it very impossible to complete the task. This makes me legally disabled as well. Also on heavy pain and anxiety medications.
3. The Legal Document preparer had a serious spinal injury and was not able to work due that injury for at least the last 2 month's. Her contact info if needed is as follows:

Dr. Matilda L. Gray-Waters
Po Box 170674
Dallas, Texas 75217
8172108459
8172105371
drmatildagraywaters@gmail.com

In summary: Due to the gross negligence of my due process of law being already violated in the lower courts and the fact that I have come this far and close to the finish line, I am asking for this grace for an extended time frame of an additional minimum 14 days and or more days that is in compliance to the appeal standards.

Thank you sincerely,

Harold Simmons Jr J6.
