

To whom it may concern,

I ask the court to accept this letter and amend it to the case, Case No. 2017-002386. I ask the court to grant or award a one million dollar settlement from the Respondent to the Appellant for the five plus years of emotional, physical and psychological stress and damages. With this award it would also allow me to be able to pay whomever whatever to finish clearing the property that I do have to be able to move on to it. This would allow me to pay off the mortgage on my home I have now. I would be able to put a home on my property and get all the utilities installed to live there and make everything handicap accessible. I would be able to pay someone whatever to demolish the home that I have now because of it not being able to be moved on account of the modifications that have been done to it.

I have been living here where I am now for 20 years and I have had someone to trim and cut my grass around my home accordingly with no issues. Since they have started cutting grass this year the new persons cutting and trimming around homes are only half cutting my grass and the trimming around my home has not been done. They have trimmed around all the other homes except for mine and the grass is getting rather high around my home. I feel as if this is being done to have some kind of leverage against me.

I am sending this information to the Court because of not having an attorney to represent me or discuss matters in the case. If the Court needs any additional information I will be glad to provide it.

Thank You,

Christopher Holcombe
