

## REQUEST FOR A FEE WAIVER

This is a request for a fee waiver to a judgment, Motion to Dismiss, on 6/24/2019, case #2018CP1002242, Partition Action.

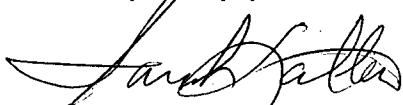

This request relies on the fact that I am financially unable to defray the \$250, cost of the fee for this appellate request.

I will be 75 years old within a few months this year and am encumbered with numerous bills, some of which are unpaid, health conditions and am under the doctor's care. In addition, I am homeless and recently started living in state owned temporary housing for the homeless.

Under my present circumstances I earnestly need the benefits of my deceased mother's last will and testament and Deed of Distribution

Kindly consider this request and grant the Motion to Continue. Thank you for any consideration given this request.

Very truly yours,

Sarah Latten, Appellant
