REPLY

Court,

The respondent pro se, respectfully makes his reply to the appellants letter dated Sept/9/2019, in objection to My Motion dated 8/25/19; on the NOA.

1. The appellate seeks an interlocutory appeal, on the privileged information, under 24-21-290. This statute also allows the Director or Judge to obtain and adjudicate same and is not an absolute barr; Plus the respondents discretion is under an evidence based system. The victims statements are recorded on tape, and the Elected officials are not private citizens, and are subject to transparency, and others cannot arbitrarily or capriciously submit false information to the Board and then claim immunity. I pointed out in my reply to respondents pleading a false statement of facts, that are prejudicial, and prevents a due process fair and unbiased hearing.

2. The appellate exaggerates the cost of transcribing its own recordings of the hearings, with the new technology everything is computer generated, and an accurate reading of the boards determination and evidence considered is important. The Judge can determine on review of the evidence presented at a contested hearing what is what. Evidence not presented and considered cannot be used against respondent, when all requirements are met, and others enjoy the laws of grace by the legislature and SC constitution.

3. Futher if this appeal is allowed to proceed, I ask that counsel be appointed, due to the nature of the case, and as the judicial branch of government, that all evidence and lower court records be submitted.

Proof of Service to:

Sincerely

Mr. Tommy Evans, Jr
