James Reese,
Appellant,

**Objection to Respondent's
Objection To Appellant's
Motion to Extend Time**

v.

Richie D. Barnes,
Respondent (s).

I, James Reese, with clean hands and a pure heart, not to rush justice, but to aid this competent court with its inherent jurisdiction to complete justice by wholes and not by halves, avoiding irreparable harm or prejudice. I now object to Richie D. Barnes, and his attorney-at-law, motion of objections to my motion to continue previously placed upon entry of record.

Objection:

I, object to Richie D. Barnes, claims that I intend to waste the court's time.

Grounds:

1. After receiving 700 page transcript on July 30, 2019, I, James Reese, was financially injured by the cost charged for the production of the lower court's transcript proceedings causing irreparable harm and financial disability.

2. Request for the lower courts transcript was made in the sufficient and practiced time of the court with delay and refusal by the sonographer, previously mentioned with this court's record.

2. After receiving 700 page transcript, I, James Reese, was only given 38 days to examine the transcript and submit my required brief upon entry on September 07, 2019. I, James Reese, state, for the record, this was not an adequate amount of time to examine the lower court's evidence and transcript in its entirety due to the refusal or delay of third parties not interest in the cause, but who had a charge to perform his duty.

I, James Reese, hereby enter this notice of objects and grounds to preserve my inherent due process of rights for when

there is a conflict between the rules of law and the rules of equity, equity (substantial) law shall prevail
