

The South Carolina Court of Appeals

Alonzo Columbus Jeter, III, Petitioner,

v.

State of South Carolina, Respondent.

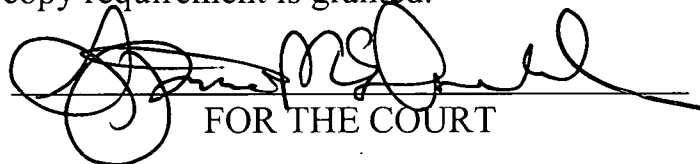

Appellate Case No. 2017-001777

ORDER

Petitioner's motion to file a supplemental appendix is granted, and this court accepts the supplemental appendix filed on October 28, 2019. This court will not consider any further requests from Petitioner to supplement the appendix.

We construe Petitioner's motion to argue against precedent as a motion to supplement Petitioner's petition for certiorari with the additional arguments set forth in Petitioner's motion. Because Petitioner filed his petition for certiorari on November 2, 2018, and the State filed its return on February 15, 2019, Petitioner's motion to supplement his petition with additional arguments is denied. This court will, however, consider the supplemental citations filed on October 28, 2019.

Petitioner's request to reduce the copy requirement is granted.
