I am writing to you for help. I feel that my lawyer James Adams III of orangeburg County public defenders office mis-represented me.

From my understanding he has quit or has been fired. He forced me to take a plea on the grounds he would bring me back at a later date and have my time cut due to the fact that I was helping with info on another case and also other issues. I have information wrote down of the things he did and didn't do. But since he no longer work's for orangeburg County. I have no-one to turn to for help. Please appoint someone to help me.
