I Titus L. Rouse am writing the Appellate courts with concerns of Appellate case 2018-000627 filed Aug 10th 2018, a return was filed Oct 30th 2018. I do understand that this is a slow process and due to the coronavirus it has become an even slower process. I am currently housed at the Tyger River Correctional facility where an outbreak of the Coronavirus has recently spread. With all due respect Justices I do not want to die in here and I pray that a decision can be reached soon. With the State alleging lack of probative value and not Error of Law I believe that you will receive the return of writ well.
