Re: Russell Goodwin v. Russell Powell  
Appellate Case No. 2019-001324

Dear Mr. Goodwin:

Upon reviewing your correspondence received July 30, 2020, which the Court presumes to be your attempt to serve and file the appellant's initial brief, the following deficiencies have been noted under the South Carolina Appellate Court Rules (SCACR), and all deficiencies must be corrected in their entirety within ten (10) days of the date of this letter or your appeal will be dismissed:

- The document is improperly paginated. Specifically, the pages of your document are not numbered.
- The brief must include a cover page substantially in the format shown by Form 13 in Appendix C to part II of the SCACR.
- The caption/title does not comply with Rule 267(a), SCACR. Specifically, the title of the brief should appear on the cover. You have used the heading as it appears in Appendix C to part II of the SCACR.
- The document is not accompanied by a designation of matter to be included in the record on appeal. The appellant's initial brief will not be accepted as filed without the appellant's designation of matter. Please see Rule 209, SCACR, for guidance.

- A proof of service has not been provided. You must serve and file a proof of service substantially in the format shown by Form 7 in Appendix C to part II of the SCACR. The proof of service must state the name of the documents you served, the parties you served, the address where the parties were served, and the means by which the parties were served.
- The document has not been signed as required by Rule 267(b), SCACR.

Very truly yours,

*V. Claire Allen*
