- Lack of capacity by the court is valid grounds for a proper hearing request. A CD will let be heard at 16 & 18 minutes into hearing. Medical issue what was called a stroke in court hearing
- In action by the court and staff prevented a timely appeal due to lack of requested evidence
- This issue also noted by Haven reps.

- I asked for hearing at bond but denied and that hearing somehow was not recorded judge said clerically it was correct. My point was the content of hearing being heard by a court in medical peril
- All I ask is for Stay to get due process proper 790 & Mac to bond hearing as fast as we can.
