M

My name is Jacquita Funchess and I'm a single parent that's fighting to keep a roof over my kids head and since the first court hearing I felt as if the judge was on Glenfield side and not so much of what happened in apartment j2. I was beat on by Stephen Dalegrand in this apartment, my kids and I was pepper sprayed as well and I feel as if I didn't called the police then he would have really harmed me in here or either kill me all I could have think about is

what would have happen if the police wasn't called even after asking him to leave several times. Once Stephan was placed on a No Trespassing I was still being harassed by him, with the cameras out here and police riding through how they didn't know that he was still visiting a friend of his out here? even came here while I wasn't home and my sister Latrice was here babysitting my son and he bust my windows out and yes I called the police from my location when my sister called me and told me what had happened. Stephan has been locked up since the last incident and is still incarcerated and I haven't had any problems over here since then, Stephan even try to file a false report on me but that didn't happen I spoke with the Investigator at the time and I was told there was no charges brought against me and that it was thrown out. Glenfield even spoke with the investigator and she said the same thing as well, I thought that would have help save my place but it was said that I needed something in writing which I didn't have nor the Investigator. Stephan said if he couldn't be here then nobody can't b here meaning me and my kids, Every time the police have been called here I was the victim even when he broke in and came threw my window, the police was the only way I could have protect my kids and I at that time. I just hope that this letter will help my case in some kind of way because at the end of the day we have no other place to go.
