Bill,

It looks like the Denial Notice was emailed on September 16, 2020. Here is a copy of the email for your convenience. It appears it was sent to your gmail account as well as to Mr. Wilkins and Mr. Wilson.

Good afternoon, Ms. Kitchings:

I contacted Ms. Fuller yesterday about the case mentioned above, [State v. Rampey](#), and was hoping to obtain some quick information. From my review of the record in C-Track, it appears my petition for rehearing was denied but the denial was not sent to the parties. If this is incorrect, please let me know but I need to resolve this issue so I may quickly file my planned petition for writ of certiorari with the Supreme Court. Your help with this matter is greatly appreciated.

Ms. Fuller:

I was contacted today by the solicitor's office which handled this matter, with questions about the denial of the petition for rehearing. However, I found nothing in my records indicating the State had been served with notice of the denial, which occurred nearly a month-and-a-half ago. The State had planned to file a petition for writ of certiorari in this matter following a denial of rehearing. Would you be so kind as to send any records indicating the State was served with this denial?

Regards,

Bill Schumacher
