Dear Ms. Kitchings:

I believe the Initial Brief of Appellant in the above captioned matter was due for filing on today's date. I am currently out of town interviewing witnesses in another case. I think that this brief was due today. I worked very late last night and neglected to check the office calendar before I left to office last night.

I am in a hotel in Horry County and do not have access to my office calendar. I intended to send in my petition seeking a third extension yesterday before I left Columbia.

At this time I would request a third, thirty day extension of time for serving and filing the Initial Brief of Appellant i. This direct appeal. I realize that this extension request should have been made in the format of a Petition. I apologize for this informally styled request and will replace this letter with a proper Petition when I get back in town.

I have not spoken with opposing concerning this request and would ask that they advise the Court directly should that have any objection to my I request. Thank you very much for your assistance. I remain,

Sincerely,

Tara Dawn Shurling
