SC Court of Appeals

REF: Appeal plea #2019A0210201424

To whom it may concern I Russell Kendrick would like to appeal the following charge #2019A0210201424. On the basis of the following grounds, I asked my lawyer should I plea guilty on these charges to the same judge that I was going before on my burglary 2nd charge. I had already been incarcerated 14 months prior to going to court. My lawyer said that it didn't matter I would get time served. So before trial started I went before judge Newman on meth possession less than a gram 3rd. Judge Newman took my guilty plea and stated he would sentence me after he seen how trial went. I had previously stated to my lawyer I was not comfortable going in front of the same judge I was going to trial with. So after the jury found me guilty on burglary 2nd Judge Newman sentenced me to 10 years on this charge of Meth less than a gram. I feel like this was a prejudice judgement and was based on my being found guilty on burg 2nd. → over

I would like to be granted another chance
to go in front of another judge on this charge
and be sentenced fairly on this charge.

Thank you for your consideration on this
matter.

Sincerely 
Russel Kendrick
