Dear Della White:

On December 16, 2020, I receive a copy of my November 28, 2018 transcript of my post-conviction relief hearing. In my request for transcripts I also specifically requested a copy of my PCR (first) transcript which resulted in a continuance held February 17, 2017, conducted by the Honorable Judge Nettles. This transcript is relevant to my defense which shows Judge Nettles ruling on my Motion To Relieve James K. Falk and proceed Prose. Which was denied. This transcript is also relevant to my defense to show that the reason Judge Nettles granted a continuance is because I explained to the courts that I had never received a complete trial transcript of my first trial of 2012 or a complete case file and Rule 5 discovery. Judge Nettles grant-

ed a continuance indicating that James K. Falk
could not effectively represent me without a
transcript from my first trial and a complete
discovery.

For these reasons I again respectfully request
as an indigent pro se litigant that I am issued
a copy of my February 17, 2017 PCR transcripts.

Date: December 16, 2020

With kind regards,

Terron Dizzle
