---

I don't think this is fair and I will like to speak with the man that's is fully over these apartments and I don't mean the lady that work up front, But yet this is how me and my kids living in glenfield apartments even after all the complaints and them coming in when they want to fix things and me fixing things myself so me and my kids can have a place to stay, not to mention we didn't have any hot water for about a week had to go other people house to wash and boil water on top of that we was out of heat for a week also had to go out and buy space heater
