

Leakage displayed from underneath the vehicle was recorded also by the Plaintiff from the quick removal of the tow truck driver as he drove off to the front of the lot with the vehicle in tow.

The driver was an associate of the defendant and angry over the auction bid which had occurred and that the vehicle was being relinquished to the Plaintiff at a minimal bid. The Ford Focus, in turn, had to be towed by the Plaintiff after recovery due to damage created by the aggressive tow truck driver employed by Carolina Auto Credit. Plaintiff presented blue book value documentation as well as damage invoice for vehicle and blue book value was in excess of \$7500.00, therefore, award granted for full amount deemed within Magistrate Court jurisdiction.

Duly noted that the defendant was fully aware of the hearing date but failed to appear. Also, duly noted, that Attorney states his own employee made a clerical error, and he failed to appear. However, the court has never received an Attorney representation letter nor did the defendant make the court aware she had retained an Attorney. Being that the defendant did willfully failed to appear and knew of the hearing date, Judgement remains for the Plaintiff in the amount of \$7500.00.

Motion to vacate Ruling / Judgement is DENIED.
