

# The South Carolina Court of Appeals

Rufus Rivers and Merle Rivers, Appellants,

v.

James Smith, Jr., Respondent.

Appellate Case No. 2020-000451

---

## ORDER

---

Appellants' motions to invalidate the magistrate's order, issue an order granting relief to Appellant, and terminate the underlying eviction action are denied. This court will consider the merits of this appeal after final briefing is complete. To the extent Appellants are requesting to stay the eviction, this court previously denied their request, noting the motion was more appropriate for the circuit court's consideration under Rule 241(d)(1), SCACR.

Respondent's motion to correct the record on appeal is granted, and we accept the second amended record on appeal filed on January 15, 2021.
