I would also like to state that Ms. Moore and the other Lawyers that was paid to represent me obtained that money under false pretense and the facts and circumstances of this case should prove that. None of them would put the question before the Court, was - my constitutional rights violated??

They all represented the Solicitor's - Office and Attorney General's Office, and by doing so, they clearly obstructed justice and they conspired with them to do so. So they should be held accountable for this ethical and criminal misconduct.

Respectfully Submitted,
