Subject: State v. Charlrs E. Mungin, III; Appellate Case No. 2019-001614
Date: Friday, February 12, 2021 9:55:18 PM

Dear Ms. Kitchings:

The Initial Brief of Appellant is due for service and filing today. There have been several previous extensions in this matter. I am very sorry to report that for several reasons beyond my control, I have again been unable to finish this brief. At this time I am requesting another thirty (30) day extension in this matter.

Given the number of previous extensions, I realize this should be presented by way of Petition. I was tied up all day today dealing a minor client who is a material witness in a murder case and interviews with him at the Richland County Sheriffs Department from 1:00-5:45 PM today. When I finished with post interview meeting with my 15 year old client and his mother it was after 6:00 and dark by the time I could have gotten into my office. I will file a petition over the weekend outlining the reasons why I require this additional extension. For now, rather than go into my empty office building alone after dark, I am writing this correspondence to be on record with my need for this extension on today's date.

It is my understanding that opposing counsel, Melody J. Brown consents to this request. At the time we discussed it, however, it was my intent to ask for a shorter period of time. If she would have any objection to the request due the length of time requested, I ask that she advise the Court directly. Thank you for your time in consideration of this request.

Tara
