Dear Court of Appeals, **SC Court of Appeals** 4/11/13

My name is Christopher Clayton Rollins, this is my pro se briefing in regards to why I feel an appeal should be granted. I have 3 strong points that I believe are grounds for my case being retried. My first point would be agreeing with my Appellate Defender by saying that the lower court erred in denying me a directed verdict, because by they're own testimony I did in fact "contact" the Sheriff/Sheriff's dept. on two or three different occasions. Which brings me two my or what I feel is my second strong point on grounds for appeal. A one deputy Brian Adams who's testimony would have shown my compliance with the law, was never subpoenaed to court to give testimony to me being in compliance, I think was overlooked by my public Defender as well as myself, but I feel would have changed the course of the trial, by proving me being in compliance with the law. And lastly, what I feel my final strong point to be is what actually happened. If you would take a few moments more to read what actually happened you'll see also that I was within the confines of the law up until the point the Sheriff's dept failed to make due on a

Promise to help me register. I had only 3 available options to turn to, to get to the Sheriff's office personally. I had already told Detective Raines that I had no transportation of my own. He says that he contacted me but that's a lie, because if you'll check the records I've never registered under that address of off the old Sheriff Rd. Central SC. The only reason he knew I was at that residence was because I had prior to that day "contacted" the Sheriff's dept / Sheriff and told Mr. Deputy Peters that that was my new address and that I had no transportation to get up there. So Detective Raines says quote "I don't care if you've got to walk get there" so I say ok, the next day I start walking and see that I would be risking a chance of having a heat stroke and decide to turn back and walk home, on the way back, actually as soon as I turn back I "contact" Mr. Peters once again and tell him "Hey man it's way to hot to be walking all the way ~~there~~ there would you please send a squad car to bring me to register if it's possible" He agrees, He says out of his own mouth "yes I'll send a car tomorrow to help you get this situation resolved" I said thank you sir

and hung up the phone with a sigh of relief because  
now I don't have to go to my neighbor my last  
option and say hello I'm the neighborhood sex offender  
and I'm in need of a ride to get myself registered  
would you mind taking me, I don't know about you  
but Swelling tells me the door would've been thrown  
in my face after being asked to leave. I don't  
have to go through that humiliation because the Sheriff/  
Sheriff's dept. is sending me a ride however to help  
me get registered or so I thought. Anyways long  
Story short I was working on a hospital ride to  
register. It turned out to be my ride to jail.  
and I had no idea I was under arrest until  
I got to the Sheriff/Sheriff's dept. the whole ride  
I thought I was going to get registered. I hope  
you can see how clearly I was within the confines  
of the law until I was tricked by the Sheriff's dept. into  
missing my appointed deadline to register. And with that  
I'll leave all the rest up to you to decide. It's  
clear as day in my transcripts if you don't have  
a copy of that I'll gladly send you a copy.  
But with that I'll close my letters and say  
Thank you so very much for your time

and Consideration.

Respectfully
