This is the e-mail chain I said I will forward to you. There is also another relevant one. The Michael Elders case has been weighing so heavily on me that I went to the Lexington County Courthouse at least three times to see his file and see what is happening on his case. **I am afraid this man will die before being exonerated.** Every time I hear on the news of some disturbance in a prison, I think of him and fear more for him.

Even if Tristan Shaffer has no conscience, I hope you have one.

Thanks and God bless./Marie A. Faltas, MD, MPH

Very little of what you said is true. I have no intention of talking about this matter further with you.

Please stop emailing me or attempting to call me. As I previously stated I will provide you a copy of your file, and when Mr Ryan authorizes me to reimburse you I will do so.

Outside of these two matters I have no intention of communicating with you any further. Please stop contacting me about matters are not related to your representation.

And, unlike you, I HAVE A CONSCIENCE and I cannot put this poor man out of my mind. You have shown your ignorance of the law and of morality. Now you have proven your ignorance of grammar too.

"it's" not "its"

And what will you do about MY situation?

Will you sell me out even further to cover up your incompetence with this poor man?

I am copying Ms. Franklin-Best and Ms. Shurling, who apparently represented Mr. Micheal Elders at some time to appeal to their conscience.

EVERY BODY: In April 2013, few days before the PCR hearing for Michael Elders, Mr. Shaffer contracted with me to review the transcript as a medical expert. Mr. Shaffer NEVER compensated me a penny.

Nonetheless, after I had conscientiously done the work, I told Mr. Shaffer that I came to the firm conclusion that whatever "medical" evidence was used against Mr. Elders to give him a conviction and a thirty-year no-parole sentence was FALSE.

I also told Mr. Shaffer that, now that I did all the work, I would be willing to testify first and worry about payment later.

What did Mr. Shaffer do?

He connived to secure an order that I will be in contempt of court if I contacted Mr. Shaffer or any of his other clients.

The result?

Judge Dickson DENIED Mr. Elders' PCR *mainly because no medical expert testified at the PCR hearing.*

Am I the only one left with a conscience in this state?

Every recipient, PLEASE DO SOMETHING!

Thanks and God bless./Marie

The poor man thinks he is "going home" soon. You never told him that you lost his case for him, possibly on purpose.

Do something!

Thanks and God bless/Marie
